

SHARES OF COMMON STOCK, PAR VALUE \$0.125 PER SHARE TO BE ISSUED IN CONNECTION WITH THE PROPOSED MERGER OF FRUTAROM INDUSTRIES LTD. WITH ICON NEWCO LTD., A WHOLLY OWNED SUBSIDIARY OF INTERNATIONAL FLAVORS & FRAGRANCES INC.

THIS IS NOT A PROXY STATEMENT OR NOTICE OF MEETING. WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND US A PROXY.

This prospectus of International Flavors & Fragrances Inc., a New York corporation (“IFF”, “us” or “we”), relates to shares of IFF common stock, par value \$0.125 per share (“IFF common stock”) to be issued to the holders of ordinary shares, par value NIS 1.00 (“Frutarom ordinary shares”), of Frutarom Industries Ltd., a company organized under the laws of the State of Israel (“Frutarom”), as provided for in the Agreement and Plan of Merger, dated as of May 7, 2018, by and among IFF, Frutarom and Icon Newco Ltd., a company organized under the laws of the State of Israel and a wholly owned subsidiary of IFF (“Merger Sub”). A copy of the merger agreement is attached as Annex A to this prospectus.

Upon the terms and subject to the conditions of the merger agreement, and in accordance with the Companies Law 5759-1999 of the State of Israel (together with the rules and regulations thereunder, the “ICL”), at the effective time of the merger contemplated by the merger agreement, Merger Sub (as the target company, or *Chevrat Ha’Ya’ad*) will be merged with and into Frutarom (as the absorbing company, or *HaChevrat Ha’Koletet*) as the surviving company of the merger, with Frutarom thereby becoming a wholly owned subsidiary of IFF.

At the completion of the merger, each Frutarom ordinary share that is issued and outstanding immediately prior to the completion of the merger (other than (1) ordinary shares held by Frutarom as treasury stock (dormant shares) or (2) ordinary shares held directly or indirectly by IFF, Merger Sub or any wholly owned subsidiary of Frutarom) will be converted into the right to receive (a) \$71.19 in cash and (b) 0.2490 of a share of IFF common stock, which is referred to as the “stock consideration”, with cash in lieu of fractional shares, in each case without interest and subject to applicable tax withholding. The cash and IFF common stock payable in exchange for each such Frutarom ordinary share are collectively referred to as the “merger consideration”. The fraction of a share of IFF common stock into which each such Frutarom ordinary share will be converted is referred to as the “exchange ratio”. Upon the completion of the merger, based on the exchange ratio of 0.2490, the estimated number of shares of IFF common stock issuable as a portion of the merger consideration is approximately 14.88 million shares, which will result in former Frutarom shareholders holding approximately 15.8% of the outstanding fully diluted IFF common stock, based on the number of outstanding shares of common stock and outstanding stock-based awards of IFF and the number of outstanding ordinary shares and share-based awards of Frutarom as of May 4, 2018, the last trading day for IFF common stock prior to the announcement of the merger and without taking into account the issuance by IFF of equity securities in connection with the financing of the merger. For more information on sources of funding for the merger, see the section entitled “*The Merger – Financing of the Merger*” beginning on page 73.

If the IFF stock price at the effective time of the merger was equal to the price of IFF common stock as of the end of the trading day on June 28, 2018, the most recent practicable date for which such information was available, holders of Frutarom ordinary shares would receive total merger consideration of approximately \$101.99 per Frutarom ordinary share, without interest and subject to applicable tax withholding. The actual value of the merger consideration may differ from this example, given the IFF stock price will not be determinable until the trading day prior to the closing of the merger. IFF’s common stock is publicly traded on the New York Stock Exchange, which is referred to as the “NYSE”, and Euronext Paris under the ticker symbol “IFF.” Following the effectiveness of the merger, IFF’s common stock will also be listed on the Tel Aviv Stock Exchange, which is referred to as the “TASE”. We urge you to obtain current market quotations for IFF common stock.

The merger agreement requires that the Registrar of Companies of the State of Israel, which is referred to as the “Companies Registrar”, issue a certificate evidencing the merger in accordance with Section 323(5) of the ICL and that the holders of Frutarom ordinary shares approve the merger and related matters at a shareholder meeting. The special meeting of the holders of Frutarom ordinary shares will be held on August 6, 2018 beginning at 3:00 pm, Israel Time, at the offices of Frutarom at 2 Hamenofim Street, Herzliya, Israel, which meeting and any adjournments or postponements thereof is referred to as the “Frutarom special meeting”. At the Frutarom special meeting, in addition to the approval of the merger and the merger agreement, shareholders of Frutarom will be asked to vote separately on a number of compensation matters, subject to separate resolutions, the approval of which is not a condition to the approval of the merger. These matters will be discussed in greater detail in the notice of shareholders meeting that will be issued to Frutarom shareholders by Frutarom and will constitute a proxy statement in accordance with the rules and regulations of the Israel Securities Authority, which is referred to as the “ISA”. At the time of the Frutarom special meeting, holders of Frutarom ordinary shares will not know the exact value of the merger consideration that they will receive upon the closing of the merger.

We urge you to read the accompanying prospectus, including the Annexes and the documents incorporated by reference, carefully and in its entirety. In particular, we urge you to read carefully the section entitled “[Risk Factors](#)” beginning on page 29.

Any representation to the contrary is a criminal offense.

The date of this prospectus is July 3, 2018.

QUESTIONS & ANSWERS ABOUT THE MERGER

The following questions and answers briefly address some of the questions you may have about the merger, the merger agreement and the Frutarom special meeting. They may not include all the information that is important to shareholders of Frutarom. Shareholders of Frutarom should carefully read this entire prospectus, including the annexes and the other documents referred to or incorporated by reference herein.

Q: What is the merger?

A: IFF, Frutarom and Merger Sub have entered into an Agreement and Plan of Merger, dated as of May 7, 2018, which (as the same may be amended from time to time) is referred to as the “merger agreement”. A copy of the merger agreement is attached as Annex A to this prospectus. Under the merger agreement, subject to satisfaction or waiver of the conditions set forth in the merger agreement and described hereinafter and in accordance with the ICL, Merger Sub will merge with and into Frutarom, with Frutarom continuing as the surviving company, which is referred to as the “surviving company”, and a wholly owned subsidiary of IFF, in a transaction which is referred to as the “merger”. As a result of the merger, Frutarom will no longer be a publicly-held company. Following the merger, Frutarom ordinary shares will be delisted from the TASE, and Frutarom global depository receipts, which are referred to as “GDRs”, will be delisted from the London Stock Exchange, which is referred to as the “LSE”, in accordance with applicable rules and policies of the TASE and LSE, as applicable.

Q: Why am I receiving these materials?

A: Frutarom has agreed, subject to approval of the Frutarom shareholders, to be acquired by IFF under the terms of the merger agreement that are described in this prospectus. At the Frutarom special meeting, Frutarom will ask its shareholders to consider and vote upon a proposal to approve the merger agreement and the transactions contemplated thereby, including the merger, which is referred to as the “merger proposal”, as well as certain other matters that are not conditions to the closing of the merger.

If the merger proposal is approved at the Frutarom special meeting and the other conditions to consummation of the merger are satisfied or waived, then at the consummation of the merger, Merger Sub will be merged with and into Frutarom, with Frutarom surviving the merger and becoming a wholly owned subsidiary of IFF. As a result of the merger, Frutarom shareholders will receive cash and shares of IFF common stock for their Frutarom ordinary shares as described below. You are receiving this prospectus because IFF is registering under the Securities Act the shares of IFF common stock that is part of the merger consideration that will be issued to you upon completion of the merger.

This prospectus includes important information about the merger, the merger agreement (a copy of which is attached as Annex A to this prospectus) and the shares of IFF common stock to be issued pursuant to the merger. Frutarom shareholders should read this information carefully and in its entirety.

However, please be aware that this prospectus is not a proxy statement or notice of meeting and that we are not asking you for a proxy and you are requested not to send us a proxy. Frutarom will issue to you a notice of the Frutarom special meeting, which will contain important information about the Frutarom special meeting and constitute a proxy statement in accordance with the rules and regulations of the ISA. A translation of the notice of the Frutarom special meeting is attached as an exhibit to this Registration Statement of which this prospectus forms a part.

Q: What will Frutarom shareholders receive in the merger?

A: If the merger is completed, each Frutarom ordinary share (other than (1) ordinary shares held by Frutarom as treasury stock (dormant shares) or (2) ordinary shares held directly or indirectly by IFF, Merger Sub or any wholly owned subsidiary of Frutarom, both of which are collectively referred to herein as excluded shares) will be converted into (a) \$71.19 in cash and (b) 0.2490 of a share of IFF common stock, with cash

[Table of Contents](#)

in lieu of fractional shares, in each case without interest and subject to applicable tax withholding. The cash and IFF common stock payable in exchange for each such Frutarom ordinary share are collectively referred to as the “merger consideration”.

The fraction of a share of IFF common stock into which each Frutarom ordinary share will be converted is referred to as the “exchange ratio”.

Q: How will IFF pay the cash component of the merger consideration?

A: IFF’s obligation to complete the merger is not conditioned upon its obtaining financing. IFF anticipates that approximately \$4.3 billion will be required to pay the aggregate cash portion of the merger consideration to the Frutarom shareholders. IFF intends to fund the cash component of the merger through up to \$3.1 billion of debt financing, cash on hand and the issuance of up to \$2.2 billion in new equity securities. In connection with entering into the merger agreement, IFF entered into a debt commitment letter that provided for a commitment for an up to \$5.45 billion 364-day unsecured bridge loan facility to the extent IFF has not received \$5.45 billion of net cash proceeds (and/or qualified bank commitments) from a combination of (a) the issuance by IFF of a combination of equity securities, equity-linked securities and/or unsecured debt securities and/or (b) unsecured term loans, in each case, at or prior to completion of the merger. On June 6, 2018, IFF entered into a senior unsecured term loan credit agreement with the lenders party thereto and Morgan Stanley Senior Funding, Inc., as administrative agent, that provides for a three-year \$350 million senior unsecured term loan facility, to replace a portion of the bridge loan facility.

The commitments under the debt commitment letter and the term loan credit agreement terminate on February 7, 2019 or, under certain circumstances, on May 7, 2019.

For a more complete description of sources of funding for the merger and related costs, see “*The Merger—Financing of the Merger*” beginning on page 73.

Q: What equity stake will Frutarom shareholders hold in IFF immediately following the merger?

A: Upon the completion of the merger, based on the exchange ratio of 0.2490, the estimated number of shares of IFF common stock issuable as a portion of the merger consideration is approximately 14.88 million shares, which will result in former Frutarom shareholders holding approximately 15.8% of the outstanding fully diluted IFF common stock, based on the number of outstanding shares of common stock and outstanding stock-based awards of IFF and the number of outstanding ordinary shares and share-based awards of Frutarom as of May 4, 2018, the last trading day for IFF common stock prior to the announcement of the merger and without taking into account the issuance by IFF of equity securities in connection with the financing of the merger. For more information on sources of funding for the merger, see the section entitled “*The Merger—Financing of the Merger*” beginning on page 73.

Q: When do IFF and Frutarom expect to complete the merger?

A: IFF and Frutarom are working to complete the merger as soon as practicable. We currently expect the merger to close within five to nine months following the signing of the merger agreement on May 7, 2018. Neither IFF nor Frutarom can predict, however, the actual date on which the merger will be completed because it is subject to conditions beyond each company’s control, including obtaining the necessary regulatory approvals.

Q: What are the conditions to completion of the merger?

A: In addition to the approval of the merger proposal by Frutarom shareholders as described above, completion of the merger is subject to the satisfaction of a number of other conditions, including (1) the expiration or

[Table of Contents](#)

termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, which is referred to as the “HSR Act”, and the approval of regulatory authorities (or expiration of applicable waiting periods) in the European Union, Israel and certain other foreign jurisdictions having been obtained, and (2) no governmental authority of competent jurisdiction having issued or entered any order or enacted any law after the date of the merger agreement having the effect of enjoining or otherwise prohibiting the consummation of the merger.

See “*The Merger Agreement—Conditions to the Merger*” beginning on page 107.

Q: What happens if I sell my Frutarom ordinary shares after the record date for the Frutarom special meeting but before the Frutarom special meeting?

A: The record date for the Frutarom special meeting (the close of business in Israel on July 8, 2018) is earlier than the date of the Frutarom special meeting and earlier than the date that the merger is expected to be completed. If you sell or otherwise transfer your ordinary shares after the record date but before the date of the Frutarom special meeting, you will retain your right to vote at the Frutarom special meeting. However, you will not have the right to receive the merger consideration to be received by the shareholders in the merger. In order to receive the merger consideration, you must hold your shares through the effective date of the merger, which is the date of the issuance of the certificate of merger by the Companies Registrar.

Q: Why did the Frutarom board of directors approve the merger agreement and the transactions contemplated by the merger agreement, including the merger?

A: For information regarding the reasons of the board of directors of Frutarom, which is referred to as the “Frutarom board”, for approving and recommending approval of the merger agreement and the transactions contemplated by the merger agreement, including the merger, see the section entitled “*The Merger—Frutarom Board of Directors’ Recommendation and Reasons for the Merger*” beginning on page 69.

Q: When and where is the Frutarom special meeting?

A: The Frutarom special meeting of Frutarom shareholders will be held at the offices of Frutarom on August 6, 2018 at 3:00 pm, Israel Time, at 2 Hamenofim Street, Herzliya, Israel.

Q: What are the U.S. federal income tax consequences of the merger?

A: The exchange of Frutarom ordinary shares pursuant to the merger will be a taxable transaction for U.S. federal income tax purposes, and may also be a taxable transaction under applicable state, local or non-U.S. income or other tax laws. In general, for U.S. federal income tax purposes, a U.S. holder (as defined in “*The Merger—U.S. Federal Income Tax Consequences*”) of Frutarom ordinary shares will generally recognize taxable gain or loss equal to the difference between (1) the shareholder’s adjusted tax basis in the Frutarom ordinary shares surrendered in the exchange, and (2) the sum of the fair market value of the IFF common stock received and the amount of cash (including cash in lieu of fractional IFF common stock) received in the merger.

For a more complete description of the U.S. federal income tax consequences of the merger, see “*The Merger—Certain U.S. Federal Income Tax Consequences of the Merger*” beginning on page 75.

You are urged to consult with your own tax advisor for a full understanding of the tax consequences of the merger to you, including the consequences under any applicable state, local, foreign or other tax laws.

Q: What are the Israeli tax consequences of the merger?

A: Generally, the exchange of Frutarom ordinary shares for the merger consideration would be treated as a sale and subject to Israeli tax both for Israeli and non-Israeli resident shareholders of Frutarom. However, certain relief and/or exemptions may be available under Israeli law.

Frutarom has filed requests for three tax rulings from the Israel Tax Authority, which is referred to as the “ITA”, with respect to (i) withholding tax in Israel, regarding the cash consideration paid to Frutarom shareholders; (ii) a deferral of capital gains tax with respect to Frutarom shareholders which hold less than 5% of Frutarom’s issued and outstanding shares through the Nominee Company and Frutarom shareholders which hold less than 5% of Frutarom’s issued and outstanding shares directly and not through the Nominee Company, regarding the stock consideration; and (iii) the Israeli tax treatment applicable to holders of Frutarom stock options and ordinary shares issued to certain directors and employees under Section 102 of the Israeli Income Tax Ordinance [New Version], 1961, which is referred to as the “ITO”. There can be no assurance that such tax rulings will be granted before the closing or at all or that, if obtained, such tax rulings will be granted under the conditions requested by Frutarom.

For a more complete description of the Israeli tax consequences of the merger, see “*The Merger—Certain Israeli Tax Consequences of the Merger*” beginning on page 78.

You are urged to consult with your own tax advisor for a full understanding of the tax consequences of the merger to you, including the consequences under any applicable state, local, foreign or other tax laws.

Q: Are there any risks that I should consider in deciding whether to vote in favor of the merger proposal?

A: Yes. You should read and carefully consider the risk factors set forth in the section entitled “*Risk Factors*” beginning on page 29. You also should read and carefully consider the risk factors of IFF and Frutarom contained in or incorporated by reference into this prospectus.

Q: Do I have dissenters’ rights in connection with the transaction?

A: No. The ICL does not provide for any statutory dissenters’ rights for a merger pursuant to Sections 314-327 of the ICL.

Q: What will happen to my Frutarom stock-based awards?

A: *Treatment of Vested Stock Options and Restricted Stock Awards*

As of the completion of the merger, each Frutarom stock option and Frutarom restricted stock award that is outstanding and vested as of immediately prior to the completion of the merger will be canceled and converted into the right to receive the merger consideration in respect of each net share subject to such vested Frutarom stock option or vested Frutarom restricted stock award, less applicable tax withholding. For this purpose, a net share means, with respect to a Frutarom stock option or Frutarom restricted stock award, the quotient of (i) the product of (A) the excess, if any, of the value of the merger consideration over the exercise price or purchase price per Frutarom ordinary share (as applicable) subject to such Frutarom stock option or Frutarom restricted stock award, multiplied by (B) the number of Frutarom ordinary shares subject to such Frutarom stock option or Frutarom restricted stock award, divided by (ii) the value of the merger consideration.

Treatment of Unvested Stock Options and Restricted Stock Awards

As of the completion of the merger, each Frutarom stock option and Frutarom restricted stock award that is outstanding and unvested as of immediately prior to the completion of the merger will be canceled and converted into the right of the applicable holder to receive, (A) on the applicable vesting date that applies to such unvested Frutarom stock option or unvested Frutarom restricted stock award, subject to the holder's continued employment with Frutarom or an affiliate through such date, or (B) in the case of unvested Frutarom stock options, upon an earlier termination of the holder's employment that would result in the vesting of such unvested Frutarom stock option, a cash payment in U.S. dollars equal to the product of (i) the total number of Frutarom ordinary shares subject to such Frutarom stock option or Frutarom restricted stock award, multiplied by (ii) the excess, if any, of the value of the merger consideration over the exercise price or purchase price per Frutarom ordinary share (as applicable) subject to such Frutarom stock option or Frutarom restricted stock award, less applicable tax withholding.

For purposes of the treatment of Frutarom stock options and Frutarom restricted stock awards described above, the value of the merger consideration that consists of shares of IFF common stock will equal the product of (1) the number of such shares of IFF common stock multiplied by (2) the "IFF stock price". For more details on the calculation of the IFF stock price, see "*The Merger Agreement—Merger Consideration*" beginning on page 85.

In addition to the foregoing, the actual amounts, form of payment and timing of payments to holders of Frutarom stock options and Frutarom restricted stock awards will be subject to the provisions of certain tax rulings, as applicable. See "*The Merger Agreement—Conversion of Shares; Payment Procedures; Withholding*" below.

Q: Whom should I contact if I have any other questions?

The broader market includes large multi-national companies and smaller regional and local participants that supply products such as seasonings, texturizers, spices, enzymes, certain food-related commodities, fortified products and cosmetic ingredients. IFF is committed to competing in emerging markets. IFF believes that more significant future growth potential for the flavors and fragrances industry, and for its business, exists in the emerging markets (all markets except North America, Japan, Australia, and Western, Southern and Northern Europe). Over the past five years, IFF's currency neutral sales growth rate in emerging markets has outpaced that of developed markets. IFF expects this long-term trend to continue for the foreseeable future.

IFF has operated in some of the largest emerging markets for multiple decades. As a result of these operations, sales in emerging markets represented 48% of 2017 sales and 51% of 2016 sales. As IFF's customers seek to grow their businesses in emerging markets, IFF provides them the ability to leverage its long-standing international presence and extensive market knowledge to help drive their brands in these markets. To stay competitive in its industry, IFF must adapt to rapidly shifting consumer preferences and customer demands. IFF believes its consumer insights and customer relationships help to drive innovation that benefits IFF and its customers. During 2017, IFF's 25 largest customers accounted for 50% of its sales. Sales to IFF's largest customer across all end-use categories accounted for 11% to 12% of IFF's sales for each of the last three fiscal years. These sales were principally in IFF's fragrances business.

IFF's principal executive offices are located at 521 West 57th Street, New York, New York 10019 and its telephone number is (212) 765-5500. IFF's website address is www.IFF.com. Information contained on IFF's website does not constitute part of this prospectus. IFF's common stock is publicly traded on the NYSE, and Euronext Paris under the ticker symbol "IFF." Additional information about IFF is included in documents incorporated by reference in this prospectus. Please see the section entitled "*Where You Can Find More Information*" beginning on page 153.

This activity is presented as part of trade and marketing operations, which is not a core business.

Icon Newco Ltd.

Merger Sub, a wholly owned subsidiary of IFF, is a company organized under the laws of the State of Israel that was formed on May 2, 2018 for the sole purpose of effecting the merger. Merger Sub has not conducted any

activities other than those incidental to its formation and the matters contemplated by the merger agreement. In the merger, Merger Sub will be merged with and into Frutarom, with Frutarom surviving as a wholly owned subsidiary of IFF.

The Merger

The terms and conditions of the merger are contained in the merger agreement, a copy of which is attached as Annex A to this prospectus and is incorporated by reference into this prospectus. We encourage you to read the merger agreement carefully and in its entirety, as it is the legal document that governs the merger. The description of the merger agreement in this section and elsewhere in this prospectus is qualified in its entirety by reference to the complete text of the merger agreement.

On May 7, 2018, IFF, Frutarom and Merger Sub entered into the merger agreement, which provides that, subject to the terms and conditions of the merger agreement and in accordance with the ICL, Merger Sub will merge with and into Frutarom, with Frutarom continuing as the surviving company and a wholly owned subsidiary of IFF.

Merger Consideration

At the completion of the merger, each Frutarom ordinary share that is issued and outstanding immediately prior to the completion of the merger (other than (1) ordinary shares held by Frutarom as treasury stock (dormant shares) or (2) ordinary shares held directly or indirectly by IFF, Merger Sub or any wholly owned subsidiary of Frutarom) will be converted into the right to receive (a) \$71.19 in cash, which is referred to as the “cash consideration”, and (b) 0.2490 of a share of IFF common stock, which is referred to as the “stock consideration”, with cash in lieu of fractional shares, in each case without interest and subject to applicable tax withholding. The cash and IFF common stock payable in exchange for each such Frutarom ordinary share are collectively referred to as the “merger consideration”. The fraction of a share of IFF common stock into which each such Frutarom ordinary share will be converted is referred to as the “exchange ratio”. Upon the completion of the merger, based on the exchange ratio of 0.2490, the estimated number of shares of IFF common stock issuable as a portion of the merger consideration is approximately 14.88 million shares, which will result in former Frutarom shareholders holding approximately 15.8% of the outstanding fully diluted IFF common stock, based on the number of outstanding shares of common stock and outstanding stock-based awards of IFF and Frutarom as of May 4, 2018, the last trading day for IFF common stock prior to the announcement of the merger and without taking into account the issuance by IFF of equity securities in connection with the financing of the merger. For more information on sources of funding for the merger, see the section entitled “*The Merger—Financing of the Merger*” beginning on page 73. For more details on the shares of IFF common stock and other consideration to be received by Frutarom shareholders, see “*The Merger Agreement—Merger Consideration*” beginning on page 85.

Treatment of Equity Awards

As of the completion of the merger, each Frutarom stock option and Frutarom restricted stock award that is outstanding and vested as of immediately prior to the completion of the merger will be canceled and converted into the right to receive the merger consideration in respect of each net share subject to such vested Frutarom stock option or vested Frutarom restricted stock award, less applicable tax withholding. For this purpose, a net share means, with respect to a Frutarom stock option or Frutarom restricted stock award, the quotient of (i) the product of (A) the excess, if any, of the value of the merger consideration over the exercise price or purchase price per Frutarom ordinary share (as applicable) subject to such Frutarom stock option or Frutarom restricted stock award, multiplied by (B) the number of Frutarom ordinary shares subject to such Frutarom stock option or Frutarom restricted stock award, divided by (ii) the value of the merger consideration.

As of the completion of the merger, each Frutarom stock option and Frutarom restricted stock award that is outstanding and unvested as of immediately prior to the completion of the merger will be canceled and converted into the right of the applicable holder to receive, (A) on the applicable vesting date that applies to such unvested Frutarom stock option or unvested Frutarom restricted stock award, subject to the holder's continued employment with Frutarom or an affiliate through such date, or (B) in the case of unvested Frutarom stock options, upon an earlier termination of the holder's employment that would result in the vesting of such unvested Frutarom stock option, a cash payment in U.S. dollars equal to the product of (i) the total number of Frutarom ordinary shares subject to such Frutarom stock option or Frutarom restricted stock award, multiplied by (ii) the excess, if any, of the value of the merger consideration over the exercise price or purchase price per Frutarom ordinary share (as applicable) subject to such Frutarom stock option or Frutarom restricted stock award, less applicable tax withholding.

For purposes of the treatment of Frutarom stock options and Frutarom restricted stock awards described above, the value of the merger consideration that consists of shares of IFF common stock will equal the product of (1) the number of such shares of IFF common stock multiplied by (2) the IFF stock price. For more details on the calculation of the IFF stock price, see "*The Merger Agreement—Merger Consideration*" beginning on page 85.

In addition to the foregoing, the actual amounts, form of payment and timing of payments to holders of Frutarom stock options and Frutarom restricted stock awards will be subject to the provisions of the certain tax rulings, as applicable. See "*The Merger Agreement—Conversion of Shares; Payment Procedures; Withholding*" below.

Financing of the Merger

IFF's obligation to complete the merger is not conditioned upon its obtaining financing. IFF anticipates that approximately \$4.3 billion will be required to pay the aggregate cash portion of the merger consideration to the Frutarom shareholders and to pay fees and expenses relating to the merger. IFF intends to fund the cash component of the merger through up to \$3.1 billion of debt financing, cash on hand and the issuance of up to \$2.2 billion in new equity securities.

In connection with entering into the merger agreement, IFF entered into a debt commitment letter, dated as of May 7, 2018, with Morgan Stanley Senior Funding, Inc., that provided for a commitment for an up to \$5.45 billion 364-day bridge loan facility to the extent IFF has not received \$5.45 billion of net cash proceeds (and/or qualified bank commitments) from a combination of (a) the issuance by IFF of a combination of equity securities, equity-linked securities and/or unsecured debt securities and/or (b) unsecured term loans, in each case, at or prior to completion of the merger. On June 6, 2018, IFF entered into a senior unsecured term loan credit agreement with the lenders party thereto and Morgan Stanley Senior Funding, Inc., as administrative agent, that provides for a three-year \$350 million senior unsecured term loan facility, to replace a portion of the bridge loan facility.

The commitments under the debt commitment letter and the term loan credit agreement terminate on February 7, 2019 or, under certain circumstances, on May 7, 2019.

For a more complete description of sources of funding for the merger, see "*The Merger—Financing of the Merger*" beginning on page 73.

Frutarom's Reasons for Approval of the Merger; Recommendation of the Frutarom Board

The Frutarom board recommends that Frutarom shareholders vote to approve the merger agreement, the merger and the other transactions contemplated by the merger agreement. For a discussion of the factors that the

Frutarom board considered in determining to recommend the approval of the merger agreement, the merger and the other transactions contemplated by the merger agreement, see the section entitled “*The Merger—Frutarom Board of Directors’ Recommendation and Reasons for the Merger*” beginning on page 69.

Voting Agreement

In connection with the execution of the merger agreement, ICC Chemical Corporation and ICC Handels A.G., who collectively beneficially owned 21,358,034 Frutarom ordinary shares as of May 7, 2018, representing approximately 35.87% of the voting power of the issued and outstanding Frutarom ordinary shares as of such date, together entered into a voting agreement with IFF, a copy of which is attached as Annex B to this prospectus and is incorporated by reference into this prospectus. Under the voting agreement, each such shareholder agreed, among other things, to: (i) vote its beneficially owned Frutarom ordinary shares (a) in favor of the merger and the other transactions contemplated by the merger agreement, (b) in favor of any proposal to adjourn or postpone a meeting of Frutarom shareholders in the event there are not sufficient votes for approval of any such matters, (c) against any third party acquisition proposals and (d) against any action, proposal, transaction or agreement that would reasonably be likely to prevent, impede or delay Frutarom or IFF’s ability to consummate the transactions contemplated by the merger agreement, including the merger; and (ii) comply with certain restrictions on the disposition of such shares, in each case subject to the terms and conditions contained therein. The voting agreement will terminate upon the earliest to occur of (A) the consummation of the merger, (B) the termination of the merger agreement pursuant to and in compliance with its terms, (C) a change of recommendation of the Frutarom board in accordance with the merger agreement or (D) the parties’ mutual written agreement to terminate the voting agreement.

Regulatory Approvals

Completion of the merger is subject to antitrust and competition laws in various jurisdictions.

Under the HSR Act and related rules, the merger may not be completed until notifications have been given and information furnished to the Antitrust Division of the United States Department of Justice, which is referred to as the “Antitrust Division”, and the United States Federal Trade Commission, which is referred to as the “FTC”, and a 30-calendar-day waiting period has expired, or been terminated. IFF and Frutarom each filed their respective HSR Act notification forms on May 18, 2018 and the applicable waiting period under the HSR Act expired on June 18, 2018 at 11:59 p.m., Eastern Time.

Completion of the merger is further subject to regulatory notifications, clearances and/or approvals in the European Union, Israel, Mexico, Russia, South Africa, Turkey and Ukraine.

There can be no assurance that a challenge to the merger on antitrust or other grounds will not be made or, if such a challenge is made, that it would not be successful.

See “*The Merger—Regulatory Approvals*” beginning on page 75.

Conditions to Completion of the Merger

In addition to the approval of the merger proposal by Frutarom shareholders, the expiration or termination of the applicable waiting period under the HSR Act and the approval of regulatory authorities in the European Union, Israel and certain other foreign jurisdictions, relating to the merger, each party’s obligation to complete the merger is also subject to the satisfaction or waiver (to the extent permitted under applicable law) of certain other conditions, including the effectiveness of the registration statement on Form S-4 of which this prospectus forms a part (and the absence of any stop order by the SEC), approval of the listing on the NYSE of the IFF

common stock to be used for a portion of the merger consideration, the absence of an injunction or law prohibiting the merger or issuance of the IFF common stock to be used for a portion of the merger consideration, the accuracy of the representations and warranties of the parties under the merger agreement (subject to the material adverse effect and other materiality standards set forth in the merger agreement), the performance by the parties of their respective covenants and obligations under the merger agreement in all material respects and delivery of officer certificates by the parties certifying satisfaction of certain of the conditions described above.

The parties expect to complete the merger after all of the conditions to the merger in the merger agreement are satisfied or waived, including after Frutarom receives shareholder approval of the merger proposal at the Frutarom special meeting and after Frutarom and IFF receive all required regulatory approvals. For a more complete description of the conditions to the merger, see “*The Merger Agreement—Conditions to the Merger*” beginning on page 107.

Timing of the Merger

The parties expect the merger to close within five to nine months following the signing of the merger agreement on May 7, 2018. Neither IFF nor Frutarom can predict, however, the actual date on which the merger will be completed because it is subject to conditions beyond each company’s control, including obtaining the necessary regulatory approvals. For a more complete description of the conditions to the merger, see “*The Merger Agreement—Conditions to the Merger*” beginning on page 107.

No Solicitation

As more fully described in this prospectus and in the merger agreement, and subject to certain exceptions, including the ones summarized below, Frutarom has agreed that (1) it, its subsidiaries and their respective officers and directors will and Frutarom will instruct and use reasonable best efforts to cause its and their respective other representatives to immediately cease all existing discussions, negotiations and communications with any person or entity with respect to “acquisition proposals” involving Frutarom (which generally means proposals to acquire 20% or more of Frutarom’s voting power, consolidated assets, revenues or net income); (2) it will not, and will cause its subsidiaries and its and their respective officers and directors not to, and will instruct and use its reasonable best efforts to cause its other representatives not to, directly or indirectly initiate, seek, solicit, knowingly facilitate or knowingly encourage the making or submission of an acquisition proposal, enter into or engage in any negotiations or discussions with, or provide any non-public information to, or afford access to the business, properties, assets, books or records of Frutarom or any of its subsidiaries to, any person or entity (other than IFF or any of its representatives) relating to or for the purpose of encouraging or facilitating an acquisition proposal (other than to state that the terms of the merger agreement prohibit such discussions) or grant any waiver or release under any standstill or similar agreement (unless the Frutarom board determines in good faith that the failure to grant such waiver or release would be inconsistent with its fiduciary duties under Israeli law); (3) it will not provide any third party access, and will terminate access of any third party who has made or indicated an interest in making an acquisition proposal to any data room containing any nonpublic information of Frutarom or any of its subsidiaries; and (4) it will demand the return or destruction of all confidential, non-public information and materials that have been provided to third parties that have entered into confidentiality agreements relating to a possible acquisition proposal with Frutarom or any of its subsidiaries.

The merger agreement includes certain exceptions to the non-solicitation covenant such that, prior to obtaining the Frutarom shareholder approval, Frutarom may participate in discussions and negotiations concerning an unsolicited acquisition proposal, and afford access to information, if the Frutarom board determines in good faith, after consultation with its outside financial advisor and outside legal counsel, that the acquisition proposal is or will reasonably likely be or result in a “superior proposal” (as defined below under the “*The Merger Agreement—No Solicitation*”). Also, the Frutarom board may, subject to complying with certain

specified procedures, including providing IFF with a good faith opportunity to negotiate and, in certain circumstances, payment of a termination fee as described below, (1) change its recommendation in favor of the merger and the transactions contemplated by the merger agreement or terminate the merger agreement in order to enter into a definitive agreement regarding an unsolicited acquisition proposal that is determined to be a superior proposal, or (2) change its recommendation in favor of the merger and the transactions contemplated by the merger agreement in response to an “intervening event” (as defined below under the “*The Merger Agreement—Intervening Event*”) that becomes known to the Frutarom board after the date of the merger agreement but prior to the Frutarom shareholder approval (and in no event after receipt of the shareholder approval), in each case, to the extent failure to do so would be inconsistent with its fiduciary duties under Israeli law.

For a more complete description of the limitations on solicitation of acquisition proposals from third parties and the ability of the Frutarom board to change its recommendation for the transaction, as well as the exceptions to these limitations, see “*The Merger Agreement—Covenants and Agreements*” beginning on page 93.

Termination of the Merger Agreement; Termination Fee

The merger agreement may be terminated by mutual written consent of IFF and Frutarom at any time prior to the closing. In addition, the merger agreement may be terminated as follows:

- by either IFF or Frutarom if:
 - the merger has not been consummated on or before 5:00 p.m. (New York time) on February 7, 2019 (subject to extension until 5:00 p.m. (New York time) on May 7, 2019, if certain closing conditions shall not have been satisfied as a result of any antitrust law or order arising under any antitrust law), which is referred to as the “termination date”; provided that the right to terminate the merger agreement as described in this bullet will not be available to any party if a breach by such party of any of its obligations under the merger agreement has proximately caused the failure of the closing to have occurred on or before the termination date (this termination right is referred to as the “termination date termination right”); or
 - any governmental authority has issued or entered any order that would have the effect of permanently enjoining or permanently prohibiting the completion of the merger, and the imposition of such order has become final and non-appealable; provided that the right to terminate the merger agreement as described in this bullet will not be available to a party if a breach by such party of its obligations under the merger agreement has proximately caused the issuance or entry of such order; or
 - the Frutarom shareholder approval has not been obtained upon a vote taken at the Frutarom special meeting or at any adjournment or postponement of such Frutarom special meeting (this termination right is referred to as the “shareholder approval termination right”); or
 - the other party breaches or fails to perform any of its representations, warranties, covenants or other agreements in the merger agreement, which breach or failure to perform would result in the failure of a closing condition related to the accuracy of the other party’s representations or warranties or performance of covenants in the merger agreement, subject to certain material adverse effect and other materiality thresholds and rights to cure and other limitations (this termination right is referred to as the “breach termination right”); or
- by Frutarom prior to the Frutarom shareholder approval, in order for Frutarom to enter into a definitive agreement with respect to a superior proposal, as described in “*The Merger Agreement—Covenants and Agreements—Superior Proposal*” beginning on page 101, provided that as a condition to the effectiveness of such termination, Frutarom pays to IFF the termination fee (this termination right is referred to as the “superior proposal termination right”); or

- by IFF if:
 - prior to the Frutarom shareholder approval, Frutarom has materially breached its obligations described under “*The Merger Agreement—Covenants and Agreements—No Solicitation*”, “*The Merger Agreement—Covenants and Agreements—Adverse Recommendation Change; Certain Prohibited Actions*”, “*The Merger Agreement—Covenants and Agreements—Superior Proposal*” or “*The Merger Agreement—Covenants and Agreements—Intervening Event*” (this termination right is referred to as the “no solicitation termination right”); or
 - prior to the Frutarom shareholder approval, (1) the Frutarom board makes an adverse recommendation change as described further in “*The Merger Agreement—Covenants and Agreements—Adverse Recommendation Change; Certain Prohibited Actions*” or (2) after an acquisition proposal is publicly announced or becomes generally known to the public, Frutarom fails to publicly reaffirm its recommendation within 10 business days after receipt of a written request by IFF to do so; provided that IFF will not make such request more than one time for any such acquisition proposal (if there is any amendment to the financial or other material terms of any such acquisition proposal that is publicly announced or becomes generally known to the public, IFF can make one additional such request) (this termination right is referred to as the “recommendation change termination right”).

If the merger agreement is terminated as described above, the merger agreement will be null and void, without liability on the part of any party, subject to certain exceptions, including that

- no termination will relieve any party of any liability or damages resulting from any intentional breach (as defined in “*The Merger Agreement—Effect of Termination*”) of its obligations under the merger agreement prior to such termination or fraud, in which case the aggrieved party will be entitled to all rights and remedies available at law or in equity, including liability for damages (taking into account all relevant factors, including the loss of benefit of the merger to the party or its shareholders, any lost shareholder premium, any lost synergies and the time value of money); and
- the confidentiality agreement entered into by IFF and Frutarom in connection with the merger agreement and the provisions of the merger agreement with respect to certain indemnification obligations will survive any termination of the merger agreement.

The merger agreement provides for the payment of a termination fee of \$191 million by Frutarom to IFF as a result of a termination of the merger agreement under the following circumstances:

- if one of the four conditions listed below is satisfied and within 12 months after such termination, an acquisition proposal is consummated or Frutarom enters into a definitive agreement with respect to an acquisition proposal (provided that the references to “20%” in the definition of acquisition proposal will be deemed to be references to “50%”):
 - Frutarom terminates the merger agreement pursuant to the termination date termination right prior to receipt of the Frutarom shareholder approval and after the execution of the merger agreement an acquisition proposal has been publicly disclosed or otherwise communicated to the Frutarom board and not withdrawn on a bona fide basis without qualification at least five business days prior to such termination;
 - either IFF or Frutarom terminates the merger agreement pursuant to the shareholder approval termination right and after the execution of the merger agreement an acquisition proposal has been publicly disclosed and not withdrawn on a bona fide basis without qualification at least five business days prior to the Frutarom shareholder meeting;
 - IFF terminates the merger agreement pursuant to the breach termination right with respect to an intentional breach of a covenant and after the execution of the merger agreement and prior to the

date of the intentional breach that gave rise to such right of termination an acquisition proposal has been publicly disclosed or otherwise communicated to the Frutarom board and not withdrawn on a bona fide basis without qualification at least five business days prior to such termination; or

- IFF terminates the merger agreement pursuant to the no solicitation termination right prior to receipt of the Frutarom shareholder approval and after the execution of the merger agreement an acquisition proposal has been publicly disclosed or otherwise communicated to the Frutarom board;
- Frutarom terminates the merger agreement pursuant to the superior proposal termination right; or
- IFF terminates the merger agreement pursuant to the recommendation change termination right.

In no event will Frutarom be required to pay a termination fee on more than one occasion.

If IFF receives payment from Frutarom of the termination fee, such payment will constitute the sole and exclusive remedy of IFF against Frutarom and its subsidiaries and representatives for all losses and damages suffered as a result of the failure of the transactions contemplated by the merger agreement to be completed or a breach or failure to perform under the merger agreement or otherwise, except (1) in the event of fraud and (2) that if Frutarom fails to timely pay any termination fee due pursuant to the merger agreement, Frutarom will be obligated to pay any costs and expenses (including reasonable attorneys' fees), together with interest, in connection with any suit brought by IFF that results in a judgment against Frutarom for the payment of such termination fee or expense reimbursement.

Except as otherwise described below under "*The Merger Agreement—Termination Fee*" and except for filing fees required under any antitrust law and expenses in connection with Frutarom's financing cooperation, all expenses incurred in connection with the merger agreement and the transactions contemplated by the merger agreement shall be paid by the party incurring such expenses, whether or not the merger is completed.

For a more complete description of each party's termination rights and the related termination fee obligations, see "*The Merger Agreement—Termination*" beginning on page 108 and "*The Merger Agreement—Termination Fee*" beginning on page 110.

No Appraisal Rights for Frutarom Shareholders

Under Israeli law, Frutarom shareholders are not entitled to statutory appraisal rights in connection with the merger. For more information, see the section entitled "*Appraisal Rights*" beginning on page 150.

Certain U.S. Federal Income Tax Consequences of the Merger

The exchange of Frutarom ordinary shares pursuant to the merger will be a taxable transaction for U.S. federal income tax purposes, and may also be a taxable transaction under applicable state, local or non-U.S. income or other tax laws. In general, for U.S. federal income tax purposes, a U.S. holder (as defined in "*The Merger—Certain U.S. Federal Income Tax Consequences of the Merger*" beginning on page 75) of Frutarom ordinary shares who receives the merger consideration in exchange for such U.S. holder's shares of Frutarom ordinary shares pursuant to the merger will recognize gain or loss in an amount equal to the difference, if any, between (1) the sum of the fair market value of the IFF common stock and the amount of cash, including cash in lieu of a fractional share of IFF common stock, received in the merger and (2) such U.S. holder's adjusted tax basis in the shares of Frutarom ordinary shares exchanged therefor.

For a more complete description of the U.S. federal income tax consequences of the merger, see "*The Merger—Certain U.S. Federal Income Tax Consequences of the Merger*" beginning on page 75.

You are urged to consult with your own tax advisor for a full understanding of the tax consequences of the merger to you, including the consequences under any applicable state, local, foreign or other tax laws.

Certain Israeli Tax Consequences of the Merger

The following description is not intended to constitute a complete analysis of all Israeli tax consequences to Frutarom shareholders relating to the merger. This summary does not discuss all the aspects of Israeli tax law that may be relevant to a particular person in light of his or her personal circumstances. The discussion should not be construed as legal or professional tax advice and does not cover all possible tax considerations.

Generally, the exchange of Frutarom ordinary shares for the merger consideration would be treated as a sale and subject to Israeli tax both for Israeli and non-Israeli resident shareholders of Frutarom. However, certain relief and/or exemptions may be available under Israeli law.

Israeli law generally imposes capital gains tax on the real capital gain from the sale of any capital assets by residents of Israel, as defined for Israeli tax purposes, and on the sale of capital assets located in Israel, including shares of Israeli companies by non-residents of Israel, unless a specific exemption is available or a tax treaty between Israel and the shareholder's country of residence provides otherwise. Israeli law distinguishes between real capital gain and inflationary surplus. The real capital gain is the excess of the total capital gain over the inflationary surplus. You should consult your own tax advisor as to the method you should use to determine the inflationary surplus.

Generally, the capital gains tax rate applicable to the real capital gain is 25% for individuals, unless such shareholder claims a deduction for interest and linkage differences expenses in connection with the shares sold, in which case the real capital gain will generally be taxed at a rate of 30%. If such individual is holding or is entitled to purchase, directly or indirectly, alone or together with such person's relative or another person who collaborates with such person on a permanent basis, at least 10% of (i) the voting rights of Frutarom, (ii) the right to receive Frutarom's profits or its assets upon liquidation, (iii) the right to appoint a manager/director, or (iv) the right to instruct any other person to do any of the foregoing (a "Major Stockholder") on the date of sale or on any date falling within the 12-month period preceding that date of sale, such Major Stockholder would be subject to Israeli capital gains tax at the rate of 30%. The actual capital gains tax rates which may apply to individual Frutarom shareholders on the sale of Frutarom shares (which may be effectively higher or lower than the rates mentioned above) are subject also to various factors including, inter alia, the date on which the shares were purchased, whether the shares are held through a nominee company or by the shareholder, the identity of the shareholder and certain tax elections which may have been made in the past by the shareholder. In general, companies are subject to the corporate tax rate on real capital gains derived from the sale of shares at the rate of 23% in 2018. Due to certain provisions of the ITO, the actual effective capital gains tax applicable to certain companies may be different than that specified above.

Individual and corporate shareholders dealing in securities in Israel are taxed at the tax rates applicable to "business income," currently 23% for companies and a marginal tax rate of up to 47% for individuals, plus an additional tax of 3%, which is imposed on individuals whose annual taxable income exceeds a certain threshold (NIS 641,880 for 2018), and which will be referred to as "excess tax", see "*The Merger—Certain Israeli Tax Consequences of the Merger—Excess Tax*" beginning on page 78.

The inflationary surplus is generally exempt from tax, provided that the shares being sold were acquired after December 31, 1993.

Pursuant to Israeli tax law, and subject to certain provisions of the ITO, non-Israeli residents (individuals or corporations) will generally be exempt from Israeli capital gains tax on the sale of Frutarom ordinary shares, which were acquired after the company was registered for trade on the Israeli stock exchange. However, non-Israeli corporations will not be entitled to the foregoing exemption if Israeli residents: (i) have a controlling interest of more than 25% in such non-Israeli corporation or (ii) are the beneficiaries of, or are entitled to, 25% or more of the revenues or profits of such non-Israeli corporation, whether directly or indirectly.

Other non-Israeli residents (individuals or corporations) may be exempt from Israeli capital gains tax under the provisions of an applicable tax treaty between Israel and the seller's country of residence (subject to the receipt of a valid certificate from the ITA allowing for an exemption or a reduced tax rate).

Frutarom has filed requests for three tax rulings from the ITA with respect to (i) withholding tax in Israel, regarding the cash consideration paid to Frutarom shareholders; (ii) a deferral of capital gains tax with respect to Frutarom shareholders which hold less than 5% of Frutarom's issued and outstanding shares through the Nominee Company and Frutarom shareholders which hold less than 5% of Frutarom's issued and outstanding shares directly and not through the Nominee Company, regarding the stock consideration; and (iii) the Israeli tax treatment applicable to holders of Frutarom stock options and ordinary shares issued to certain directors and employees under Section 102 of the ITO. There can be no assurance that such tax rulings will be granted before the closing or at all or that, if obtained, such tax rulings will be granted under the conditions requested by Frutarom.

Whether or not a particular Frutarom shareholder is actually subject to Israeli capital gains tax in connection with the merger, absent receipt by Frutarom of an applicable tax ruling from the ITA prior to closing of the merger, all Frutarom shareholders will be subject to Israeli withholding tax at the rate of 25% (for individuals) and 23% (for corporations) on the gross merger consideration (unless the shareholder obtains an individual certificate of exemption or a reduced tax rate from the ITA, as described below), and IFF or the exchange agent will withhold and deduct from the cash consideration an amount equal to 25%, 23% or such other reduced tax rate as stipulated in the certificate obtained, as applicable, of the gross merger consideration received by such shareholder.

Regardless of whether Frutarom obtains the requested tax rulings from the ITA, any holder of Frutarom ordinary shares who believes that it is entitled to an exemption from withholding tax (or entitled to a reduced tax rate) may separately apply to the ITA to obtain a certificate of exemption from withholding or an individual tax ruling providing for no withholding or withholding at a reduced tax rate, and submit such certificate of exemption or ruling to the exchange agent prior to receiving the merger consideration and at least five business days prior to the date that is 180 days following the date of the closing of the merger. If IFF or the exchange agent receives a valid exemption certificate or tax ruling (in form and substance reasonably acceptable to IFF) prior to delivering the merger consideration and at least five business days prior to the date that is 180 days following the date of the closing of the merger, then the withholding (if any) of any amounts under the ITO from the merger consideration payable shall be made only in accordance with the provisions of such Israeli tax certificate or tax ruling.

For a more complete description of the Israeli tax consequences of the merger, see "*The Merger—Certain Israeli Tax Consequences of the Merger*" beginning on page 78.

You are urged to consult with your own tax advisor for a full understanding of the Israeli tax consequences of the merger to you, including the applicability of tax treaties.

for each Frutarom ordinary share will fluctuate with changes in the market value of IFF common stock and changes in the NIS/U.S. dollar exchange rate until the last trading day before the merger is complete.

	<u>IFF Common Stock</u>	<u>Frutarom Ordinary Shares</u>	<u>Implied Per Share Value of Merger Consideration</u>
May 4, 2018 / May 6, 2018	\$ 142.15	\$ 95.53	\$ 106.59
June 28, 2018	\$ 123.70	\$ 98.25	\$ 101.99

No assurance can be given concerning the market prices of IFF common stock or Frutarom ordinary shares or the NIS/U.S. dollar exchange rate before completion of the merger or IFF common stock after completion of the merger. The value of the merger consideration to be received in exchange for each Frutarom ordinary share when received by Frutarom shareholders after the merger is completed could be greater than, less than or the same as shown in the table above. Accordingly, shareholders are advised to obtain current market quotations for IFF common stock, Frutarom ordinary shares and the NIS/U.S. dollar exchange rate in deciding whether to vote in favor of the merger proposal.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference contain statements which, to the extent they are not statements of historical or present fact, constitute “forward-looking statements” under the securities laws. These forward-looking statements are intended to provide management’s current expectations or plans for future operating and financial performance, based on assumptions currently believed to be valid. Forward-looking statements can be identified by the use of words such as “believe,” “expect,” “expectations,” “plans,” “strategy,” “prospects,” “estimate,” “project,” “target,” “anticipate,” “will,” “may,” “should,” “see,” “guidance,” “confident” and other words of similar meaning in connection with a discussion of future operating or financial performance. Forward-looking statements may include, among other things, statements relating to future sales, earnings, cash flow, results of operations, uses of cash, share repurchases and other measures of financial performance or potential future plans, strategies or transactions of IFF, Frutarom or the combined company following IFF’s acquisition of Frutarom, the anticipated benefits of the merger, including estimated synergies, the expected timing of completion of the merger, IFF’s ability to obtain financing for the merger and other statements that are not historical facts. All forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed or implied in the forward-looking statements. For those statements, IFF and Frutarom claim the protection of the safe harbor for forward-looking statements contained in the U.S. Private Securities Litigation Reform Act of 1995. Such risks, uncertainties and other factors include, without limitation:

- the ability of the parties to receive the required regulatory approvals (and the risk that such approvals may result in the imposition of conditions that could adversely affect the combined company or the expected benefits of the merger) and approval by the Frutarom shareholders and to satisfy the other conditions to the closing of the merger on a timely basis or at all;
- the occurrence of events that may give rise to a right of one or both of the parties to terminate the merger agreement;
- the possibility that the anticipated benefits from the merger cannot be realized in full or at all or may take longer to realize than expected, including risks associated with achieving expected synergies from the merger;
- negative effects of the announcement or the completion of the merger on the market price of IFF’s common stock and/or Frutarom ordinary shares and/or on their respective financial performance;
- the risks related to Frutarom and IFF being restricted in their operation of the business while the merger agreement is in effect;
- risks relating to the value of IFF’s shares to be issued in the merger, significant merger costs and/or unknown liabilities;
- risks associated with third-party contracts containing change in control consent requirements and/or other provisions that may be triggered by the merger;
- risks associated with potential merger-related litigation;
- the ability of IFF and Frutarom, or the combined company, to retain and hire key personnel;
- future levels of indebtedness, including indebtedness expected to be incurred by IFF in connection with the merger, and capital spending and research and development spending;
- the timing and scope of future repurchases of IFF’s common stock, which may be suspended at any time due to market conditions, and the level of other investing activities and uses of cash, including in connection with the merger;
- the effect of economic conditions in the industries and markets in which IFF and Frutarom operate in the U.S. and globally and any changes therein, including financial market conditions, fluctuations in

commodity prices, interest rates and foreign currency exchange rates, levels of end market demand, the impact of weather conditions and natural disasters and the financial condition of IFF's and Frutarom's customers and suppliers;

- the scope, nature, impact or timing of acquisition and divestiture activity, including among other things integration of acquired businesses, including Frutarom, into IFF's existing businesses and realization of synergies and opportunities for growth and innovation;
- challenges in the development, production, delivery, support, performance and realization of the anticipated benefits of advanced technologies and new products and services;
- future availability of credit and factors that may affect such availability, including credit market conditions and IFF's and Frutarom's capital structure;
- delays and disruption in delivery of materials and services from suppliers;
- company and customer-directed cost reduction efforts and restructuring costs and savings and other consequences thereof;
- new business or investment opportunities;
- the anticipated benefits of diversification and balance of operations across product lines, regions and industries;
- the outcome of legal proceedings, investigations and other contingencies;
- pension plan assumptions and future contributions;
- the impact of the negotiation of collective bargaining agreements and labor disputes;
- the effect of changes in political conditions in the U.S. and other countries in which IFF and Frutarom operate, including the effect of changes in U.S. trade policies or the U.K.'s pending withdrawal from the EU, on general market conditions, global trade policies and currency exchange rates in the near term and beyond;
- the effect of changes in tax, environmental, regulatory (including among other things import/export) and other laws and regulations in the U.S. and other countries in which IFF and Frutarom operate; and
- other risk factors as detailed from time to time in IFF's reports filed with the SEC, including IFF's annual reports on Form 10-K, quarterly reports on Form 10-Q, periodic current reports on Form 8-K and other documents filed with the SEC, including the risks and uncertainties set forth in or incorporated by reference into this prospectus in the section entitled "*Risk Factors*" beginning on page 29.

There can be no assurance that the merger or any other transaction described will in fact be completed in the manner described or at all. Any forward-looking statement speaks only as of the date on which it is made, and IFF and Frutarom assume no obligation to update or revise such statement, whether as a result of new information, future events or otherwise, except as required by applicable law. Readers are cautioned not to place undue reliance on any of these forward-looking statements.

RISK FACTORS

You should carefully consider the following risks, the risks associated with IFF's business found in IFF's Exchange Act reports, including its Annual Report on Form 10-K for the year ended December 31, 2017 and its Quarterly Report on Form 10-Q for the fiscal quarter period ended March 31, 2018, which are incorporated by reference in this prospectus, and other information contained in or incorporated by reference into this prospectus, including the matters addressed under the caption "Cautionary Note Regarding Forward-Looking Statements".

Risks Related to the Merger

If IFF and Frutarom are unable to complete the merger, in a timely manner or at all, each company's business and stock price may be adversely affected.

IFF and Frutarom's obligations to consummate the merger are subject to the satisfaction or waiver of the conditions described in the section entitled "*The Merger Agreement—Conditions to the Merger*".

The required satisfaction of the closing conditions could delay the completion of the merger for a significant period of time or prevent it from occurring. Any delay in completing the merger could cause IFF not to realize some or all of the benefits that the parties expect IFF to achieve following the merger.

If the merger is not completed or is delayed, each company's share price could fall to the extent that each company's current price reflects an assumption that the merger will be completed on the expected timeline. Furthermore, if the merger is delayed or is not completed and the merger agreement is terminated, IFF and Frutarom may suffer other consequences that could adversely affect each of their businesses, results of operations and share price, including the following:

- each has incurred and will continue to incur costs relating to the merger (including significant legal and financial advisory fees), and many of these costs are payable whether or not the merger is completed;
- matters relating to the merger (including integration planning) may require substantial commitments of time and resources by IFF's and Frutarom's management team, which could otherwise have been devoted to conducting their respective businesses or other opportunities that may have been beneficial to either company;
- IFF and Frutarom may be subject to legal proceedings related to the merger; and
- any disruptions to IFF's or Frutarom's business resulting from the announcement and pendency of the merger, including any adverse changes in either company's relationships with its customers, suppliers and employees, may continue or intensify in the event the merger is delayed or not completed.

Uncertainty about the merger may adversely affect each company's relationships with its customers and employees, which could negatively affect IFF and Frutarom's business, whether or not the merger is completed.

The announcement of the merger may cause uncertainties in IFF's and Frutarom's relationships with their respective customers which could impair each company's ability to maintain or expand its historical customer sales growth. Furthermore, uncertainties about the merger may cause current and prospective employees of IFF and Frutarom to experience uncertainty about their future with their respective companies. These uncertainties may impair the ability of IFF and Frutarom to retain, recruit or motivate key employees which could affect their respective businesses.

The regulatory approvals required in connection with the merger may not be obtained or may contain materially burdensome conditions.

Completion of the merger is conditioned upon the receipt of certain regulatory approvals, and neither IFF nor Frutarom can provide assurance that these approvals will be obtained. If any conditions or changes to the proposed structure of the merger are required to obtain these regulatory approvals, they may have the effect of jeopardizing or delaying completion of the merger or reducing the anticipated benefits of the merger. If IFF agrees to any material conditions in order to obtain any approvals required to complete the merger, the business and results of operations of the combined company may be adversely affected.

The issuance of shares of IFF's common stock to Frutarom shareholders in connection with the merger and to finance part of the cash consideration for the merger, and any future offerings of securities by IFF, will cause

Frutarom shareholders to have a significantly lower ownership and voting interest in IFF than they currently have in Frutarom and will result in Frutarom shareholders having less influence over management.

The merger will be financed in part by the issuance of shares of IFF's common stock to shareholders of Frutarom. Based on the exchange ratio of 0.2490, the estimated number of shares of IFF common stock issuable as a portion of the merger consideration is approximately 14.88 million shares, which will result in former Frutarom shareholders holding approximately 15.8% of the outstanding fully diluted IFF common stock, based on the number of outstanding shares of common stock and outstanding stock-based awards of IFF and Frutarom as of May 4, 2018, the last trading day for IFF common stock prior to the announcement of the merger and without taking into account the issuance by IFF of equity securities in connection with the financing of the merger. For more information on sources of funding for the merger, see the section entitled "*The Merger—Financing of the Merger*" beginning on page 73. In addition, IFF expects to finance the cash portion of the merger consideration, in part, from the issuance of up to \$2.2 billion in new equity. Consequently, former Frutarom shareholders will have less influence over the management and policies of IFF than they currently have over the management and policies of Frutarom.

The ratio for the exchange of Frutarom ordinary shares for IFF common stock is fixed.

Each ordinary share of Frutarom will be exchanged for \$71.19 in cash and 0.2490 of a share of IFF's common stock. This ratio of the number of ordinary shares of Frutarom to be exchanged for each share of IFF's common stock will not change and there will be no adjustment to this exchange ratio for changes in the market price of either IFF common stock or Frutarom ordinary shares. In addition, neither IFF nor Frutarom may terminate the merger agreement solely because of changes in the market price of either company's shares. Therefore, if the market value of IFF common stock or Frutarom ordinary shares changes relative to the market value of the other, there will not be a change, either upward or downward, in the aggregate number of shares of IFF common stock to be issued to Frutarom shareholders in the merger. The share prices of IFF common stock or Frutarom ordinary shares are by their nature subject to the general price fluctuations in the market for publicly traded equity securities and have experienced significant volatility, and you should obtain recent market quotations for IFF common stock or Frutarom ordinary shares. In addition, there will be a period of time between the date when shareholders of Frutarom vote on the merger and the date when the merger is completed and Frutarom shareholders receive shares of IFF common stock. Neither IFF nor Frutarom can predict or give any assurances as to the relative market prices of their shares before, at or after Frutarom's shareholder vote on the merger.

The merger agreement contains provisions that restrict the ability of Frutarom to pursue alternatives to the merger and, in specified circumstances, could require Frutarom to pay IFF a substantial termination fee.

The merger agreement contains provisions that make it more difficult for Frutarom to be acquired by any person other than IFF. Under the merger agreement, Frutarom and its representatives are restricted, among other

things, from initiating, seeking, soliciting, knowingly facilitating or knowingly encouraging (including by way of furnishing any nonpublic information) the making or submission of a third-party acquisition proposal, and the Frutarom board is restricted from withdrawing, modifying or qualifying its recommendation that Frutarom shareholders vote for the approval of the merger, in each case, subject to certain qualifications and exceptions set forth in the merger agreement. Under certain circumstances, Frutarom may terminate the merger agreement in order to enter into an agreement with respect to a superior proposal, if the Frutarom board (after consultation with Frutarom's outside financial advisor and outside legal counsel) determines that such proposal is more favorable to Frutarom shareholders (taking into account, among other relevant factors, any changes to the merger agreement proposed by IFF within four business days of IFF's receipt of the terms of such proposal, or within two business days of IFF's receipt of any material amendment to such proposal) than the merger. If the Frutarom board recommends such superior proposal to Frutarom shareholders but does not terminate the merger agreement, IFF would be entitled to terminate the merger agreement. Under either of these circumstances, Frutarom would be required to pay IFF a termination fee equal to \$191 million. See the sections entitled "*The Merger Agreement—Termination*", "*The Merger Agreement—Effect of Termination*" and "*The Merger Agreement—Termination Fee*" on page 108, page 110 and page 110, respectively, of this prospectus.

These provisions could discourage a third party that may have an interest in acquiring all or a significant part of Frutarom from considering or proposing that acquisition, even if such third party were prepared to enter into a transaction that would be more favorable to Frutarom and its shareholders than the merger, or might result in a third party proposing to pay a lower price than it might otherwise have proposed to pay because of the added expense of the termination fee that may become payable in certain circumstances.

IFF, Frutarom and the combined company may be subject to litigation in connection with the merger.

Lawsuits may be filed against IFF and Frutarom, their respective subsidiaries, and/or their respective directors or executive officers in connection with the merger and/or the related transactions. In addition, lawsuits may be filed against the combined company following the merger. If any such lawsuit is filed, it could result in a reduction in the stock price of IFF, Frutarom or the combined company following the merger, substantial costs and diversion of management's attention and resources, which could adversely affect the business, financial condition or results of operations of IFF, Frutarom and the combined company whether or not a settlement or other resolution is achieved.

The rights of holders of Frutarom ordinary shares will change as a result of the merger.

Upon completion of the merger, shareholders of Frutarom will become IFF stockholders and their rights as shareholders of IFF will be governed by IFF's certificate of incorporation, IFF's bylaws and New York corporate law. The terms of IFF's certificate of incorporation and by-laws and New York corporate law are, in some respects, different than the terms of Frutarom's articles of association and Israeli corporate law, which currently govern the rights of Frutarom shareholders. For more information, see the section entitled "*Comparison of Shareholder Rights*" on page 137 of this prospectus.

Risks Related to the Combined Company

IFF may not realize the benefits anticipated from the merger, which could adversely affect IFF's stock price.

If completed, the merger, which contemplates IFF's acquisition of Frutarom, will be IFF's largest acquisition to date. The anticipated benefits from the merger are, necessarily, based on projections and assumptions about the combined business of IFF and Frutarom, which may not materialize as expected or which may prove to be inaccurate. IFF's ability to achieve the anticipated benefits will depend on its ability to successfully and efficiently integrate the business and operations of Frutarom with those of IFF and achieve the

Table of Contents

expected synergies. IFF may encounter significant challenges with successfully integrating and recognizing the anticipated benefits of the merger, including the following:

- potential disruption of, or reduced growth in, IFF's historical core businesses, due to diversion of management attention and uncertainty with IFF's current customer and supplier relationships;
- challenges arising from the expansion of IFF's product offerings into adjacencies with which IFF has limited experience, including flavor ingredients, food additives and nutraceuticals;
- challenges arising from the expansion into those Frutarom jurisdictions where IFF does not currently operate or have significant operations;
- coordinating and integrating research and development teams across technologies and products to enhance product development while reducing costs;
- consolidating and integrating corporate, information technology, finance and administrative infrastructures, and integrating and harmonizing business systems, which may be more difficult than anticipated due to the significant number of acquisitions completed by Frutarom over the past few years;
- coordinating sales and marketing efforts to effectively position IFF's capabilities and the direction of product development;
- difficulties in achieving anticipated cost savings, synergies, business opportunities and growth prospects from combining Frutarom's business with IFF's business;
- limitations prior to the completion of the merger on the ability of management of IFF and of Frutarom to conduct planning regarding the integration of the two companies;
- the increased scale and complexity of IFF's operations resulting from the merger;
- retaining key employees, suppliers and other partners of IFF and Frutarom;
- retaining and efficiently managing Frutarom's expanded and decentralized customer base;
- obligations that IFF will have to counterparties of Frutarom that arise as a result of the change in control of Frutarom;
- difficulties in anticipating and responding to actions that may be taken by competitors in response to the merger; and
- IFF's assumption of and exposure to unknown or contingent liabilities of Frutarom.

In addition, IFF's anticipated benefits of the merger contemplate significant cost-saving synergies over time. Consequently, even if IFF is able to successfully integrate the operations of Frutarom with its own, IFF may not realize the full benefits of the merger if it is unable to identify and implement the anticipated cost savings or if the actions taken to implement such cost-savings have unintended consequences on IFF's other business operations.

If IFF does not successfully manage these issues and the other challenges inherent in integrating an acquired business of the scale of Frutarom, then it may not achieve the anticipated benefits of the merger, IFF could incur unanticipated expenses and charges and its operating results and the value of its common stock could be materially and adversely affected.

The merger may result in significant charges or other liabilities that could adversely affect the financial results of the combined company.

The financial results of IFF following the merger may be adversely affected by cash expenses and non-cash accounting charges incurred in connection with the integration of the business and operations of Frutarom.

[Table of Contents](#)

Furthermore, as a result of the merger, IFF will record a significant amount of goodwill and other intangible assets on its consolidated financial statements, which could be subject to impairment based upon future adverse changes in IFF's business or prospects including its inability to recognize the benefits anticipated by the merger.

In addition, upon the completion of the merger, IFF will be liable for some or all of Frutarom's liabilities, including unknown and contingent liabilities that Frutarom assumed in connection with their prior acquisitions that IFF may have failed to or been unable to identify in the course of performing due diligence. A significant component of Frutarom's growth in recent years has come through acquisitions. IFF's ability to accurately identify and assess the magnitude of the liabilities assumed by Frutarom in these acquisitions may be limited by, among other things, the information available to IFF and Frutarom and the limited operating experience that Frutarom has with these acquired entities. Furthermore, Frutarom has additional future obligations regarding certain of these acquisitions, including outstanding earn-out obligations and put options requiring Frutarom to purchase additional shares in the acquired companies. If IFF is not able to completely assess the scope of these liabilities or if these liabilities are neither probable nor estimable at this time, IFF's future financial results could be adversely affected by unanticipated reserves or charges, unexpected litigation or regulatory exposure, unfavorable accounting charges, unexpected increases in taxes due, a loss of anticipated tax benefits or other adverse effects on its business, operating results or financial condition. The price of IFF's common stock following the merger could decline to the extent the combined company's financial results are materially affected by any of these events.

The use of cash and incurrence of significant indebtedness in connection with the financing of the merger may have an adverse impact on IFF's liquidity, limit its flexibility in responding to other business opportunities and increase its vulnerability to adverse economic and industry conditions.

IFF will finance the merger in part by the use of cash on hand, the incurrence of a significant amount of indebtedness and issuances of equity. As of March 31, 2018, IFF had approximately \$305.3 million of cash and cash equivalents and approximately \$1.7 billion of total debt outstanding. In connection with the merger, IFF expects to incur significant new debt. The proceeds from the new debt are expected to be used to pay part of the purchase price, refinance existing debt of both IFF and Frutarom and pay transaction-related fees and expenses. If IFF is unable to raise financing on acceptable terms, it may need to rely on its bridge loan facility, which may result in higher borrowing costs and a shorter maturity than those from other anticipated financing alternatives. The use of cash on hand and indebtedness to finance the merger will reduce IFF's liquidity and could cause IFF to place more reliance on cash generated from operations to pay principal and interest on its debt, thereby reducing the availability of its cash flow for working capital, dividend and capital expenditure needs or to pursue other potential strategic plans. The increased indebtedness may also have the effect, among other things, of limiting IFF's ability to obtain additional financing, if needed, limiting IFF's flexibility in the conduct of its business and making it more vulnerable to economic downturns and adverse competitive and industry conditions.

IFF's actual financial position and results of operations following the merger may differ materially from the unaudited pro forma financial information included in this prospectus.

The unaudited pro forma financial information contained in this prospectus is presented for illustrative purposes only and may not be an indication of IFF's financial condition or results of operations following the merger. The unaudited pro forma financial information has been derived from the historical audited and unaudited consolidated financial information of IFF and Frutarom, respectively, and certain adjustments and assumptions have been made regarding IFF after giving effect to the merger. The information upon which these adjustments and assumptions have been made is preliminary, and these types of adjustments and assumptions are difficult to make with accuracy. For example, the unaudited pro forma financial information does not reflect all costs that are expected to be incurred by IFF in connection with the merger. As a result, IFF's actual financial condition and results of operations following the completion of the merger may not be consistent with, or evident from, the unaudited pro forma financial information.

[Table of Contents](#)

In addition, the assumptions used in preparing the unaudited pro forma financial information may prove to be inaccurate, and other factors may affect IFF's financial condition or results of operations following the consummation of the merger. Any potential decline in IFF's financial condition or results of operations may cause significant variations in the market price of its common stock following the merger. For additional information, see the section entitled "*Unaudited Pro Forma Condensed Combined Financial Information*" contained in this prospectus.

The combined company's inability to integrate other recently acquired businesses or to successfully complete future acquisitions could limit its future growth or otherwise be disruptive to its ongoing business.

IFF and Frutarom have each pursued acquisition intensive growth strategies in recent years. IFF has completed five acquisitions since the beginning of 2015, while Frutarom has completed 47 acquisitions since 2011, and 22 acquisitions since the beginning of 2016. IFF and Frutarom are still in the process of integrating these recently acquired businesses and, following the merger, will also need to successfully integrate the overall businesses of IFF and Frutarom in the combined company. The anticipated benefits and synergies from recently completed acquisitions may not materialize to the extent projected or at all.

Risks Related to IFF

You should read and consider the risk factors specific to IFF's business that will also affect the combined company after the merger. These risks are described in Part I, Item 1A of IFF's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 filed with the U.S. Securities and Exchange Commission and in other documents that are incorporated by reference into this prospectus. See the section entitled "Where You Can Find More Information" for the information incorporated by reference in this prospectus.

Risks Related to Frutarom

Frutarom's operations are subject to effects of the global economy.

Due to the nature and type of its global activity, Frutarom is exposed to fluctuations in the global economy. Economic crisis and recession in various countries in which Frutarom operates could curb demand for Frutarom's products and significantly slow down the development and launch of new products by Frutarom customers.

Frutarom's operations in emerging markets are subject to political, economic and legal developments that are less predictable than those in developed markets.

Frutarom operates in a number of countries besides the United States and Western Europe, such as Russia, Ukraine, Turkey, Slovenia, Kazakhstan, China, countries in South and Central America (including Brazil, Guatemala, Peru, Chile and Mexico) and countries in northern, southern and western Africa, and is therefore exposed to political, economic and legal developments in these countries which are generally less predictable than in developed countries. Frutarom's facilities in these countries could be subject to disruption as a result of economic and/or political instability as well as from nationalization and/or expropriation of assets situated there. There is also substantial risk relating to restrictions on Frutarom in collecting payment from its customers, distributors, or agents, as well as foreign exchange restrictions which could impede Frutarom's ability to realize its profits or to sell its assets in these countries. While none of the emerging market countries in which Frutarom operates impose foreign exchange restrictions that affect Frutarom, such restrictions existed not long ago and there is no assurance that they will not be reinstated in the future.

Fluctuations or devaluations in currencies may negatively affect Frutarom's results of operations.

Over 70% of Frutarom's sales in 2017 were conducted in currencies other than the U.S. dollar, mainly the Euro, Russian Ruble, Pound Sterling, Swiss Franc, New Israeli Shekel, Chinese Yuan, Canadian Dollar,

[Table of Contents](#)

Brazilian Real, South African Rand, Peruvian Nuevo Sol and Mexican Peso, and changes in exchange rates affect Frutarom's reported results in US dollar terms. In addition, in cases of extreme fluctuations in exchange rates, and since a large part of the raw materials used in the manufacture of Frutarom's products is paid for in U.S. dollars, in Euros, or other currencies, there is no assurance that Frutarom can completely update its selling prices denominated in local currency (which is different from the currency used in buying the raw material) and maintain its margin. Frutarom does not generally undertake external hedging action nor does it use other financial instruments for protection against currency fluctuations. For further information see Frutarom's audited financial statements included elsewhere in this prospectus.

Frutarom operates in a highly competitive industry.

Frutarom faces competition from large multinationals as well as medium-sized, small and local companies across the sectors in which it operates. Some of Frutarom's competitors have greater financial and technological resources, larger sales and marketing platforms and more established reputation, and may therefore be better equipped to adapt to changes and industry trends.

The global market for flavors is characterized by close relations between flavor manufacturers and their customers, particularly with regard to large multinationals. Furthermore, many large multinational customers, along with increasing numbers of medium-sized customers in recent years, sometimes limit the number of their suppliers and work predominantly with a list of "approved suppliers." To compete more effectively under these conditions, Frutarom must invest more resources in customer relations, in R&D and in matching products to customers' needs in order to provide high quality and efficient service. Any failure to maintain good relations with its customers, forge strong relations with new customers, or secure the status of "approved supplier" with some of its customers could lead to substantial adverse effects on Frutarom's business, operating results and financial condition.

The specialty fine ingredients market is more price sensitive than the flavors market and is characterized by relatively lower profit margins. Some fine ingredients products manufactured by Frutarom are less unique and more replaceable by competitors' products. Production overcapacity for fine ingredients globally could also negatively impact Frutarom's sales and profitability. Although as part of its strategy Frutarom focuses on specialty fine ingredients with higher profit margins, there is no assurance that operating margins will not erode in the future, which could substantially impact Frutarom's business, operating results and financial condition.

Increased environmental, health and safety regulations or the loss of necessary environmental permits could adversely affect Frutarom's operating results and financial condition.

Frutarom is subject to a variety of international and domestic health, safety and environmental statutes in the various countries in which it operates. In general, there is a trend towards increased regulation in the fields of Frutarom's activities. This trend stems from, among other things, growing consumer sensitivity concerning the inclusion of flavor additives in food products and the fact that regulators perceive nutraceuticals, medical food and functional food products as having medicinal attributes. In some countries such products may be subjected to the same standards and regulations as applied to drugs or targeted regulation for these categories. In addition, regulators in different countries can change regulations applying to infant nutrition or clinical nutrition for the elderly in a way that might affect Frutarom's sales in these categories. Frutarom has identified the markets for nutraceuticals, functional food, specialty fine ingredients for infant nutrition, especially infant formulas, and clinical nutrition for the elderly as important to its future growth. The subjecting of these markets to increased regulation could give rise to additional expenses which might have an adverse effect on Frutarom's business, operating results and financial condition.

Companies such as Frutarom that operate in the flavor and fine ingredients industry make use of, manufacture, sell, and distribute substances that are sometimes considered hazardous and are therefore subject to extensive regulation concerning the storage, handling, manufacture, transport, use and disposal of such

substances and their components and byproducts. Frutarom's production and R&D activities in the various countries where it operates are subject to various regulations and standards relating to air emissions, sewage treatment and the use, handling and discharge of hazardous material as well as clean-up of existing environmental contamination. Any further tightening of such laws and regulations could have a substantial adverse effect on Frutarom's business, operating results and financial condition.

In addition to covering its ongoing environmental compliance costs, Frutarom might also incur nonrecurring charges associated with remedial action needed to be taken at its production sites. As environment-related incidents cannot be foreseen with any certainty, the sums that Frutarom allocates or will allocate for such matters may turn out to be inadequate. Ongoing and nonrecurring environment-related expenses could each have a substantial adverse effect on Frutarom's business, operating results and financial condition.

Frutarom is required to obtain various environmental permits concerning operations at its various production facilities and to meet the conditions set by these permits. The expansion of existing plants is also subject to securing necessary permits. Such permits might be unilaterally revoked or modified by the issuer, or might be for a limited amount of time. Any cancellation, modification and/or failure to renew or obtain a permit could have a significant adverse effect on Frutarom's business, operating results and financial condition.

Failure to comply with environmental, health and safety laws and regulations may expose Frutarom to civil and criminal liability.

The laws and regulations concerning the environment, health and safety may subject Frutarom to civil and/or criminal liability for non-compliance or environmental pollution. Environmental, health and safety laws may include criminal sanctions (including substantial penalties) for violating them. Some environmental laws also include provisions imposing complete responsibility for the release of hazardous substances into the environment which could result in Frutarom becoming liable for clean-up efforts without any negligence or fault on its part. Other environmental laws impose liability jointly and severally, which could expose Frutarom to responsibility for cleaning up environmental pollution caused by others.

In addition, some environmental, health and safety laws are applied retroactively and could impose responsibility for acts done in the past even if such acts were carried out in accordance with the relevant legal provisions in force at the time. Criminal or civil liability under such laws may have significant adverse effects on Frutarom's business, operating results and financial condition.

Frutarom may also become subjected to claims for personal injury or property damage arising from exposure to hazardous substances. Laws in the major countries where Frutarom operates permit legal proceedings to be instituted against it if personal injury or environmental contamination was ostensibly caused by activity at its production sites in these countries. Such legal proceedings could also be instituted by private individuals or non-governmental organizations.

Fluctuations in prices of raw materials needed for producing Frutarom's products may negatively impact its results of operations.

The price, quality and availability of the main raw materials that Frutarom uses, especially in the field of natural products, are subject to fluctuations arising from global supply and demand. Many raw materials used by Frutarom are agricultural products whose prices, quality and availability could be affected by, among other things, poor weather conditions. Frutarom does not normally conduct futures transactions in raw materials and is exposed to price fluctuations in the raw materials it uses according to changes in global trends for prices of these raw materials. In recent periods, there has been a rise in the prices of a number of principal raw materials used by Frutarom, and such trends may have a significant adverse effect on Frutarom's business, operating results and financial condition.

The inability to obtain raw materials due to the loss of third party suppliers or unavailability of raw materials could impair Frutarom's sales and adversely affect its operating results.

Frutarom is dependent on third parties for the supply of raw materials needed for manufacturing its products. Although Frutarom purchases raw materials from a very wide range of suppliers and no individual supplier accounted for more than 3% of its total raw material usage in 2017, and even though there is more than one supplier for most of the raw materials bought by Frutarom and they are usually readily available, there is no assurance that this will also continue to be the case in the future. Severe weather conditions may cause a significant shortage of natural raw materials used by Frutarom. A shortage of these raw materials could impair Frutarom's sales for a certain period of time and adversely affect its operating results.

Product liability claims against Frutarom and potential damages under those claims could have significant adverse effects on Frutarom's business, operating results and financial condition.

Frutarom is exposed to product liability risk, particularly due to the fact that it supplies flavors to the food and beverage, flavor and fragrance, functional food, pharma/nutraceutical and personal care industries. Should Frutarom be found responsible in a large claim of this type, its insurance coverage might be inadequate to cover damages and/or legal expenses. A lack of adequate insurance coverage could result in a significant adverse effect on Frutarom's business, operating results and financial condition. Product liability claims brought against Frutarom could damage its reputation as well as put heavy demand on management's time and efforts, and this could have significant adverse effects on Frutarom's business regardless of the outcome of the claim.

The inability to integrate the businesses acquired by Frutarom during its recent growth period may lead to disruptions in its business and failure to capitalize on anticipated synergies.

A key element of Frutarom's growth strategy has been growth through the acquisition of flavor and specialty fine ingredients manufacturers. In line with this strategy, Frutarom has made many strategic acquisitions of companies and business activities in recent years. The integration of acquired activities involves a number of risks, including possible adverse effects on Frutarom's operating results, the loss of customers, the consuming of senior management's time and attention, and the failure to retain key personnel including managers of the acquired activities, along with risks associated with unanticipated events in the integration of the operations, technologies, systems and services of the acquired business. In addition, Frutarom may be unable to capitalize on the anticipated synergies (including those aimed at cost savings) inherent in such acquisitions. Failure in successfully integrating its acquisitions could have adverse effects on Frutarom's business, operating results and financial condition.

The rapid growth, as in recent years, in both Frutarom's activities and its geographical spread requires effective management to ensure that the financial benefits, tapping of synergies and the economies of scale are achieved. An inability to adapt to the rapid growth could result in losses or acquisition costs that will not be recovered as quickly as anticipated, if at all. Such circumstances could have significant adverse effects on Frutarom's business, its operating results and financial condition.

The loss of skilled personnel, members of senior management or other key employees could negatively impact Frutarom's ability to compete and implement its strategy.

Frutarom's continued future success depends on its ability to attract and retain proficient flavorists (flavor developers), lab technicians and other skilled personnel. Frutarom operates in a highly specialized market where product quality is of critical importance and having skilled personnel is necessary for ensuring the supply of high quality products. If a number of such employees were to leave at the same time, Frutarom could encounter difficulties in finding replacements with equivalent experience and abilities, a situation which could impair Frutarom's R&D capabilities. Furthermore, Frutarom's continued success depends to a large extent on its senior management team. The loss of services from members of senior management or other key employees could have a negative impact on Frutarom's results and its ability to implement its strategy. A failure to recruit and retain

skilled personnel or members of senior management could have a significant adverse effect on Frutarom's business, operating results and financial condition.

The inability to protect its intellectual property or the loss of exclusive use of its proprietary formulas to create flavors may have a significant adverse impact on Frutarom's business, operating results and financial condition.

Frutarom's business relies on intellectual property, mainly consisting of formulas used to create its flavors. Frutarom does not register these formulas but they are kept highly confidential and considered trade secrets and, as such, are accessible to just a very limited circle of people within Frutarom. Although Frutarom believes it is not significantly reliant on any individual intellectual property right, proprietary formula, patent or license, a breach of confidentiality with respect to the formulas or loss of access to them and/or the future expiration of intellectual property rights could have a significant adverse impact on Frutarom's business, operating results and financial condition.

Frutarom relies, in part, on confidentiality agreements, ownership of intellectual property, and non-competition agreements with employees, vendors and third parties in order to protect its intellectual property. It is possible that these agreements will be breached and that Frutarom may lack an adequate remedy for any such breach. Disputes may arise concerning the ownership of intellectual property or the extent to which the confidentiality agreements remain in force. Furthermore, Frutarom's trade secrets may become revealed to its competitors or developed independently by them, in which case Frutarom will not be able to enjoy exclusive use of some of its formulas or maintain confidentiality concerning its products.

IFF co-creates products that consumers taste, smell, or feel in fine fragrances and beauty, detergents and household goods, and food and beverages. IFF's approximately 7,300 team members globally take advantage of its capabilities in consumer insights, research and product development, creative expertise and customer intimacy to partner with IFF's customers in developing innovative offerings for consumer products. IFF believes that its collaborative approach will generate market share gains for its customers.

IFF's international presence positions it to serve both IFF's global customers and the increasing number of regional and high-end and middle-market specialty consumer goods producers. IFF operates 37 manufacturing facilities and 69 creative centers and application laboratories located in 37 different countries. IFF partners with its customers to develop over 46,000 products that are provided to customers in approximately 162 countries.

IFF principally competes in the flavors and fragrances market, which is part of a larger market that supplies a wide variety of ingredients and compounds used in consumer products. The broader market includes large multi-national companies and smaller regional and local participants that supply products such as seasonings, texturizers, spices, enzymes, certain food-related commodities, fortified products and cosmetic ingredients. The global market for flavors and fragrances has expanded consistently, primarily as a result of an increase in demand for, and an increase in the variety of, consumer products containing flavors and fragrances.

In 2017, IFF achieved sales of approximately \$3.4 billion, making it a leading company in the global flavors and fragrances sub-segment of the broader consumer products ingredients and compounds market. IFF believes that its global presence, diversified business platform, broad product portfolio and global and regional customer base position it to achieve long-term growth as the flavors and fragrances markets expand.

IFF operates in two business segments, Flavors and Fragrances. In 2017, IFF's flavors business represented 48% of its sales, while its fragrances business represented 52% of sales. IFF's business is geographically diverse, with sales to customers in the four regions set forth below:

<u>Region</u>	<u>% of 2017 Sales</u>
Europe, Africa, Middle East	31%
Greater Asia	27%
North America	27%
Latin America	15%

IFF is committed to competing in emerging markets. IFF believes that more significant future growth potential for the flavors and fragrances industry, and for its business, exists in the emerging markets (all markets except North America, Japan, Australia, and Western, Southern and Northern Europe). Over the past five years, IFF's currency neutral sales growth rate in emerging markets has outpaced that of developed markets. IFF expects this long-term trend to continue for the foreseeable future.

IFF has operated in some of the largest emerging markets for multiple decades. As a result of these operations, sales in emerging markets represented 48% of 2017 sales and 51% of 2016 sales. As IFF's customers seek to grow their businesses in emerging markets, IFF provides them the ability to leverage its long-standing international presence and extensive market knowledge to help drive their brands in these markets. To stay competitive in its industry, IFF must adapt to rapidly shifting consumer preferences and customer demands. IFF believes its consumer insights and customer relationships help to drive innovation that benefits IFF and its customers. During 2017, IFF's 25 largest customers accounted for 50% of its sales. Sales to IFF's largest customer across all end-use categories accounted for 11% to 12% of IFF's sales for each of the last three fiscal years. These sales were principally in IFF's fragrances business.

BUSINESS OF FRUTAROM AND CERTAIN INFORMATION ABOUT FRUTAROM

Overview

Frutarom is a global company established in Israel in 1933 and operating in the global flavors and specialty fine ingredients markets. Frutarom, through its subsidiaries, develops, produces and markets flavors and fine ingredients used in manufacturing food, beverages, flavors and fragrances, pharma/nutraceuticals, cosmetics and personal care products. As of December 31, 2017, Frutarom operated 72 production sites, 90 research and development laboratories, and 109 sales offices in Europe, North America, Latin America, Israel, Asia, Africa and New Zealand, and employed 5,223 people throughout the world. In 2017, Frutarom marketed and sold over 70,000 products to more than 30,000 customers in more than 150 countries.

Business Segments

Frutarom operates in two main activities which constitute its core businesses and are reported as business segments in its financial statements: flavors activity (“Flavors Activity”) and specialty fine ingredients activity (“Specialty Fine Ingredients Activity,” and together with Flavors Activity, “core businesses”). In addition, as part of a comprehensive solution offered to customers, Frutarom imports and markets raw materials manufactured by third parties. This activity is presented as part of trade and marketing operations (“Trade & Marketing Activity”), which is not a core business.

Flavors Activity

Frutarom develops, produces, markets and sells sweet and savory flavor solutions and other solutions which, in addition to flavors, contain fruit or vegetable ingredients and other natural ingredients and are used mainly in the manufacture of foods, beverages and other consumer products. Frutarom develops thousands of different flavors for its customers, most of which are tailor-made for specific customers. In accordance with its strategy, Frutarom’s Flavors Activity has grown significantly by combining organic growth and acquisitions, accounting in 2017 for approximately 81% of Frutarom’s sales for its core businesses and approximately 75% of its overall sales.

Specialty Fine Ingredients Activity

Frutarom develops, produces, markets and sells natural flavor extracts, natural functional food ingredients, natural pharma/nutraceutical extracts, natural biotech products, including algae-based products, natural colors for food, natural antioxidants used to provide solutions for food protection, natural cosmetics products, specialty fine ingredients for infant nutrition and for clinical elderly nutrition, essential oils, specialty citrus products and aromatic chemicals. Specialty fine ingredients products are sold primarily to the food, beverage, flavor, fragrance, pharma/nutraceutical, infant nutrition, cosmetics and personal care industries. Specialty Fine Ingredients Activity accounted for approximately 19% of Frutarom’s sales for its core businesses in 2017 and approximately 18% of its overall sales.

Trade & Marketing Activity

In addition to and in support of its core businesses, Frutarom imports and markets various raw materials that it does not manufacture. This activity greatly expanded through acquisitions starting in 2012, and centers mainly on Central and Eastern Europe, Latin America and Israel. Sales from this activity accounted for approximately 7% of Frutarom’s overall sales in 2017. Frutarom does not consider Trade & Marketing Activity part of its core businesses.

Acquisitions

Frutarom made eleven acquisitions in 2015, eight in 2016, twelve in 2017 and two in 2018, with the aim to enhance its cross-selling opportunities both for products and for customers and contribute to its growth in sales.

Supply Chain

Procurement and Suppliers

In connection with its manufacturing business, Frutarom purchases thousands of raw materials from a wide range of suppliers. The main raw materials purchased by Frutarom include plants, leaves and roots for producing natural flavor extracts, natural functional food ingredients and pharma/nutraceutical extracts. Frutarom also purchases essential oils, natural and synthetic chemicals, spices, fruit components, alcohol, esters, acids and oleoresins.

Frutarom's local supply chain departments work in tandem with the global supply chain headquarters to manage the purchase of raw materials in an effort to ensure their ongoing supply. Although there are exclusive suppliers for a relatively small number of the raw materials used by Frutarom, such raw materials are only required for a limited number of its products and Frutarom does not consider its dependence on such suppliers to be material.

Manufacturing

As of December 31, 2017, Frutarom had 72 production sites globally. Most of Frutarom's products, and in particular its natural products, are tailor-made and customized in accordance with its customers' needs. Frutarom's major production sites related to its Flavors Activity are located in countries such as Belgium, Brazil, China, Canada, France, Germany, Guatemala, Ireland, India, Israel, Italy, Mexico, New Zealand, Peru, Poland, Russia, Slovenia, South Africa, Switzerland, Turkey, the U.K. and the U.S. The manufacturing process for flavors generally involves the blending of multiple ingredients pursuant to Frutarom's formulas, and tends to be less complex and capital intensive than the manufacturing of specialty fine ingredients.

Frutarom's major production sites related to its Specialty Fine Ingredients Activity are located in countries such as Israel, China, Germany, Slovenia, Spain, Switzerland, the U.K. and the U.S. The manufacturing process for specialty fine ingredients is generally more complex, requires a larger capital investment in facilities and is also subject to stricter environmental and regulatory standards when compared to the manufacturing of flavors.

Marketing and Distribution

Frutarom maintains a global sales and marketing and customer technical support infrastructure staffed with local personnel in its main target markets. As of December 31, 2017, Frutarom had 109 sales offices, 90 research and development labs located in its main target markets in close proximity to its customers and approximately 1,964 employees working in research and development and sales and marketing. Frutarom markets and sells its products primarily through its own sales and marketing personnel. In some countries, however, Frutarom retains third-party local agents and distributors to sell its products.

Intellectual Property

Frutarom's business relies on intellectual property, mainly consisting of formulas used to create its flavors. The formulas are not registered. Instead, the formulas, considered to be Frutarom's trade secrets, are kept highly confidential and accessible to a minimal number of people within Frutarom. Frutarom has registered patents that relate primarily to production processes for ingredients and products in the fields of pharma/nutraceutical, cosmetics, and specialty fine ingredients for infant nutrition in infant formulas. Frutarom has registered trademarks on some of its products in certain countries in which it operates. To protect its intellectual property, Frutarom includes confidentiality, non-competition, and intellectual property transfer restrictions clauses in its employment contracts, as well as in contracts with consultants, suppliers and customers.

Government Regulation

Frutarom is subject to a variety of international and domestic health, safety and environmental statutes in the various countries in which it operates. These laws and regulations include, among others, the U.S. Food and Drug

[Table of Contents](#)

Administration's regulations, EU directives, Codex Alimentarius in South America and other countries, and regulations set by the Ministry of Health in Israel. In general, there is a trend towards increased regulation in the fields of Frutarom's activities. This trend stems from, among other things, growing consumer sensitivity concerning the inclusion of flavor additives in food products and the fact that regulators perceive nutraceuticals, medical food and functional food products as having medicinal attributes. In some countries such products may be subjected to the same standards and regulations as applied to drugs or targeted regulation for these categories. In addition, the regulations applicable to Frutarom are subject to change at any time.

Frutarom's production sites and research and development laboratories worldwide from time to time make use of, manufacture, sell, and distribute substances that are sometimes considered hazardous and are therefore subject to extensive regulation concerning the storage, handling, manufacture, transport, use and disposal of such substances and their components and byproducts. Frutarom's production and R&D activities in the various countries where it operates are subject to various regulations and standards relating to air emissions, sewage treatment and the use, handling and discharge of hazardous material as well as clean-up of existing environmental contamination.

As of December 31, 2017, Frutarom was in material compliance with the health, safety and environmental regulations that apply to it in the various countries in which it operates.

Legal Proceedings

In the ordinary course of business, Frutarom is, and will continue to be, involved in various legal proceedings from time to time. Frutarom may not be able to predict the timing or outcome of these or future legal proceedings with certainty, and an unfavorable resolution of one or more of such matters could have a material adverse effect on Frutarom's business, prospects, financial condition or results of operations.

Currently, Frutarom is not involved in any legal proceeding that, in the opinion of Frutarom's management, could reasonably be expected to have a material adverse effect on its business, prospects, financial condition or results of operations.

Employees

As of December 31, 2017, Frutarom employed 5,223 employees.

In addition to and in support of its core businesses, Frutarom imports and markets various raw materials that it does not manufacture. This activity expanded significantly following the acquisitions of Slovenian company Etol Tovarna arom in eteričnih olj d.o.o. in 2012, the Russian company Protein Technologies Ingredients Group in 2013, the flavors and natural colors for food division of the Peruvian company Montana S.A. in 2014 and the Mexican company Proveedores de Ingeniería Alimentaria, S.A. de C.V. at the end of 2016, and centers mainly on Central and Eastern Europe, Latin America and Israel. Sales from this activity accounted for 7% of Frutarom's overall sales in 2017. Frutarom does not consider Trade & Marketing Activity part of its core businesses.

Factors Affecting Frutarom's Results of Operations

Acquisitions

Frutarom made eleven acquisitions in 2015, eight in 2016, twelve in 2017 and two in 2018, with the aim to enhance its cross-selling opportunities both for products and for customers and contribute to its growth in sales, including the following acquisitions:

For additional information relating to Frutarom's acquisitions, see Note 5 to Frutarom's audited financial statements included elsewhere in this prospectus.

Long-term Relationships with Customers

The flavors and fine ingredients market is characterized by long-term relationships between flavor manufacturers and their customers, which include mostly companies in the food and beverage, flavor and fragrance extracts and pharmaceutical/nutraceutical industries. Much importance is placed in these industries on supplier reliability, quality of service, and the manufacturers' understanding of their customers' needs. As a result, some large multinational customers, as well as an increasing number of medium-sized customers, have been reducing the number of their flavor suppliers to a select list of authorized suppliers.

Research and Development

Since end-user preferences are constantly changing and the markets in which customers operate (particularly the foods and beverages market) are dynamic and competitive, the market is characterized by an abundance of new and innovative products. Manufacturers therefore need to invest in research and development and offer a wide range of new products, either at the initiative of the flavor manufacturer or at the initiative of the customer (the food or beverages manufacturer) and in collaboration with them.

Table of Contents

Raw Materials

Frutarom purchases thousands of raw materials that go into its products from a wide range of suppliers, having more than one supplier for most raw materials. The main raw materials purchased by Frutarom include plants, leaves and roots for producing natural flavor extracts, natural functional food ingredients and pharma/nutraceutical extracts.

There are exclusive suppliers for a small number of raw materials, but since these raw materials go into only a limited number of Frutarom products, out of its wide range of over 70,000 products, in the view of management Frutarom's dependence on these suppliers is not material.

Frutarom maintains relatively large inventories of certain raw materials as most of the natural substances used by Frutarom derive from field crops. Delivery times are also usually longer than those to which Frutarom has committed to its customers, making it necessary for Frutarom to hold enough raw material inventory to fill its customers' orders on short notice. On the other hand, Frutarom generally maintains very limited finished goods inventory. Furthermore, the availability and prices of many of the raw materials, especially natural materials, used by Frutarom to manufacture its products are exposed to fluctuations due to global supply and demand.

Foreign Currency Effects

Over 70% of Frutarom's sales in 2015, 2016 and 2017 were conducted in currencies other than the U.S. dollar, mainly the Euro, Russian Ruble, Pound Sterling, Swiss Franc, Canadian Dollar, New Israeli Shekel, Chinese Yuan, Mexican Peso, Polish Zloty Brazilian Real, and Peruvian Nuevo Sol and South African Rand. Therefore changes in exchange rates affect Frutarom's results as reported in U.S. dollars.

Frutarom's exposure to currency fluctuations is reduced by the fact that part of the raw material purchases and operational expenditures in the various countries in which it operates are also paid for in most cases in the respective local currencies, so that most of the effect applies to the translation of sales revenues and profits into U.S. dollar terms.

The weakening of the U.S. dollar versus some of the various above mentioned currencies has contributed to an increase of approximately 1.9% in Frutarom's sales for 2017. In 2016, the effect of currencies contributed to a decrease of approximately 2.6% in Frutarom sales.

Frutarom does not generally undertake external hedging action nor does it use other financial instruments for protection against currency fluctuations.

Economic Conditions

Due to the nature and type of its global activity, Frutarom is exposed to fluctuations in the global economy. Economic crises or recessions in important target countries could curb demand for Frutarom's products, including its premium products, and significantly slow down the development and launch of new products by Frutarom customers. Periods of global financial distress could also impair Frutarom's ability to raise funds for executing its strategic acquisitions and for its operations.

Regulatory Standards

Flavor and fine ingredients products are mainly intended for use by the food and beverage and pharmaceutical/nutraceutical industries, which are subject to strict quality and regulatory standards. Flavor and fine ingredients manufacturers are therefore required to meet the same strict standards. Recent years have seen a trend toward increasingly stringent quality and regulatory standards which could require manufacturers to incur greater costs and expense to comply with them. For a discussion of the regulations applicable to Frutarom's operations, see the section entitled "*Business of Frutarom and Certain Information about Frutarom—Government Regulation*" included elsewhere in this prospectus.

Seasonality

Increased demand for beverages, yogurts, ice cream and other food products during the summer months brings about an increase in sales and an improvement to a certain extent in Frutarom's profitability margins in the second and third quarters of the year. With respect to Frutarom's raw material needs, natural raw materials, which are derived from agricultural crops, are seasonal in their supply. In recent years, however, as a result of Frutarom's internal growth and acquisitions, seasonal effects on its results have been moderated.

The increase in long-term bank loans in the first quarter of 2018 was primarily to fund the acquisition of Enzymotec.

Net cash used in financing activities was \$8.4 million in 2017 compared to net cash provided by financing activities of \$47.0 million in 2016 and \$216.0 million in 2015.

The change in cash flows from financing activities in 2017 compared to 2016 was principally due to the payment made in 2017 to exercise a put option to acquire the remaining interest in Vantodio and an increase in repayments of long-term bank and financial institution loans, offset in part by an increase in short-term bank loans and credit in 2017.

The decrease in net cash provided by financing activities in 2016 compared to 2015 was principally due to a decrease in the incurrence of long-term bank loans and short-term bank loans and credit and an increase in repayments of long-term bank and financial institution loans.

Frutarom paid dividends totaling \$7.2 million, \$6.4 million and \$5.8 million in 2017, 2016 and 2015, respectively.

Capital Resources

Frutarom's activity is financed primarily by cash flow it generates from operations and long-term and short-term loans from banking corporations and financial institutions.

Frutarom's management believes that the cash flow it generates from current operations can be expected to cover the repayment of its anticipated liabilities without the need for any further outside sources of funds, assuming no significant deterioration in sales or profitability. As of March 31, 2018, there were no legal or economic restrictions on the ability of Frutarom's subsidiaries to transfer funds to Frutarom in the form of cash dividends, loans or advances that have had or are expected to have a material impact on the ability of Frutarom to meet its cash obligations.

Loans

Frutarom has arranged short-term and long-term loans from various banks and financial institutions to finance growth and strategic acquisition opportunities as they arise. Frutarom had total borrowings of \$841.3 million as of March 31, 2018, \$634.3 million as of December 31, 2017 and \$533.8 million as of December 31, 2016. For further information on Frutarom's borrowings, see Notes 9 and 14 to Frutarom's audited financial statements included elsewhere in this prospectus.

The exposure of Frutarom's cash flows to interest rate changes is dependent on the Libor-Euro, Libor-Dollar, Libor-Swiss franc and Libor-Pound Sterling rates.

Due to the above, the fair value of current and non-current borrowings equals their carrying amount, as the impact of discounting is not significant. The fair values are based on cash flows discounted at the borrowings' discount rate.

Capital Expenditure Commitments

As of December 31, 2017 and March 31, 2018, Frutarom did not have any material commitments for capital expenditures.

Research and Development

Frutarom considers its research, innovation and development system one of its key core proficiencies and channels substantial resources towards researching and developing new and innovative products. In many cases Frutarom initiates the development of fine ingredients after analyzing market trends and needs, while focusing on the development of products with higher profit margins in order to continue improving the product mix and ensure that its production capabilities and capacity are put to optimal use. Scientists from various disciplines work in project teams that include flavorists to develop new flavors whose qualities reflect consumer preferences. Most of Frutarom's products, and natural products in particular, are tailor-made and customized in accordance with its customers' needs.

Expenses for product development and research activities – net of participation from government departments and others were approximately \$51.0 million, \$44.4 million and \$37.2 million for the years ended December 31, 2017, December 31, 2016 and December 31, 2015, respectively.

Trend Information

Frutarom's business is affected by certain trends in the food and beverages market, including:

- *Preference for natural products.* Demand is on the rise for food and beverage products containing natural ingredients and possessing dietary and nutritional value since natural products are generally perceived by consumers as being of higher quality, healthier and more environmentally friendly. There has also been growing demand for "clean label" and organic products. As a result, natural food and beverage products are viewed as premium products that command higher prices. In developed markets, most of the growth derives from a shift by consumers to products considered healthier and more natural and their willingness to continue purchasing such products even during an economic slowdown. The trend of awareness on this subject and a desire to improve the quality of consumed foods is also notable in the emerging markets.
- *Private label.* Private label manufacturers, mostly medium-sized, local or small food manufacturers, constitute a growing segment in the flavor market. Over the last decade, with the strengthening of supermarket chains and growing consumer price consciousness, demand and consumption of private label products has grown at a faster rate than the brand food industry rate. This trend, which gained momentum in 2009 due to the global economic crisis, has continued over the following years as well, and is expected to continue in the years ahead. In addition, the growing power of supermarket chains and their determination to increase their operating margins have led them to push towards strengthening their private label sales by, among other things, allocating large amounts of shelf space and broadening the range of products. Supermarket chains, grocers and other retailers have also become aware of the importance of supporting their own private brand image.
- *Increasing consumption of convenience foods.* Demand is on the rise for processed foods providing a greater degree of convenience such as "ready to eat" meals, fresh pasta, fresh ready-to cook seasoned or marinated meat and poultry, salads and dressings.
- *Emerging markets.* Over the last few years, the increase in consumption of flavored products in emerging markets, such as Asia, Central and South America, Central and Eastern Europe and Africa, has been higher than the average growth rate for the global flavors industry. These markets have also been experiencing rising consumption of processed foods which has driven the growth of medium-sized, local and small food companies. It can be expected that the shift to processed foods and changes in consumer habits in these markets is likely to bring about growth in these markets at a higher rate than the expected pace of growth in developed markets.

[Table of Contents](#)

- *Growing demand for natural products.* The rise in consumer demand for natural products has brought about increased demand for a variety of natural fine ingredients such as natural flavor extracts, natural colors, natural solutions for food protection, and natural specialty essential oils for use in the end products. Natural fine ingredients tend to be more unique and less interchangeable, resulting in increasing customer loyalty. The majority of natural fine ingredients are tailor-made to customer needs.
- *Growing demand for natural functional food ingredients.* Functional food is food with certain added ingredients which provide, or are perceived as providing, health benefits, such as juices or dairy products with health additives. Changing consumer preferences towards foods with health benefits are leading to a rise in demand for functional food. The dairy and beverage markets exhibit the highest growth in the use of natural functional food ingredients. Many of the active ingredients used in functional foods are derived from plants and herbs under processes similar to those used in producing flavor extracts. Manufacturers of natural functional food ingredients are often required by food and beverage makers to provide a proven scientific basis, such as clinical studies, for the health benefits attributed to the ingredients.
- *Regulation, health, safety and certification.* Fine ingredients used in both the food and beverage and pharmaceutical/nutraceutical industries are increasingly subject to strict health and safety standards and regulations. This trend is part of an overall trend of increased regulation in those industries. There is growing demand for products with certain proven qualities such as being GMO-free (free of any genetically modified organisms) or pesticide free. Demand for Kosher and for Halal certified products is also increasing as the demographic base of consumers for such products expands. As a result, fine ingredients manufacturers need to document their production processes and adhere to strict standards.
- *High volume production of fine ingredients with low margins.* Over recent years, there has been an increase in production of many fine ingredients in certain countries such as China and India, where the cost structure for manufacturers tends to be lower. Many such manufacturers are less technically sophisticated with limited research and development capabilities and focus more on large volume production with low profit margins. They also generally lack global marketing and sales platforms, brand recognition and approved supplier status. This has led certain fine ingredients' manufacturers to differentiate themselves from such low-cost manufacturers by developing close collaborative relationships with customers, providing higher added-value products and services, and investing in research and development with an aim to develop specialty fine ingredients products with higher margins. Over this past year, following the Chinese government's initiative to reduce pollution levels and raise safety, hundreds of small plants manufacturing raw materials at low costs have been shut down.

Frutarom's results of operations and financial condition may be affected by various additional trends, factors and risks discussed in "Risk Factors," including changes in the cost of raw materials, political, military or economic conditions in countries in which Frutarom operates, general slowing of local or global economies and decreased economic activity in one or more of Frutarom's target markets.

Off-Balance Sheet Arrangements

Frutarom does not currently engage in off-balance sheet financing arrangements. Frutarom does not have any interest in entities referred to as variable interest entities, which includes special purposes entities and other structured finance entities.

Critical Accounting Policies and Use of Estimates

Frutarom's significant accounting policies are fully described in Note 2 to Frutarom's audited financial statements included elsewhere in this prospectus. The preparation of financial statements in accordance with IFRS requires Frutarom's management to make estimates and assumptions that affect reported amounts and accompanying disclosures. These estimates are based on management's best judgment of current events and actions that they may undertake in the future. Actual results may ultimately differ from these estimates.

Those areas requiring the greatest degree of management judgment or deemed most critical to Frutarom's financial reporting involve the following:

Potential Impairment of Goodwill

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash generating units (CGUs) or groups of CGUs that is expected to benefit from the synergies of the combination. Frutarom has six CGUs, four of which have goodwill. Impairment reviews of CGUs or groups of CGUs are undertaken annually and whenever there is any indication of impairment of a CGU or group of CGUs. The carrying value of the CGU or group of CGUs is compared to the recoverable amount, which is the higher of the value-in-use and the fair value less costs to sell. Any impairment loss is allocated to write down the carrying amount of the assets of the CGU or CGUs in the following order: first, the write down of any goodwill allocated to a CGU or a group of CGUs; and afterwards to the remaining assets of the CGU or group of CGUs on a proportionate basis using the carrying amounts of each asset of the CGU or group of CGUs. Any impairment of goodwill is recognized immediately as an expense and is not subsequently reversed.

Income Tax and Deferred Tax

Frutarom is subject to income taxes in a large number of countries. Judgment is required in determining the worldwide provision for income taxes. Frutarom is involved in transactions and computations whose final tax liabilities cannot be determined with certainty in the normal course of business. Frutarom recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due as a result of the tax audits. Where the final tax outcome of these matters, as determined by the tax authority, is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax liabilities provisions in the period in which such determination is made.

Frutarom recognizes deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. Frutarom regularly reviews its deferred tax

[Table of Contents](#)

assets for recoverability, based on historical taxable income, projected future taxable income, the expected timing of the reversals of existing temporary differences and the implementation of tax planning strategies. If Frutarom is unable to generate sufficient future taxable income, or if there is a material change in the actual effective tax rates or time period within which the underlying temporary differences become taxable or deductible, Frutarom could be required to eliminate a portion of the deferred tax asset resulting in an increase in its effective tax rate and an adverse impact on operating results.

Pension Obligations and Retirement Benefits

Frutarom operates a number of post-employment employee benefit plans, including defined benefit plans and defined contribution plans.

Under Frutarom's obligation to employees who participate in a defined benefit plan, the amounts of benefits those employees are entitled to upon retirement are based on the number of years of services and the last monthly salary.

Frutarom's obligations to all other employees is a defined contribution plan, in which regular contributions are made to a separate and independent entity and Frutarom has no legal or constructive liability to make any further payments if the assets of the funds are insufficient to pay employees the benefits for work services in the current and past periods.

The total retirement benefit obligation presented in the statement of financial position is the present value of defined benefit contribution as of the date of financial position, less the fair value of plan assets. The defined benefit contribution is measured on an annual basis by an actuary using the projected unit credit method. The present value of the liability is determined by discounting expected future cash flows (after taking into account the expected rate of payroll increases) based on the interest rate of government/corporate bonds denominated in the currency in which the benefits will be paid and whose terms to maturity approximate the term of retirement benefit obligation.

According to IAS 19 "Employee Benefits", the discount rate used for calculating the actuarial obligation is determined by using the market return of high-quality corporate bonds on the date of the statement of financial position. However, IAS 19 indicates that in countries where there is no deep market in such bonds, the market rates on government bonds are to be used.

Frutarom recognizes remeasurements of net obligations for defined benefit plans in other comprehensive income in the period in which they incurred. Those remeasurements are created as a result of changes in actuary assumptions, difference between past assumptions and actual results and differences between plan assets return and the amounts included in net interest on net liabilities for defined benefit plans.

Provisions for Liabilities

Provisions are recognized when Frutarom has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and it is possible to prepare a reliable estimation of the amount of liability.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole.

Provisions are measured at the present value of the cash flow expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

Recent Accounting Pronouncements

See Note 2 to Frutarom's consolidated financial statements included elsewhere in this prospectus for recently issued accounting pronouncements not yet adopted as of the date of this prospectus.

Market Risks

As a global company, Frutarom is exposed to currency fluctuations, as well as interest rate and currency fluctuations related to its debt. Its operations are also exposed to the price, quality and availability of raw materials. For more details regarding market risks, see Note 3a. to Frutarom's audited financial statements included elsewhere in this prospectus.

Currency Risks

Over 70% of Frutarom's sales in 2015, 2016 and 2017 were conducted in currencies other than the U.S. dollar (mainly the Euro, Russian Ruble, Pound Sterling, Swiss Franc, New Israeli Shekel, Chinese Yuan, Canadian Dollar, Brazilian Real, South African Rand and Peruvian Nuevo Sol) and changes in exchange rates affect Frutarom's reported results in U.S. dollar terms. Frutarom does not generally undertake external hedging action nor does it use other financial instruments for protection against currency fluctuations. For more details, see Note 3a. to Frutarom's audited financial statements included elsewhere in this prospectus which includes information on the impact on income after taxes of a 1% change in the U.S. dollar against various other currencies.

Frutarom does not generally undertake external hedging action nor does it use other financial instruments for protection against currency fluctuations.

Interest Rate Risk

Frutarom's sources for short- and long-term banking finance are mainly denominated in Euros, U.S. dollars, GBP, and Swiss Francs, generally according to the functional currency of the borrowing company. Most of Frutarom's loans are at variable Libor interest rates in different currencies and a minority are fixed-rate loans. Under its policy, Frutarom does not take protective measures against possible interest rate increases and is therefore exposed to changes in interest rates.

Frutarom analyses its interest rate exposure under various scenarios and calculates the impact on its results of operations of a change in interest rates. For each simulation, the same interest rate change is used for all currencies, and the simulations are run only for liabilities that represent the major interest-bearing positions. Based on such simulations, Frutarom estimates that the impact on income after tax of a 0.1% change in interest rate on loans would have been a change of \$362,000 for 2017, \$258,000 in 2016 and \$233,000 in 2015.

Frutarom does not use financial instruments for hedging purposes. As of March 31, 2018, Frutarom had long-term loans net of current maturities totaling \$452.0 million and short-term debt, including current maturities of long-term loans, of \$389.3 million.

Raw Material Price Risks

Frutarom is dependent on third parties for its supply of raw materials. The price, quality and availability of the principal raw materials used by Frutarom, mainly in the area of natural products, are subject to fluctuations as a result of international supply and demand. Many of the raw materials used by Frutarom are crop-related. Therefore their price, quality and availability could be adversely affected by unfavorable weather conditions. Frutarom does not normally conduct futures transactions and is exposed to price fluctuations in the raw materials it uses as dictated by changes in global price trends.

[Table of Contents](#)

Inflation-related risks

Frutarom does not believe that the rate of inflation in the countries in which it has material operations has had a material impact on Frutarom's business to date. However, Frutarom's costs in these countries will increase if inflation exceeds the devaluation of the local currency against the U.S. dollar or if the timing of such devaluation lags behind inflation.

Managing Market Risks

Frutarom's management monitors market risks in the area of raw material prices and currency and interest rates on an ongoing basis. Unusual events that could influence Frutarom's activity, such as a severe devaluation in the currency of a country where it operates, a sharp change in interest rates, or a change in the price trend for key raw materials, are discussed by Frutarom's management and by the Frutarom board of directors. Meetings are also held by Frutarom's management on a regular basis on implementing risk management policy as it relates to raw materials prices, currency and interest rates. The Executive Vice President & Chief Financial Officer reports to the Frutarom board of directors on exposure to these risks at least once a year and during periods of severe changes in the state of the global economy, exchange rates, raw material prices and interest rates.

Frutarom's management strives to limit both economic and accounting currency exposure by balancing the liabilities and assets in each of the various currencies in which Frutarom operates. The Executive Vice President & Chief Financial Officer is responsible for managing Frutarom's currency exposure.

The level of exposure to market risk is regularly evaluated by Frutarom's finance department and discussed among Frutarom's management, allowing prompt response to unusual developments in the various markets, and it is not restricted in advance in quantitative terms. The exposure level is also reviewed by the Frutarom board of directors from time to time.

Frutarom is working to build and strengthen its global purchasing operations, to strengthen relations with manufacturers of raw materials, and to adjust the selling price of its products as necessary and in accordance with significant fluctuations in the pricing of raw materials.

The Executive Vice President of Supply Chain and Operations is responsible for managing market risk relating to raw materials prices and evaluates the exposure to raw material prices with the purchasing department and the business segments' management on a regular basis. He also reports to Frutarom's management as necessary.

Frutarom did not use financial or other instruments during the reported periods to protect itself from market risks to which it is exposed.

THE MERGER

The description of the merger agreement in this section and elsewhere in this prospectus is qualified in its entirety by reference to the complete text of the merger agreement, a copy of which is attached as Annex A and is incorporated by reference into this prospectus. This summary does not purport to be complete and may not contain all of the information about the merger that is important to you. You are encouraged to read the merger agreement carefully and in its entirety. This section is not intended to provide you with any factual information about IFF or Frutarom. Such information can be found elsewhere in this prospectus and in the public filings IFF makes with the SEC that are incorporated by reference into this document, as described in the section entitled “Where You Can Find More Information” beginning on page 153.

Background of the Merger

As part of its ongoing evaluation of IFF’s business, the IFF board and IFF’s management continuously review IFF’s operations, financial performance, strategy and growth initiatives and industry conditions. In this context, the IFF board considers strategic opportunities that are or might be available to it to enhance shareholder value, including investments in new growth opportunities, technologies and adjacent businesses as well as potential acquisitions, taking into account industry and transaction trends as well as economic and other conditions generally.

The IFF board has a transaction committee (which we refer to as the “transaction committee”) comprising the Chairman of the IFF board and four non-executive directors to provide oversight of and advice to senior management with respect to IFF’s evaluation of investments and potential acquisitions. The IFF board also periodically consults with various financial, legal and strategic advisors.

The Frutarom board and Frutarom’s management periodically review and assess Frutarom’s operations, financial performance and competitive position in the context of Frutarom’s long-term strategic goals and plans. These reviews include consideration of potential opportunities to enhance shareholder value as well as discussions about the future of the food-flavoring industry, industry dynamics and consolidation among participants in the industry. In the past, such reviews and assessments have resulted in business expansion through organic growth initiatives, acquisitions and other strategic transactions.

On October 2, 2017, Mr. Andreas Fibig, IFF’s Chairman and Chief Executive Officer, and Mr. Ori Yehudai, Frutarom’s President and Chief Executive Officer, met in person to introduce themselves to one another and to discuss their respective companies generally, but a business combination transaction was not discussed.

On October 9, 2017, Bank of America Merrill Lynch (which we refer to as “BofA Merrill Lynch”) contacted Mr. Greg Soutendijk, IFF’s Head of Corporate Development, to ascertain whether IFF might be interested in exploring a business combination transaction with Frutarom. In response to BofA Merrill Lynch’s outreach, Mr. Soutendijk expressed interest in learning more about Frutarom’s business.

On October 24, 2017, Mr. Fibig and Mr. Soutendijk had a telephone call with BofA Merrill Lynch. During the call, BofA Merrill Lynch conveyed that third parties had expressed interest to acquire Frutarom. BofA Merrill Lynch invited IFF to submit a written indication of interest to acquire Frutarom.

Between late October 2017 and the signing of the merger agreement, the IFF board and the transaction committee met regularly to review the potential acquisition of Frutarom and other potential strategic alternatives.

On November 3, 2017, Mr. Fibig met with representatives of BofA Merrill Lynch to discuss a potential business combination transaction and the process by which IFF and Frutarom might pursue such a transaction.

On November 10, 2017, IFF submitted a nonbinding written indication of interest, based solely on publicly available information, to acquire Frutarom for NIS 310-325 per share, with the transaction consideration

[Table of Contents](#)

consisting of 57% in cash and 43% in shares of IFF common stock (which we refer to as the “Initial Offer”). The Initial Offer stated that it was subject to certain conditions, including validation of the valuation through a non-public diligence process.

On November 21, 2017, Frutarom reported the results of its financial performance for the third quarter and first nine months of 2017.

On November 27, 2017, Mr. Fibig and Mr. Soutendijk had a telephone call with BofA Merrill Lynch to discuss process updates for the potential transaction and the possibility of arranging an in-person meeting with Mr. Yehudai. Following the telephone call, Mr. Fibig and Mr. Yehudai corresponded and scheduled an in-person meeting to take place on December 21, 2017.

On December 21, 2017, Mr. Yehudai and Mr. Amos Anatot, Frutarom’s Executive Vice President of Global Supply Chain & Operations, met with Mr. Fibig, Mr. Soutendijk and Mr. Matthias Haeni, IFF’s Group President, Flavors . At that meeting, Mr. Yehudai provided an overview of Frutarom’s business and key drivers of future growth.

On January 8, 2018, Mr. Fibig and Mr. Soutendijk had a telephone call with BofA Merrill Lynch. During the telephone call, BofA Merrill Lynch recommended that, in light of recent increases to Frutarom’s share price, in order to advance the process for a potential transaction IFF should submit a revised indication of interest providing for a higher price per share as well as a higher percentage of cash as part of the transaction consideration.

On January 18, 2018, Mr. Fibig and Mr. Yehudai had a telephone call during which Mr. Yehudai informed Mr. Fibig of the seriousness of Frutarom’s interest in a potential transaction and Frutarom’s commitment to a process with IFF if the parties were able to move forward.

On January 25, 2018, IFF submitted a revised nonbinding written indication of interest, based solely on public information, to acquire Frutarom for NIS 325-340 per share, with the transaction consideration consisting of 65% in cash and 35% in shares of IFF common stock (which we refer to as the “First Revised Offer”). The First Revised Offer stated that the transaction would not be subject to a financing condition, would not require a vote of IFF shareholders and was subject to certain conditions, including validation of the valuation through a non-public diligence process.

Between late January and early March 2018, Mr. Fibig and Mr. Yehudai continued to discuss a potential transaction, including discussions regarding valuation drivers, the timing of a potential diligence process to confirm IFF’s valuation of Frutarom and considerations around exchange of certain non-public and confidential information between IFF and Frutarom.

On February 6, 2018, Mr. Fibig, Mr. Soutendijk and Mr. Richard O’Leary, IFF’s Executive Vice President and Chief Financial Officer, had a telephone call with BofA Merrill Lynch. During the telephone call, BofA Merrill Lynch conveyed that Frutarom remained in dialogue with other parties about a potential transaction, and emphasized Frutarom’s desire for the due diligence process prior to the signing of any definitive documentation to be completed as expeditiously as possible. BofA Merrill Lynch further indicated that, in order for IFF to move forward in the process, IFF needed to increase the value of the transaction consideration proposed in the First Revised Offer.

On February 13, 2018, Mr. Fibig and Mr. Yehudai had a telephone call, during which Mr. Yehudai informed Mr. Fibig that Frutarom’s board was unlikely to consider any indication of interest by IFF which provided for transaction consideration of less than NIS 380 - NIS 400 per share.

[Table of Contents](#)

On February 27, 2018, Mr. Fibig and Mr. Yehudai had a telephone call to discuss the current status of Frutarom's and IFF's consideration of a potential transaction, during which Mr. Yehudai reiterated Frutarom's valuation expectations. Mr. Fibig indicated that IFF would need additional due diligence information regarding Frutarom in order to consider revisiting its valuation of Frutarom.

On March 1, 2018, during a telephone conversation, Mr. Fibig and Mr. Yehudai discussed moving forward with additional due diligence, and agreed IFF would revert with a proposed timeline and plan for a diligence process, as well as a list of additional requests.

On March 8, 2018, Mr. Fibig and Mr. Yehudai had a telephone call to discuss the due diligence plan and request list Mr. Fibig sent to Mr. Yehudai following their March 1st call, and the prospect of Frutarom providing IFF with expanded due diligence access for purposes of supporting a potentially revised indication of interest for Frutarom. During the call, Mr. Yehudai and Mr. Fibig acknowledged that Frutarom's price expectation was substantially higher than the NIS 325-340 provided for in the First Revised Offer, and agreed to proceed with further due diligence in order for IFF to confirm a valuation of Frutarom.

Between March 8 and March 15, 2018, Cleary Gottlieb Steen & Hamilton LLP, counsel to IFF (which we refer to as "Cleary Gottlieb"), and Wachtell, Lipton, Rosen & Katz, counsel to Frutarom (which we refer to as "Wachtell Lipton"), together with IFF and Frutarom, negotiated the terms of a mutual confidentiality agreement. On March 15, 2018 Frutarom and IFF entered into the mutual confidentiality agreement, which contained customary provisions.

On March 20, 2018, Frutarom reported the results of its financial performance for the fourth quarter and fiscal year 2017.

On March 24, 2018, Mr. Fibig, Mr. Yehudai and representatives of each of IFF and Frutarom participated in a management discussion to address key diligence questions raised by IFF with respect to Frutarom's business and key drivers of future growth.

On April 3, 2018, Mr. Fibig, Mr. Yehudai and representatives of each of IFF and Frutarom held an additional management meeting to address outstanding diligence questions of IFF in connection with its valuation of Frutarom.

On April 11, 2018, Israeli media sources reported that two companies, including IFF, had approached Frutarom regarding a potential transaction. As a result of these media reports, Frutarom issued a public statement that Frutarom from time to time reviews and discusses possible strategic business combinations, including by way of merger or acquisition, but that no definitive agreement has been reached between Frutarom and any third party regarding any transaction.

On April 11, 2018, the IFF board held a previously planned meeting to discuss the potential transaction, certain developments with respect to Frutarom since the Initial Offer and First Revised Offer, including Frutarom's strong reported 2017 fourth quarter and fiscal year performance results, and the results of IFF's non-private diligence with respect to Frutarom to date, and to consider submission of a revised indication of interest. Following the meeting of the IFF board, IFF submitted a revised nonbinding written indication of interest to acquire Frutarom for NIS 365 per share, with the transaction consideration consisting of 65% in cash and 35% in shares of IFF common stock (which we refer to as the "Second Revised Offer"). The Second Revised Offer stated that the transaction would not be subject to a financing condition and would not require a vote of IFF shareholders. The Second Revised Offer further stated that IFF would require that affiliates of ICC Industries Inc., who are collectively Frutarom's largest shareholder (collectively, "ICC"), support the potential transaction.

On April 13, 2018, Mr. Fibig and Mr. Yehudai had a telephone call, during which Mr. Yehudai reiterated his expectation that any indication of interest by IFF provide for transaction consideration valued at a minimum of NIS 380 per share. Mr. Yehudai informed Mr. Fibig that Frutarom would be prepared to move forward with the completion of diligence and the negotiation of a definitive agreement with IFF on an expedited timetable but that he believed that the Frutarom board would require a written indication reflecting transaction consideration valued at a minimum of NIS 380 per share in order to move forward.

Later in the day on April 13, 2018, IFF submitted a revised nonbinding written indication of interest to acquire Frutarom for NIS 380 per share, with the transaction consideration consisting of 67% in cash and 33% in shares of IFF common stock (which we refer to as the "Third Revised Offer"). In the Third Revised Offer, IFF also reiterated its request for a support agreement from ICC. Representatives of IFF communicated to representatives of Frutarom that IFF would not further increase its offer price.

On April 16, 2018, Frutarom held a board meeting to discuss the Third Revised Offer and the potential transaction. Following discussion of the advantages and disadvantages of the potential transaction, including that the proposed transaction consideration consisted of cash and shares of IFF common stock, the likelihood of consummating the potential transaction and the strategic rationale for Frutarom and its shareholders in engaging in the potential transaction, the Frutarom board determined that it was willing to consider such a transaction upon the terms set forth in the Third Revised Offer. The Frutarom board appointed its audit committee, consisting of two external directors and an independent director, as a special deal committee to provide advice and support to senior management with respect to the evaluation and negotiation of the potential transaction. Between April 16 and May 6, 2018, the special deal committee met several times in person and by teleconference to discuss the potential transaction and provide advice and support to Frutarom's management in the negotiation of the terms of the merger agreement.

On April 17, 2018, representatives of Wachtell Lipton sent a draft merger agreement to representatives of Cleary Gottlieb and Gornitzky & Co., also counsel to IFF (which we refer to as "Gornitzky"), which, among other things, proposed that Frutarom shareholders would receive a prorated dividend (based on the amount of Frutarom's 2017 dividend) prior to the closing and that Frutarom would be permitted to terminate the merger agreement to enter into an alternative superior transaction and pay IFF a termination fee equal to 2% of Frutarom's equity value at the transaction price (which termination fee would also be payable in certain other customary, specified circumstances).

On April 23, 2018, representatives of Cleary Gottlieb provided a revised draft of the merger agreement to representatives of Wachtell Lipton and Naschitz, Brandes, Amir & Co., counsel to Frutarom (which we refer to as "Naschitz"), which, among other things, eliminated the pre-closing prorated dividend to Frutarom shareholders, proposed a termination fee equal to 4% of Frutarom's equity value at the transaction price, expanded the circumstances in which the termination fee would be payable to IFF and proposed that Frutarom reimburse IFF for its transaction expenses up to a capped amount if Frutarom shareholders failed to approve the merger.

On April 24, April 25 and April 29, 2018, representatives of IFF and Frutarom met in person and by video conference to discuss confirmatory due diligence across a variety of functional areas, including finance and accounting, tax, human resources, legal and compliance, regulatory and business due diligence.

Between April 24 and May 3, 2018, representatives of Frutarom, IFF, BofA Merrill Lynch (financial advisor to Frutarom), Wachtell Lipton, Naschitz, Cleary Gottlieb and Gornitzky continued to negotiate the terms of a potential merger agreement and related outstanding issues, including: the appropriate NIS to U.S. Dollar exchange rate, and measurement methodology for IFF common stock, to be used for valuing the final merger consideration; the payment of a pre-closing dividend to Frutarom shareholders; matters requiring the consent of either party in connection with the conduct of the other party's business between signing and closing; the treatment of unvested Frutarom share-based equity awards in the merger; and the size of the

termination fee payable by Frutarom and the circumstances in which such fee would be payable. In connection with these negotiations, the parties continued to exchange drafts of the merger agreement and disclosure schedules.

On May 3, 2018, the parties and their respective financial and legal advisors met at Wachtell Lipton's offices in New York to continue to negotiate the terms of the proposed transaction.

On the evening of May 3, 2018, Mr. Fibig, Mr. Yehudai and Dr. John J. Farber, Frutarom's Chairman of the Board and the controlling shareholder of ICC, held a meeting in which Mr. Yehudai introduced Mr. Fibig and Dr. Farber to one another.

Between May 3, 2018 and May 6, 2018, the parties and their respective financial and legal advisors continued to negotiate the draft merger agreement.

Following the conclusion of the negotiations, and with the unanimous approval of each of the IFF board and the Frutarom board, the merger agreement was executed by Frutarom and IFF, and IFF and ICC executed the voting agreement.

Frutarom and IFF issued a joint press release announcing the entry into the merger agreement on the morning of May 7, 2018.

Frutarom Board of Directors' Recommendation and Reasons for the Merger

At its meeting on May 6, 2018, following discussion and careful consideration, the Frutarom board unanimously:

- determined that the merger agreement and the transactions contemplated by the merger agreement are advisable and in the best interests of Frutarom and Frutarom's shareholders and that, considering the financial position of the merging companies, no reasonable concern exists that the surviving company will be unable to fulfill the obligations of Frutarom to its creditors as a result of the merger;
- approved the merger agreement, the merger and the other transactions contemplated by the merger agreement; and
- determined to recommend that Frutarom's shareholders vote to approve the merger agreement, the merger and the other transactions contemplated by the merger agreement.

The Frutarom board recommends that the Frutarom shareholders vote to approve the merger agreement, the merger and the other transactions contemplated by the merger agreement.

The Frutarom board considered many factors in making its determination that the merger agreement, the merger and the other transactions contemplated by the merger agreement are advisable and in the best interests of Frutarom and its shareholders. In arriving at its determination, the Frutarom board consulted with members of the Frutarom management team, BofA Merrill Lynch, its outside financial advisor, and Wachtell Lipton and Naschitz, outside legal counsel, and assessed various factors relevant to its decision, including the following:

- **Merger Consideration and Strategic Rationale.**
 - That the consideration per Frutarom ordinary share of (i) \$71.19 in cash and (ii) 0.249 of a share of IFF common stock per ordinary share of Frutarom represents a full and fair valuation for Frutarom, taking into account the Frutarom board's familiarity with Frutarom's business, strategy, industry, assets and prospects, and the certainty of the merger consideration as compared to projected financial results and associated risks.

Table of Contents

- That the consideration per Frutarom ordinary share represents a 13% premium to Frutarom's 30-day volume weighted average trading price for the period ended May 6, 2018, the last trading day of Frutarom ordinary shares prior to the public announcement of the merger, and an 11% premium based on the closing price on May 6, 2018, at then-current exchange rates.
- That 67% of the consideration to be paid in the merger is cash, which provides certainty of value and immediate liquidity to Frutarom's shareholders.
- That 33% of the consideration to be paid in the merger is shares of IFF common stock, which provides Frutarom's shareholders with the opportunity to participate in any increase in value of IFF or the combined company as a result of the long term potential growth opportunity, available synergies and complementary business of the combined company; and that no restrictions apply on the trading of the IFF common stock received in the merger.
- That IFF is a key global player in the flavors and fragrances industry and that will enable Frutarom to expand its range of products through integration with the technological capabilities of IFF and its range of products.
- **Likelihood of Consummation.**
 - That the merger would likely be consummated as a result of (i) the premium over the market price of the ordinary shares, the comparable multiples and the certainty of value to Frutarom's shareholders offered by IFF, (ii) the financial ability and willingness of IFF to consummate the merger, (iii) the merger not being subject to any financing conditions, (iv) the merger not being subject to approval by the shareholders of IFF and (v) the reasonable and customary nature of the other conditions to the merger.
 - That ICC, who beneficially owns, in the aggregate, approximately 35.87% of the issued and outstanding ordinary shares of Frutarom, indicated that it would enter into a voting agreement with IFF, pursuant to which it would express its support of the proposed transaction and agree to vote in favor of approval of the merger agreement, the merger and the other transactions contemplated by the merger agreement. See the section "*—Voting Agreement*" beginning on page 82 for a more fulsome description of the voting agreement, including the circumstances under which the voting agreement would terminate.
- **Terms of the Merger Agreement.** That the terms of the merger agreement were the product of arm's-length negotiations and were fair to, and in the best interests of, Frutarom and its shareholders, including the following:
 - the merger agreement permits the Frutarom board to participate in discussions or negotiations with any third party that has made an unsolicited acquisition proposal if the Frutarom board determines, in good faith after consultation with its financial advisor and outside counsel, that such proposal constitutes or is reasonably likely to constitute or result in a superior proposal (as defined below);
 - the Frutarom board has the ability, under certain circumstances (relating to the receipt of a superior proposal or the occurrence of an unforeseen intervening event), to withdraw or change its recommendation in favor of the merger; and
 - prior to receipt of the approval of Frutarom's shareholders, Frutarom may terminate the merger agreement to accept a superior proposal, subject to, among other requirements, payment of a termination fee of \$191 million to IFF, which the Frutarom board believed was reasonable and not likely to deter competing bids from serious potential acquirers.

[Table of Contents](#)

- **Negotiations with IFF.** That the merger consideration represented the highest value reasonably obtainable for the ordinary shares. The Frutarom board noted that IFF had increased its offer from the initial NIS 310-325 proposal, that IFF had indicated that its last offer of NIS 380 per Frutarom ordinary share was its best and final offer following extensive negotiations and that no other party had submitted an offer to acquire Frutarom.

The Frutarom board also identified and considered a number of other matters, some of which are countervailing factors and risks to Frutarom and its shareholders, relating to the merger and the transactions contemplated by the merger agreement, including the following:

- the possibility that the merger might not be consummated and the fact that, if the merger is not consummated, (i) Frutarom's directors, senior management and other employees will have expended extensive time and effort and will have experienced significant distractions from their work during the pendency of the merger, (ii) Frutarom will have incurred significant transaction costs, (iii) Frutarom's continuing business relationships with business partners and employees may be adversely affected, (iv) the trading price of Frutarom ordinary shares could be adversely affected and (v) the market's perceptions of Frutarom's prospects could be adversely affected;
- the restrictions on the conduct of Frutarom's business required by the merger agreement (subject to specified exceptions), which may have an adverse effect on Frutarom's ability to respond to changing market and business conditions in a timely manner or at all and to execute its strategic plans;
- subject to certain exceptions, the merger agreement precludes Frutarom from soliciting alternative acquisition proposals and requires Frutarom to pay to IFF a termination fee of \$191 million, if the merger agreement is terminated under certain circumstances, including a termination of the merger agreement by Frutarom to accept a superior proposal. These factors might have the effect of discouraging other parties from making competing proposals that might be more advantageous to Frutarom's shareholders than the merger; and
- the risk that the parties may incur significant costs and delays related to the merger, including resulting from seeking governmental consents and regulatory approvals necessary for completion of the merger.

The foregoing discussion of the information and factors considered by the Frutarom board is intended to be illustrative and not exhaustive, but rather includes the material reasons and factors considered by the Frutarom board in reaching its determination and recommendation in relation to the merger and the merger agreement and the transactions proposed thereby. In view of the wide variety of reasons and factors considered and the complexity of these matters, the Frutarom board did not find it practical to, and did not, quantify or otherwise assign relative weights to the specified factors considered in reaching its determinations or the reasons for such determinations. Individual directors may have given differing weights to different factors or may have had different reasons for their ultimate determination. In addition, the Frutarom board did not reach any specific conclusion with respect to any of the factors or reasons considered. Instead, the Frutarom board conducted an overall analysis of the factors and reasons described above and unanimously determined in its business judgment that, in the aggregate, the potential benefits of the merger to the shareholders of Frutarom outweighed the risks or potential negative consequences.

IFF's Reasons for the Merger

The IFF board unanimously approved the merger agreement and determined that the terms of the merger agreement and the transactions contemplated by the merger agreement, including the merger, are advisable and fair to and in the best interests of IFF and its shareholders. In reaching its determination, the IFF board consulted with IFF's management, as well as with IFF's financial, legal and strategic advisors, and considered a variety of factors weighing favorably towards the transactions, including the factors described below:

- the belief that the combined company will be a global leader in natural taste, scent and nutrition;

Table of Contents

- trends and competitive developments in the flavors and fragrances industry, the range of strategic alternatives available to IFF and the benefits of size and scale;
- the expectation that Frutarom's customer base will provide IFF with increased exposure to complementary and fast-growing small and mid-sized customers, including private label;
- the expectation that the combined company will have an enhanced geographic position in emerging markets;
- Frutarom's complementary flavor capabilities;
- the expectation that Frutarom's portfolio will provide opportunities for expansion into attractive and fast-growing categories, including natural colors, enzymes, antioxidants and health ingredients;
- the belief that the combined company's increased breadth of products will provide complementary offerings and expanded choices to its customers;
- the expectation that the combined company will realize approximately \$145 million of run-rate cost synergies by the third full year after the completion of the merger, with approximately 25% of such synergies achieved in the first full year after completion of the merger;
- the belief that cross-selling opportunities and integrated solutions will provide revenue synergies, creating further value to IFF's shareholders over time;
- the belief that there are opportunities to achieve additional efficiencies in Frutarom's business related to its historical acquisitions;
- the expectation that, given current financial market conditions and the proposed mix of equity and debt financing for the transactions, IFF would be able to finance the cash portion for the merger consideration while maintaining its investment grade credit rating;
- the expectation that the combined company will generate enhanced cash flow to meet operating, financing and strategic needs;
- the amount and form of consideration to be paid in the transactions, including the fixed exchange ratio, and other financial terms of the transactions, including the absence of a requirement for a purchase price adjustment in the event of changes in the market price of IFF common stock or Frutarom ordinary shares;
- the potential payment by Frutarom in certain circumstances of a termination fee of \$191 million;
- the belief, after consultation with legal advisors, that regulatory approvals and clearances required for the consummation of the merger can be obtained;
- the extensive process conducted by the IFF board and the transaction committee, including multiple meetings over the course of more than six months to evaluate the transactions;
- the fact that the IFF board was advised in the negotiation process of the transactions by highly-qualified finance, legal and strategy advisors;
- the recommendation of IFF's management and the transaction committee in favor of the merger; and
- the expectation that the conditions to the consummation of the merger will be satisfied on a timely basis.

The IFF board also identified and considered certain potentially negative factors in its deliberations to be balanced against the positive factors, including:

- the risk that the anticipated benefits of the merger will not be realized in full or in part, including the risks that expected synergies will not be achieved or not achieved within the expected timeframe;

Table of Contents

- the risk that while IFF performed due diligence on Frutarom and its business, the scope of that due diligence was limited and there may be aspects of Frutarom or its business of which IFF is not aware;
- the risk that integrating Frutarom’s diverse and global business will be difficult and costly, particularly due to the significant number of Frutarom’s historical acquisitions;
- other costs associated with the transactions;
- the risk that the regulatory approval process could impose materially burdensome conditions that may adversely affect the business and results of operations of the combined company;
- the dilutive effect on the ownership levels of IFF’s existing shareholders as a result of the issuance of IFF equity securities as part of the merger consideration and the follow-on equity offering in connection with the financing of the merger, and the risk that such issuances may negatively impact the market price of IFF common stock in the medium-term;
- the risk that the incremental debt to be incurred in connection with the financing of the merger will reduce IFF’s financial flexibility;
- execution risk, including the risk of diverting the management of IFF’s focus and resources from other strategic opportunities and from operational matters while working to implement the merger, and other potential disruption associated with combining the companies, and the potential effects of such diversion and disruption on the businesses and customer relationships of IFF and Frutarom;
- the risk that the merger may not be consummated despite the parties’ efforts or that the closing of the transactions may be unduly delayed; and
- the risks associated with the merger, the combined company following the merger, IFF’s business and Frutarom’s business described under the sections entitled “*Cautionary Note Regarding Forward-Looking Statements*” and “*Risk Factors*.”

After consideration of these factors, the IFF board determined that, overall, the potential benefits of the transactions outweighed the potential risks.

This discussion of the information and factors considered by the IFF board includes the material positive and negative factors considered by the IFF board, but it is not intended to be exhaustive and may not include all the factors considered by the IFF board. The IFF board did not quantify or assign any relative or specific weights to the various factors that it considered in reaching its determination to approve the merger agreement and the transactions contemplated by the merger agreement. Rather, the IFF board viewed its position as being based on the totality of the information presented to and factors considered by it. In addition, individual members of the IFF board may have given differing weights to different factors. It should be noted that this explanation of the reasoning of the IFF board and certain information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed in the section entitled “*Cautionary Note Regarding Forward-Looking Statements*.”

Financing of the Merger

IFF’s obligation to complete the merger is not conditioned upon its obtaining financing. IFF anticipates that approximately \$4.3 billion will be required to pay the aggregate cash portion of the merger consideration to the Frutarom shareholders and to pay fees and expenses relating to the merger. IFF intends to fund the cash component of the merger through up to \$3.1 billion of debt financing, cash on hand and the issuance of up to \$2.2 billion in equity securities.

In connection with entering into the merger agreement, IFF entered into a debt commitment letter, under which Morgan Stanley Senior Funding, Inc. agreed to provide, subject to certain conditions, a commitment, for an up to \$5.45 billion 364-day unsecured bridge loan facility to the extent IFF has not received \$5.45 billion of

[Table of Contents](#)

net cash proceeds (and/or qualified bank commitments) from a combination of (a) the issuance by IFF of a combination of equity securities, equity-linked securities and/or unsecured debt securities and/or (b) unsecured term loans, in each case, at or prior to completion of the merger. The bridge loan commitment will be reduced to the extent that IFF obtains certain other debt financing and completes certain equity issuances. On May 21, 2018, IFF, Morgan Stanley Senior Funding, Inc. and certain other financial institutions entered into a bridge joinder agreement to the commitment letter to provide for additional bridge commitment parties.

On June 6, 2018, IFF entered into a term loan credit agreement to replace a portion of the bridge loan facility, reducing the amount of the bridge loan commitments by \$350 million. Under the term loan credit agreement, the lenders thereunder have committed to provide, subject to certain conditions, a senior unsecured term loan facility in an original aggregate principal amount of up to \$350 million, maturing three years after the funding date thereunder. A copy of the term loan credit agreement is filed as an exhibit to the Current Report on Form 8-K filed by IFF on June 8, 2018, which is incorporated by reference into this prospectus.

In connection with the merger, IFF and certain of its subsidiaries has also entered into a second amendment to its revolving credit agreement to amend and restate its existing revolving credit agreement to, among other things, provide for a five-year \$1.0 billion senior unsecured revolving loan credit facility maturing in five years and make certain amendments to conform to the terms of the term loan credit agreement, including increasing the maximum ratio of net debt to EBITDA on and after the closing date of the merger. A copy of the amendment is filed as an exhibit to the Current Report on Form 8-K filed by IFF on June 8, 2018, which is incorporated by reference into this prospectus.

The bridge loans and the term loans will bear interest, at IFF's option, at a per annum rate equal to either (x) an adjusted LIBOR rate plus an applicable margin varying from 0.75% to 2.00% or (y) a base rate plus an applicable margin varying from 0.00% to 1.00%, in each case depending on the public debt ratings for non-credit enhanced long-term senior unsecured debt of IFF, and in the case of the bridge loans, subject to an increase in the applicable margin based on the number of days for which the bridge loans remain outstanding from the date of funding thereunder.

The term loans will amortize quarterly at a per annum rate of 10.0% of the aggregate principal amount of the loans made under the Term Facility on the funding date, commencing at the end of the first full fiscal quarter after funding, with the balance payable on the third anniversary of the funding date. The bridge commitment letter provides for (i) mandatory commitment reductions with the net cash proceeds of certain asset sales and recovery events and the gross cash proceeds of debt or equity issuances or (ii) if the bridge loans have been funded, mandatory prepayments with the net cash proceeds of certain asset sales and recovery events and debt or equity issuances, in each case, subject to customary exceptions. IFF may voluntarily prepay the term loans and the bridge loans without premium or penalty.

The term loan credit agreement contains, and the bridge commitment letter provides that the bridge loan will contain, various covenants, limitations and events of default customary for similar facilities for similarly rated borrowers, including a maximum ratio of net debt to EBITDA (applicable starting after the first full fiscal quarter ending after the funding date) of 4.50x with step-downs over time and a step-up to 6.0x for the first full fiscal quarter after funding if IFF has not issued equity or mandatory convertible securities generating gross proceeds of at least \$1.75 billion on or before the closing date of the merger.

The funding of the term loans under the term loan credit agreement and the bridge loans will be available upon the satisfaction of several limited conditions precedent, including completion of the merger in accordance with the merger agreement, the non-occurrence of a company material adverse effect (as defined in the merger agreement in effect on May 7, 2018) on Frutarom, the accuracy in all material respects of certain representations and warranties related to both IFF and Frutarom, the absence of certain defaults by IFF, the delivery of certain financial statements of IFF and Frutarom and other customary closing conditions.

[Table of Contents](#)

The proceeds of the term loans and the bridge loans are to be used to (i) finance, in part, the cash consideration for the merger, (ii) refinance certain indebtedness of IFF, Frutarom, and/or their respective subsidiaries in connection with the merger, and/or (iii) pay certain fees and expenses incurred in connection with the merger.

The bridge commitments and the commitments under the term loan credit agreement will terminate on the earliest of (i) the consummation of the merger without using the loans under such facility, (ii) the date on which the merger agreement is terminated in accordance with its terms without the closing of the merger, (iii) receipt of written notice by the applicable agent from IFF of its election to terminate such commitments in full and (iv) the termination date (as defined in the merger agreement as in effect on May 7, 2018) (or, if extended as provided in Section 7.1(b)(i) of the merger agreement as in effect on May 7, 2018, then on such extended termination date).

Regulatory Approvals

Completion of the merger is subject to antitrust and competition laws in various jurisdictions.

Under the HSR Act and related rules, the merger may not be completed until notifications have been given and information furnished to the Antitrust Division and the FTC and a 30-calendar-day waiting period has expired, or been terminated. IFF and Frutarom each filed their respective HSR Act notification forms on May 18, 2018 and the applicable waiting period under the HSR Act expired on June 18, 2018 at 11:59 p.m., Eastern Time.

Completion of the merger is further subject to regulatory notifications, clearances and/or approvals in the European Union, Israel, Mexico, Russia, South Africa, Turkey and Ukraine.

At any time before or after the effective time of the merger, notwithstanding the expiration or termination of the applicable statutory waiting period under the HSR Act, the Antitrust Division or the FTC may take action under the antitrust laws, including seeking to enjoin the completion of the merger, to rescind the merger or to conditionally permit completion of the merger subject to regulatory conditions or other remedies. In addition, non-U.S. regulatory bodies and U.S. state attorneys general could take action under other applicable regulatory laws, including, without limitation, seeking to enjoin or otherwise prevent the completion of the merger or permitting completion subject to regulatory conditions. Private parties may also seek to take legal action under regulatory laws under some circumstances. There can be no assurance that a challenge to the merger on antitrust grounds will not be made or, if such a challenge is made, that it would not be successful.

Timing of the Merger

The merger is expected to close within five to nine months following the signing of the merger agreement on May 7, 2018. Neither IFF nor Frutarom can predict, however, the actual date on which the merger will be completed because it is subject to conditions beyond each company's control, including obtaining the necessary regulatory approvals.

See "*The Merger Agreement—Conditions to the Merger*" beginning on page 107.

Certain U.S. Federal Income Tax Consequences of the Merger

The following discussion describes material U.S. federal income tax consequences of (i) the merger generally expected to be applicable to U.S. holders and non-U.S. holders (each as defined below) of Frutarom ordinary shares and (ii) the ownership and disposition of IFF common stock.

The summary is based upon the existing provisions of the Code (as defined below), applicable Treasury Regulations, judicial authority, administrative rulings effective as of the date hereof. These laws and authorities

are subject to change, possibly with retroactive effect. Any such change, which may or may not be retroactive, could alter the tax consequences to the holders of Frutarom ordinary shares and IFF common stock as described herein. The discussion below does not address any state, local or foreign or any U.S. federal tax consequences other than U.S. federal income tax consequences, such as estate and gift tax or FICA (Federal Insurance Contributions Act) tax consequences. The tax treatment of the proposed transaction to holders of Frutarom ordinary shares will vary depending upon their particular situations. Holders should consult their own tax advisors concerning the U.S. federal income tax consequences to them in light of their particular situation, as well as any consequences arising under the laws of any other taxing jurisdiction.

This discussion deals only with Frutarom ordinary shares and IFF common stock held as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”) (generally, property held for investment). This discussion is intended only as a summary of material U.S. federal income tax consequences of the proposed transaction and does not purport to be a complete analysis or listing of all of the potential tax effects relevant to a decision on whether to approve the proposed transaction. In particular, this discussion does not deal with all U.S. federal income tax considerations that may be relevant to particular holders in light of their particular circumstances, such as holders who are dealers in securities; are subject to the alternative minimum tax provisions of the Code; are non-resident aliens present in the United States for 183 days or more in the calendar year of the proposed transaction; are banks, financial institutions or insurance companies; tax-exempt entities; acquired their Frutarom ordinary shares in connection with stock option or stock purchase plans or in other compensatory transactions; hold Frutarom ordinary shares or IFF common stock as part of an integrated investment; own or are deemed to own 5% or more of IFF common stock; own or are deemed to own 10% or more of Frutarom shares by vote or value; hold Frutarom ordinary shares subject to the constructive sale provisions of Section 1259 of the Code; or use a “functional currency” that is not the U.S. dollar. If a partnership holds Frutarom ordinary shares or IFF common stock, the tax treatment of a partner generally will depend on the status of the partner and on the activities of the partnership. Partners of partnerships holding Frutarom ordinary shares or IFF common stock should consult their tax advisers.

As used herein, the term “U.S. holder” means a beneficial owner of Frutarom ordinary shares or IFF common stock that is a citizen or resident of the United States or a domestic corporation or otherwise subject to U.S. federal income tax on a net income basis in respect of such shares. The term “non-U.S. holder” means a beneficial owner of Frutarom ordinary shares or IFF common stock other than a U.S. holder.

Tax Consequences of the Merger to Holders of Frutarom Ordinary Shares

U.S. holders. The receipt of cash and IFF common stock for Frutarom ordinary shares pursuant to the merger will be a taxable transaction for U.S. federal income tax purposes to a U.S. holder of Frutarom ordinary shares. A U.S. holder of Frutarom ordinary shares will generally recognize taxable gain or loss equal to the difference between (1) the shareholder’s adjusted tax basis in the Frutarom ordinary shares surrendered in the exchange, and (2) the sum of the fair market value of the IFF common stock received and the amount of cash (including cash in lieu of fractional IFF common stock) received in the merger.

Any gains or losses recognized by a U.S. holder on the receipt of IFF common stock and cash for Frutarom ordinary shares pursuant to the merger generally will be capital gain or loss. Capital gains of non-corporate U.S. holders (including individuals) will be eligible for the preferential U.S. federal income tax rates applicable to long-term capital gains if the U.S. holder has held its Frutarom ordinary shares for more than one year as of the closing date of the merger and provided other provisions and limitations are met. The deductibility of capital losses is subject to limitations. If a U.S. holder acquired different blocks of Frutarom ordinary shares at different times and different prices, such U.S. holder must determine its adjusted tax basis and holding period separately with respect to each block of Frutarom ordinary shares.

Non U.S. holders. Non-U.S. holders generally will not be subject to U.S. federal income tax on capital gain in respect of Frutarom ordinary shares, subject to the discussion below under “—*Information Reporting and Backup Withholding in the Merger.*”

Information Reporting and Backup Withholding in the Merger

Except in the case of exempt holders, consideration paid to a U.S. holder in the merger may be subject to U.S. information reporting requirements and may be subject to backup withholding unless the U.S. holder provides an accurate taxpayer identification number on a properly completed Internal Revenue Service (“IRS”) Form W-9 (or appropriate successor form) and certifies that no loss of exemption from backup withholding has occurred. Non-U.S. holders may be required to comply with certification and identification procedures in order to establish an exemption from information reporting and backup withholding on such amounts. The amount of any backup withholding will be allowed as a credit against the U.S. holder’s U.S. federal income tax liability and may entitle the U.S. holder to a refund, provided that certain required information is timely furnished to the IRS.

Tax Consequences of Holding Stock in IFF to Non-U.S. Holders

Dividends

A distribution of cash or property with respect to shares of IFF common stock generally will be treated as a dividend to the extent paid out of our current or accumulated earnings and profits. If such a distribution exceeds our current and accumulated earnings and profits, the excess will be first treated as a tax-free return of the non-U.S. holder’s investment, up to the non-U.S. holder’s tax basis in the shares of IFF common stock, and thereafter as a capital gain subject to the tax treatment described below in “—*Sale, Exchange or Other Taxable Disposition of IFF Common Stock.*”

Dividends paid to a non-U.S. holder generally will be subject to withholding of U.S. federal income tax at a 30% rate, or such lower rate as may be specified by an applicable tax treaty.

Even if a non-U.S. holder is eligible for a lower treaty rate, we generally will be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to a non-U.S. holder, unless:

- the non-U.S. holder has furnished a valid IRS Form W-8BEN-E or other documentary evidence establishing the non-U.S. holder’s entitlement to the lower treaty rate with respect to such payments and the withholding agent does not have actual knowledge or reason to know to the contrary, and
- if required by the Foreign Account Tax Compliance Act (“FATCA”) or any intergovernmental agreement enacted pursuant to that law, the non-U.S. holder or any entity through which the non-U.S. holder receives such dividends, if required, has provided the withholding agent with certain information with respect to the non-U.S. holder’s or the entity’s direct and indirect U.S. owners, and if the non-U.S. holder holds the shares of IFF common stock through a non-U.S. financial institution, the institution has entered into an agreement with the U.S. government to report, on an annual basis, certain information regarding accounts with or interests in the institution held by certain United States persons and by certain non-U.S. entities that are wholly or partially owned by United States persons, or has satisfied similar requirements under an intergovernmental agreement between the United States and another country, and the non-U.S. holder has provided any required information to the institution.

If a non-U.S. holder is eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty or otherwise, the non-U.S. holder may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Investors are encouraged to consult with their own tax advisors regarding the possible implications of these withholding requirements on their investments in the shares of IFF common stock.

Sale, Exchange or Other Taxable Disposition of Common Stock.

Non-U.S. holders generally will not be subject to U.S. federal income tax with respect to gain recognized on a sale, exchange or other taxable disposition of shares of IFF common stock.

[Table of Contents](#)

In the case of the sale or disposition of shares of IFF common stock on or after January 1, 2019, a non-U.S. holder may be subject to a 30% withholding tax on the gross proceeds of the sale or disposition unless the FATCA requirements described in the last bullet point under “Dividends” above are satisfied. Investors are encouraged to consult with their own tax advisors regarding the possible implications of these withholding requirements on their investment in the shares of IFF common stock and the potential for a refund or credit in the case of any withholding tax.

Information reporting and backup withholding.

Information returns are required to be filed with the IRS with respect to payments made to certain U.S. holders. In addition, certain U.S. holders may be subject to backup withholding tax in respect of such payments if they do not provide their taxpayer identification numbers to the paying agent, fail to certify that they are not subject to backup withholding tax, or otherwise fail to comply with applicable backup withholding tax rules. Non-U.S. holders may be required to comply with applicable certification procedures to establish that they are non-U.S. holders in order to avoid the application of such information reporting requirements and backup withholding tax. Any amount paid as backup withholding may be creditable against the holder’s U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

Certain Israeli Tax Consequences of the Merger

The following description is not intended to constitute a complete analysis of all Israeli tax consequences of Frutarom shareholders relating to the merger. This summary does not discuss all the aspects of Israeli tax law that may be relevant to a particular person in light of his or her personal circumstances. The discussion should not be construed as legal or professional tax advice and does not cover all possible tax considerations.

Frutarom has filed requests for three tax rulings from the ITA with respect to (i) withholding tax in Israel, regarding the cash consideration paid to Frutarom shareholders; (ii) a deferral of capital gains tax with respect to Frutarom shareholders which hold less than 5% of Frutarom’s issued and outstanding shares through the Nominee Company and Frutarom shareholders which hold less than 5% of Frutarom’s issued and outstanding shares directly and not through the Nominee Company, regarding the stock consideration; and (iii) the Israeli tax treatment applicable to holders of Frutarom stock options and ordinary shares issued to certain directors and employees under Section 102 of the ITO. There can be no assurance that such tax rulings will be granted before the closing or at all or that, if obtained, such tax rulings will be granted under the conditions requested by Frutarom.

Discussions between Frutarom and the ITA regarding the scope of the rulings are ongoing. If and when the tax rulings referenced in the immediately preceding paragraph are finalized, Frutarom will file an immediate report on the Israel Securities Authority’s website, referred to as “MAGNA”, describing the tax rulings. There can be no assurance that such tax rulings will be granted before the completion of the merger or at all, or that if obtained, such rulings will be granted under the conditions requested by Frutarom.

Israeli Capital Gains Tax

Generally, the exchange of Frutarom ordinary shares for the merger consideration would be treated as a sale and subject to Israeli tax both for Israeli and the non-Israeli resident shareholders of Frutarom. However, certain relief and/or exemptions may be available under Israeli law.

Israeli law generally imposes capital gains tax on the real capital gain from the sale of any capital assets by residents of Israel, as defined for Israeli tax purposes, and on the sale of capital assets located in Israel, including shares of Israeli companies by non-residents of Israel, unless a specific exemption is available or a tax treaty

[Table of Contents](#)

between Israel and the shareholder's country of residence provides otherwise. Israeli law distinguishes between real capital gain and inflationary surplus. The real capital gain is the excess of the total capital gain over the inflationary surplus. You should consult your own tax advisor as to the method you should use to determine the inflationary surplus.

Generally, the capital gains tax rate applicable to the real capital gain is 25% for individuals, unless such shareholder claims a deduction for interest and linkage differences expenses in connection with the shares sold, in which case the real capital gain will generally be taxed at a rate of 30%. If such individual is holding or is entitled to purchase, directly or indirectly, alone or together with such person's relative or another person who collaborates with such person on a permanent basis, at least 10% of (i) the voting rights of Frutarom, (ii) the right to receive Frutarom's profits or its assets upon liquidation, (iii) the right to appoint a manager/director, or (iv) the right to instruct any other person to do any of the foregoing (a "Major Stockholder") on the date of sale or on any date falling within the 12-month period preceding that date of sale, such Major Stockholder would be subject to Israeli capital gains tax at the rate of 30%.

The actual capital gains tax rates which may apply to individual Frutarom shareholders on the sale of Frutarom shares (which may be effectively higher or lower than the rates mentioned above) are subject also to various factors including, inter alia, the date on which the shares were purchased, whether the shares are held through a nominee company or by the shareholder, the identity of the shareholder and certain tax elections which may have been made in the past by the shareholder.

In general, companies are subject to the corporate tax rate on real capital gains derived from the sale of shares at the rate of 23% in 2018. Please note that due to certain provisions of the ITO, the effective capital gains tax applicable to certain companies may be different than that specified above.

In general, companies are subject to the corporate tax rate on real capital gains derived from the sale of shares at the rate of 23% in 2018. Due to certain provisions of the ITO, the actual effective capital gains tax applicable to certain companies may be different than that specified above.

Individual and corporate shareholders dealing in securities in Israel are taxed at the tax rates applicable to "business income," currently 23% for companies and a marginal tax rate of up to 47% for individuals, plus an additional tax of 3%, which is imposed on individuals whose annual taxable income exceeds a certain threshold (NIS 641,880 for 2018), see—"Excess Tax" below.

The inflationary surplus is generally exempt from tax, provided that the shares being sold were acquired after December 31, 1993.

Pursuant to Israeli tax law, non-Israeli residents (individuals or corporations) will generally be exempt from Israeli capital gains tax, subject to certain provisions of the ITO, on the sale of Frutarom ordinary shares which were acquired after the company was registered for trade on the Israeli stock exchange. However, non-Israeli corporations will not be entitled to the foregoing exemption if Israeli residents: (i) have a controlling interest of more than 25% in such non-Israeli corporation or (ii) are the beneficiaries of, or are entitled to, 25% or more of the revenues or profits of such non-Israeli corporation, whether directly or indirectly.

Other non-Israeli residents (individuals or corporations) may be exempt from Israeli capital gains tax under the provisions of an applicable tax treaty between Israel and the seller's country of residence (subject to the receipt of a valid certificate from the ITA allowing for an exemption or a reduced tax rate). For example, under the Convention between the Government of the State of Israel and the Government of the United States of America with Respect to Taxes on Income (the "U.S.-Israel Tax Treaty"), Israeli capital gains tax would generally not apply when arising from the sale, exchange or disposition of ordinary shares by a person who qualifies as a resident of the United States within the meaning of the U.S.-Israel Tax Treaty and who holds the shares as a capital asset and is entitled to claim the benefits afforded to such person by the treaty.

[Table of Contents](#)

However, such exemption will not apply if (i) the capital gain arising from such sale, exchange or disposition is attributed to real estate located in Israel; (ii) the capital gain arising from such sale, exchange or disposition is attributed to royalties; (iii) the capital gains from such sale, exchange or disposition may be attributed to a permanent establishment of the U.S. resident that is maintained in Israel, under certain terms, (iv) the U.S. resident holds, directly or indirectly, securities representing 10% or more of the voting rights during any part of the 12-month period preceding the effective time of the sale, exchange or disposition, subject to certain conditions; or (v) the U.S. resident, if an individual, was physically present in Israel for a period or periods aggregating to 183 days or more during the relevant taxable year.

In order to obtain an applicable withholding tax exemption for capital gains tax, certain documentation and/or declarations shall need to be provided to the ITA.

Other countries, including Canada, France, Germany, Japan and the United Kingdom, are party to tax treaties with Israel that, subject to the provisions of those treaties, may exempt a non-Israeli resident shareholder from Israeli tax.

You are urged to consult with your own tax advisor regarding the applicability of these tax treaties to you and your receipt of merger consideration.

Excess Tax

Individuals who are subject to tax in Israel are also subject to an additional tax at a rate of 3% on annual income exceeding a certain threshold (NIS 641,880 for 2018), which amount is linked to the annual change in the Israeli consumer price index, including, but not limited to, dividends, interest and capital gain, subject to the provisions of an applicable tax treaty.

Israeli Tax Withholding

Whether or not a particular shareholder is actually subject to Israeli capital gains tax in connection with the merger, absent receipt by Frutarom of an applicable tax ruling from the ITA prior to closing of the merger, all Frutarom shareholders will be subject to Israeli withholding tax at the rate of 25% (for individuals) and 23% (for corporations) on the gross merger consideration (unless the shareholder requests and obtains an individual certificate of exemption or a reduced tax rate from the ITA, as described below), and IFF or the exchange agent will withhold and deduct from the cash consideration an amount equal to 25%, 23% or such other reduced tax rate as stipulated in the certificate obtained, as applicable, of the gross merger consideration received by such shareholder.

Frutarom is currently in discussions with the ITA on the scope of the final tax rulings and the exemptions that may be provided to Frutarom shareholders and, as of July 1, 2018, no definitive binding ruling has been obtained from the ITA. There can be no assurance that the tax rulings will be granted before the closing of the merger or at all or that, if obtained, the tax rulings will be granted under the conditions requested by Frutarom.

Regardless of whether Frutarom obtains the requested tax rulings from the ITA, any holder of Frutarom ordinary shares who believes that it is entitled to such an exemption from withholding tax (or entitled to a reduced tax rate) may separately apply to the ITA to obtain a certificate of exemption from withholding or an individual tax ruling providing for no withholding or withholding at a reduced rate, and submit such certificate of exemption or ruling to the exchange agent prior to receiving the merger consideration and at least five business days prior to the date that is 180 days following the date of the closing of the merger. If IFF or the exchange agent receives a valid exemption certificate or tax ruling (in form and substance reasonably acceptable to IFF) prior to delivering the merger consideration and at least five business days prior to the date that is 180 days following the date of the closing of the merger, then the withholding (if any) of any amounts under the ITO from the consideration payable shall be made only in accordance with the provisions of such Israeli tax certificate or tax ruling.

[Table of Contents](#)

The Israeli tax withholding consequences of the merger to Frutarom shareholders and holders of Frutarom stock options subject to Section 102 of the ITO may vary depending upon the particular circumstances of each shareholder or holder of Frutarom stock options subject to Section 102 of the ITO, as applicable, and the final tax rulings issued by the ITA.

To the extent that tax is withheld on payments to U.S. taxpayers, it is possible that such withheld taxes may not be able to be credited against such taxpayers' U.S. income tax liability.

Shareholders who received or acquired their Frutarom ordinary shares or were granted stock options or restricted stock awards under one or more of the Frutarom equity-based incentive plans, or otherwise as compensation for employment or services provided to Frutarom, may be subject to different tax rates.

As noted, Frutarom has also filed requests for a tax ruling from the ITA with respect to the withholding tax and other Israeli tax treatment applicable in respect of the merger to holders of Frutarom stock options subject to Section 102 of the ITO (such ruling, as defined below under "*The Merger Agreement—Tax Rulings*", is referred to as the "options tax ruling").

The options tax ruling, if obtained as requested, would confirm, among other things that:

- the treatment of the Frutarom stock options (whether vested or unvested) in the merger would not constitute a violation of Section 102 of the ITO, and holders of such Frutarom stock options will not be subject to Israeli withholding tax at the closing of the merger;
- the statutory holding period under Section 102 of the ITO will continue uninterrupted from the original date of grant; and
- the payment of any consideration to holders of vested Frutarom stock options with respect to such Frutarom stock options will not constitute a violation of Section 102 of the ITO; provided that the consideration paid to the holders of such Frutarom stock options is deposited with the trustee appointed by Frutarom, and approved by the ITA (the "102 Trustee"), for the duration of the statutory holding period under Section 102 of the ITO.

If no tax ruling is obtained for holders of Frutarom stock options subject to Section 102 of the ITO, such holders might be subject to Israeli withholding tax at such holders' marginal tax rates under Israeli law for ordinary income, and may be also subject to withholding for national insurance contributions, depending on the specific circumstances of such holders and the terms and the timing of the grants of Frutarom stock options. In such event, IFF, the exchange agent or the 102 Trustee will withhold and deduct from the cash consideration at such rates, and if the cash consideration is lower than the required amount to be withheld, no IFF common stock will be issued to such holder of Frutarom stock options subject to Section 102 of the ITO, until such holder remits sufficient cash to cover the required amount to be withheld.

The Israeli tax rulings mentioned above may not be obtained or may contain such provisions, terms and conditions as the ITA may prescribe, which may be different from those detailed above. Certain categories of shareholders are expected to be excluded from the scope of any eventual ruling granted by the ITA and the final determination of the type of holders of Frutarom ordinary shares who will be included in such categories will be based on the outcome of the ongoing discussions with the ITA. If IFF or the exchange agent deducts any amount from the merger consideration payable to you in respect of Israeli withholding tax obligations, you should consult your tax advisor concerning the possibility of obtaining a refund from the ITA of any such withheld amounts.

Accounting Treatment

IFF prepares its financial statements in accordance with U.S. GAAP. The merger will be accounted for as an acquisition of Frutarom by IFF under the acquisition method of accounting in accordance with U.S. GAAP. IFF will be treated as the acquiror for accounting purposes.

[Table of Contents](#)

All unaudited pro forma condensed combined financial information contained in this prospectus was prepared using the acquisition method of accounting. The final allocation of the purchase price will be determined after the merger is completed and after completion of an analysis to determine the estimated net fair value of Frutarom's assets and liabilities. Accordingly, the final acquisition accounting adjustments may be materially different from the unaudited pro forma adjustments. Any decrease in the estimated net fair value of the assets and liabilities of Frutarom as compared to the unaudited pro forma information included in this prospectus will have the effect of increasing the goodwill recognized related to the merger.

Voting Agreement

In connection with the execution of the merger agreement, ICC Chemical Corporation and ICC Handels A.G., who collectively beneficially owned 21,358,034 Frutarom ordinary shares as of May 7, 2018, representing approximately 35.87% of the voting power of the issued and outstanding Frutarom ordinary shares as of such date, together entered into a voting agreement with IFF under which each such shareholder agreed, among other things, to: (i) vote its beneficially owned Frutarom ordinary shares (a) in favor of the merger and the other transactions contemplated by the merger agreement, (b) in favor of any proposal to adjourn or postpone a meeting of Frutarom shareholders in the event there are not sufficient votes for approval of any such matters, (c) against any third party acquisition proposals and (d) against any action, proposal, transaction or agreement that would reasonably be likely to prevent, impede or delay Frutarom or IFF's ability to consummate the transactions contemplated by the merger agreement, including the merger; and (ii) comply with certain restrictions on the disposition of such shares, in each case subject to the terms and conditions contained therein. The voting agreement will terminate upon the earliest to occur of (A) the consummation of the merger, (B) the termination of the merger agreement pursuant to and in compliance with its terms, (C) a change of recommendation of the Frutarom board in accordance with the merger agreement or (D) the parties' mutual written agreement to terminate the voting agreement.

NYSE and TASE Listings; Delisting and Deregistration of Frutarom Ordinary Shares

IFF has agreed to take all actions necessary in order to list the shares of IFF common stock on the TASE immediately prior to the completion of the merger. IFF has also agreed, prior to the completion of the merger, to use its reasonable best efforts to obtain the agreement of the TASE to list such shares of IFF common stock and the shares of IFF's common stock to be issued in connection with the merger on the TASE. IFF will file a registration statement with the Israel Securities Authority, or the ISA, and TASE for the listing of the IFF common stock on the TASE. IFF's common stock will be listed on the TASE following the effectiveness of the merger. Prior to the completion of the merger, IFF has further agreed to use its reasonable best efforts to cause the shares of IFF common stock to be issued in connection with the merger to be approved for listing on the NYSE, subject to official notice of issuance. The listing of the shares of IFF's common stock on the NYSE, subject to official notice of issuance, is also a condition to completion of the merger.

If the merger is completed, Frutarom ordinary shares and GDRs will cease to be listed on the TASE and LSE, respectively, in accordance with the applicable rules and policies of the TASE and LSE.

IFF's Dividend Policy

The declaration of future dividends will be at the discretion of the IFF board and will be determined after consideration of various factors, including earnings, cash requirements, the financial condition of IFF and other factors deemed relevant by the IFF board. While IFF cannot assure its future financial performance and cannot guarantee payment of regular cash dividends, it currently anticipates that it will continue to pay dividends on IFF stock in the foreseeable future. Most recently, IFF declared a quarterly dividend of \$0.69 per IFF share, which was paid on April 6, 2018 to holders of record on March 26, 2018. Under the merger agreement, prior to the completion of the merger, IFF may continue to pay its regular quarterly cash dividends in amounts and with record and payment dates consistent with past practice.

Restrictions on Sales of Shares of IFF Common Stock Received in the Merger

All shares of IFF common stock received by Frutarom shareholders in the merger will be freely tradable for purposes of the Securities Act and the Exchange Act, except for shares of IFF common stock received by any Frutarom shareholder who becomes an “affiliate” of IFF after completion of the merger (such as Frutarom directors or executive officers who become directors or executive officers of IFF after the merger). This prospectus does not cover resales of shares of IFF common stock received by any person upon completion of the merger, and no person is authorized to make any use of this prospectus in connection with any resale.

Interests of Certain Persons in the Merger

Frutarom’s executive officers may have interests in the merger that may be in addition to those of Frutarom’s shareholders generally. The Frutarom board was aware of these interests and considered them, among other matters, in approving the merger agreement and recommending that the shareholders approve the merger agreement, the merger and the other transactions contemplated by the merger agreement. These interests are summarized below. The individuals referred to in this section as “executive officers” are the four Company office holders, as defined in the ICL, who are not members of the Frutarom board: Ori Yehudai, President and Chief Executive Officer, Alon Granot, Executive Vice President and Chief Financial Officer, Amos Anatot, Executive Vice President Global Supply Chain and Operations, and Guy Gill, Vice President Finance. The transactions contemplated by the merger agreement will constitute a “change in control”, “change of control”, or term of similar meaning for purposes of the compensation arrangements described below.

Treatment of Unvested Stock Options

As of the completion of the merger, each Frutarom stock option that is outstanding and unvested as of immediately prior to the completion of the merger (including each such Frutarom stock option that is held by an executive officer) will be canceled and converted into the right of the applicable holder to receive, on the applicable vesting date that applies to such unvested Frutarom stock option, subject to the holder’s continued employment with Frutarom or an affiliate through such date, or upon an earlier termination of the holder’s employment that would result in the vesting of such unvested Frutarom stock option under the terms of any applicable contract, a cash payment in U.S. dollars equal to the value of the merger consideration in respect of each net option share subject to such unvested Frutarom stock option, subject to applicable tax withholding. “Net option share” means, with respect to each Frutarom stock option, the quotient of (i) the product of (A) the excess, if any, of the value of the merger consideration over the exercise price per Frutarom ordinary share subject to such Frutarom stock option, multiplied by (B) the number of Frutarom ordinary shares subject to such Frutarom stock option, divided by (ii) the value of the merger consideration. For this purpose, the value of the merger consideration that consists of shares of IFF common stock will equal the product of (1) the number of such shares of IFF common stock multiplied by (2) the IFF stock price. For more details on the calculation of the IFF stock price, see “*The Merger Agreement—Merger Consideration*” beginning on page 85.

However, if Frutarom is unable to obtain a favorable tax ruling with respect to the cancellation of the unvested Frutarom stock options in exchange for cash payments as described above, then each holder of an unvested Frutarom stock option that is subject to Section 102 of the ITO will be entitled to receive the merger consideration (rather than the cash value of the stock and cash portions of the merger consideration) in respect of each net option share subject to such unvested Frutarom stock option.

Between the years 2004 and 2018, Frutarom entered into an agreement with each of the executive officers providing that, upon the executive officer’s qualifying termination of employment within 12 months following a change of control (or in the case of Mr. Gill, a qualifying termination at any time following a change of control), such officer’s unvested Frutarom options will become immediately vested and exercisable. Such accelerated vesting provisions will apply to the officer’s right to receive the cash payment (or, if applicable, merger

[Table of Contents](#)

consideration payment) in respect of his unvested options as described above. The aggregate value of the unvested Frutarom stock options held by Frutarom's four executive officers as of June 28, 2018, the latest practicable date prior to the filing of this prospectus, calculated based on the merger consideration value (determined using a price per share of IFF stock equal to \$127.65, the average closing price for the first five trading days following the first public announcement of the merger on May 7, 2018) and using a USD to ILS exchange rate of 3.586 (the average closing rate for the first five days following the first public announcement of the merger on May 7, 2018) for purposes of converting the applicable exercise prices from ILS to USD, was \$13.379 million.

For more information on equity holdings of Frutarom's executive officers, see the table entitled "*Beneficial Ownership Table*" on page 135 of this prospectus.

Severance Pay

Under the terms of the comfort letter regarding a change in control between Frutarom and each officer, upon a qualifying termination of the officer's employment within twelve months following a change in control (or in the case of Mr. Gill, a qualifying termination at any time following a change in control), Frutarom will continue to pay the officer his salary (other than vacation pay, sick leave, bonuses and options) for a period of six months (or 12 months in the case of Mr. Yehudai and three months in the case of Mr. Gill) beginning on the last day of the notice period. The estimated aggregate cash severance payments that would be due to the executive officers upon a qualifying termination on June 28, 2018 is \$944,570.

Transaction and Retention Bonuses

The merger agreement provides that, subject to obtaining the required approvals under the ICL, (i) at the discretion of the Frutarom board, Mr. Yehudai may receive a cash transaction bonus, payable in a single lump sum immediately prior to the closing of the merger, and (ii) at the discretion of Frutarom's chief executive officer and subject to consultation with IFF, other employees, including executive officers, may receive cash retention bonuses payable 50% at the closing of the merger and 50% one year after the closing, subject to the employee's continued employment through the applicable vesting date, except that the second installment may be payable six months (rather than one year) after the closing with the mutual agreement of IFF and Frutarom and the second installment will vest and become payable upon a qualifying termination of employment on or after the closing date.

Deferred Bonus Options

If the closing of the merger has not occurred by September 30, 2018, then on, or within three business days following, October 1, 2018, Frutarom will, in the ordinary course of business and consistent with past practice, grant Frutarom stock options to the executives of Frutarom who are scheduled to receive such Frutarom stock options (including the executive officers) in payment of the second half of their equity-based bonus in respect of 2017 (such Frutarom stock options are referred to as the "deferred bonus options"). If the closing of the merger occurs on or prior to September 30, 2018, then on, or within three business days following, October 1, 2018, IFF will pay to each executive of Frutarom who is scheduled to receive deferred bonus options (including the executive officers) the cash equivalent of the deferred bonus options that such executive would have received absent the closing of the merger.

THE MERGER AGREEMENT

This section describes the material terms of the merger agreement. The descriptions of the merger agreement in this section and elsewhere in this prospectus are qualified in their entirety by reference to the complete text of the merger agreement, a copy of which is attached as Annex A and is incorporated by reference into this prospectus. This summary does not purport to be complete and may not contain all of the information about the merger agreement that is important to you. You are encouraged to carefully read the entire merger agreement.

Explanatory Note Regarding the Merger Agreement

The merger agreement and the summary of its material terms in this section have been included only to provide you with information about the terms and conditions of the merger agreement. Neither the merger agreement nor the summary of its material terms included in this section is intended to provide any factual information about IFF or Frutarom. The merger agreement contains representations and warranties and covenants of the parties customary for a merger of this nature. The representations and warranties contained in the merger agreement were made only for purposes of the merger agreement as of the specific dates therein; were made solely for the benefit of the parties to the merger agreement; may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between Frutarom and IFF made for the purposes of allocating contractual risk between the parties to the merger agreement instead of establishing these matters as facts; and may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to investors. Investors are not third-party beneficiaries under the merger agreement except for the limited purposes expressly set forth therein and should not rely on the representations and warranties or any descriptions thereof as characterizations of the actual state of facts or condition of the parties thereto or any of their respective subsidiaries or affiliates. Moreover, information concerning the subject matter of representations and warranties may change after the date of the merger agreement, which subsequent information may or may not be fully reflected in IFF's or Frutarom's public disclosures.

For the foregoing reasons, the representations, warranties, covenants and agreements contained in the merger agreement and any descriptions of those provisions should not be read alone or relied on by any persons as characterizations of the actual state of facts about Frutarom or IFF at the time they were made or otherwise. Instead, such provisions or descriptions should be read only in conjunction with the other information provided elsewhere in this prospectus or in the notice of meeting to be issued to Frutarom shareholders by Frutarom or incorporated by reference herein or therein.

Structure of the Merger

The merger agreement provides that, upon the terms and subject to the conditions set forth in the merger agreement, and in accordance with the ICL, at the completion of the merger, Merger Sub will be merged with and into Frutarom. As a result of the merger, the separate existence of Merger Sub will cease, and Frutarom will continue as the surviving company of the merger and will (a) become a wholly owned subsidiary of IFF, (b) continue to be governed by the laws of the State of Israel, (c) maintain a registered office in the State of Israel and (d) succeed to and assume all of the rights, properties and obligations of Merger Sub and Frutarom in accordance with the ICL. The articles of association of Merger Sub, as in effect immediately prior to the completion of the merger, will be the articles of association of the surviving company.

Merger Consideration

At the completion of the merger, upon the terms and subject to the conditions set forth in the merger agreement, each ordinary share of Frutarom issued and outstanding immediately prior to the completion of the merger (other than (1) ordinary shares held by Frutarom as treasury stock (dormant shares) or (2) ordinary shares held directly or indirectly by IFF, Merger Sub or any wholly owned subsidiary of Frutarom, both of which are

collectively referred to herein as excluded shares) will be converted into the right to receive the merger consideration, which is:

- \$71.19 in cash, without interest and subject to applicable tax withholding, from IFF; and
- 0.2490 (referred to as the “exchange ratio”) of a validly issued, fully paid and non-assessable share of IFF common stock, without interest and subject to applicable tax withholding.

If the aggregate number of shares of IFF common stock to be issued pursuant to the merger agreement would exceed 19.9% of the issued and outstanding shares of IFF common stock immediately prior to the entry into the merger agreement, rounded down to the nearest whole share, the exchange ratio will be reduced by the minimum extent necessary such that the foregoing clause is no longer true, and the cash component of the merger consideration will also be increased accordingly.

All fractional shares of IFF common stock that would otherwise be issued to a holder of Frutarom ordinary shares as part of the merger consideration will be aggregated to create whole shares of IFF common stock that will be issued to Frutarom shareholders as part of the merger consideration. If a fractional share of IFF common stock remains payable to a Frutarom shareholder after aggregating all fractional shares of IFF common stock payable to such Frutarom shareholder, then such shareholder will be paid, in lieu of such remaining fractional share of IFF common stock, an amount in cash, without interest, rounded down to the nearest cent, equal to the product of (1) the amount of the fractional share interest in a share of IFF common stock to which such holder would otherwise be entitled and (2) the average of the volume-weighted average prices per share of IFF common stock on the NYSE (as reported by Bloomberg L.P.) on each of the 10 trading days ending with the trading day immediately prior to the closing date (which is referred to as the “IFF stock price”), subject to applicable tax withholding.

IFF shareholders will continue to own their existing shares of common stock of IFF, the form of which will not be changed by the transaction.

Treatment of Equity Awards

For purposes of the summary below in this subsection, a net share means, with respect to a Frutarom stock option or Frutarom restricted stock award, the quotient of (i) the product of (A) the excess, if any, of the value of the merger consideration over the exercise price or purchase price per Frutarom ordinary share (as applicable) subject to such Frutarom stock option or Frutarom restricted stock award immediately prior to the completion of the merger, multiplied by (B) the number of Frutarom ordinary shares subject to such Frutarom stock option or Frutarom restricted stock award immediately prior to the completion of the merger, divided by (ii) the value of the merger consideration. For purposes of the preceding sentence, the value of the merger consideration that consists of shares of IFF common stock will equal the product of (1) the number of such shares of IFF common stock multiplied by (2) the IFF stock price.

Treatment of Vested Options

As of the completion of the merger, each compensatory option to purchase Frutarom ordinary shares that is not a Frutarom restricted stock award (each referred to as a “Frutarom stock option”) that is outstanding and vested immediately prior to the completion of the merger (each referred to as a “vested Frutarom stock option”) will be canceled without any action on the part of any holder thereof in consideration for the right of the holder to receive the merger consideration in respect of each net share subject to such vested Frutarom stock option immediately prior to the completion of the merger, subject to applicable tax withholding.

Treatment of Unvested Options

As of the completion of the merger, each Frutarom stock option that is outstanding and unvested as of immediately prior to the completion of the merger (each referred to as an “unvested Frutarom stock option”) will

be canceled without any action on the part of any holder thereof in consideration for the right of the holder to receive, either (A) on the applicable vesting date that applies to such unvested Frutarom stock option, subject to the holder's continued employment with Frutarom or its affiliate through such date, or (B) upon an earlier termination of the holder's employment that would result in the vesting of such unvested Frutarom stock option under the terms of any applicable contract, except as otherwise provided in the immediately following paragraph, a cash payment in U.S. dollars equal to the value of the merger consideration in respect of each net share subject to such unvested Frutarom stock option as of the applicable vesting date or termination date, subject to applicable tax withholding. For purposes of the preceding sentence, the value of the merger consideration that consists of shares of IFF common stock will equal the product of (1) the number of such shares of IFF common stock multiplied by (2) the IFF stock price. Except as provided in this paragraph and the immediately following paragraph, the right of each holder of an unvested Frutarom stock option to receive the payment described in this paragraph and the immediately following paragraph will be subject to substantially the same terms and conditions (including the applicable vesting schedule) as were applicable to the unvested Frutarom stock option immediately prior to the completion of the merger, including the same vesting restrictions and continued service requirements and the same rights to vesting upon a qualifying termination of employment to the extent applicable.

If Frutarom is unable to obtain the options tax ruling with respect to the cancellation and exchange of unvested Frutarom stock options that are 102 options (as defined below under "*—Conversion of Shares; Payment Procedures; Withholding*") in accordance with the immediately preceding paragraph prior to the closing of the merger, then, instead of the cash payment described in the immediately preceding paragraph, each holder of an unvested Frutarom stock option that is a 102 option will be entitled to receive the merger consideration in respect of each net share. Any merger consideration payable pursuant to this paragraph will be payable subject to all of the same terms and conditions described in the immediately preceding paragraph.

Treatment of Vested Restricted Stock Awards

As of the completion of the merger, each compensatory award relating to Frutarom ordinary shares that is designated as a restricted stock award in the applicable award agreement (each referred to as a "Frutarom restricted stock award") that is outstanding and vested immediately prior to the completion of the merger (each referred to as a "vested Frutarom restricted stock award") will be canceled without any action on the part of any holder thereof in consideration for the right to receive the merger consideration in respect of each net share subject to such vested Frutarom restricted stock award immediately prior to the completion of the merger, subject to applicable tax withholding.

Treatment of Unvested Restricted Stock Awards

As of the completion of the merger, each Frutarom restricted stock award that is outstanding and unvested as of immediately prior to the completion of the merger (each referred to as an "unvested Frutarom restricted stock award") will be canceled without any action on the part of the holder thereof in consideration for the right of the holder to receive, on the applicable vesting date that applies to such unvested Frutarom restricted stock award, subject to the holder's continued employment with Frutarom or its affiliate through such date, a cash payment in U.S. dollars equal to the value of the merger consideration in respect of each net share subject to such unvested restricted stock award as of the applicable vesting date, subject to applicable tax withholding. For purposes of the preceding sentence, the value of the merger consideration that consists of shares of IFF common stock will equal the product of (1) the number of such shares of IFF common stock multiplied by (2) the IFF stock price. Except as provided in this paragraph, the right of each holder of an unvested Frutarom restricted stock award to receive the payment described in this paragraph will be subject to substantially the same terms and conditions (including the applicable vesting schedule) as were applicable to the unvested Frutarom restricted stock awards immediately prior to the completion of the merger, including the same vesting restrictions and continued service requirements.

[Table of Contents](#)

Prior to the completion of the merger, the Frutarom board or a committee thereof will adopt applicable resolutions to give effect to the transactions contemplated under “Treatment of Equity Awards”. Frutarom will not take any action after the date of the merger agreement that would accelerate the vesting of the Frutarom stock options or the Frutarom restricted stock awards.

In addition to the foregoing, the actual amounts and timing of payments to holders of vested and unvested options and restricted stock awards will be subject to the provisions of certain tax rulings, as applicable. See “— *Conversion of Shares; Payment Procedures; Withholding*” below.

Closing and Effectiveness of the Merger

Unless another time, date or place is agreed to in writing by Frutarom and IFF, the closing of the merger will occur at the offices of Naschitz, Brandes, Amir & Co., 5 Tuval Street, Tel Aviv, Israel at 9:00 a.m. (local time) on a date to be specified by Frutarom and IFF, but no later than the third business day after the satisfaction or waiver of the closing conditions set forth in the merger agreement (other than those conditions that by their terms are to be satisfied by action to be taken at the closing, but subject to the satisfaction or waiver (by the party entitled to waive the applicable condition) of such conditions).

The merger will become effective upon the issuance by the Companies Registrar of the certificate of merger in accordance with Section 323(5) of the ICL.

Operations

For a period of at least three years from the closing of the merger, IFF and the surviving company intend to maintain the surviving company’s research and development and manufacturing presence in Israel at substantially the same levels as such activities are conducted immediately prior to the closing of the merger.

Conversion of Shares; Payment Procedures; Withholding

The conversion of Frutarom ordinary shares (other than the excluded shares) into the right to receive the merger consideration will occur automatically at the completion of the merger. Each excluded share held by any wholly owned subsidiary of Frutarom will be converted into and become such number of fully paid and non-assessable ordinary shares of the surviving company such that the ownership percentage of any such subsidiary in the surviving company immediately following completion of the merger will equal the ownership percentage of such subsidiary in Frutarom immediately prior to completion of the merger.

Promptly after the completion of the merger, and in no event later than the fifth business day after such time, IFF’s exchange agent will mail to each holder of record of Frutarom ordinary shares, in certificated or book-entry form, that were converted into the right to receive the merger consideration (other than Frutarom ordinary shares issued upon previous exercise or settlement of 102 options (as defined below) and held by the 102 Trustee and Frutarom ordinary shares subject to Frutarom restricted stock awards) (A) in the case of holders of certificates, a letter of transmittal in customary form and reasonably satisfactory to Frutarom, which will specify that delivery will be effected, and risk of loss and title to such certificates will pass only upon delivery of such certificates (or affidavits of loss in lieu of such certificates) to the exchange agent, (B) a declaration in which the beneficial owner of Frutarom ordinary shares provides certain information necessary for IFF to determine whether any amounts need to be withheld from the merger consideration payable to such beneficial owner and (C) instructions for use in effecting the surrender of such certificates and book-entry shares in exchange for (1) cash in an amount equal to the cash consideration multiplied by the number of Frutarom ordinary shares represented by such certificates and/or book-entry shares, (2) the number of shares of IFF common stock representing, in the aggregate, the whole number of shares that such holder has the right to receive in respect of such certificates and/or book-entry shares pursuant to the merger agreement, (3) any dividends or distributions payable pursuant to the merger agreement and (4) any cash in lieu of fractional shares of IFF common stock payable pursuant to the merger agreement, referred to collectively as the exchange payment.

Table of Contents

In the case of certificates, upon surrender of a certificate (or affidavit of loss in lieu thereof) for cancellation to the exchange agent, together with a letter of transmittal, the declaration for tax withholding purposes and/or a valid certificate, ruling or any other written instructions regarding tax withholding issued by the ITA, in each case duly completed and validly executed in accordance with the instructions, and such other documents as may be required pursuant to such instructions, the holder of such certificate will be entitled to receive in exchange, and IFF will cause the exchange agent to pay and deliver in exchange, as promptly as reasonably practicable, the exchange payment.

In the case of book-entry shares, upon receipt of the declaration for tax withholding purposes and/or a valid certificate, ruling or any other written instructions regarding tax withholding issued by the ITA, in each case duly completed and validly executed in accordance with the instructions, the holder of such book-entry shares will be entitled to receive in exchange, and IFF will cause the exchange agent to pay and deliver in exchange, as promptly as reasonably practicable, the exchange payment. No holder of book-entry shares will be required to deliver a certificate or letter of transmittal or surrender such book-entry shares to the exchange agent.

At the completion of the merger, all issued and outstanding Frutarom ordinary shares will no longer be outstanding and will automatically be canceled, retired and cease to exist, and each holder of a certificate or book-entry share that represented Frutarom ordinary shares immediately prior to the completion of the merger will cease to have any rights with respect to such ordinary share, other than the right to receive the merger consideration as described above and subject to the terms and conditions set forth in the merger agreement. No interest will be paid or will accrue for the benefit of holders of the certificates or book-entry shares on the cash or other merger consideration payable pursuant to the merger agreement.

The holders of IFF common stock issued in exchange for certificates or book-entry shares as described above will receive, without interest (1) at the time of delivery of the IFF common stock by the exchange agent, the amount of dividends or other distributions, if any, with a record date after the completion of the merger paid with respect to such shares of IFF common stock and (2) at the appropriate payment date, the amount of dividends or other distributions, if any, with a record date after the completion of the merger but before the delivery of IFF common stock by the exchange agent and a payment date subsequent to such delivery of such IFF common stock by the exchange agent pursuant to the merger agreement, payable with respect to such shares of IFF common stock.

Immediately after the completion of the merger, IFF will transfer the aggregate consideration with respect to Frutarom stock options subject to Section 102 of the ITO, which are referred to as the "102 options", and the aggregate merger consideration with respect to Frutarom ordinary shares issued upon previous exercise or settlement of 102 options and held by the 102 Trustee, to the 102 Trustee, on behalf of holders of such options and shares, as the case may be. The 102 Trustee will release such consideration to the beneficial holders of such options and shares, as applicable, together with any interest earned thereon by virtue of the investment of such amounts by the 102 Trustee, in accordance with the terms and conditions of Section 102 of the ITO and the options tax ruling, if obtained.

Immediately after the completion of the merger, IFF will (or will cause its exchange agent to) promptly deposit the aggregate consideration with respect to vested Frutarom stock options (other than 102 options) and with respect to vested Frutarom restricted stock awards, with the surviving company or, if applicable, its relevant engaging subsidiary at one or more accounts designated by Frutarom prior to closing for the benefit of the holders of such options and restricted stock awards, respectively, which amounts will be paid by the surviving company or, if applicable, the relevant engaging subsidiary, to the respective holders thereof through the surviving company's or, if applicable, the relevant engaging subsidiary's payroll system, subject to applicable withholdings by the surviving company or, if applicable, the relevant engaging subsidiary, as promptly as practicable after the completion of the merger.

All shares of IFF common stock issued pursuant to the merger agreement will be issued in book-entry form.

Table of Contents

Each of IFF, Frutarom, the surviving company, the 102 Trustee and IFF's exchange agent (each referred to as a "payor") will be entitled to deduct and withhold from any amounts otherwise payable pursuant to the merger agreement to any person or entity such amounts as are required to be deducted and withheld with respect to the making of such payment under the applicable tax ruling, if obtained, or any provision of applicable tax law. Any amounts so withheld will be treated for all purposes of the merger agreement as having been paid to the person or entity in respect of which such deduction and withholding was made; provided that, with respect to the withholding of Israeli tax, in the event any holder of record of Frutarom ordinary shares or Frutarom stock options or a Frutarom restricted stock award provides a valid certificate, ruling or any other written instructions issued by the Israel Tax Authority regarding the withholding (or exemption from withholding) of Israeli tax from the consideration payable in respect thereof in accordance with the merger agreement (referred to as a "valid tax certificate"), then the deduction and withholding of any amounts under the ITO or any other provision of Israeli law or requirement, if any, from the consideration payable to such holder of record will be made only in accordance with the provisions of such valid tax certificate. To the extent amounts are so withheld, they will be paid over to the appropriate governmental authority prior to the last day on which such payment is required, and then such withheld amounts will be treated for all purposes of the merger agreement as having been paid to the person or entity in respect of which such deduction and withholding was made. To the extent any payor withholds any amounts, such payor will provide the affected person or entity, as soon as practicable (but no later than within thirty business days), with sufficient evidence regarding such withholding.

Notwithstanding the provisions in the immediately preceding paragraph, with respect to Israeli taxes, the consideration payable to each shareholder of Frutarom will be retained by IFF's exchange agent for the benefit of each such shareholder for a period of up to 180 days from closing (referred to as the "withholding drop date") (during which time no payor will make any payments to any shareholder of Frutarom or withhold any amounts for Israeli taxes from the payments deliverable pursuant to the merger agreement). If no later than five business days prior to the withholding drop date a valid tax certificate is delivered to payor, then, with respect to the affected shareholders, the deduction and withholding of any Israeli taxes will be made only in accordance with the provisions of such valid tax certificate and the balance of the payment that is not withheld will be paid to such shareholders concurrently therewith subject to any non-Israeli withholding which is applicable to the payment (if any). If any shareholder of Frutarom (i) does not provide payor with or is not the subject of a valid tax certificate, by no later than five business days before the withholding drop date, or (ii) submits a written request with payor to release its portion of the consideration prior to the withholding drop date and fails to submit a valid tax certificate at or before such time, then the amount to be withheld from such shareholder's portion of the consideration will be calculated according to the applicable withholding rate as reasonably determined by IFF in accordance with applicable law (increased by interest plus linkage differences, as defined in Section 159A of the ITO, for the period between the 15th day of the calendar month following the month during which the closing occurs and the time the relevant payment is made, and calculated in NIS based on a US\$:NIS exchange rate not lower than the effective exchange rate at the closing) as reasonably determined by IFF and its exchange agent.

Table of Contents

Certain of the representations and warranties made by the parties are qualified as to “knowledge,” “materiality” or “material adverse effect.” For purposes of the merger agreement, “material adverse effect,” when used in reference to IFF or Frutarom, means any event, occurrence, effect, development or change that has a material adverse effect on the business, financial condition or results of operations of the referenced party and its subsidiaries, taken as a whole, except that, for purposes of the definition of “material adverse effect,” none of the following (or the results thereof) will constitute a material adverse effect or be taken into account in determining whether a material adverse effect has occurred or is reasonably expected to occur:

- changes in general economic, financial market, regulatory, financial, political, geopolitical, credit or capital market conditions, including interest or exchange rates;
- general changes or developments in any of the industries or markets or geographic regions in which the referenced party or any of its subsidiaries operate;
- changes in any applicable laws or accounting regulations or principles or interpretations thereof;
- acts of war (whether or not declared), hostilities, military actions or acts of terrorism, or any escalation or worsening of the foregoing, weather-related events, fires, natural disasters or any other acts of God;
- any change in the price or trading volume of the referenced party’s securities or other financial instruments or change in the referenced party’s credit rating, in and of itself (except that the facts or occurrences giving rise to or contributing to such change that are not otherwise excluded from the definition of “material adverse effect” may constitute or be taken into account in determining whether a material adverse effect has occurred);
- any failure, in and of itself, by the referenced party to meet its internal or published projections, plans or forecasts of its revenues, earnings or other financial performance or results of operations or any published analyst or other third-party estimates or expectations of the referenced party’s revenue, earnings or other financial performance or results of operations for any period (except that the facts or occurrences giving rise to or contributing to such failure that are not otherwise excluded from the definition of “material adverse effect” may constitute or be taken into account in determining whether a material adverse effect has occurred);
- any action taken or not taken as expressly required by the merger agreement (other than in performance of the referenced party’s obligation to conduct its business and the business of its subsidiaries in the ordinary course of business in all material respects and to use commercially reasonable efforts to preserve its material assets and business organization and maintain its existing material business relationships) or at the express written request of, or with the express written consent of, the other party or its representatives; or
- the identity of the other party or any of its affiliates, the execution of the merger agreement, the public announcement, pendency or completion of the merger or the other transactions contemplated by the merger agreement (including any effect on any of the referenced party’s or any of its subsidiaries’ relationships with their respective customers, suppliers, employees or other third parties), except with respect to any representation or warranty that is intended to address the consequences of the execution, delivery or performance of the merger agreement or the consummation of the transactions contemplated by the merger agreement;

provided that the exceptions in the first four bullets will not apply to the extent the events, occurrences, effects, developments or changes set forth in such bullets have a disproportionate impact on the referenced party and its subsidiaries, taken as a whole, relative to the other participants in the industries in which the referenced party and its subsidiaries operate, in which case only the extent of such disproportionate impacts (if any) will be taken into account when determining a “material adverse effect.”

- conduct the business of IFF and its subsidiaries in the ordinary course of business in all material respects; and
- to the extent consistent with the prior bullet, use commercially reasonable efforts to preserve its material assets and business organization and maintain its existing relationships with material customers, suppliers, distributors, regulators and business partners.

In addition, IFF has agreed that, prior to the completion of the merger or the termination of the merger agreement in accordance with its terms, except as may be required by law, as may be consented to in writing by Frutarom (which consent will not be unreasonably withheld, delayed or conditioned), or as may be expressly

contemplated or required by the merger agreement, it will not, and will cause its subsidiaries not to, directly or indirectly, subject to certain exceptions:

- amend IFF's and Merger Sub's certificate of incorporation, articles of association or by-laws, as applicable, in a manner that would be disproportionately (relative to other holders of IFF stock) adverse to Frutarom or Frutarom shareholders or would, or would reasonably be expected to, prevent, impede or delay the completion of the merger or the other transactions contemplated by the merger agreement;
- split, reverse split, combine, subdivide, reclassify, redeem, repurchase or otherwise acquire IFF's capital stock or other equity or voting securities, or any options, warrants, convertible securities or other rights of any kind to acquire any shares of IFF's capital stock or other equity or voting securities;
- issue, sell, pledge, dispose of, encumber or grant any shares of IFF common stock, or other equity or voting securities of IFF, or any options, warrants, convertible securities or other rights of any kind to acquire any IFF common stock or other equity or voting securities of IFF, in each case to the extent any such actions (either alone or together with any other transaction) would require, prior to the closing of the merger, a vote of the shareholders of IFF;
- declare, set aside, authorize, make or pay any dividend or other distribution, payable in cash, stock, property or otherwise, with respect to IFF's or any of its subsidiaries' capital stock or other equity interests with a record date that is prior to the closing of the merger, except for (i) IFF's regular quarterly cash dividends, in amounts and with record and payment dates for such dividends consistent with past practice, and (ii) intercompany cash dividends or distributions paid by any of IFF's wholly owned subsidiaries to IFF or any of its other wholly owned subsidiaries;
- merge or consolidate IFF with any person or entity (except, in certain circumstances, any wholly owned subsidiary of IFF so long as IFF is the surviving corporation) or adopt a plan of complete or partial liquidation, dissolution, recapitalization or other reorganization of IFF; or
- commit to, authorize or adopt any resolutions approving, or announce an intention to do, any of the foregoing.

Shareholder Meeting and Board Recommendation

The merger agreement requires Frutarom to (1) as promptly as reasonably practicable following effectiveness of the registration statement of which this prospectus forms a part, set a record date for, duly call, give notice of, convene and hold a special meeting of its shareholders (together with any adjournment or postponement of the special meeting) for the purpose of seeking the approval of the merger proposal, (2) submit the merger proposal to its shareholders at such meeting and (3) not submit any other proposal in connection with such meeting without IFF's prior written consent, other than (a) a customary proposal regarding adjournment of the meeting and (b) proposals required or appropriate to approve compensation arrangements for officers, employees or affiliates of Frutarom as contemplated by the merger agreement. Frutarom is only entitled to adjourn or postpone the special meeting without IFF's consent (not to be unreasonably withheld, conditioned or delayed) (1) after consultation with IFF, if adjournment or postponement is necessary to ensure any supplement or amendment to the proxy statement relating to the shareholder meeting is provided to shareholders within a reasonable amount of time in advance of the special meeting, or (2) to a date that is in the aggregate not more than 30 days following the originally scheduled date (or the date rescheduled per the prior clause) if there are not sufficient votes at such meeting to constitute a quorum or to obtain approval of the merger proposal, to allow reasonable additional time for solicitation of proxies.

If the Frutarom board has not made an adverse recommendation change (as defined below under "*—Adverse Recommendation Change; Certain Prohibited Actions*") pursuant to the terms of the merger agreement, the merger agreement requires that the Frutarom board (1) recommend that Frutarom shareholders approve the merger proposal, which is referred to as the "Frutarom board recommendation", (2) include the Frutarom board recommendation in the proxy statement relating to the shareholder meeting and (3) use its reasonable best efforts

[Table of Contents](#)

to (a) solicit from its shareholders proxies in favor of the merger proposal, and (b) otherwise seek to obtain shareholder approval at the shareholder meeting.

Even if an adverse recommendation change has been made pursuant to the terms of the merger agreement, unless the merger agreement has been terminated in accordance with its terms, the obligations of the parties under the merger agreement will continue in full force and effect. Unless the merger agreement has been terminated in accordance with its terms, neither the commencement, public proposal, public disclosure or communication to Frutarom of any acquisition proposal (as defined below under “—*No Solicitation*”), nor the making of any adverse recommendation change will affect the obligations of Frutarom to set a record date for, duly call, give notice of, convene and hold a special meeting of the shareholders in accordance with the terms of the merger agreement.

Appropriate Action; Consents; Filings

Each of IFF and Frutarom has agreed to cooperate with each other and use (and cause their respective subsidiaries to use) their respective reasonable best efforts to complete the transactions contemplated by the merger agreement and to cause the conditions to the completion of the merger to be satisfied as promptly as reasonably practicable, including, among other things, using reasonable best efforts to accomplish the following as promptly as reasonably practicable:

- the obtaining of all actions or non-actions, consents, approvals, registrations, waivers, permits, authorizations, orders, expirations or terminations of waiting periods, and other confirmations from any governmental authority or other person or entity that are or may become necessary, proper or advisable in connection with the merger;
- the defending of any lawsuits or other legal, administrative or other similar proceedings or actions, whether judicial or administrative, challenging the merger agreement or that would otherwise prevent or delay the completion of the merger in accordance with the terms of the merger agreement, including seeking to have any stay, temporary restraining order or injunction entered by any court or other governmental authority vacated or reversed; and
- the execution and delivery of any additional instruments that are or may become reasonably necessary, proper or advisable to complete the transactions contemplated by the merger agreement.

Each of the parties to the merger agreement agreed to, in consultation and cooperation with the other parties and as promptly as practicable, but in no event later than as required by law, and in the case of the HSR Act, within 10 business days of the date of the merger agreement, make its respective notices, filings and applications under the HSR Act (which the parties filed on May 18, 2018) and any other applicable antitrust law. Neither IFF nor Frutarom will withdraw any such notices, filings or applications without the prior written consent of the other party. Notwithstanding the foregoing, without the prior written consent of IFF (not to be unreasonably withheld, conditioned or delayed), Frutarom will not make any material payment to any third party in connection with seeking or obtaining its consent to the transactions contemplated by the merger agreement.

Each of the parties has agreed to (1) furnish to the other such necessary information and reasonable assistance as the other may request in connection with the preparation of any governmental filings, submissions or other documents; (2) give the other reasonable prior notice of any such filing, submission or other document and, to the extent reasonably practicable, of any communication with or from any governmental authority regarding the transactions contemplated by the merger agreement, and permit the other to review (to the extent not prohibited by applicable law or by the applicable governmental authority) and discuss in advance, and consider in good faith the views, and secure the participation, of the other in connection with any such filing, submission, document or substantive communication; and (3) cooperate in responding as promptly as reasonably practicable to any investigation or other inquiry from a governmental authority or in connection with any legal, administrative or other similar proceeding or action initiated by a governmental authority or private party,

Table of Contents

including informing the other party as soon as practicable of any such investigation, inquiry or legal, administrative or other similar proceeding or action, and consulting in advance, to the extent practicable, before making any presentations or submissions to a governmental authority, or, in connection with any legal, administrative or other similar proceeding or action initiated by a private party, to any other person or entity.

Each of the parties has also agreed to give reasonable prior notice to and consult with the other in advance of any meeting, conference or substantive communication with any governmental authority, or, in connection with any legal or administrative or other similar proceeding or action by a private party, with any other person or entity, and to the extent not prohibited by applicable law or by the applicable governmental authority, not participate or attend any meeting or conference, or engage in any communication, with any governmental authority or such other person or entity in respect of the transactions contemplated by the merger agreement without offering the other party the possibility to participate, attend or engage in such meetings, conferences or communications, and in the event one party is prohibited from, or unable to participate, attend or engage in, any such meeting, conference or substantive communication, keep such party apprised with respect thereto.

To the extent not prohibited by applicable law or by the applicable governmental authority and subject to certain limitations (including with respect to sensitive information of a party), each party has agreed to furnish to the other copies of all filings, submissions, correspondence and communications between it and its subsidiaries and their respective representatives, on the one hand, and any governmental authority or members of any government authority's staff (or any other person or entity in connection with any legal, administrative or other similar proceeding or action initiated by a private party), on the other hand, with respect to the transactions contemplated by the merger agreement.

Frutarom and IFF have agreed to jointly develop the strategy relating to the antitrust laws and consult and cooperate with one another, and consider in good faith the views of one another, regarding the form and content of any analyses, appearances, presentations, memoranda, briefs, arguments, opinions and proposals made or submitted by or on behalf of either party in connection with proceedings under or relating to any antitrust law prior to their submission, provided that, subject to its consultation obligations with respect to Frutarom, IFF will ultimately control, and have final decision-making authority with respect to, the parties' strategy relating to the antitrust laws.

IFF has agreed to, and has agreed to cause each of its subsidiaries to, take any and all actions necessary to obtain each consent required under or in connection with any applicable antitrust law, and to enable all waiting periods under any applicable antitrust law to expire or terminate, and to avoid or eliminate each and every impediment under any applicable antitrust law that may be asserted by any governmental authority so as to enable the consummation of the merger as promptly as practicable, and in any event prior to February 7, 2019, including at IFF's sole cost (i) comply with all restrictions and conditions, if any, imposed or requested by any governmental authority with respect to antitrust laws in connection with granting any necessary clearance or terminating any applicable waiting period, including (A) agreeing to sell, divest, hold separate, license, cause a third party to acquire, or dispose of, otherwise encumber or impair or take any other action with respect to any subsidiary, operations, divisions, businesses, product lines, customers, assets or properties of IFF, its affiliates, Frutarom or its subsidiaries contemporaneously with or after the closing and regardless as to whether a third party has been identified or approved prior to the closing, (B) taking or committing to take such other actions that may limit or otherwise affect IFF's, its subsidiaries', Frutarom's or its subsidiaries' freedom of action with respect to, or its ability to retain, one or more of its operations, divisions, businesses, product lines, customers, assets or properties and (C) entering into any order, consent decree or other agreement to effectuate any of the foregoing and (ii) oppose fully and vigorously any request for, the entry of, and seek to have vacated or terminated, any order of any governmental authority with respect to antitrust laws that could restrain, prevent or delay the closing, including by defending through litigation (including by retaining all appropriate expert witnesses and consultants) any action asserted by any person or entity in any court or before any governmental authority with respect to antitrust laws and by exhausting all avenues of appeal, including appealing properly any adverse decision or order by any governmental authority with respect to antitrust laws.

[Table of Contents](#)

Notwithstanding the preceding paragraph, IFF will not be required to take, or agree to take, any of the actions contemplated by the foregoing paragraph with respect to IFF, the surviving company or any of their respective subsidiaries if any such actions would, individually or in the aggregate, reasonably be expected to be material and adverse to IFF, the surviving company and their respective subsidiaries (but measured on a scale relative to Frutarom and its subsidiaries, taken as a whole), and Frutarom will neither agree nor permit any of its subsidiaries to agree without the prior written consent of IFF to take any such actions (provided that, if IFF so directs, Frutarom will agree, so long as such agreement or action is conditioned upon the closing). Nothing in the foregoing paragraph and this paragraph will require either IFF or Frutarom to effectuate or agree to effectuate any of the transactions or restrictions contemplated by the foregoing paragraph and this paragraph unless such transactions or restrictions are conditioned upon the closing.

Each of Frutarom and IFF have agreed that, between the date of the merger agreement and the earlier of the completion of the merger and the termination of the merger agreement in accordance with its terms, it will not, and will ensure that none of its subsidiaries will, consummate, enter into any agreement providing for, or announce, any investment, acquisition, divestiture or other business combination that would reasonably be expected to materially impede, materially delay or prevent or adversely affect (i) the obtaining of any consent of any governmental authority or expiration or termination of any applicable waiting period necessary to consummate the transactions contemplated by the merger agreement or (ii) the consummation of the transactions contemplated by the merger agreement.

No Solicitation

Frutarom has agreed between May 7, 2018 and the earlier of the completion of the merger and the termination of the merger agreement:

- that it will, and will cause its subsidiaries, and its and their respective officers and directors to, immediately cease, and will instruct and use reasonable best efforts to cause its and their respective other representatives to immediately cease, all existing discussions, negotiations and communications with any person or entity with respect to any “acquisition proposal,” which term refers to a proposal or offer from any person or entity (other than IFF, Merger Sub or their respective subsidiaries or representatives) providing for any (1) merger, consolidation, share exchange, business combination, recapitalization or similar transaction involving Frutarom, pursuant to which any such person or entity (including such person’s or entity’s direct or indirect shareholders immediately prior to such transaction) would own or control, directly or indirectly, 20% or more of the voting power of Frutarom immediately following such transaction, (2) sale or other disposition, directly or indirectly, of assets of Frutarom (including the capital stock or other equity interests of any of its subsidiaries) and/or any subsidiary of Frutarom representing 20% or more of the consolidated assets, revenues or net income of Frutarom and its subsidiaries, taken as a whole, (3) issuance or sale or other disposition of capital stock or other equity interests representing 20% or more of the voting power of Frutarom, (4) tender offer, exchange offer or any other transaction or series of transactions in which any person or entity would acquire, directly or indirectly, beneficial ownership of capital stock or other equity interests representing 20% or more of the voting power of Frutarom or (5) any related combination of the foregoing;
- that it will not, and will cause its subsidiaries and its and their respective officers and directors not to, and will instruct and use its reasonable best efforts to cause its other representatives not to, directly or indirectly (1) initiate, seek, solicit, knowingly facilitate, or knowingly encourage the making or submission of an acquisition proposal, (2) enter into or engage in any negotiations or discussions with, or provide any non-public information to, or afford access to the business, properties, assets, books or records of Frutarom or any of its subsidiaries to, any person or entity (other than IFF or any of its representatives) relating to or for the purpose of encouraging or facilitating an acquisition proposal (other than to state that the terms of the merger agreement prohibit such discussions) or (3) grant any waiver or release under any standstill or similar agreement (unless the Frutarom board determines in

Table of Contents

good faith that the failure to grant such waiver or release would be inconsistent with its fiduciary duties under Israeli law, in which case Frutarom may waive any such standstill provision in order to permit a third party to make and pursue an acquisition proposal);

- it will not provide any third party access, and will terminate access of any third party who has made or indicated an interest in making an acquisition proposal, to any data room containing any nonpublic information of Frutarom or any of its subsidiaries; and
- it will demand the return or destruction of all confidential, non-public information and materials that have been provided to third parties that have entered into confidentiality agreements relating to a possible acquisition proposal with Frutarom or any of its subsidiaries.

Notwithstanding the foregoing, prior to obtaining the Frutarom shareholder approval (and in no event after receipt of shareholder approval), if Frutarom receives a bona fide acquisition proposal from a third party made after the date of the merger agreement that did not result from a material breach of the foregoing, then Frutarom may:

- contact the person or entity or any of its representatives who has made such acquisition proposal solely to clarify the terms of such acquisition proposal so that the Frutarom board (or any committee thereof) may inform itself about such acquisition proposal;
- afford access to or furnish information concerning itself and its business, properties or assets or provide access to a data room to such person or entity or any of the representatives of the person or entity who has made such acquisition proposal pursuant to a confidentiality agreement with confidentiality terms that, taken as a whole, are not materially less favorable to Frutarom than those contained in the confidentiality agreement, dated as of March 15, 2018, between IFF and Frutarom, as amended from time to time; and
- negotiate and participate in discussions and negotiations with such person or entity or any of its representatives concerning such acquisition proposal if, in the case of the circumstances described in the immediately preceding part of this bullet and the prior bullet point, the Frutarom board determines in good faith, after consultation with its outside financial advisor and outside legal counsel, that such acquisition proposal constitutes or is reasonably likely to constitute or result in a “superior proposal,” which term refers to a bona fide written acquisition proposal (except that references to “20%” in the definition of acquisition proposal are replaced with references to “50%”) that the Frutarom board determines in good faith would result in a transaction (1) that, if completed, is more favorable to Frutarom shareholders from a financial point of view than the merger (taking into account at the time of determination all relevant circumstances the Frutarom board deems proper, including the various legal, financial and regulatory aspects of such proposal, all the terms and conditions of such proposal (including any termination or break-up fees, expense reimbursement provisions and any conditions, potential time delays or other risks to consummation) and the merger agreement, and any changes to the terms of the merger agreement irrevocably offered by IFF in writing in response to such acquisition proposal), and (2) that is reasonably capable of being completed on the terms proposed, taking into account the identity of the person or entity making the acquisition proposal, any approval requirements and all other financial, regulatory, legal and other aspects of such proposal.

Frutarom is required to (1) promptly (and in any case within 48 hours) provide IFF notice (a) of the receipt by Frutarom (or any of its representatives) of any acquisition proposal, which notice will include a complete, unredacted copy of all written proposals, draft agreements relating to, and/or other written materials that describe any such acquisition proposal and (b) of any inquiries, proposals or offers by third parties received by, any requests by third parties for non-public information from, or any discussions or negotiations initiated or continued (or sought to be initiated or continued) by third parties with, Frutarom or any of its representatives concerning an acquisition proposal, and disclose the material terms of such offer, proposal or request (2) make available to IFF, substantially concurrently with the time it is provided or made available to such party, all

[Table of Contents](#)

material non-public information, including copies of all material written materials, made available by Frutarom to the proposing party but not previously made available to IFF and (3) keep IFF informed on a reasonably prompt basis of the status and material events (including amendments and proposed amendments to any material terms) regarding any such acquisition proposal or other inquiry, offer, proposal or request, and to provide to IFF unredacted copies of any additional or revised written proposals or draft agreements relating to such acquisition proposal or other inquiry, offer, proposal or request. Frutarom and its subsidiaries has agreed not to enter into any agreement with any person or entity that prohibits Frutarom from providing any information to IFF in accordance with the foregoing provisions.

Adverse Recommendation Change; Certain Prohibited Actions

Except as permitted by the merger agreement (as described below) in the case of a superior proposal or an intervening event (as defined below), the Frutarom has agreed that the Frutarom board will not (1) withdraw, qualify or modify, or publicly propose to withdraw, qualify or modify the Frutarom board recommendation, in each case in a manner adverse to IFF or Merger Sub, (2) fail to include the Frutarom board recommendation in the proxy statement relating to the shareholder meeting, (3) publicly recommend or declare advisable any acquisition proposal, or (4) adopt, authorize or approve any letter of intent, memorandum of understanding, merger agreement, acquisition agreement, option agreement, joint venture agreement, partnership agreement or other similar agreement providing for any acquisition proposal (other than a confidentiality agreement permitted as described above in “—No Solicitation”) (any action described in the foregoing clauses (1) through (4) of this paragraph being referred to as an “adverse recommendation change”).

Superior Proposal

Subject to the non-solicitation obligations described above and the obligations further described in this paragraph, if, prior to receipt of the Frutarom shareholder approval (and in no event after receipt of the Frutarom shareholder approval), the Frutarom board receives an acquisition proposal that did not result from a material breach of its non-solicitation obligations and that it determines in good faith, after consultation with its outside financial advisor and outside legal counsel, constitutes a superior proposal, the Frutarom board may (1) effect an adverse recommendation change or (2) terminate the merger agreement pursuant to the termination provisions as described below in order to enter into a definitive agreement providing for such superior proposal if, in each case, (a) the Frutarom board determines in good faith, after consultation with its outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under Israeli law, (b) Frutarom has notified IFF in writing at least four business days before taking such action that it intends to effect an adverse recommendation change or terminate the merger agreement pursuant to the termination provisions as described below, (c) Frutarom’s notice delivered pursuant to the foregoing clause (b) attaches the proposed definitive agreement or the most current version of any proposed agreement between Frutarom and the person or entity making such superior proposal, if any, or a reasonably detailed summary of all material terms of such superior proposal and the identity of the offeror, if no such agreement exists, (d) for a period of four business days following the notice delivered pursuant to clause (b) above, Frutarom and Frutarom’s relevant representatives will have discussed and negotiated in good faith (to the extent IFF desires to negotiate) with IFF and IFF’s relevant representatives any proposed modifications to the terms and conditions of the merger agreement in response to such superior proposal and (e) no earlier than at the end of such negotiation period, the Frutarom board will have determined in good faith, after consultation with its outside financial advisor and outside legal counsel, and after taking into account any proposal by IFF to amend or modify the terms of the merger agreement irrevocably offered by IFF in writing, that the acquisition proposal that is the subject of the notice described in clause (b) above still constitutes a superior proposal. Each of Frutarom and IFF has agreed that in the event of any amendment to the financial terms or other material terms of any such superior proposal, a new written notification from Frutarom consistent with that described in the above clause (b) of this paragraph will be required and a new notice period under such clause (b) will commence, during which notice period Frutarom will be required to comply with the requirements of this paragraph anew, except that such new notice period will be for two business days, as opposed to four business days.

Intervening Event

Subject to the non-solicitation obligations described above and the obligations further described in this paragraph, other than in connection with a superior proposal and prior to the Frutarom shareholder approval (and in no event after receipt of the Frutarom shareholder approval), the Frutarom board may, in response to or as a result of an intervening event, withdraw, qualify, or modify, or publicly propose to withdraw, qualify or modify, the Frutarom board recommendation or not include the Frutarom board recommendation in the proxy statement relating to the shareholder meeting if (1) the Frutarom board determines in good faith, after consultation with its outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under Israeli law, (2) Frutarom has notified IFF in writing that it intends to effect such adverse recommendation change (which notice will specify the facts and circumstances providing the basis of the intervening event in reasonable detail), (3) for a period of four business days following the notice delivered pursuant to clause (2) above, Frutarom and Frutarom's relevant representatives will have discussed and negotiated in good faith (to the extent IFF desires to negotiate) with IFF and IFF's relevant representatives any proposed modifications to the terms and conditions of the merger agreement and (4) no earlier than at the end of such negotiation period, the Frutarom board will have determined in good faith, after consultation with its outside legal counsel, and after taking into account any proposal by IFF to amend or modify the terms of the merger agreement irrevocably offered by IFF in writing, that the failure to take such action would still be inconsistent with its fiduciary duties under Israeli law. In the merger agreement, an "intervening event" is defined as any event, occurrence or circumstance that was not known or reasonably foreseeable (or if known or reasonably foreseeable, the consequences of which were not known or reasonably foreseeable) to the Frutarom board or the Chief Executive Officer of Frutarom on May 7, 2018, and becomes known to the Frutarom board prior to shareholder approval, except that no acquisition proposal will constitute an intervening event.

Subject to Frutarom's obligations with respect to the Frutarom board recommendation, as summarized in the section above, its obligations with respect to effecting an adverse recommendation change as summarized above, and its obligations with respect to publicity related to the transactions contemplated by the merger agreement, nothing in the merger agreement prohibits Frutarom or the Frutarom board from (1) disclosing to its shareholders a position or opinion contemplated by Section 329 of the ICL or from issuing a "stop, look and listen" or similar statement to its shareholders or (2) making any disclosure to its shareholders if the Frutarom board determines in good faith, after consultation with its outside legal counsel, that its failure to make such disclosure would be inconsistent with its fiduciary duties under Israeli law or would reasonably likely conflict with or violate any applicable law or the rules or requirements of the TASE or the LSE, provided that Frutarom's obligations with respect to an adverse recommendation change will not be affected or modified by the foregoing in this paragraph. Any such disclosure (other than issuance by Frutarom of a "stop, look and listen" or similar communication of the type contemplated by Rule 14d-9(f) under the Exchange Act or by the ICL) that addresses or relates to the approval, recommendation or declaration of advisability by the Frutarom board with respect to the merger agreement or an acquisition proposal will be deemed to be an adverse recommendation change unless the Frutarom board, in connection with such communication, publicly states that Frutarom board's recommendation with respect to the merger agreement has not changed.

Employee Benefits Matters

Except where applicable law or the provisions of a labor agreement require more favorable treatment, during the one-year period following the completion of the merger, IFF or one of its subsidiaries will provide to each employee of Frutarom or any of its subsidiaries as of immediately prior to the completion of the merger (which employees are referred to as "covered employees") with the following, for so long as each such covered employee remains employed by IFF or any of its subsidiaries: (i) a base salary or wage rate at least equal to the base salary or wage rate of such covered employee immediately prior to the completion of the merger; (ii) annual or other short-term cash incentive compensation opportunities at least equal to the annual or other short-term cash incentive compensation opportunities of such covered employee immediately prior to the completion of the merger; (iii) equity or equity-based incentive compensation opportunities at least equal to the equity or equity-

[Table of Contents](#)

based incentive compensation opportunities of such covered employee immediately prior to the completion of the merger; and (iv) employee benefits (excluding equity and equity-based compensation, retention benefits and change in control benefits) that are substantially comparable in the aggregate to the employee benefits provided by Frutarom or its subsidiaries to such covered employees immediately prior to the completion of the merger.

If any covered employee first becomes eligible to participate under any employee benefit plan or compensation plan maintained by IFF or any of its subsidiaries (referred to as an “IFF benefit plan”) following the completion of the merger, IFF will, or will cause its subsidiaries to, use commercially reasonable efforts to (1) waive any preexisting condition exclusions and waiting periods with respect to participation and coverage requirements applicable to any covered employee under any IFF benefit plan providing medical, dental or vision benefits to the same extent such limitation would have been waived or satisfied under any similar employee benefit plan or compensation plan of Frutarom or any of its subsidiaries (referred to as a “Frutarom benefit plan”) that the covered employee participated in immediately prior to coverage under the IFF benefit plan and (2) provide each covered employee with credit for any co-payments, out-of-pocket requirements and deductibles paid prior to the covered employee’s coverage under any IFF benefit plan during the plan year in which such covered employee first becomes eligible to participate under such IFF benefit plan, to the same extent such credit was given under any similar Frutarom benefit plan that covered employee participated in immediately prior to coverage under the IFF benefit plan, in satisfying any applicable co-payment, deductible or out-of-pocket requirements under the IFF benefit plan for the plan year in which such covered employee first becomes eligible to participate under such IFF benefit plan.

As of the completion of the merger, IFF will recognize, or cause its subsidiaries to recognize, all service of each covered employee prior to the completion of the merger, to Frutarom and its subsidiaries (or any predecessor entities of Frutarom or any of its subsidiaries) for purposes of vesting, eligibility and, solely in respect of vacation and severance entitlements, benefit accrual under any IFF benefit plan established or maintained for the benefit of covered employees, in each case, to the same extent such service was recognized immediately before the completion of the merger under a comparable Frutarom benefit plan in which such covered employee was eligible to participate immediately prior to the completion of the merger, except that (i) such service will not be recognized with respect to any IFF benefit plan that provides defined benefit pension benefits or retiree welfare benefits and (ii) such recognition of service will not apply for purposes of any IFF benefit plan under which similarly situated employees of IFF or its subsidiaries do not receive credit for prior service or that is grandfathered or frozen, either with respect to level of benefits or participation. In no event will there be any duplication of benefits for the same period of service.

If the merger closes before the payment of annual bonuses for 2018:

- to the extent that a covered employee (other than any covered employee who is employed at Frutarom’s headquarters or is an “office holder” of Frutarom (as such term is defined in the ICL)) who participates as of immediately prior to the closing in a Frutarom benefit plan that is an annual bonus plan (referred to as a “Frutarom bonus plan”) remains employed through December 31, 2018, IFF will cause Frutarom to pay such covered employee an annual bonus for such year based on the actual level of achievement of the applicable performance goals in accordance with the terms and conditions of the applicable annual bonus plan at the time that annual bonuses are payable in the ordinary course consistent with past practice;
- to the extent that a covered employee who is employed at Frutarom’s headquarters or is an “office holder” of Frutarom (as such term is defined in the ICL) remains employed through December 31, 2018, IFF will cause Frutarom to pay such covered employee a certain specified annual bonus for such year; and
- if an applicable covered employee’s employment with Frutarom and its subsidiaries is terminated by Frutarom and its subsidiaries without cause on or after the closing and prior to December 31, 2018, such covered employee will receive a prorated bonus payment within 30 days following the date on

[Table of Contents](#)

which bonuses are paid to active employees under the Frutarom bonus plan (A) if such covered employee is not employed at Frutarom's headquarters and is not an "office holder" of Frutarom (as defined in the ICL), equal to the product of (x) the full annual bonus for the year of termination based on the actual level of achievement of the applicable performance goals, *multiplied* by (y) a fraction, the numerator of which is the number of days between January 1, 2018 and the date of such termination of employment and the denominator of which is the total number of days in calendar year 2018 (referred to as the "proration fraction"), or (B) if such covered employee is employed at Frutarom's headquarters or is an "office holder" of Frutarom (as defined in the ICL), equal to the product of (x) the full annual bonus for the year of termination to which such covered employee would have been entitled, *multiplied* by (y) the proration fraction.

If the closing of the merger has not occurred by September 30, 2018, then on, or within three business days following, October 1, 2018, Frutarom will, in the ordinary course of business and consistent with past practice, grant Frutarom stock options to the executives of Frutarom who are scheduled to receive such Frutarom stock options in payment of the second half of their equity-based bonus in respect of 2017 (such Frutarom stock options are referred to as the "deferred bonus options"). If the closing of the merger occurs on or prior to September 30, 2018, then on, or within three business days following, October 1, 2018, IFF will pay to each executive of Frutarom who is scheduled to receive deferred bonus options the cash equivalent of the deferred bonus options that such executive would have received absent the closing of the merger.

If requested by IFF in a writing delivered to Frutarom not less than 10 business days prior to the closing of the merger, Frutarom and its subsidiaries will adopt, or cause to be adopted, resolutions (in form and substance approved by IFF) and will take such other corporate action as is necessary to terminate each 401(k) plan of Frutarom and its subsidiaries specified by IFF, effective as of immediately prior to the closing. In the event that IFF requests that any Frutarom 401(k) plan be terminated, (i) prior to the closing and thereafter (as applicable), IFF will take any and all action as may be required, including amendments to each applicable 401(k) plan sponsored or maintained by IFF or one of its subsidiaries, to permit each applicable covered employee to make rollover contributions of "eligible rollover distributions" (within the meaning of Section 401(a)(31) of the Code, including of loans) in cash or notes (in the case of loans) in an amount equal to the eligible rollover distribution portion of the account balance distributable to such covered employee from the applicable Frutarom 401(k) plan to the corresponding IFF 401(k) plan, and (ii) the covered employees who were eligible to participate in any Frutarom 401(k) plan as of immediately prior to the completion of the merger shall be eligible to participate, effective as of the completion of the merger, in the applicable IFF 401(k) plan.

Financing and Financing Cooperation

IFF's obligation to complete the merger is not conditioned upon its obtaining financing. IFF will use its reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things necessary, advisable or proper to complete financing of the merger. IFF has agreed to keep Frutarom reasonably informed on a reasonably current basis of the status of IFF's efforts to obtain financing. Frutarom will, and will cause its subsidiaries to, and will use its reasonable efforts to cause their respective representatives to provide, all customary cooperation as is reasonably requested by IFF in connection with the arrangement of the financing for the merger.

Tax Rulings

Frutarom has filed requests for three tax rulings from the ITA with respect to (i) withholding tax in Israel, regarding the cash consideration paid to Frutarom shareholders; (ii) a deferral of capital gains tax with respect to Frutarom shareholders which hold less than 5% of Frutarom's issued and outstanding shares through the Nominee Company and Frutarom shareholders which hold less than 5% of Frutarom's issued and outstanding shares directly and not through the Nominee Company, regarding the stock consideration; and (iii) the Israeli tax treatment applicable to holders of Frutarom options and shares issued to certain directors and employees under

[Table of Contents](#)

Section 102 of the ITO (confirming that the cancellation and exchange of the 102 options, in consideration for the applicable merger consideration in respect of each net share subject to each such option, will not be regarded as a violation of the “requisite holding period” (as such term is defined in Section 102 of the ITO) so long as such merger consideration is deposited with the 102 Trustee until the end of the respective requisite holding period and other conditions are met; such ruling is referred to as the “options tax ruling”).

Each of Frutarom and IFF will cause their respective Israeli counsel, advisors and accountants to coordinate all material activities, and to cooperate with each other, with respect to the preparation and filing of such application and in the preparation of any written or oral submissions that may be necessary, proper or advisable to obtain the tax rulings described above. The final text of such tax rulings will be subject to the prior written confirmation of IFF or its counsel, which consent will not be unreasonably withheld, conditioned or delayed. Subject to the terms and conditions hereof, Frutarom will use reasonable best efforts to promptly take, or cause to be taken, all actions and to do, or cause to be done, all things necessary, proper or advisable under applicable laws to obtain such tax rulings, as promptly as practicable.

For more information regarding such tax rulings, see the see “*The Merger—Certain Israeli Tax Consequences of the Merger*” beginning on page 78. In the event that any of the tax ruling has not been received in accordance with the terms of this section “—*Tax Rulings*”, IFF may make such payments and withhold any applicable taxes as described above in the section “—*Conversion of Shares; Payment Procedures; Withholding*”.

Directors’ and Officers’ Indemnification and Insurance

The parties have agreed that all rights, existing at the time of the merger agreement, to indemnification and exculpation from liabilities (including advancement of expenses) for acts or omissions occurring at or prior to the completion of the merger, in favor of the current or former directors, officers or employees (in the case of employees, only such persons who are covered by Frutarom’s existing policies of directors’ and officers’ liability insurance and fiduciary liability insurance as of May 7, 2018) of Frutarom (which persons are referred to as the “D&O indemnified parties”) as provided in the articles of association of Frutarom or in any indemnification contract between such person and Frutarom will survive the merger and will continue in full force and effect.

For seven years after the completion of the merger (or until the final resolution of any claim made for indemnification within such seven-year period), IFF will cause the surviving company to maintain in effect the exculpation, indemnification and advancement of expenses equivalent to the provisions of the articles of association of Frutarom as in effect immediately prior to the completion of the merger with respect to acts or omissions occurring prior to the completion of the merger and will not amend, repeal or otherwise modify any such provisions in any manner that would adversely affect the rights thereunder of any of the D&O indemnified parties.

Notwithstanding anything to the contrary set forth in the merger agreement, without the prior express written consent of the applicable D&O indemnified party, neither IFF nor any of its subsidiaries will settle or otherwise compromise or consent to the entry of any judgment or otherwise seek termination with respect to any claim, proceeding, investigation or inquiry for which indemnification is sought by a D&O indemnified party under or as contemplated by the merger agreement unless such settlement, compromise, consent or termination does not include any admission of wrongdoing by such D&O indemnified party and includes an unconditional release of such D&O indemnified party from all liability arising out of such claim, proceeding, investigation or inquiry.

Prior to the completion of the merger, Frutarom will (or, if Frutarom is unable to, after the completion of the merger, IFF will cause the surviving company to) purchase a seven-year prepaid “tail” policy, with terms, conditions, retentions and limits of liability that are no less favorable than the coverage provided under Frutarom’ existing policies of directors’ and officers’ liability insurance and fiduciary liability insurance, with respect to matters arising on or before the completion of the merger (including in connection with the merger agreement

[Table of Contents](#)

and the transactions or actions contemplated by the merger agreement), and the surviving company and IFF will cause such policy to be maintained in full force and effect, for its full term and cause its obligations thereunder to be honored; provided that such “tail” policy will be consistent in all material respects with the terms set forth in Frutarom’s compensation policy adopted in accordance with the ICL and that Frutarom will not pay, and the surviving company will not be required to pay, to secure such “tail” policy in excess of 700% of the last annual premium paid by Frutarom prior to the date of the merger agreement in respect of such existing policies of directors’ and officers’ liability insurance and fiduciary liability insurance, but in such case will purchase as much coverage as reasonably practicable for such amount. If Frutarom or the surviving company for any reason fails to obtain such “tail” insurance policies prior to, as of or after the completion of the merger, IFF will, for seven years from the completion of the merger, cause the surviving company to maintain in effect the current policies of directors’ and officers’ liability insurance and fiduciary liability insurance maintained by Frutarom with respect to matters arising on or before the completion of the merger, provided that after the completion of the merger, IFF will not be required to pay annual premiums in excess of 350% of the last annual premium paid by Frutarom prior to the date of the merger agreement in respect of such coverage, but in such case IFF will continue to maintain as much coverage as reasonably practicable for such amount.

Closing Dividend

Prior to the completion of the merger, Frutarom shall declare a dividend to its shareholders in an amount per Frutarom ordinary share equal to the product of (a) the aggregate amount of cash dividends declared per share of IFF common stock with a record date occurring on or after May 7, 2018 and prior to the completion of the merger, multiplied by (b) 0.2490. The record date for such dividend, which may be conditioned upon the completion of the merger, will be the close of business on the last business day prior to the completion of the merger and the payment date for such dividend will be three business days after the completion of the merger.

Other Covenants and Agreements

The merger agreement contains additional covenants and agreements relating to, among other matters:

- consultation and consent rights regarding any press releases or other public statements with respect to the merger agreement, the merger, or the other transactions contemplated by the merger agreement;
- certain additional employee and employee benefit matters;
- the conduct of Merger Sub;
- certain reporting requirements under Section 16(a) of the Exchange Act;
- the treatment and payoff of certain outstanding indebtedness;
- submission of the merger proposal to the Companies Registrar, and certain related actions;
- the approval for the listing of IFF common stock on the TASE and the approval for the listing of the IFF common stock to be issued in connection with the merger on the TASE and the NYSE;
- the delisting of Frutarom ordinary shares from the TASE;
- eliminating any applicability of state takeover laws;
- notice, cooperation and coordination relating to transaction-related litigation, if any;
- resignations of Frutarom directors; and
- notification of the occurrence or non-occurrence of certain events.

Conditions to the Merger

Conditions to the Obligations of the Parties to Complete the Merger

The obligations of each of IFF, Merger Sub and Frutarom to complete the merger are subject to the satisfaction or (to the extent permitted by law) waiver of the following conditions:

- Frutarom having obtained the Frutarom shareholder approval;
- the shares of IFF common stock to be issued in connection with the merger having been approved for listing on the NYSE, subject to official notice of issuance;
- the registration statement on Form S-4, of which this prospectus forms a part, having become effective under the Securities Act, and not being the subject of any stop order;
- any applicable waiting period (and any extension thereof) under the HSR Act relating to the completion of the merger having expired or early termination thereof having been granted, and any authorization or consent from a governmental authority required to be obtained with respect to the merger under any antitrust laws in the European Union, the State of Israel, the Russian Federation, the Republic of Turkey, Ukraine, the Republic of South Africa and the United Mexican States having been obtained or granted;
- 50 days having elapsed after the filing of the merger proposal with the Companies Registrar and 30 days having elapsed after the Frutarom shareholder approval; and
- no governmental authority of competent jurisdiction having issued or entered any order or promulgated or enacted any law after the date of the merger agreement having the effect of enjoining or otherwise prohibiting the completion of the merger.

Conditions to the Obligations of Each of IFF and Merger Sub to Complete the Merger

In addition, the obligations of each of IFF and Merger Sub to complete the merger are subject to the satisfaction or waiver of the following conditions:

- the representations and warranties of Frutarom set forth in the merger agreement with respect to (1)(a) certain matters relating to capitalization and outstanding equity awards and (b) the non-occurrence of a material adverse effect on Frutarom since December 31, 2017 being true and correct in all respects (other than *de minimis* inaccuracies with respect to the foregoing clause (1)(a)) and (2) authorization and issuance of Frutarom common stock, the corporate power and authority of Frutarom, approvals of the Frutarom board with respect to the merger agreement, required shareholder approval of the merger proposal, the inapplicability of anti-takeover laws, brokers and financial advisor matters being true and correct (without giving effect to qualifications with respect to materiality or material adverse effects on Frutarom) in all material respects, in each case of clauses (1) and (2), as of the closing date of the merger (or, in the case of representations and warranties made as of a specific date, as of such date), such representations and warranties listed in clauses (1) and (2) being referred to as the “Frutarom specified representations”;
- all other representations and warranties of Frutarom set forth in the merger agreement (other than the Frutarom specified representations) being true and correct (without giving effect to qualifications in such representations and warranties with respect to materiality or material adverse effect on Frutarom) as of the closing date of the merger (or, in the case of representations and warranties made as of a specific date, as of such date), except where failure to be true and correct, individually or in the aggregate, has not had and would not reasonably be expected to have a material adverse effect on Frutarom;
- Frutarom having performed or complied in all material respects with its obligations under the merger agreement required to be performed or complied with on or prior to the closing of the merger; and

Table of Contents

- IFF having received a certificate from an executive officer of Frutarom certifying, on behalf of Frutarom, that the above conditions have been satisfied.

Conditions to the Obligation of Frutarom to Complete the Merger

In addition, the obligation of Frutarom to complete the merger is subject to the satisfaction or waiver of the following conditions:

- the representations and warranties of IFF and Merger Sub set forth in the merger agreement with respect to (1)(a) certain matters relating to capitalization and outstanding equity awards and (b) the non-occurrence of a material adverse effect on IFF since December 31, 2017 being true and correct in all respects (other than *de minimis* inaccuracies with respect to the foregoing clause (1)(a)) and (2) the authorization and issuance of IFF common stock, corporate authorization of the merger agreement, approvals of the IFF and Merger Sub boards of directors with respect to the merger agreement, no requirement for shareholder approval of the merger agreement and brokers being true and correct (without giving effect to qualifications with respect to materiality or material adverse effects on IFF) in all material respects, in each case of clauses (1) and (2), as of the closing date of the merger (or, in the case of representations and warranties made as of a specific date, as of such date), such representations and warranties listed in clauses (1) and (2) being referred to as the “IFF specified representations”;
- all other representations and warranties of IFF and Merger Sub set forth in the merger agreement (other than the IFF specified representations), without giving effect to qualifications in such representations and warranties with respect to materiality or material adverse effect on IFF, being true and correct as of the closing date of the merger (or, in the case of representations and warranties made as of a specific date, as of such date), except where failure to be true and correct, individually or in the aggregate, has not had and would not reasonably be expected to have a material adverse effect on IFF;
- IFF and Merger Sub having performed or complied in all material respects with each of their respective obligations required under the merger agreement to be performed or complied with on or prior to the closing of the merger; and
- Frutarom having received a certificate from an executive officer of IFF certifying, on behalf of IFF, that the above conditions have been satisfied.

Termination

The merger agreement may be terminated at any time prior to the completion of the merger, before or after approval from the Frutarom shareholders is obtained (except as expressly noted otherwise), as follows:

- by the mutual written consent of IFF and Frutarom;
- by either IFF or Frutarom if:
 - the merger has not been consummated on or before 5:00 p.m. (New York time) on February 7, 2019; except that if, on such date, any of the conditions of the closing set forth above in the fourth and sixth bullets of “—*Conditions to the Merger—Conditions to the Obligations of the Parties to Complete the Merger*” (as a result of any antitrust law or order arising under any antitrust law) will not have been satisfied, then, at the written election of IFF or Frutarom, such date may be extended to 5:00 p.m. (New York time) on May 7, 2019 (such date, as extended if applicable, is referred to herein as the termination date), except where the party seeking to terminate the merger agreement for this reason has committed a breach of any of its obligations under the merger agreement that has proximately caused the failure of the closing to have occurred on or before the termination date (which termination right is referred to herein as the termination date termination right);
 - any governmental authority of competent jurisdiction has issued or entered any order or has enacted or promulgated any law after the date of the merger agreement that has the effect of

Table of Contents

permanently enjoining or otherwise permanently prohibiting the consummation of the merger, and in the case of such an order, such order will have become final and non-appealable, except that the right to terminate the merger agreement for this reason will not be available to a party if a breach by such party of its obligations under the merger agreement has proximately caused the issuance of such order or the enactment or promulgation of such law; or

- the Frutarom shareholder approval has not been obtained upon a vote taken at the Frutarom special meeting duly convened therefor or at any adjournment or postponement thereof (which termination right is referred to herein as the shareholder approval termination right);
- by Frutarom if:
 - IFF breaches or fails to perform any of its representations, warranties, covenants or other agreements set forth in the merger agreement, which breach or failure to perform would result in the failure of a closing condition regarding (1) the accuracy of IFF's representations or warranties or (2) the performance or compliance in all material respects with IFF's obligations under the merger agreement required to be performed or complied with on or prior to the closing of the merger, and, in each case, such breach or failure to perform is incapable of being cured by the termination date or, if capable of being cured, will not have been cured prior to the earlier of the termination date and the date that is 30 days after delivery of notice by Frutarom to IFF of such breach or failure to perform, except that Frutarom will not have the right to terminate the merger agreement for this reason if Frutarom is then in breach of any of its obligations under the merger agreement, resulting in the failure of a closing condition regarding its performance or compliance with its obligations under the merger agreement required to be performed or complied with on or prior to the closing of the merger; or
 - prior to the Frutarom shareholder approval, in order for Frutarom to enter into a definitive agreement with respect to a superior proposal as described in "*—Covenants and Agreements—Superior Proposal*", provided that as a condition to the effectiveness of such termination, Frutarom pays to IFF the termination fee (which termination right is referred to herein as the superior proposal termination right);
- by IFF if:
 - Frutarom breaches or fails to perform any of its representations, warranties, covenants or other agreements set forth in the merger agreement, which breach or failure to perform would result in the failure of a closing condition regarding (1) the accuracy of Frutarom's representations or warranties or (2) the performance or compliance in all material respects with Frutarom's obligations under the merger agreement required to be performed or complied with on or prior to the closing of the merger, and, in each case, such breach or failure to perform is incapable of being cured by the termination date or, if capable of being cured, will not have been cured prior to the earlier of the termination date and the date that is 30 days after delivery of notice by IFF to Frutarom of such breach or failure to perform, except that IFF will not have the right to terminate the merger agreement for this reason if IFF is then in breach of any of its obligations under the merger agreement, resulting in the failure of a closing condition regarding its performance or compliance with its obligations under the merger agreement required to be performed or complied with on or prior to the closing of the merger (which termination right is referred to herein as the breach termination right);
 - prior to shareholder approval, if Frutarom has materially breached its obligations described above under "*—Covenants and Agreements—No Solicitation*", "*—Covenants and Agreements—Adverse Recommendation Change; Certain Prohibited Actions*", "*—Covenants and Agreements—Superior Proposal*" or "*—Covenants and Agreements—Intervening Event*" (which termination right is referred to herein as the no solicitation termination right); or
 - prior to the Frutarom shareholder approval, (1) the Frutarom board makes an adverse recommendation change or (2) after an acquisition proposal is publicly announced or becomes

generally known to the public, Frutarom fails to publicly reaffirm its recommendation within 10 business days after receipt of a written request by IFF to do so (which request IFF will not be permitted to make more than one time for any such acquisition proposal, except for one permitted additional request following any amendment to the financial or other material terms of any such acquisition proposal that is publicly announced or becomes generally known to the public) (which termination right is referred to as the “recommendation change termination right”).

Effect of Termination

If the merger agreement is terminated as described above, the terminating party must provide written notice to the other party specifying the provisions of the merger agreement pursuant to which the termination is being made, and the merger agreement will be null and void, without liability on the part of any party, except that obligations with respect to certain provisions of the merger agreement will survive the termination of the merger agreement, including that:

- no termination will relieve any party of any liability or damages resulting from any intentional breach (as defined below) of its obligations under the merger agreement prior to such termination or fraud, in which case the aggrieved party will be entitled to all rights and remedies available at law or in equity, including liability for damages (taking into account all relevant factors, including the loss of benefit of the merger to the party or its shareholders, any lost shareholder premium, any lost synergies and the time value of money); and
- the confidentiality agreement entered into by IFF and Frutarom in connection with the merger agreement and the provisions of the merger agreement with respect to the indemnification of Frutarom by IFF regarding financing, the effect of termination, termination fees and expenses, amendment, extension and waiver and general provisions of interpretation and construction will survive any termination of the merger agreement.

Under the merger agreement, “intentional breach” means an action or omission taken or omitted to be taken that the breaching party intentionally takes (or fails to take) and knows would, or knows would reasonably be expected to, cause a material breach of the merger agreement.

Termination Fee

The merger agreement requires Frutarom to pay a termination fee of \$191 million to IFF as a result of a termination of the merger agreement under the following circumstances:

- if the conditions in one of the four sub-bullets listed below are satisfied and within twelve months after such termination, an acquisition proposal is consummated or Frutarom enters into a definitive agreement with respect to an acquisition proposal (provided that the references to “20%” in the definition of acquisition proposal will be deemed to be references to “50%”):
 - (1) Frutarom terminates the merger agreement pursuant to the termination date termination right prior to receipt of the Frutarom shareholder approval and (2) after the execution of the merger agreement an acquisition proposal has been publicly disclosed or otherwise communicated to the Frutarom board and not withdrawn on a bona fide basis without qualification at least five business days prior to such termination;
 - (1) either IFF or Frutarom terminates the merger agreement pursuant to the shareholder approval termination right and (2) after the execution of the merger agreement an acquisition proposal has been publicly disclosed and not withdrawn on a bona fide basis without qualification at least five business days prior to the Frutarom shareholder meeting;
 - (1) IFF terminates the merger agreement pursuant to the breach termination right with respect to an intentional breach of a covenant and (2) after the execution of the merger agreement and prior

Table of Contents

to the date of the intentional breach that gave rise to such right of termination an acquisition proposal has been publicly disclosed or otherwise communicated to the Frutarom board and not withdrawn on a bona fide basis without qualification at least five business days prior to such termination; or

- (1) IFF terminates the merger agreement pursuant to the no solicitation termination right prior to receipt of shareholder approval and (2) after the execution of the merger agreement an acquisition proposal has been publicly disclosed or otherwise communicated to the Frutarom board;
- if Frutarom terminates the merger agreement pursuant to the superior proposal termination right; or
- if IFF terminates the merger agreement pursuant to the recommendation change termination right.

In no event will Frutarom be required to pay a termination fee on more than one occasion.

If IFF receives payment from Frutarom of the termination fee, such payment will constitute the sole and exclusive remedy of IFF against Frutarom and its subsidiaries and representatives for all losses and damages suffered as a result of the failure of the transactions contemplated by the merger agreement to be completed or a breach or failure to perform under the merger agreement or otherwise, except (1) in the event of fraud and (2) that if Frutarom fails to timely pay any termination fee due pursuant to the merger agreement, Frutarom will be obligated to pay any costs and expenses (including reasonable attorneys' fees), together with interest, in connection with any suit brought by IFF that results in a judgment against Frutarom for the payment of such termination fee or expense reimbursement.

Expenses

Except as otherwise described under “—*Termination Fee*” above and except for filing fees required under any antitrust law and expenses in connection with Frutarom's financing cooperation, all expenses incurred in connection with the merger agreement and the transactions contemplated by the merger agreement shall be paid by the party incurring such expenses, whether or not the merger is completed.

Amendment and Waiver

Amendment

The merger agreement may be amended by mutual agreement of the parties in writing, except that (1) no amendment may be made after receipt of the Frutarom shareholder approval if such amendment would require, in accordance with applicable law or the rules of any stock exchange, further approval of Frutarom shareholders, without such further approval and (2) no amendment may be made that is materially adverse to the rights of IFF's financing sources under the merger agreement relating to amendment, status as third-party beneficiaries, waiver of jury trial, governing law, forum selection or liability with regard to legal, administrative or other similar proceedings or actions related to such financing sources, without the written consent of IFF's financing sources. The merger agreement may not be amended after the completion of the merger.

Waiver

At any time prior to the completion of the merger, subject to applicable law, the parties may:

- extend the time for the performance of any obligation or other act of any other party to the merger agreement;
- waive any inaccuracy in the representations and warranties of the other party to the merger agreement contained in the merger agreement or in any document delivered pursuant to the merger agreement; or
- waive compliance with any agreement or condition contained in the merger agreement.

[Table of Contents](#)

No failure or delay by any party in exercising any right under the merger agreement will operate as a waiver of such right nor will any single or partial exercise of any such right preclude any other or further exercise of any other right under the merger agreement. Any such extension or waiver will only be valid if set forth in an instrument in writing signed by the party or parties to be bound.

Third-Party Beneficiaries

The merger agreement is not intended to and will not confer upon any person or entity other than the parties thereto any rights or remedies, except for:

- from and after the completion of the merger, the provisions of the merger agreement relating to indemnification and exculpation from liability for the current or former directors and officers of Frutarom;
- from and after the completion of the merger, the holders of Frutarom ordinary shares and Frutarom equity awards (solely with respect to the provisions governing such holders' rights to receive the merger consideration or related payments in respect of equity awards and the payment of any dividend declared in accordance with the section "*—Closing Dividend*"); and
- IFF's financing sources, with respect to amendment of the merger agreement, status as third-party beneficiaries, waiver of jury trial, governing law, forum selection and liability with regard to legal, administrative or other similar proceedings or actions related to such financing sources.

Governing Law; Jurisdiction; Waiver of Jury Trial

Governing Law; Jurisdiction

The merger agreement and all legal, administrative or other similar proceedings or actions (whether based on contract, tort or otherwise) arising out of or relating to the merger agreement or the actions of IFF, Merger Sub or Frutarom in the negotiation, administration, performance and enforcement of the merger agreement, will be governed by, and construed in accordance with, the laws of the State of Delaware applicable to agreements made and to be performed entirely within such state without regard to the conflicts of law provisions thereof, except that (i) the internal affairs of the corporations party to the merger agreement that are organized and existing under the ICL and (ii) all other provisions of, or transactions contemplated by, the merger agreement that are expressly or otherwise required to be governed by the ICL will be governed by the ICL. Notwithstanding the foregoing, except to the extent relating to the interpretation of any provisions in the merger agreement (including those provisions of, and references to, the merger agreement that are referred to, or incorporated by reference in, the debt commitment letter), the parties to the merger agreement agreed that any legal, administrative or other similar proceedings of any kind or nature, whether at law or equity, in contract or in tort, to which any of IFF's financing sources is a party in connection with the merger agreement or any of the transactions contemplated by the merger agreement or that may be based upon, arise out of or relate to the debt commitment letter or the financing (including the transactions contemplated thereby) will be governed by and construed in accordance with the law of the State of New York, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of New York or any other jurisdiction) that would cause application of the law of any jurisdiction other than the State of New York, except to the extent otherwise provided in the debt commitment letter or any definitive agreement with respect to the financing of the merger.

Each of the parties to the merger agreement has agreed that, with respect to any legal claim or proceeding arising out of the merger agreement or the transactions contemplated by the merger agreement, any such legal claim or proceeding will be brought, tried and determined only in the Chancery Court of the State of Delaware and any state appellate court therefrom within the State of Delaware, or in the event (but only in the event) that such court declines to accept jurisdiction over a particular matter, in any state or federal court located within the State of Delaware.

Waiver of Jury Trial

The parties to the merger agreement have agreed to waive all rights to trial by jury in any legal, administrative or other similar proceedings relating to the financing of the merger or involving any of IFF's financing sources.

Enforcement

The parties to the merger agreement have agreed that irreparable damage for which monetary damages, even if available, would not be an adequate remedy, would occur in the event that any party to the merger agreement does not perform the provisions of the merger agreement (including by failing to take such actions as are required of such party to complete the merger and other transactions contemplated by the merger agreement) in accordance with the specified terms of the merger agreement or otherwise breaches the provisions of the merger agreement. Accordingly, the parties to the merger agreement acknowledged and agreed that the parties will be entitled to an injunction, specific performance and other equitable relief to prevent breaches of the merger agreement and to enforce specifically the terms and provisions of the merger agreement, in addition to any other remedy to which they are entitled at law or in equity. Each of the parties to the merger agreement also agreed that it will not oppose the granting of an injunction, specific performance and other equitable relief on the basis that any other party has an adequate remedy at law or that any award of specific performance is not an appropriate remedy for any reason at law or in equity. Any party seeking an injunction or injunctions to prevent breaches of the merger agreement and to enforce specifically the terms and provisions of the merger agreement will not be required to provide any bond or other security in connection with any such order or injunction.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

On May 7, 2018, IFF, Frutarom and Merger Sub entered into a merger agreement that provides for the acquisition of Frutarom by IFF. Subject to approval of Frutarom shareholders and the satisfaction or waiver of certain other closing conditions, IFF will acquire Frutarom through the merger of Merger Sub with and into Frutarom, with Frutarom surviving the merger and becoming a wholly owned subsidiary of IFF.

The following unaudited pro forma condensed combined financial information is presented to illustrate the estimated effects of the merger and certain other adjustments listed below.

The unaudited pro forma condensed combined balance sheet as of March 31, 2018, and the unaudited pro forma condensed combined statements of operations for the three months ended March 31, 2018 and the year ended December 31, 2017, respectively, are presented herein. The unaudited pro forma condensed combined balance sheet combines the unaudited consolidated balance sheets of IFF and Frutarom as of March 31, 2018, and gives effect to the merger as if it occurred on March 31, 2018. The unaudited pro forma condensed combined statements of operations combine the historical results of IFF and Frutarom for the three months ended March 31, 2018, and the year ended December 31, 2017, and give effect to the merger as if it occurred on January 1, 2017. The historical financial information has been adjusted to give effect to pro forma adjustments that are (i) directly attributable to the merger, (ii) factually supportable, and (iii) with respect to the unaudited condensed combined statements of operations, expected to have a continuing impact on the combined entity's condensed results.

The merger of IFF and Frutarom will be accounted for using the acquisition method of accounting as per the provisions of Accounting Standards Codification 805, "Business Combinations", which we refer to as ASC 805, with IFF representing the accounting acquirer under this guidance. The unaudited pro forma condensed combined financial statements were prepared in accordance with Article 11 of Regulation S-X and primarily give effect to the merger adjustments, which include:

- Adjustments to reconcile Frutarom's historical audited and unaudited financial statements prepared in accordance with IFRS as issued by the IASB to U.S. GAAP;
- Conforming accounting policies and presentation;
- Application of the acquisition method of accounting in connection with the merger;
- Adjustments to reflect repayment of certain existing debt facilities of Frutarom and financing arrangements entered into in connection with the merger; and
- Effect of acquisition-related costs in connection with the merger.

The pro forma adjustments included in this document are subject to modification based on changes in interest rates, changes in share prices, the final determination of the fair value of the assets acquired and liabilities assumed, additional analysis, and additional information that may become available, which may cause the final adjustments to be materially different from the pro forma condensed combined financial statements presented in this prospectus. Following the consummation of the merger, IFF management will perform a detailed review of Frutarom's accounting policies in an effort to determine if differences in accounting policies require further reclassification of Frutarom's results of operations or reclassification of assets or liabilities to conform to IFF's accounting policies and classification. As a result, IFF may subsequently identify additional material differences in the accounting policies which could have a material impact on the unaudited pro forma combined financial information.

The unaudited pro forma condensed combined financial information presented is for informational purposes only and is not necessarily indicative of the financial position or results of operations that would have been realized if the merger had been completed on the dates set forth above, nor is it indicative of future results or

financial position of the combined company. Additionally, the final determination of the purchase price and the purchase price allocation, upon the completion of the merger, will be based on Frutarom's net assets acquired as of that date and will depend on a number of factors that cannot be predicted with certainty at this time. The unaudited pro forma condensed combined financial information does not reflect any anticipated synergies or dis-synergies, operating efficiencies or cost savings that may result from the merger or potential divestitures that may occur prior to, or subsequent to, the completion of the merger or any acquisition and integration costs that may be incurred. The pro forma adjustments, which IFF believes are reasonable under the circumstances, are preliminary and are based upon available information and certain assumptions described in the accompanying notes to the unaudited pro forma condensed combined financial information. Actual results and valuations may differ materially from the assumptions within the accompanying unaudited pro forma condensed combined financial information. Any changes to IFF's stock price, from June 28, 2018 through the date the merger is completed, will also change the purchase price, which may include the recording of a lower or higher amount of goodwill. The final adjustments may be materially different from the pro forma condensed combined financial statements presented in this document.

The unaudited pro forma condensed combined financial information should be read in conjunction with the notes to the unaudited pro forma condensed combined financial information and Frutarom's audited financial statements included elsewhere in this prospectus, as well as IFF's consolidated financial statements and related notes thereto contained in its Annual Report on Form 10-K for the year ended December 31, 2017 and IFF's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2018. NOTES TO THE UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

(In US\$ thousands, except share and per share data)

Note 1—Description of Business Combination

On May 7, 2018, International Flavors & Fragrances (“IFF”) entered into an Agreement and Plan of Merger (the “merger agreement”) with Frutarom Industries Ltd., a company organized under the laws of the State of Israel (“Frutarom”) and Icon Newco Ltd., a company organized under the laws of the State of Israel and a wholly owned subsidiary of IFF (“Merger Sub”). Pursuant to the merger agreement, subject to the satisfaction or waiver of specified conditions, Merger Sub will merge with and into Frutarom (the “merger”), with Frutarom continuing as the surviving company in the merger and a wholly owned subsidiary of IFF.

At the completion of the merger, each ordinary share, par value Israeli New Shekel (to be referred as “NIS”) 1.00 per share, of Frutarom (the “Frutarom ordinary shares”) issued and outstanding immediately prior to the completion of the merger (other than Frutarom ordinary shares held by Frutarom as treasury stock (dormant shares) or held directly or indirectly by IFF, Merger Sub or any wholly owned subsidiary of Frutarom) will be converted into the right to receive (i) \$71.19 in cash (the “cash consideration”) and (ii) 0.249 of a validly issued, fully paid and non-assessable share of common stock, par value \$0.125 per share, of IFF (“IFF common stock”), with cash in lieu of fractional shares of IFF common stock otherwise issuable (such shares of IFF common stock and any such cash in lieu of fractional shares, together with the cash consideration, the “merger consideration”), in each case without interest and subject to applicable tax withholding.

At the completion of the merger, each Frutarom stock option and Frutarom restricted stock award that is outstanding and vested as of immediately prior to the completion of the merger, will be canceled in exchange for the right to receive the merger consideration in respect of each net share subject to such vested Frutarom stock option or Frutarom restricted stock award, less applicable tax withholding. For this purpose, “net share” means, with respect to a Frutarom stock option or Frutarom restricted stock award, the quotient of (i) the product of (A) the excess, if any, of the value of the merger consideration (calculated as specified in the merger agreement) over the exercise price or purchase price per Frutarom ordinary share (as applicable) subject to such Frutarom stock option or Frutarom restricted stock award, multiplied by (B) the number of Frutarom ordinary shares subject to such Frutarom stock option or Frutarom restricted stock award, divided by (ii) the value of the merger consideration.

The merger agreement provides for the Frutarom board of directors to declare a special dividend, on a per share basis, equal to the product of (a) 0.249 and (b) the aggregate per share value of IFF dividends with a record date after the date of the merger agreement and prior to the closing of the merger.

Note 2—Basis of Presentation

The accompanying unaudited pro forma condensed combined financial information was prepared in accordance with Article 11 of Regulation S-X and was based on the historical financial statements of IFF and Frutarom as of and for the year ended December 31, 2017 and as of and for the three months ended March 31, 2018. IFF is deemed to be the accounting acquirer and the pro forma adjustments are preliminary and are based on estimates that are subject to change. The combined group will not be a “foreign private issuer” as defined in Rule 405 under the Securities Act and Rule 3b-4(c) under the Exchange Act, accordingly the pro forma information of the combined group is prepared in accordance with U.S. GAAP.

The unaudited pro forma condensed combined statements of operations were prepared using:

- the historical unaudited consolidated statements of operations and comprehensive income of IFF for the three months ended March 31, 2018;
- the historical audited consolidated statements of operations and comprehensive income of IFF for the year ended December 31, 2017;

[Table of Contents](#)

- the historical unaudited condensed consolidated statement of operations of Frutarom for the three months ended March 31, 2018; and
- the historical audited consolidated income statement of Frutarom for the year ended December 31, 2017.

IFF's historical audited and unaudited financial statements were prepared in accordance with U.S. GAAP and presented in thousands of U.S. dollars. Frutarom's historical audited and unaudited financial statements were prepared in accordance with IFRS as issued by the IASB and presented in thousands of U.S. dollars. Certain reclassifications were made to align Frutarom's financial statement presentation with that of IFF (see Note 5).

Frutarom's historical audited and unaudited financial statements were reconciled to U.S. GAAP. In addition, a preliminary review of IFRS to U.S. GAAP differences and related accounting policies has been completed based on information made available to date (see Note 5 for further information). However, following the consummation of the merger, IFF management will conduct a detailed review. As a result of that review, IFF management may identify differences that, when finalized, could have a material impact on the unaudited pro forma condensed combined financial information.

The unaudited pro forma condensed combined statements of operations also include certain purchase accounting adjustments, including items expected to have a continuing impact on the condensed combined results.

Note 3—Estimated Purchase Price

Pursuant to the merger, shareholders of Frutarom will receive \$71.19 in cash and 0.249 shares of IFF's common stock for each Frutarom ordinary share held prior to the merger. If the aggregate number of shares of IFF common stock to be issued pursuant to the merger agreement would exceed 19.9% of the issued and outstanding shares of IFF common stock immediately prior to the entry into the merger agreement, rounded down to the nearest whole share, the exchange ratio will be reduced by the minimum extent necessary such that the foregoing clause is no longer true, and the cash component of the merger consideration will also be increased accordingly.

The following table summarizes the components of the preliminary estimated purchase price:

<i>(In USD thousands, except share data and exchange ratio)</i>	
Estimated Frutarom's shares outstanding ⁽ⁱ⁾	59,542,645
Cash consideration per share ⁽ⁱⁱ⁾	\$ 71.19

(ii) Cash consideration per share as per the merger agreement

- (iii) Estimated cash and equity consideration payable to the vested Frutarom stock option holders on a diluted basis
- (iv) Estimated pro rata portion of the unvested Frutarom stock options attributable to pre-combination services. The pro forma adjustment has been recorded in other current liabilities.
- (v) Estimated dividend payable to Frutarom shareholders prior to closing considering the exchange ratio, as set forth in the merger agreement, and IFF dividend rate. IFF's current dividend rate (\$0.69 per share) has been considered for the purpose of this computation. The amount is subject to change if IFF's dividend rate changes prior to closing. The pro forma adjustment has been recorded in dividends payable.
- (vi) Exchange ratio as set forth in the merger agreement
- (vii) Closing price of IFF's common stock on the New York Stock Exchange on June 28, 2018

The final estimated merger consideration could significantly differ from the amounts presented in the unaudited pro forma condensed combined financial information due to movements in IFF's common stock price up to the closing date of the merger. A sensitivity analysis related to the fluctuation in the IFF's common stock price was performed to assess the impact a hypothetical change of 10% on the closing price of IFF's common stock on June 28, 2018, would have on the estimated merger consideration and goodwill as of the closing date. The following table shows the change in stock price, estimated merger consideration and goodwill:

	Purchase Price	Estimated Goodwill
As presented in the pro forma combined financial statements	\$ 6,116,936	\$ 4,155,094
10% increase in common stock price	6,301,788	4,339,947
10% decrease in common stock price	5,932,083	3,970,242

Note 4—Preliminary Purchase Price Allocation

Under the acquisition method of accounting, Frutarom's assets and liabilities will be recorded at fair value at the date of the completion of the merger and combined with the historical carrying amounts of the assets and liabilities of IFF. In the unaudited pro forma condensed combined balance sheet, IFF's cost to acquire Frutarom has been allocated to the assets acquired, liabilities assumed and goodwill based upon management's preliminary estimate of what their respective fair values would be as if the merger closed on March 31, 2018. Accordingly, the unaudited pro forma condensed combined financial information includes a preliminary allocation of the purchase price based on assumptions and estimates that, while considered reasonable under the circumstances, are subject to changes, which may be material.

IFF has not completed a full, detailed valuation analysis necessary to determine the fair values of Frutarom's identifiable assets to be acquired, liabilities to be assumed and redeemable and non-redeemable noncontrolling interest. The preliminary calculation of assets acquired and liabilities assumed performed for the purposes of these unaudited pro forma condensed combined financial statements was primarily limited to the identification and calculation of preliminary values for the intangible assets, property and equipment, inventory, deferred taxes and contingent consideration. As of the date of this prospectus, the calculations necessary to estimate the fair values of the assets acquired and liabilities assumed have been performed based on publicly available benchmarking information as well as a variety of other assumptions, including market participant assumptions, as there are limitations on the type of information that can be exchanged between IFF and Frutarom at this time. Where applicable, the benchmark information was corroborated with an income approach methodology such as the relief from royalty or multi-period excess earnings method. IFF will continue to refine its identification and valuation of assets to be acquired and the liabilities to be assumed as further information becomes available.

The estimated values of the assets acquired, liabilities assumed and redeemable and non-redeemable noncontrolling interest will remain preliminary until after closing of the merger, at which time IFF will determine the fair values of assets acquired and liabilities assumed. The final determination of the purchase price allocation is anticipated to be completed as soon as practicable after completion of the merger and will be based on the fair

Table of Contents

values of the assets acquired and liabilities assumed as of the merger closing date. The final amounts allocated to assets acquired and liabilities assumed could differ significantly from the amounts presented in the unaudited pro forma condensed combined financial statements.

The following is a preliminary estimate of the assets to be acquired and the liabilities to be assumed by IFF in the merger, reconciled to the estimate of total consideration expected to be transferred (in USD thousands):

	Frutarom's US GAAP (Note 5)	Fair Value Adjustments	Fair value
Purchase Consideration			6,116,936
Identifiable net assets:			
Inventories	348,798	42,202	391,000
Property, plant and equipment	341,612	—	341,612
Identifiable intangible assets	430,851	2,009,149	2,440,000
Deferred tax assets	5,630	—	5,630
All other assets (excluding goodwill)	521,695	—	521,695
Existing contingent consideration	(42,186)	4,186	(38,000)
Transaction bonus	—	(30,000)	(30,000)
Deferred tax liabilities	(67,062)	(388,903)	(455,965)
All other liabilities	(1,106,902)	—	(1,106,902)
Total identifiable net assets	432,436	1,636,634	2,069,070
Redeemable Noncontrolling interest	(102,803)	—	(102,803)
Noncontrolling interest	(4,425)	—	(4,425)
Goodwill	589,250	3,565,844	4,155,094
Total	914,458	5,202,478	6,116,936

The amount allocated to identifiable intangible assets has been attributed to the following assets (in thousands):

	Estimated Useful Life	Amount
Product Formulas	10 years	\$ 330,000
Trade name	20 years	130,000
Customer relationships	20 years	1,980,000
Total identifiable intangible assets		\$2,440,000

These intangible assets will be amortized over the estimated useful lives on a straight line basis. IFF believes that it represents the pattern in which economic benefits will be consumed.

In addition, pursuant to the merger agreement, Frutarom has the right to grant a transaction bonus to its CEO and selected employees before the merger is consummated to the extent of up to \$20 million each. The transaction bonus to the CEO will be payable immediately prior to the closing of the merger. The transaction bonus to employees is payable in two installments (i) 50% at closing and (ii) 50% after the completion of one year of service (subject to the terms of the merger agreement). IFF has determined that \$30 million is a pre-merger expense to be accrued by Frutarom due to the fact that the transaction bonus was entered into by or on behalf of Frutarom. See table below (in USD thousands):

	Pre-combination expense	Post-combination expense
CEO	\$ 20,000	—
Selected employees	10,000	10,000
Total bonus	\$ 30,000	\$ 10,000

[Table of Contents](#)

Accordingly, pro forma condensed combined balance sheet has been adjusted to reflect an adjustment of \$30,000 for transaction bonus payable by Frutarom, declared before the merger is consummated. This amount together with \$15,582 for the accrual for unvested Frutarom stock options attributable to pre-combination services (see Note 3) has been shown as an adjustment to other current liabilities.

Note 5—Adjustments to Frutarom’s Historical Financial Statements to Conform to U.S. GAAP

Frutarom’s consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB, which differs in certain material respects from U.S. GAAP.

The unaudited U.S. GAAP information includes a statement of financial position and statements of income of Frutarom derived from the historical consolidated financial statements as of and for the three months ended March 31, 2018 and the year ended December 31, 2017, prepared in accordance with IFRS as issued by the IASB. This balance sheet as of March 31, 2018 and statements of operations for the year ended December 31, 2017 and for the three months ended March 31, 2018 have been adjusted to reflect Frutarom’s consolidated statement of financial position and statements of profit or loss on a U.S. GAAP basis.

Certain balances presented in the historical Frutarom’s financial statements included within the unaudited pro forma condensed combined financial information have been reclassified to conform the presentation to that of IFF as indicated in the tables as below:

Adjustments included in the column “IFRS to U.S. GAAP Adjustments” are as follows:

The following adjustments have been made to convert Frutarom’s historical balance sheet as of March 31, 2018 and income statement for the three months ended March 31, 2018 and the year ended December 31, 2017 to U.S. GAAP for purposes of the pro forma presentation:

- n) Reflects an adjustment to reclassify put option liability as redeemable noncontrolling interest as mezzanine equity. As part of several acquisitions effected by Frutarom, the noncontrolling interest holders of the acquired entities were granted an option to sell (“Put option”) their respective interests to Frutarom. In accordance with IFRS, Frutarom recognized a liability for such put options. Under U.S. GAAP, IFF determined the put options cannot be separated from the noncontrolling interest and the combination of a noncontrolling interest and the redemption feature require classification of such noncontrolling interest as a redeemable noncontrolling interest in the combined balance sheet. Further, those noncontrolling interest which are not currently redeemable but are probable to become redeemable are measured using the present value of the redemption value as of the earliest redemption date and the noncontrolling interest which are currently redeemable are measured at the maximum redemption amount. IFF has reviewed the computation of liabilities for put option under IFRS and determined that the amounts to be recorded for redeemable non-controlling interest under U.S. GAAP would be materially the same as the amount of such liabilities for put option recorded under IFRS. Accordingly, the unaudited pro forma condensed combined balance sheet as at March 31, 2018 was adjusted to reclassify the current and non-current portion of liability for put option that represented redeemable portion of noncontrolling interest as mezzanine equity which is presented between total liabilities and shareholders’ equity. In addition, as a result of the reclassification to mezzanine equity, a portion of the profit has been allocated to the relevant NCI in accordance with U.S. GAAP.
- o) For the year ended December 31, 2017, Frutarom accounted for the lease arrangements entered into under IAS 17—Leases (“IAS 17”). Frutarom has elected to early adopt IFRS 16—Leases (“IFRS 16”) issued by the IASB, as of January 1, 2018, which requires entities to recognize a lease liability that reflects future lease payments and a “right-of-use” in all lease arrangements, with no distinction between capital/finance and operating leases subject to an exemption of certain short term leases or leases of low value assets. As a result of the early adoption of IFRS 16, Frutarom has recorded its operating leases as a “right to use” asset along with a corresponding lease liability in its historical balance sheet for the three months ended March 31, 2018. Regarding all leases, Frutarom applied the transitional provisions under IFRS 16 such that it initially recognized a liability at the commencement date at an amount equal to the present value of the lease payments during the lease, discounted using the effective interest rate as of that date, and concurrently recognized a right-of-use asset at an amount identical to the liability. As a result, adoption of the standard had no impact on equity and retained earnings of Frutarom as of initial application. IFF will adopt ASC 842 beginning January 1, 2019. Accordingly, IFF will reverse changes made by Frutarom under IFRS 16 and leases are accounted for under ASC 840 for the three months ending March 31, 2018.
- p) Expected return on plan assets—Under IFRS, companies calculate a net interest cost (income) by applying the discount rate to the net pension benefit obligation or asset, while U.S. GAAP requires companies to calculate a separate return on plan assets using an estimated long-term rate of return on plan assets. The interest cost on the pension benefit obligation is generally the same under both IFRS and U.S. GAAP.

Table of Contents

The following is a summary of the calculation of the pro forma income statement adjustment of \$1.6 million for the year ended December 31, 2017 relating to the expected return on plan assets. This adjustment is due to the different asset return rates used for IFRS versus U.S. GAAP and has been calculated using the following methodology:

Plan Asset	\$28,699	A
Rate Differential:		
Expected rate on plan assets	6.63%	U.S. GAAP
Weighted average discount rate	1.04%	IFRS
Difference	5.58%	B
Calculated difference	\$ 1,602	A*B

The expected long-term rate of return on pension plan assets was estimated based on the plan's investment strategy and asset allocation, historical capital market performance, and historical performance.

The tax impact of the pro forma income statement adjustment was estimated using Frutarom's statutory tax rate in the jurisdictions expected to be impacted.

An adjustment for the three month ended March 31, 2018 has not been calculated since management believes that the adjustment is not material.

No pro forma balance sheet adjustment is required because the amounts recorded for pension assets and obligations will not change materially as a result of purchase accounting.

Note 6—Pro Forma Adjustments

Adjustments included in the unaudited pro forma condensed combined balance sheet are represented by the following:

- a) Represents the adjustments to record amortization expense related to the increased basis of intangible assets (see Note 4), which have been recorded at estimated fair value on a pro forma basis and will be amortized over the estimated useful lives on a straight line basis as management continues to evaluate the pattern of economic benefits. As part of the preliminary valuation analysis, IFF identified intangible assets related to product formulas, trade name and customer relationships.

The following table summarizes the estimated fair values of Frutarom's identifiable intangible assets and their estimated useful lives and uses a straight line method of amortization (in USD thousands):

	Estimated Fair Value	Estimated Useful Life (in Years)	Amortization expense	
			For the Three Months Ended March 31, 2018	For the Year Ended December 31 2017
Intangible assets				
Product formulas	330,000	10	8,250	33,000
Trade name	130,000	20	1,625	6,500
Customer relationships	1,980,000	20	24,750	99,000
	<u>2,440,000</u>		<u>34,625</u>	<u>138,500</u>
Less: Historical amortization expense			<u>6,828</u>	<u>23,676</u>
Pro forma adjustment			<u>27,797</u>	<u>114,824</u>

The estimated tax impact of the fair market value adjustments on the amortization expense is reflected in the statements of operations using the weighted average statutory tax rate of the jurisdictions expected to be impacted.

A 10% change in the valuation of definite lived intangible assets would cause a corresponding increase or decrease in the balance of goodwill and would also cause a corresponding increase or decrease in the annual amortization expense of approximately \$13,850.

Table of Contents

- b) The pro forma condensed combined balance sheet has been adjusted to reflect the elimination of Frutarom's historical goodwill of \$589,250 and to record goodwill resulting from the merger of \$4,155,094. Recorded goodwill is calculated as the difference between the fair value of the purchase price paid and the preliminary values assigned to the identifiable tangible and intangible assets acquired and liabilities assumed. See Note 4 for the calculation of the amount of preliminary goodwill recognized in connection with the merger.
- c) The pro forma condensed combined balance sheet has been adjusted to step up Frutarom's inventory to a fair value of approximately \$391,000, an increase of \$42,202 from the carrying value. This fair value estimate of inventory is preliminary and is determined based on the assumptions that market participants would use in pricing an asset, based on the most advantageous market for the asset (i.e., its highest and best use). This preliminary fair value estimate could include assets that are not intended to be used, may be sold or are intended to be used in a manner other than their best use. The final fair value determination for inventories may differ from this preliminary determination. No adjustment to the unaudited pro forma condensed combined statement of operations has been recorded since the step up of inventory does not have a continuing impact on the combined company.
- d) The pro forma condensed balance sheet has been adjusted to include the adjustment to deferred tax liabilities, on a preliminary basis, of \$388,903 resulting from the pro forma fair value adjustments for inventory, intangible assets (excluding goodwill which is not tax deductible), and liabilities utilizing a weighted average statutory rate for the jurisdictions expected to be impacted. Because the tax rate used for these pro forma financial statements is an estimate, it will likely vary from the actual rate in periods subsequent to the completion of the merger and those differences may be material.
- e) The pro forma condensed combined balance sheet has been adjusted to reflect an adjustment of \$914,458 to eliminate Frutarom's historical shareholders' equity, which represents the historical book value of Frutarom's net assets, as a result of the merger. The pro forma adjustment to equity also reflects the issue of IFF shares to Frutarom as part of the purchase consideration (Note 3). See table below for more details:

	Reversal of Frutarom's equity	Issue of IFF's shares as purchase consideration	Pro forma adjustment
Common Stock	(17,093)	1,860	(15,233)
Capital in excess of par value	(115,794)	1,838,808	1,723,014
Other equity	(781,571)	—	(781,571)
Total	(914,458)	1,840,668	926,210

In addition, other pro forma adjustments to other equity include the following adjustments:

	Amount	Tax impact	Pro forma adjustment
Adjustment related to extinguishment of IFF's debt (Note 6f)	38,591	(8,683)	29,908
Adjustment related to acquisition related cost (Note 6h)	55,249	—	55,249
Adjustment related to bridge finance commitment fee (Note 6h)	39,800	(9,313)	30,487
Adjustment related to fair valuation of derivatives (Note 6g)	6,691	(1,506)	5,185
Total			120,829

- f) IFF expects to finance the merger with a combination of up to \$3.2 billion of new debt, cash on hand and up to \$2.1 billion in equity. The financing is expected to consist of (i) issuing new par value debt in the form of notes of approximately \$2,720 million at a weighted average interest rate of 3.4% per annum with maturities ranging from 2 – 30 years, a portion of which will be denominated in currencies other than the U.S. dollar, (ii) obtaining a new term loan facility of up to \$350 million (iii) issuing new Tangible Equity Units (TEU) of approximately \$700 million, securities consisting of (a) 3-year prepaid common stock purchase contract

[Table of Contents](#)

of \$595 million and (b) 3-year amortizing bond of \$105 million at an interest rate of 5.5%, and (iv) issuance of new common shares for \$1,467 million.

Based on the expected structure of the TEUs, IFF expects the TEUs to meet equity classification which has been reflected as such in the unaudited pro forma condensed combined balance sheet. The classification of the TEU will be subject to detailed assessment once finalized and a different conclusion may result in a material impact on these unaudited pro forma condensed combined financial information.

IFF has entered into a debt commitment letter with Morgan Stanley Senior Funding, Inc. to obtain a 364-day bridge facility of up to \$5,450 million to the extent IFF does not receive \$5,450 million of net cash proceeds from the financing arrangements discussed above. This bridge facility is not expected to be utilized, and thus the fee of the bridge facility financing totaling \$39.8 million is not included in the calculation of pro forma interest expense but will be considered an acquisition related cost (see Note 6g). On June 6, 2018, IFF entered into a term loan credit agreement to replace a portion of the bridge facility, reducing the amount of the bridge facility by \$350 million. If IFF is not able to consummate the financing discussed above, and instead must utilize the bridge facility to fund the acquisition, the adjustment to annual interest expense is expected to be approximately \$48.93 million for the three months ended March 31, 2018 and \$195.7 million for the year ended December 31, 2017 respectively.

IFF intends to retire all of Frutarom's existing debt utilizing funds raised by the expected financing arrangements above. Additionally, in connection with the merger, IFF intends to prepay in full IFF's current outstanding senior secured notes due 2019-2027. Pursuant to this, IFF will incur certain pre-payment penalties and swap unwind costs. These transactions will be treated as an extinguishment of debt, with a loss of \$38.6 million associated with the pre-payment of senior secured notes due 2019-2027 along with swap unwind fee. The loss on extinguishment is reflected in the unaudited pro forma balance sheet as a reduction of retained earnings and a reduction of cash as it will be expensed by IFF. It is not reflected in the pro forma statement of income due to its nonrecurring nature.

The following pro forma adjustments have been recorded in the pro forma condensed combined balance sheet in relation to the new debt (in USD thousands):

	As of March 31, 2018
Term loan	350,000
Senior notes	2,720,000
Debt portion of TEUs	105,000
Debt issuance costs	(22,593)
Extinguishment of Frutarom's existing debt	(841,293)
Repayment of IFF's existing debt	(250,000)
Pro forma adjustment	<u>2,061,114</u>
Allocated to:	
Short-term borrowings	194,543
Long-term debt	1,866,571

The following pro forma adjustments have been recorded in the pro forma condensed combined balance sheet in relation to the issuance of equity (in USD thousands):

	<u>Issue of common stock</u>	<u>Equity portion of Tangible equity units</u>	<u>Pro forma adjustment</u>
Common Stock	1,482	—	1,482
Capital in excess of par value	1,423,708	578,043	2,001,751
Total	<u>1,425,190</u>	<u>578,043</u>	<u>2,003,233</u>

The following pro forma adjustments have been recorded the pro forma condensed combined statements of operations (in USD thousands):

	<u>Three Months Ended March 31, 2018</u>	<u>Year Ended December 31, 2017</u>
Interest expense on Term Loan	2,438	12,802
Interest expense TEU notes	1,270	6,631
Interest on Senior Notes	19,765	85,729
Frutarom Interest Expense	(5,800)	(10,076)
Retirement of IFF Senior Notes	<u>(4,109)</u>	<u>(16,437)</u>
Total pro forma adjustment	<u>13,564</u>	<u>78,649</u>

The weighted-average interest rate on the new term loan, new senior notes and amortizing bond (TEU) as of the issuance is expected to be 3.48%. The actual financing and terms of the financing will be subject to market conditions. A 1/8% change in interest rates on the debt to be incurred as part of the merger would result in a change in interest expense of \$3.6 million annually.

- g) IFF entered into deal contingent foreign currency forward contract and interest rate swaps. The deal contingent foreign currency forward serves as an economic hedge of the Euro denominated portion of the senior notes to be issued, while the deal contingent interest rate swaps serve as an economic hedge of the underlying interest rate of the USD denominated senior notes. Upon securing the permanent financing, IFF intends to net settle these derivatives with the financial institutions by making or receiving payment. The foreign currency forward and interest rate swaps have not been considered to be designated as a hedge for the purposes of pro forma financial information. As of June 28, 2018, the foreign currency forward had a fair value of a loss of approximately \$25.8 million and the interest rate swaps had a fair value of a gain of approximately \$19.1 million. For the purpose of the unaudited pro forma financial statements, recognition of these derivatives have been considered an event that is directly attributable to the merger, however, since these are deal contingent, there is no continuing impact. Accordingly, the pro forma balance sheet has been adjusted to reflect the fair value of these derivatives as June 28, 2018, as if these derivatives were settled on the said date reducing cash and retained earnings. The pro forma adjustments were tax effected using the worldwide weighted average statutory tax rate in the jurisdictions to which the adjustments are expected to relate. No impact on pro forma income statement is considered due its non-recurring nature.
- h) The pro forma condensed combined balance sheet has been adjusted to reflect an adjustment of \$95,049 for estimated acquisition-related costs consisting of bridge facility financing fees of \$39,800 and professional, legal and other acquisition-related fees of \$55,249. Pursuant to the requirements for the preparation of pro forma financial information under Article 11 of Regulation S-X, these acquisition-related costs are not included in the pro forma condensed combined income statements, since these costs are nonrecurring. Acquisition-related costs expected to be incurred by IFF include estimated fees related to the bridge financing commitment letter. Those costs are reflected in the unaudited pro forma condensed combined balance sheet as a decrease to cash and cash equivalents, with the related tax benefits reflected as a decrease in other current liabilities and the after tax impact presented as a decrease to retained earnings.

- i) The pro forma condensed combined income statement has been adjusted for the impact of the adoption of ASU 2017-07—Compensation—Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, to present the non-service components of periodic pension cost to “Other (income) expense, net” in the pro forma condensed combined income statements.
- j) The estimated tax impact of the interest expense adjustments have been reflected in the pro forma condensed combined income statement using the weighted average statutory tax rate of the jurisdictions expected to be impacted. Because the tax rate used for these pro forma financial statements is an estimate, it will likely vary from the actual rate in periods subsequent to the completion of the business combination and those differences may be material.

BENEFICIAL OWNERSHIP TABLE

The following table sets forth certain information regarding the beneficial ownership of ordinary shares of Frutarom as of June 30, 2018 (which we refer to as the “measurement date”) (unless otherwise indicated below), with respect to (1) each person who is known by Frutarom to beneficially own more than 5% of Frutarom’s outstanding ordinary shares, (2) each director and executive officer of Frutarom and (3) all of Frutarom’s directors and executive officers as a group. The address of each director and executive officer shown in the table below is c/o Frutarom Industries Ltd., 2 Hamenofim Street, Building A, Herzliya, Israel 4672553. The individuals referred to in this section as “executive officers” are the four Company office holders, as defined in the ICL, who are not directors of Frutarom: Ori Yehudai, President and Chief Executive Officer, Alon Granot, Executive Vice President and Chief Financial Officer, Amos Anatot, Executive Vice President Global Supply Chain and Operations, and Guy Gill, Vice President Finance. Frutarom has determined beneficial ownership based on Frutarom’s records. Beneficial ownership includes any ordinary shares as to which the individual or entity has sole or shared voting power or investment power and also any ordinary shares which the individual or entity has the right to acquire within 60 days of the measurement date. For Frutarom’s directors and executive officers, beneficial ownership also includes ordinary shares subject to options and restricted stock awards that can be acquired (including as a result of expected vesting and/or delivery) within 60 days of the measurement date, excluding, however, for purposes of the table below, any right to acquire beneficial ownership that would only vest or otherwise become effective within 60 days due to the consummation of the merger (among other possible triggers) and not due to the mere passage of time. All percentages are based on Frutarom ordinary shares outstanding as of the measurement date.

COMPARISON OF SHAREHOLDER RIGHTS

IFF is incorporated under the laws of the State of New York, and, accordingly, the rights of the shareholders of IFF are currently governed by the New York Business Corporation Law, which is referred to as the “NYBCL”. Frutarom is a company organized under the laws of the State of Israel, and, accordingly, the rights of the shareholders of Frutarom are currently governed by the ICL. IFF will continue to be a New York corporation following completion of the merger and will be governed by the NYBCL.

Upon completion of the merger, the Frutarom shareholders immediately prior to the completion of the merger will become IFF shareholders. The rights of the former Frutarom shareholders and the IFF shareholders will thereafter be governed by the NYBCL and by IFF’s restated certificate of incorporation and by-laws.

The following description summarizes the material differences between the rights of the shareholders of IFF and Frutarom based on their current governing documents and the NYBCL and ICL, but is not a complete statement of all those differences, or a complete description of the specific provisions referred to in this summary. Frutarom shareholders should read carefully the relevant provisions of the NYBCL and ICL and the current governing documents of IFF and Frutarom. For more information on how to obtain certain documents that are not attached to this prospectus, see “Where You Can Find More Information” beginning on page 153.

Authorized Capital Stock	The authorized capital stock of IFF consists of 500,000,000 shares of common stock, par value \$0.125 per share.	The authorized share capital of Frutarom is NIS 100,000,000, divided into 100,000,000 Frutarom ordinary shares.
Dividends	IFF’s restated certificate of incorporation provides that the IFF board is expressly authorized and empowered (i) to determine the amount of funds legally available for dividends under the laws of the State of New York and (ii) to determine whether any, and, if any, what part, of the funds legally available for dividends shall be declared and paid as dividends.	<p>Dividends may be distributed only out of profits available for dividends as determined by the ICL, provided that there is no reasonable concern that the distribution will prevent Frutarom from being able to meet its existing and anticipated obligations when they become due. Generally, under the ICL, the decision to distribute dividends and the amount to be distributed is made by a company’s board of directors.</p> <p>Frutarom’s articles of association provide that the Frutarom board may from time to time declare interim or final dividends at a rate as the Frutarom board may deem fit considering the profits of Frutarom and as permitted by applicable law. Subject to any special or restricted rights conferred upon the holders of shares as to dividends, all dividends shall be declared and paid in accordance with the paid-up capital of Frutarom attributable to the shares in respect of which the dividends are declared and paid.</p> <p>The paid-up capital attributable to any share (whether issued at its nominal value, at a premium or at a discount), shall be the</p>

Each shareholder of Frutarom has one vote for each share registered in his name on the Frutarom Register of Shareholders.

Shareholder Action by Written Consent

Under Section 615 of the NYBCL, any action that may be taken at a meeting of shareholders may be taken without a meeting by unanimous written consent of the holders of all of the outstanding shares of stock entitled to vote on such action. If the certificate of incorporation so permits, any such action may be taken by written consent of the holders of the outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. However, the restated certificate of incorporation of IFF does not address actions by written consent; therefore any such action can be taken only by unanimous written consent.

The ICL prohibits shareholder action by written consent in public companies such as Frutarom.

Number of Directors

IFF's restated certificate of incorporation provides that the number of directors shall be as fixed in IFF's by-laws and shall be not less than six or more than fifteen. IFF's by-laws provide that the number of directors shall be eleven but the number thereof may be diminished to not less than six by amendment of IFF's by-laws.

Frutarom's articles of association provide that the number of directors shall range between five and twenty directors, including any external directors, unless otherwise prescribed by a shareholder resolution at a general meeting of Frutarom shareholders in accordance with Frutarom's articles of association.

There are currently eleven directors serving on the IFF board.

Election of Directors	<p>IFF's by-laws provide that at each meeting of the shareholders for the election of directors at which a quorum is present, the vote required for election of a director by the shareholders shall, except in a contested election, be the affirmative vote of a majority of the votes cast by the holders of shares of capital stock entitled to vote at such meeting.</p> <p>In a contested election, the persons receiving a plurality of the votes cast by the holders of shares of capital stock entitled to vote as such meeting shall be the directors. A "contested election" means an election where, as of the record date for such meeting in which the election will be held, there are more nominees for election than positions on the IFF board to be filled by election at the meeting. In accordance with IFF's by-laws, if plurality voting is applicable to the election of directors at any meeting, the nominees who receive the highest number of votes cast "for," without regard to votes cast "against" or "withhold," shall be elected as directors up to the total number of directors to be elected at that meeting. Abstentions and broker non-votes will not count as a vote cast with respect to any election of directors.</p>	<p>Under Frutarom's articles of association, all of the directors of Frutarom (except for external directors whose term is determined in accordance with the ICL) are elected by shareholder resolution at each annual general meeting of Frutarom shareholders, to hold office until the end of the next annual general meeting of Frutarom shareholders and until their successors have been elected and are qualified for office, unless their office is vacated earlier as provided for in the ICL or Frutarom's articles of association.</p> <p>Under the ICL, a public company must have at least two external directors who meet certain independence and non-affiliation criteria. In addition, although not required by Israeli law, Frutarom may classify directors as "independent directors" pursuant to the ICL, if they meet certain conditions provided in the ICL.</p>
Removal of Directors	<p>IFF's restated certificate of incorporation provides that any director may be removed with cause by the affirmative vote of at least two-thirds of the whole IFF Board or may be removed with or without cause by IFF's shareholders as provided in IFF's by-laws.</p> <p>IFF's by-laws provide that any director may be removed with cause by the affirmative vote of at least two-thirds of the whole IFF board or with or without cause by vote of the IFF shareholders at a regular or special meeting, subject to the provisions of the NYBCL.</p>	<p>Frutarom's articles of association provide that directors, other than external directors, may be removed from office pursuant to a shareholder resolution at a general meeting of Frutarom shareholders. Rights of IFF Shareholders

IFF's restated certificate of incorporation provides that any vacancy of the IFF board arising from any cause shall be filled for the unexpired portion of the term by the affirmative vote of at least two-thirds of the whole IFF board or by the IFF shareholders as provided in IFF's by-laws.

IFF's by-laws provide that vacancies occurring in the IFF Board for any reason, except the removal of directors without cause by the IFF shareholders, may be filled by the affirmative vote of at least two-thirds of the whole IFF board. A director elected to fill a vacancy shall be elected to hold office for the unexpired term of his or her predecessor. Newly-created directorships resulting from an increase in the number of directors may be filled by the vote of a majority of the directors then in office, although less than a quorum exists.

Advance Notice Requirements for Shareholder Nominations and Other Proposals

Director Nominations

IFF's by-laws provide that nominations of persons for election to the IFF board may be made at any annual meeting of shareholders, or at any special meeting of shareholders called for the purpose of electing directors (i) by or at the direction of the IFF board (or any duly authorized committee thereof), (ii) by any shareholder of IFF (A) who is a shareholder of record (x) on the date the shareholder provides the shareholder notice discussed below (y) on the record date for the determination of shareholders entitled to vote at such meeting and (z) on the date of such meeting and (iii) by an eligible shareholder or eligible shareholder group with respect to any director nomination to be included in IFF's proxy statement for annual meeting who satisfies the requirements set forth in IFF's by-laws.

An "eligible shareholder" is a person who either (i) has been a record holder of the shares of common stock used to satisfy the eligibility requirements discussed below for the three-year period preceding and

Rights of Frutarom Shareholders

Frutarom's articles of association provide that Frutarom's shareholders may fill any vacancy, however created, in the Frutarom board pursuant to a shareholder resolution at a general meeting of the shareholders of Frutarom. Frutarom's articles of association also provide that Frutarom's directors may at any time appoint any other person as a director to fill a vacancy, provided that the total number of directors does not exceed the maximum permitted under the articles of association. Any director so appointed shall hold office until the end of the first general meeting of Frutarom shareholders convened after such appointment and may be re-elected.

Pursuant to the ICL and the regulations promulgated thereunder, the holder(s) of at least one percent of Frutarom's voting rights may propose any matter appropriate for deliberation at a Frutarom shareholder meeting to be included on the agenda of a Frutarom shareholder meeting, including nomination of candidates for directors, generally by submitting a proposal within seven days of publicizing the convening of a Frutarom shareholder meeting, or, if Frutarom publishes a preliminary notice at least 21 days prior to publicizing the convening of a Frutarom shareholder meeting stating its intention to convene such meeting and the agenda thereof, within 14 days of such preliminary notice. Any such proposal must further comply with the information requirements under applicable law and Frutarom's articles of association.

An “eligible shareholder group” is a group of up to twenty (20) Eligible Shareholders.

In addition to any other applicable requirements, in order for a shareholder to present any business to be transacted at an annual meeting of shareholders, including any nomination for a director to be made by a shareholder, such shareholder must provide the Secretary of IFF notice thereof that (A) is timely (as specified below) and (B) includes certain information specified in IFF’s by-laws. IFF shareholders may also submit other matters properly brought under Rule 14a-8 of the Exchange Act.

To be timely, IFF’s by-laws provide that a shareholder’s notice to IFF’s Secretary must be delivered to or mailed and received at the principal executive offices of IFF (i) in the case of an annual meeting, not less than 90 days nor more than 120 days prior to the anniversary date of the immediately preceding annual meeting of shareholders; provided, however, that in the event that the annual meeting is called for on a date that is not within 30 days before or after such anniversary date, notice by the shareholder in order to be timely must be so received not later than the close of business on the tenth day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever first occurs; and (ii) in the case of a special meeting of shareholders called for the

purpose of electing directors, not later than the close of business on the tenth day following the day on which notice of the date of the special meeting was mailed or public disclosure of the date of the special meeting was made, whichever first occurs.

Pursuant to IFF's by-laws, for director nominations to be properly brought before a meeting by a shareholder, such shareholder's notice must set forth certain required information as to (i) each person whom the shareholder proposes to nominate for election as a director the following information and (ii) the shareholder giving the notice.

For a nomination to be properly brought before a meeting by a shareholder pursuant to IFF's by-laws and to be in proper written form for inclusion in IFF's proxy statement, the shareholders' notice must also provide certain other information specified in IFF's by-laws.

Other Shareholder Proposals

With regard to matters other than the nomination of a director, IFF's by-laws provide that a shareholders' notice to the Secretary of IFF must set forth as to each matter such shareholder proposes to bring before an annual meeting, certain required information.

Notice of Shareholder Meeting

IFF's by-laws provide that written notice of each meeting of shareholders stating the place, date and hour of the meeting shall be sent to each shareholder entitled to vote at the meeting not less than ten (10) nor more than sixty (60) days before the date of the meeting. To the extent that the meeting is a special meeting, such notice shall also indicate the person or persons calling the meeting, or the person(s) directing that the meeting be so called, and shall state the purpose or purposes for which the meeting has been called. Notice of any meeting of shareholders may be sent either in written or electronic form

Pursuant to the ICL, shareholder meetings generally require prior notice of not less than 21 days, and for certain matters specified in the ICL, not less than 35 days. Frutarom's articles of association do not require the sending of written notice of general meetings of Frutarom shareholders to Frutarom shareholders unless the Frutarom board resolves otherwise with regards to a specific matter.

and shall comply with Section 505 of the NYBCL.

Quorum

IFF's by-laws provide that at all meetings of the shareholders of IFF, the holders of a majority of the shares of capital stock of IFF entitled to vote at such meeting, present in person or by proxy, shall constitute a quorum for the transaction of any business except as otherwise provided by law.

Frutarom's articles of association provide that two or more shareholders, present in person, by proxy or by voting card when a general meeting of Frutarom shareholders proceeds to business, and holding shares representing in the aggregate 33 1/3% or more of the total voting power attached to the shares then outstanding, shall constitute a quorum.

If within half an hour from the time appointed for the general meeting a quorum is not present, the general meeting shall stand adjourned to the same day in the next week, at the same time and place, or any other time and place as the Frutarom board may designate in a notice to the shareholders.

The requisite quorum at an adjourned general meeting shall be (i) if the original meeting was convened upon requisition by shareholders pursuant to the ICL, the number of Frutarom shareholders holding the minimum number of voting shares necessary to make such requisition, present in person or by proxy; and (ii) in any other case, one or more shareholders, present in person or by proxy, holding at least one share.

At an adjourned general meeting, Frutarom's articles of association provide that the only business to be considered shall be those matters which might have been lawfully considered at the general meeting originally called if a requisite quorum had been present, and the only resolutions to be adopted are such types of resolutions which could have been adopted at the general meeting originally called.

Exemption and Limitation of Personal Liability of Directors and Officers

Section 402(b) of the NYBCL permits corporations to eliminate or limit the personal liability of directors to the corporation or its shareholders for damages for any breach of duty in such capacity except liability of a director

The ICL provides that an office holder's (that is, an executive officer's or director's) fiduciary duties consist of a duty of care and a duty of loyalty. An Israeli company may exculpate an office holder in advance from liability to the

Rights of IFF Shareholders

(i) whose acts or omissions were in bad faith, involved intentional misconduct or a knowing violation of law, (ii) who personally gained a financial profit or other advantage to which he or she was not legally entitled or (iii) whose acts violated Section 719 of the NYBCL. IFF's restated certificate of incorporation includes such a provision.

company, in whole or in part, for damages caused to the company as a result of a breach of duty of care but only if a provision authorizing such exculpation is included in its articles of association. Frutarom's articles of association include such a provision. A company may not exculpate in advance a director from liability arising out of a prohibited dividend or distribution to shareholders.

Under the ICL, a company also may not exculpate, indemnify or insure an officer holder under other circumstances, including (i) a breach of the office holder's duty of loyalty, (ii) willful or reckless breach of an officer holder's duty of care, excluding a breach arising out of the negligent conduct of the office holder, (iii) an action or omission committed with the intent to derive unlawful personal benefit; and (iv) a fine, civil fine, financial sanction or penalty imposed upon the office holder.

Indemnification of Directors and Officers

Under Section 722 of the NYBCL, a corporation may indemnify its directors and officers (or a person who is or was serving at the request of the corporation as a director or officer of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise) against reasonable expenses (including attorneys' fees), judgement, fines and amounts paid in settlement actually and necessarily incurred by the person if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. In the case of shareholder derivative suits, the corporation may indemnify a director or officer (or a person who is or was serving at the request of the corporation as a director or officer of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise) against reasonable expenses (including attorneys'

Under the ICL, a company may indemnify an office holder in respect of the following liabilities and expenses incurred for acts performed by him or her as an office holder, either pursuant to an undertaking made in advance of an event or following an event, provided its articles of association include a provision authorizing such indemnification (Frutarom's articles of association authorize such indemnification):

- financial liability imposed on him or her in favor of another person pursuant to a judgment, including a settlement or arbitrator's award approved by a court; however, if an undertaking to indemnify an office holder with respect to such liability is provided in advance, then such an undertaking must be limited to events which, in the opinion of the board of directors, can be foreseen based on the company's activities when the undertaking to indemnify is given, and to an amount or according to

fees) and amounts paid in settlement actually and necessarily incurred by him or her if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect of (1) a threatened action, or a pending action that is settled or otherwise disposed or (2) any claim, issue or matter as to which such person has been adjudged to be liable to the corporation, unless and only to the extent the court in which the action was brought or, if no action was brought, any court of competent jurisdiction, finds that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnification for such expenses and settlement amount as the court deems proper.

The indemnification provisions of the NYBCL require indemnification of any individual who has been successful on the merits or otherwise in defense of any action or proceeding that he or she was a party to by virtue of the fact that he or she is or was a director or officer of the corporation. Except as provided in the preceding sentence, unless ordered by a court pursuant to Section 724 of the NYBCL, any indemnification under the NYBCL as described in the immediately preceding paragraph may be made only if, pursuant to Section 723 of the NYBCL, indemnification is authorized in the specific case and after a finding that the director or officer met the requisite standard of conduct by the disinterested directors if a quorum is available or, if the quorum so directs or is unavailable, by (1) the board of directors upon the written opinion of independent legal counsel or (2) the shareholders. Further, the NYBCL permits a corporation to purchase directors and officers insurance.

IFF's by-laws provide that IFF shall indemnify any person made, or threatened to be made, a party to an action or proceeding, whether civil or criminal, by

criteria determined by the board of directors as reasonable under the circumstances, and such undertaking shall detail the abovementioned foreseen events and amount or criteria;

- reasonable litigation expenses, including attorneys' fees, incurred by the office holder (1) as a result of an investigation or proceeding instituted against him or her by an authority authorized to conduct such investigation or proceeding, provided that (i) no indictment was filed against such office holder as a result of such investigation or proceeding, and (ii) no financial liability was imposed upon him or her as a substitute for the criminal proceeding as a result of such investigation or proceeding or, if such financial liability was imposed, it was imposed with respect to an offense that does not require proof of criminal intent; and (2) in connection with a monetary sanction; and
- reasonable litigation expenses, including attorneys' fees, incurred by the office holder or imposed by a court in proceedings instituted against him or her by the company, on its behalf, or by a third party, or in connection with criminal proceedings in which the office holder was acquitted, or as a result of a conviction for an offense that does not require proof of criminal intent.

Pursuant to the ICL, indemnification of, exculpation of and procurement of insurance coverage for, office holders in a public company that are not directors must be approved by the compensation committee, the board of directors and, if the office holder is a director, the chief executive officer or a controlling shareholder, also by the company's shareholders.

reason of the fact that he or she, or a person of whom he or she is the legal representative, is or was a director or officer of IFF, or was serving, at the request of IFF, as a director, officer, employee, fiduciary or agent of any other affiliated corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, against judgments, fines, amounts paid in settlement and reasonable expenses, including attorney's fees, incurred by such person as a result of such action or proceeding, or any appeal therein, unless a judgment or other final adjudication adverse to such person establishes that his or her acts, or the acts of the person of whom he or she is the legal representative, were committed in bad faith or were the result of active and deliberate dishonesty and were material to the cause of action so adjudicated, or that he or she, or the person of whom he or she is the legal representative, personally gained in fact a financial profit or other advantage to which he or she, or the other person of whom he or she is the legal representative, was not legally entitled. IFF's by-laws provide that IFF shall advance to such person funds to pay for such expenses, including attorney's fees, incurred by such person in defending against any such action or proceeding, or any appeal therein, upon receipt of an undertaking by or on behalf of such person to repay such funds to IFF if a judgment or other final adjudication adverse to such person establishes that his or her acts, or the acts of the person of whom he or she is the legal representative, were committed in bad faith or were the result of active and deliberate dishonesty and were material to the cause of action so adjudicated, or that he or she, or the person of whom he or she is the legal representative, personally gained in fact a financial profit or other advantage to which he or she, or such person, was not legally entitled.

against costs or liabilities incurred by them in connection with the performance of their duties and any activities undertaken by them for, or at the request of, IFF, to the fullest extent permitted by the NYBCL.

Amendments to Governing Documents

IFF's restated certificate of incorporation provides that any provision therein may be amended, altered, changed or repealed in the manner prescribed by law. In accordance with section 803 of the NYBCL, IFF's restated certificate of incorporation may be amended so long as the amendment is authorized by a vote of the IFF board, following by a vote of a majority of all outstanding shares entitled to vote thereon at a meeting of IFF shareholders. Under Section 803 of the NYBCL, the IFF board may make certain amendments to the restated certificate of incorporation without the authorization of IFF shareholders. In particular, the IFF board may (a) change the location of IFF's office, (b) specify or change the post office address to which the secretary of state shall mail a copy of any process against the corporation served upon him, and (c) make, revoke, or change the designation of a registered agent, or specify or change the address of IFF's registered agent. IFF's by-laws provide that the IFF board shall have the power to amend, repeal or adopt IFF's by-laws, and the by-laws may be amended, repealed or adopted by the shareholders entitled at the time to vote in the election of directors.

Certain Business Combination Restrictions

Under Section 912 of the NYBCL, a corporation is prohibited from engaging in any business combination with an interested shareholder for a period of five years from the date on which the shareholder first becomes an interested shareholder. There is an exception to the five-year waiting period requirement if prior to the shareholder becoming an interested shareholder, the board of directors approves the business combination in which the shareholder

Frutarom's articles of association provide that its articles of association, or any provision thereof, may be amended, cancelled or replaced by a shareholder resolution requiring only a simple majority of the votes cast, unless otherwise required by Israeli law.

Under the ICL, a merger is generally required to be approved by the shareholders and board of directors of each of the merging companies. If the share capital of the company that will not be the surviving company is divided into different classes of shares, the approval of each class is also required, unless determined otherwise by the competent Israeli court. Similarly, unless the court determines otherwise, a merger will not be approved if it is objected to by

became an interested shareholder. In addition, there is an exception to this prohibition on engaging in any business combination with an interested shareholder if:

- the business combination is approved by the board of directors before the stock acquisition or the acquisition of the stock had been approved by the board of directors before the stock acquisition;
- the business combination is approved by the affirmative vote of the holders of at least a majority of the outstanding shares of stock entitled to vote not beneficially owned by the interested shareholder at a meeting called for that purpose no earlier than five years after the stock acquisition; or
- in the business combination, the interested shareholder pays a formula price designed to ensure that all other shareholders receive at least the highest price per share that is paid by the interested shareholder and such business combination meets certain other requirements.

The NYBCL defines the term “business combination” to include transactions such as certain mergers, consolidations, dispositions of assets or stock, plans for liquidation or dissolution, reclassifications of securities, recapitalizations and similar transactions. The NYBCL defines the term “interested shareholder” generally as any person who owns at least 20% of the outstanding shares of stock entitled to vote. A corporation can expressly elect not to be governed by the NYBCL’s business combination provision in its by-laws, which must be approved by the affirmative vote of the holders of at least a majority of the outstanding shares of stock of entitled to vote and is subject to further conditions, but IFF has not done so.

shareholders holding a majority of the voting rights participating and voting at the meeting (abstentions are disregarded), after excluding the shares held by the other party to the merger, by any person who holds 25% or more of the other party to the merger or by anyone on their behalf, including by the relatives of or corporations controlled by these persons. In addition, upon the request of a creditor of either party to the proposed merger, the court may delay or prevent the merger if it concludes that there exists a reasonable concern that, as a result of the merger, the surviving company will be unable to satisfy the obligations of any of the parties to the merger and may give other instructions to protect the rights of creditors. Further, a merger can be completed only after all approvals have been submitted to the Registrar of Companies and 30 days have passed from the time that shareholder resolutions were adopted in each of the merging companies and 50 days have passed from the time that a proposal for approval of the merger was filed with the Registrar of Companies.

Subject to certain exceptions provided for in the ICL, an acquisition of shares in a public company must be made by means of a tender offer to the extent that as a result of such acquisition (i) a person will hold 25% or more of the voting rights in the company if there is no other holder of 25% or more of the company’s voting rights, or (ii) the purchaser will hold more than 45% of the voting rights in the company if there is no other holder of more than 45% of the company’s voting rights. This rule does not apply to certain events set forth in the ICL, including a purchase of shares in a ‘private placement’ that receives specific shareholder approval for this purpose.

Under the ICL, a person may not acquire shares in a public company if, after the acquisition, the person will hold more than 90% of the shares or more than 90% of any particular class of shares of that

Shareholder Rights Plans

Under New York law, the IFF board may, under certain circumstances, adopt a shareholder rights plan, which plan may have the effect of limiting the ability of any person or group to acquire IFF.

IFF does not have a shareholder rights plan in effect.

Shareholders' Statutory Rights

In addition to the rights set forth in IFF's restated certificate of incorporation and IFF's by-laws, the NYBCL grants shareholders certain statutory rights. These include, among others, certain inspection rights, the right to bring derivative actions on behalf of a corporation and the right to review a corporation's financial statements.

company, unless a tender offer is made to purchase all of the shares or all of the shares of the particular class. The ICL generally provides that as long as a shareholder in a public company holds more than 90% of the company's shares or of a particular class of shares, that shareholder shall be precluded from purchasing any additional shares.

The validity of a shareholder rights plan has not yet been determined under Israeli law.

Frutarom does not have a shareholder rights plan in effect.

In addition to the rights set forth in Frutarom's articles of association, the ICL grants shareholders certain statutory rights. These include, among others, the right to vote, certain inspection rights, information rights regarding directors' remuneration and the right to review a company's financial statements.

APPRAISAL RIGHTS

The ICL does not provide for any statutory appraisal rights for a merger pursuant to Sections 314-327 of the ICL.

REPORT OF INDEPENDENT AUDITORS

To the Shareholders of

FRUTAROM INDUSTRIES LTD.

We have audited the accompanying consolidated financial statements of Frutarom Industries Ltd. (hereafter—the Company) which comprise the consolidated statements of financial position as of December 31, 2017 and 2016, and the related consolidated statements of income, of comprehensive income, changes in equity and cash flows for each of the three years in the period ended on December 31, 2017.

Management and Board of Directors' Responsibility for the Consolidated Financial Statements

Management and Board of Directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management and Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Frutarom Industries Ltd. as of December 31, 2017 and 2016, and their results of operations and their cash flows for each of the three years in the period ended on December 31, 2017, in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1—GENERAL

Information on the activities of Frutarom Industries Ltd. and its subsidiaries (hereafter—the “Group”).

Frutarom Industries Ltd. (hereafter – the Company) is a global company, founded in 1933. The Company itself and through its subsidiaries (“Frutarom or the “Group”) develops, produces and markets flavors and fine ingredients used in the manufacture of food, beverages, flavors, fragrances, pharma/nutraceuticals, cosmetics and personal care products. On December 31, 2017, Frutarom operated 72 production sites, 90 research and development laboratories, and 109 sales offices in Europe, North America, Latin America, Israel, Asia, Africa and New Zealand, marketed and sold over 70,000 products to more than 30,000 customers in more than 150 countries and employed 5,250 people throughout the world.

Frutarom has two main activities: the Flavors activity and the Fine Ingredients activity (the “core businesses”). In addition, the Company imports and markets raw materials that it does not itself manufacture, as part of the service offered to customers, which includes providing them comprehensive solutions for their needs. This activity is presented as part of trade and marketing operations. Segment information for the reporting years is presented in note 6.

The Company is a limited liability company incorporated and domiciled in Israel. The address of its registered office is 2 Hamenofim St., Herzeliya. The Company’s controlling shareholder is ICC Industries Inc.

The Company’s shares have been listed on the Tel-Aviv Stock Exchange (the “TASE”) since 1996. Since February 2005, Company shares are also listed through Global Depository Receipts on the official list of the London Stock Exchange (the “LSE”).

In recent years, with Frutarom’s internal growth and acquisitions, seasonal effects on its results have diminished. Nonetheless, increased demand for beverages, yogurts, ice cream and other food products during the summer months brings about higher sales and improvement to a certain extent in Frutarom’s profitability margins in the second and third quarters of the year.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a. Basis of Preparation:

- 1) The Group’s financial statements as of December 31, 2017 and 2016 and for each of the three years in the period ended December 31, 2017, are in compliance with International Financial Reporting Standards (hereafter—IFRS) as issued by the International Accounting Standards Board (“IASB”) and interpretations to IFRS issued by the International Financial Reporting Interpretations Committee (IFRIC).

The significant accounting policies described below have been applied consistently in relation to all the years presented, unless otherwise stated.

The financial statements have been prepared under the historical cost convention, subject to adjustments in respect of revaluation of amounts funded for severance pay, financial assets at fair value through profit or loss or available for sale presented at fair value.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4. Actual results could differ significantly from those estimates and assumptions.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

- 2) The period of the Group's operating cycle is 12 months.
- 3) The Group analyses the expenses recognized in the income statements using the classification method based on the functional category to which the expense belongs.

b. Principles of Consolidation

- 1) Business combinations and subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary (hereafter—the acquired company) is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group.

The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination (except for certain exceptional items specified in IFRS 3—“Business Combinations”) (as amended), hereafter—IFRS 3R) are measured initially at their fair values at the acquisition date. The Group recognizes non-controlling interest in an acquired company which are present ownership instruments and entitle their holders to a pro rata share of the entity's net assets in the event of liquidation in accordance with the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets. All other components of non-controlling interest are measured at fair value unless another measurement basis is required by IFRSs

Any contingent consideration accrued to the Group as part of a business combination is measured at fair value at the date of business acquisition. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with IAS 39 “Financial Instruments” either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

The excess of the overall amount of the transferred consideration, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the identifiable net assets acquired and the liabilities assumed is recorded as goodwill—(see also f(1) below).

In cases where the net amount at acquisition date of the identifiable assets acquired and of the liabilities assumed exceeds the overall consideration that was transferred, the amount of non-controlling interest in the acquiree and the fair value as of date of acquisition of any previous equity interest in the acquiree as above, the difference is recognized directly in income or loss at date of acquisition.

Inter-company transactions, balances, including income, expenses and dividends on transactions between group companies are eliminated. Profits and losses resulting from inter-company transactions that are recognized in assets (in respect of inventory and fixed assets) are also

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

2) Associate companies

An associate is any entity in which the Group has significant influence, but not control. Investment in an associate is accounted for using the equity method of accounting.

According to the equity method, an investment is initially recorded at cost and the carrying amount is subsequently adjusted to reflect the investor's share of the net assets of the associate or joint venture since acquisition date.

The Group determines on each reporting date whether indications exist of impairment of its investment in the associate. If such indications are present, the Group calculates the amount of impairment as a difference between the recoverable amount of investment (the higher of value in use and fair value less cost to sale) and its carrying amount, and recognizes an impairment loss in profit or loss near to the "share in income (loss) of associates accounted for using the equity method" item.

Income or loss arising from transactions between the Group and the companies are recognized in the financial statements of the Group only at the amount of the share in the associate or joint venture of investors that are unrelated to the Group. The share of the Group in the profit or loss of the associate or joint venture in relation to those transactions is eliminated. When the investment is no longer accounted as an associate or joint venture the Group would stop using the equity method and the investment would account as financial asset (IAS 39), as long as the associate or the joint venture has not become a subsidiary. The group would recognize profit or loss due to the difference between the fair-value of the remaining investment and returns for realization to the book value of the investment as of the time of losing the significant influence. All amounts recognized in other comprehensive income due to the investment would account as if the related assets or liabilities were realized (amounts that were recognized before as part of other comprehensive income might reclassified to profit or loss).

c. Translation of Foreign Currency Balances and Transactions:

1) Functional and Presentation Currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which that entity operates (the "Functional Currency"). The consolidated financial statements are presented in U.S. dollars, which is the Company's functional and presentation currency.

2) Transactions and balances.

Foreign currency transactions in currencies different from the functional currency (hereafter—foreign currency) are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are attributed to income or loss.

Gains and losses arising from changes in exchange rates are presented in the income statement among "financial expenses".

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

3) Translation of Financial Statement of Group Companies

The results and financial position of all the Company's entities (none of which has the currency of hyperinflationary economy) that have a Functional Currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- (b) Income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates: in which case income and expenses are translated at the rate on the dates of the transactions);
- (c) All resulting exchange differences are recognized among other comprehensive income.

On consolidation of the financial statements, exchange differences arising from the translation of the net investment in foreign operations and from loans and other currency instruments designated to serve as hedges to those investments are carried to other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and translated at the closing rate. Exchange differences arising from translation as above are recognized in other comprehensive income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):**d. Segment Reporting (see also note 1)**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker in the Group, who is responsible for allocating resources and assessing performance of the operating segments.

The Group is organized and managed on a worldwide basis in two major operating activities: Flavors and the Fine Ingredients. Another operation is Trade and Marketing.

e. Property, Plant and Equipment:

The cost of a property, plant and equipment item is recognized as an assets only if: (a) it is probable that the future economic benefits associated with the item will flow to the Group and (b) the cost of the item can be measured reliably.

Property, plant and equipment is stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items and only when the two criteria mentioned above for recognition as assets are met.

The carrying amount of a replaced part is derecognized. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

The cost of a property, plant and equipment item includes:

- (a) Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- (b) Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Depreciation and impairment of property, plant and equipment are recognized in the income statement.

Land owned by the Group is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost less their residual values over their estimated useful lives, as follows:

	Percentage of Annual Depreciation
Buildings and land under financial lease	2-4
Machinery and equipment	5-10
Vehicles and lifting equipment	15-20
Computers	20-33
Office furniture and equipment	6-20
Leasehold improvements	See below

Leasehold improvements are amortized by the shorter of straight-line method over the terms of the lease or estimated useful life of the improvements .,

The asset's residual values, the depreciation method and useful lives are reviewed, and adjusted if appropriate, at least once a year.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2g).

Gains or losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement among "other income—net".

f. Intangible Assets:

- 1) The overall amount of goodwill arising on acquisition of a subsidiary, associated company or activity represents the excess of the consideration transferred in respect of acquisition of a subsidiary over the net amount as of acquisition date of the identifiable assets acquired and the liabilities assumed. Goodwill on acquisitions of subsidiaries is included in 'intangible assets'.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash generating units (CGUs), or groups of CGUs that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes and which is not larger than an operating segment (before aggregation) (see also g. below).

Impairment reviews of CGUs (or groups of CGUs) are undertaken annually and whenever there is any indication of impairment of CGU or group of CGUs. The carrying value of the CGU (or group of CGUs) is compared to the recoverable amount, which is the higher of value in use and the fair value less costs to sell.

Any impairment loss is allocated to write-down the carrying amount of the CGU's assets (or CGUs) in the following order: first, the write down of any goodwill allocated to a cash generating unit (or a group of CGUs); and afterwards to the remaining assets of the CGU (or group of CGUs) on a proportionate basis using the carrying amounts of each asset of the CGU (or group of CGUs). Any impairment is recognized immediately as an expense and impairment of goodwill is not subsequently reversed.

- 2) Product formulas acquired as part of a business combination transaction are initially recorded at fair value and amortized on a straight-line basis over their useful lives of 20 years.
- 3) Customer relationships acquired in a business combination are measured at fair value at the acquisition date. The customer relations have a finite useful life and are carried at the recognized amount less accumulated amortization. Amortization is calculated using the straight-line method over the expected life of the customer relationship (10 years).
- 4) Separately acquired trademarks and licenses are shown at historical cost. Trademarks and licenses acquired in a business combination are recognized at fair value at the acquisition date. Trademarks and licenses have a definite useful life and are presented at cost less accumulated amortization. Amortization is calculated using the straight-line method to allocate the cost of trademarks over their estimated useful lives (20 years).
- 5) Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software licenses. These costs are amortized over their estimated useful lives (3-5 years) using the straight-line method.

Costs associated with maintaining computer software programs are recognized as an expense as incurred.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Computer software development costs recognized as assets are amortized over their estimated useful lives using the straight line method (3-5 years) commencing the point in time when the asset is available for use, i.e., it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

6) **Research and Development**

Research expenses are accounted for as expenses as incurred. Cost incurred in respect of development projects (attributable to the design and testing of new or improved products) are recognized as intangible assets when the following criteria are met:

- It is technically feasible to complete the intangible assets so that it will be available for use;
- Management intends to complete the intangible asset and use it or sell it;
- There is an ability to use or sell the intangible asset;
- It can be demonstrated how the software product will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available; and
- The expenditure attributable to the intangible asset during its development can be reliably measured.

Other development costs that do not qualify for recognition as assets are recognized as cost as incurred. Development costs previously recognized as an expense are not recognized as an asset on a subsequent period.

The Group fully recognized the R&D expenses as incurred.

g. Impairment of non-financial assets

Assets that have an indefinite useful life, such as goodwill, are not subject to amortization and are tested annually for impairment or more often if events have occurred or changes in circumstances indicate that the carrying amount may not be recoverable.

Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets, other than goodwill, that were subject to impairment are reviewed for possible reversal of the impairment recognized in respect thereof at each statement of financial position date.

h. Government Grants

The group's research and development activities are supported in some of the countries in which it operates, and in Israel through the Israel innovation authority by way of grants. Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are recognized in the income statement on a systematic basis over the periods in which the Group recognizes the relating costs (the costs that the grants are intended to compensate).

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

i. Financial assets:

1) Classification

The Group classifies its financial assets in the following categories: Financial assets at fair value through profit or loss, available for sale assets, loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Group management determines the classification of its financial assets at initial recognition.

a) Financial assets at fair value through profit or loss

This category includes two sub-categories: financial assets held for trade and financial assets designated at fair value through profit or loss. A financial asset is classified into this category if it was acquired principally for the purpose of selling in the short term or if was designated to this category by management. Assets in this category are classified as current assets if expected to be settled within 12 months, otherwise they are classified as non-current.

b) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the statement of financial position date. These are classified as non-current assets. Receivables of the Group are classified as “accounts receivable”, “Cash and cash equivalents” and “long-term loans and other receivables” in the statement of financial position (Note 2k below).

c) Available-for-sale assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the date of the statement of financial position, in which case they are classified as current assets.

2) Recognition and measurement

Regular purchases and sales of financial assets are recognized on the settlement date, which is the date on which the asset is delivered to the Group or delivered by the Group. Investments are initially recognized at fair value plus transaction costs for all financial assets not measured at fair value through profit or loss. Financial assets measured at fair value through profit or loss, are initially recognized at fair value, and transaction costs are expensed in the income statement. Financial assets are derecognized when the rights to receive cash flows there from have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Financial assets at fair value through profit or loss and available for sale assets are subsequently carried at fair value. Loans and receivables are measured in subsequent periods at amortized cost using the effective interest method.

Gains or losses that stem from changes in the fair value of financial assets at fair value through profit or loss are presented in income statement under “financial expenses—net” in the period in which they incurred. Dividend income from financial assets at fair value through profit or loss are recognized in income statement under “other income—net” when the group is eligible to these payments.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Gains or losses that stem from changes in the fair value of financial assets at available for sale assets are presented in statement of comprehensive income in the period in which they incurred. When selling available for sale assets, the accumulated gain or losses are reclassified from the comprehensive income to the profit or loss in “other expenses—net”.

3) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

4) Impairment of financial assets

a) Financial assets at fair value through profit or loss

Financial assets are presented at amortized cost.

The Group assesses at the each statement of financial position date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The criteria that the Group uses to determine that there is objective evidence of an impairment of a financial assets or group of financial assets include observable information that came to the attention of the Group in connection with the following loss events:

- Significant financial difficulty of the issuer or obligor;
- breach of contract, such as a default or delinquency in interest or principal payments;
- The Group, for economic or legal reasons relating to the borrower’s financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- The disappearance of an active market for that financial asset because of financial difficulties;
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio.

Where objective evidence for impairment exists, the amount of the loss is measured as the difference between the asset’s carrying amount of the financial assets and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset’s original effective interest rate (i.e., the effective interest rate computed for the asset upon initial recognition). The asset’s carrying amount is reduced and the amount of the loss is recognized in the income statement.

If the amount of impairment loss in a subsequent period decreases, and this decrease may be attributed to an objective event that took place after the impairment was recognized (like improved credit rating of the borrower), reversing the previously recognized impairment loss is recorded in income statements.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

b) Available-for-sale financial assets

The group assesses at each date of the statement of financial position whether there is objective evidence that a financial asset or a group of financial assets is impaired. For testing whether there is objective evidence for impairment of a debt instrument, the Group uses the criteria in (a) above. For investments in equity securities, in addition to the criteria in (a) above, information regarding significant changes having adverse effect on the technological, economical or legal environment in which the issuer operates implicating that the cost of the equity investment might not be recovered as well as significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired.

If any such evidence exists, the cumulative loss (recognized in other comprehensive income)—measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss—is reclassified from equity and recognized in income or loss.

If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed through the income statement. Impairment losses that are recognized in profit or loss for investment in an equity instrument are not reversed through income or loss.

j. Derivatives financial instruments, embedded derivatives and hedging activity

Hedge of net investment

Hedges of a net investment in a foreign operation are accounted for similarly to cash flow hedges. Any gain or loss on the effective portion of the hedge is recognized in other comprehensive income. Gain or loss on the ineffective portion is recognized in profit or loss. Gains or losses accumulated in equity are recycled to profit or loss when the foreign operation is disposed of or sold.

k. Inventories

Inventories are measured at the lower of cost or net realizable value. Raw material cost is determined using the “moving average” method.

The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (based on normal operating capacity) but excludes capitalization of borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less the applicable and variable selling expenses.

l. Trade Receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less they are classified as current assets. If not, they are classified as non-current assets.

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment of accounts receivable (hereafter—“provision for impairment” or “provision for impairment of accounts receivable”). As to the way the impairment provision is determined and accounting treatment applied thereto subsequently see i4) above.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

m. Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, short-term bank deposits and other highly liquid short-term investments, the maturity of which does not exceed three months, bank overdrafts (repayable upon demand).

n. Share Capital

Ordinary shares of the Company are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in the equity as a deduction, net of tax, from the proceeds of issuance.

Where any Group company purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the company's equity holders until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects are included in equity. Any difference between the cost of acquisition of the treasury shares and the consideration is carried to premium on shares.

o. Trade Payables

Trade payables are obligations of the Group to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less.

If not, they are classified as non-current liabilities.

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

p. Loans

Loans are recognized initially at their fair value, net of transaction costs incurred. Loans are subsequently measured at amortized cost; any difference between the consideration (net of transaction costs) and the redemption value is recognized in the income statement over the period of the loan using the effective interest method.

Loans are classified as current liabilities unless the Group has an unconditional right to defer settlement of the loans for at least 12 months after the end of the reporting period, in which case they are classified as non-current liabilities.

q. Current and Deferred Income Taxes

The tax expenses for the reported years comprise of current and deferred tax. Tax is recognized in the income statement, except for taxes related to equity and other comprehensive income items.

The current income tax charge is calculated on basis of the tax laws enacted or substantially enacted at the statement of financial position date in the countries where the Company and the subsidiaries operate and generate taxable income. Management periodically evaluates tax issues related to its taxable income, based on relevant tax law, and makes provisions in accordance with the amounts payable to the Income Tax Authorities.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Deferred income tax is recognized using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Nevertheless, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affect neither accounting nor taxable income.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. The amount of deferred income taxes is determined using tax rates (and laws) that have been enacted or substantially enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred income tax is not calculated on temporary differences arising on investments in subsidiaries, as long as the timing of reversal of the differences is controlled by the Group and it is expected that no such reversal will take place in the foreseeable future.

The group recognizes deferred income tax assets in respect of temporary differences deductible for tax purposes only if it is expected that the temporary difference is reversed in the foreseeable future and to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred income tax assets and liabilities are offset only if:

- There is a legally enforceable right to offset current tax assets against current tax liabilities; and
- When the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

As stated in Note 13c, upon distribution of dividends from tax-exempt income of “approved enterprises” or “benefited enterprises”, the amount distributed will be subject to tax at the rate that would have been applicable had the company not been exempted from payment thereof. The amount of the related tax is charged as an expense in the statement of comprehensive income, when such dividend is distributed.

r. Employee Benefits:

1) Pension Obligations and retirement benefits

The companies in the group operate a number of post-employment employee benefit plans, including defined benefit and defined contribution plans.

A defined contribution plan is a pension plan under which the group pays fixed contributions into a separate entity.

The group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

A defined benefit plan is a pension plan that is not a defined contribution plan.

The companies in the group operate a number of pension plans. The plans are funded through payments to insurance companies or pension funds that are managed in trust.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

According to their terms, those pension plans satisfy the above definition of a defined contribution plan.

According to labor laws and agreements in Israel and the practices of the companies in the Group, Group companies are obligated to pay retirement benefits to employees dismissed or retiring in certain circumstances.

According to the obligation of group companies to employees who participate in a defined benefit plan, the amounts of benefits those employees are entitled to upon retirement are based on the number of years of services and the last monthly salary.

The obligation of the group companies to all other employees is a defined contribution plan, in which regular contributions are made to a separate and independent entity, and the companies of the Group have no legal or constructive liability to make any further payments if the assets of the funds are insufficient to pay all employees the benefits for work services in the current and past periods.

The total retirement benefit obligation presented in the statement of financial position is the present value of defined benefit contribution as of the date of financial position, less the fair value of plan assets. The defined contributions benefit is measured on an annual basis by an actuary using the projected unit credit method.

The present value of the liability is determined by discounting expected future cash flows (after taking into account the expected rate of payroll hikes) based on the interest rate of government/corporate bonds denominated in the currency in which the benefits will be paid and whose terms to maturity approximate the term of retirement benefit obligation.

According to IAS 19 "Employee Benefits", the discount rate used for calculating the actuarial obligation is determined by using the market return of high-quality corporate bonds on the date of the statement of financial position. However, IAS 19 indicates that in countries where there is no deep market in such bonds, the market rates on government bonds are used.

The group recognizes remeasurements of net obligations (the asset) for defined benefit plan to other comprehensive income in the period in which they incurred. Those remeasurements are created as a result of changes in actuary assumptions, difference between past assumptions and actual results and differences between plan assets return and the amounts included in net interest on net liabilities (the asset) for defined benefit. Past-service costs are recognized immediately in income. Amount funded for severance benefits are measured at fair value. The amounts funded are plan assets as defined by IAS 19, and therefore were offset from the balance of retirement benefit obligation for presentation purposes in the statement of financial position.

As discussed above, the group purchase insurance policies and make contributions to pension and severance pay funds to fund its obligation under defined contribution plan. The group has no further payment obligations once the contributions have been paid. The contributions are defined as an expense for employee benefits concurrently to receiving services from employees that entitle them for contributions. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

2) Vacation and Recreation Fees

Under the law in various countries, employee is entitled for vacation days and recreation fees (in Israel), both computed on an annual basis. The entitlement is based on the period of employment.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

The Group records a liability and an expense in respect of vacation and recreation fees, based on the benefit accumulated for each employee.

3) Bonus plans

Some of the Group's employees are entitled to receive an annual bonus in accordance with the bonuses plan determined by Group management for that year. The Group provides for payment of the bonus in accordance with meeting the targets of the plan and in accordance with Group's estimate as to the total amount of bonuses to be paid to employees.

s. Share-Based Compensation

The group operates a number of equity-settled, share-based compensation plans, under which the entity receives services from employees as consideration for equity instruments (options) of the Company. The fair value of the employee services received in exchange for the grant of the options is recognized as an expense over the vesting period. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (for example, an entity's share price);
- Excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period);

t. Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and it is possible to prepare a reliable estimation of the amount of liability.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole.

Provisions are measured at the present value of the cash flow expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

u. Revenue Recognition Policy

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods in the ordinary course of business. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating sales within the Group.

Revenues from sale of goods are recognized by the Group when all of the following conditions are met:

- (a) The significant risks and rewards of ownership of the goods have been transferred by the Group to the buyer;
- (b) The group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- (c) The amount of revenues can be reliably measured.
- (d) It is probable that future economic benefit relating to the transaction will flow to the Group; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

The amount of revenue is not considered to be reliably measurable until all contingencies relating to the transaction have been resolved. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

The products are occasionally sold with volume discounts; customers have a right to return faulty products. Sales are recorded based on the selling price, net of the estimated volume discounts and returns at the time of sale. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases. No element of financing is present as the sales are made with an average credit term, which is not higher than the market practice.

v. Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

Long-term lease contracts for lease of land from the Israel Land Administration and from other countries are presented among fixed assets.

w. Earnings per Share

Basic:

The computation of basic earnings per share is based, as a general rule, on the profit attributable to holders of ordinary Company shares divided by the weighted average number of ordinary shares in issue during the period, excluding Company shares held by group subsidiaries (Notes 2m).

Fully Diluted:

When calculating the diluted earnings per share, the Group adds to the average number of shares outstanding that was used to calculate the basic earnings per share also the weighted average of the number of shares to be issued assuming the all shares that have a potentially dilutive effect would be converted into shares. The potential shares, as above are only taken into account in cases where their effect is dilutive (reducing the earnings per share or increasing the loss per share).

The weighted average number of shares used in calculating Basic and Diluted earnings per share is as follows:

	<u>Basic</u> <u>In thousands</u>	<u>Diluted</u> <u>In thousands</u>
Year-end December 31:		
2017	59,342	59,632
2016	58,916	59,494
2015	58,573	59,141

x. Dividends

Dividend distribution to the Company's owners is recognized as a liability in the Group's statement of financial position on the date on which the dividends are approved by the Group's Board of Directors. Dividend paid includes an erosion component (from date of approval of dividend through date of payment thereof).

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

y. New standards, amendments and interpretations of existing standards, which have not yet become effective and not been early adopted by the Company:

1. Amendment to IFRS 9—“Financial Instruments” (hereafter—“IFRS 9” or “the standard”):

IFRS 9, ‘Financial instruments’, addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of IFRS 9 was issued in July 2014. It replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortized cost, fair value through OCI and fair value through P&L. The basis of classification depends on the entity’s business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI without recycling.

There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. The new impairment model establishes a three-stage approach, based on changes in expected credit risk of a financial instrument. Each stage determines how to measure credit losses and how to apply the effective interest method. In addition, for financial assets that have no material financing element, such as receivables, it is possible to implement a simpler method. At initial recognition of a financial asset, an entity recognizes a loss allowance equal to 12 months expected credit losses, or the loss expected over the life of the instruments for accounts receivables, unless the asset is considered to have an “credit impaired rating”.

For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through other comprehensive income.

IFRS 9 simplifies the requirements for testing hedge effectiveness by dropping the strict quantitative thresholds for testing hedge effectiveness. IFRS 9 requires economic relationship between the underlying hedged risk component and the hedging instrument, and that the hedge ratio is the same used for risk management purposes. The standard retains the requirement for maintaining documentation throughout the hedge period, but documentation is different than that required by IAS 39.

IFRS 9 will be applied retrospectively for annual reporting periods beginning on or after January 1, 2018. Early adoption is permitted.

According to the Company assessment, the adoption of IFRS 9 is not expected to have material impact on the financial statements.

2. IFRS 15 “Revenue from Contracts with Customers” (hereinafter—IFRS 15)

IFRS 15 will replace after its first-time adoption the guidance on revenue recognition in current IFRSs.

The core principle of IFRS 15 is that revenue from contracts with customers should be recognized using the method that best depicts the transfer of control of goods and services to the customer, the amount of consideration that the entity expects to be entitled to in exchange for transferring promised goods or services to a customer.

IFRS 15 has a single model for revenue recognition, based on a five-step approach:

- (1) Identify the contract(s) with the customer

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

- (2) Identify the separate performance obligations in the contract
- (3) Determine the transaction price
- (4) Allocate the transaction price to separate performance obligations
- (5) Recognize revenue when (or as) each performance obligation is satisfied

IFRS 15 covers accounting for a variety of issues related to implementation of that model, including: recognition of contractual variable consideration, adjustment of contractual transaction price to reflect the time value of money, and cost of obtaining and fulfilling the contract.

The standard expands the disclosure requirements about revenue, and, among other things, requires quantitative and qualitative information about significant management judgments that were considered for determining the amount of revenue recognized.

On July 22, 2015, the IASB decided to defer the effective date of the standard by one year, such that the standard will be applied retrospectively for annual periods beginning on or after January 1, 2018 with some exceptions as provided in the transition provisions of IFRS 15. According to the provisions of IFRS 15, early adoption is permitted.

Group management believes that the new standard is not expected to have material impact on the financial statements.

3. IFRS 16 “Leases”

IFRS 16 will replace upon first-time implementation the existing guidance in IAS 17—“Leases” (hereafter—“IAS 17”). The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and is expected to have material impact mainly on the accounting treatment applied by the lessee in a lease transaction.

IFRS 16 changes the existing guidance in IAS 17 and requires lessees to recognize a lease liability that reflects future lease payments and a “right-of-use asset” in all lease contracts (except for the following), with no distinction between financing and capital leases. IFRS 16 exempts lessees in short-term leases or the when underlying asset has a low value.

IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

IFRS 16 also changes the definition of a “lease” and the manner of assessing whether a contract contains a lease.

IFRS 16 will be effective retrospectively for annual periods beginning on or after January 1, 2019, taking into account the reliefs specified in the transition provisions of IFRS 16. Under the provisions of IFRS 16, early adoption is permitted only if IFRS 15 has also been applied. The group has decided to early adopt the standard, while applying the accumulated impact as of January 1, 2018 and additional reliefs, as the standard allows. The implementation is expected to impact the accounting of lease agreements: real-estate, equipment and vehicles. Starting January 1, 2018, the Company is going to recognize assets and liabilities due to leases, which until then were accounted as operating leases.

According to the Company assessment and the information available as of the date of this report:

- 1) During the first-time implementation—Increase of approx. \$37 million in assets and liabilities.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

- 2) Decrease of operational expenses during 2018 amounting approx. \$9 million to \$11 million and an increase of depreciation and financial expenses in a Appx amount. Additional impact is expected to the increase of cash flow from operating activities and a decrease in the cash flow from financing activities amounting \$9 million to \$11 million.
- 3) The assessment is based on the information currently available and changes in lease agreements and additional examination could have impact on the final amounts.

NOTE 3—FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT:

a. Financial Risk Management

1) Financial Risk Factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

Risk management is carried out under policies approved by the Board of Directors and senior management. These policies cover specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of non-derivative financial instruments, and investment of excess liquidity. Group policies also cover areas such as cash management and raising short and long-term debt.

The Group's business is characterized by considerable dispersion. The Group produces tens of thousands of products intended for tens of thousands of customers throughout the world, using tens of thousands of raw materials purchased from a wide range of suppliers worldwide. As stated, the Group is not significantly dependent on any of its customers, products or suppliers.

Discussions on implementing the risk management policy as relates to currency exposure and interest are conducted by the Group's management once each quarter.

a) Market Risks:

1) Foreign Exchange Risk

The Group operates globally and is exposed to movements in foreign currencies affecting its net income and financial position, as expressed in U.S. dollars.

Transaction exposure arises because the equivalent amount in local currency paid or received in transactions denominated in foreign currencies may vary due to changes in exchange rates. Most Group entities produce their income primarily in the local currency. A significant amount of expenditures, especially for the purchase of goods for resale are in foreign currencies. Similarly, transaction exposure arises on net balances of financial assets held in foreign currencies. Since raw materials purchases for the Group's production are also conducted in various currencies, currency exposure is reduced.

The Group's subsidiaries manage this exposure locally. In addition, Group management monitors total global exposure of the Group.

Translation exposure arises from the consolidation of the Foreign Currency denominated financial statements of the Company's subsidiaries. The effect on the Group's consolidated comprehensive income is shown as a currency translation difference.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 3—FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued):

The following table presents currency exposure in respect of balance denominated in currencies that are different than the functional currency of the reporting company and also the effect on income after taxes. Impact 1% strengthening	(34)	7	(1,952)	9

* Represents amounts lower than \$1 thousand.

2) Cash Flow Risk Relating to Interest Rates

Since on a current basis the Group does not have significant assets bearing interest, its revenues and operating cash flow are not dependent on changes in interest rates.

The Group's interest rate risk arises from long-term and short-term borrowings. Borrowings received at variable rates expose the Group to cash flow interest rate risk.

The Group analyses its interest rate exposure. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions and alternative financing. Based on these scenarios, the Group calculates the impact on profit and loss of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies. The scenarios are run only for liabilities that represent the major interest-bearing positions.

Based on the simulations performed, the impact on post tax profit for the year 2017 of a 0.1% shift in interest rate on loans would have been a change of \$362 thousand (2016—\$258 thousand; 2015—\$233 thousand).

b) Credit Risk

Credit risk arises from the possibility that the counter-party to a transaction may be unable or unwilling to meet their obligations causing a financial loss to the Group.

Trade receivables are subject to a policy of active risk management, which focuses on the assessment of country risk, credit limits, ongoing credit evaluation and accounting monitoring procedures.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 3—FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued):

There are no significant concentrations within trade receivables of counter-party credit risk due to the large number of customers that the Group deals with and their wide geographical spread. Country risk limits and exposures are continuously monitored. Collateral is generally not required.

The provision for impairment of trade receivables is determined on basis of a periodic test of all amounts due.

The exposure of other financial assets and liabilities to credit risk is controlled by setting a policy for limiting credit exposure to counter-parties, continuously reviewing credit ratings, and limiting individual aggregate credit exposure accordingly.

Group entities must have sufficient availability of cash to meet their obligations. Each company is responsible for its own cash management, including the short-term investment of cash surpluses and the raising of loans to cover cash deficits, subject to Group policies and to monitoring of Group management.

The table presented below classifies the Group’s financial liabilities into relevant maturity groupings based on the remaining period at December 31, 2017 to the contractual maturity date. Group entities do not have derivative financial liabilities. The amounts presented in the table represent the projected undiscounted cash flows.

U.S. dollars in thousands			
As of December 31, 2017:

The main unobservable data used by the Company for the purpose of valuing the option is the future EBITDA to be achieved. For the purpose of estimating the value of the liabilities for the options and their update, the Company used its current business results and its forecast.

b. Capital management

Group’s objective is to maintain, as possible, stable capital structure. In the opinion of Group’s management, its current capital structure is stable. Consistent with others in the industry, the Group monitors capital, on the basis of the gearing ratio.

This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including ‘current and non-current borrowings’ as shown in the consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as ‘equity’ as shown in the consolidated statement of financial position plus net debt.

The gearing ratios at December 31, 2017 and 2016 were as follows:

	2017	2016
	U.S. dollars in thousands	
Total borrowings (Note 9)	634,286	533,780
Less—cash and cash equivalents (Note 19)	(118,214)	(113,528)

Total equity	878,913	664,604
Total capital	1,394,985	1,084,856
Gearing ratio	37.0%	38.7%

NOTE 4—CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates, by definition, may not necessarily be equal to the related actual results. The estimates and assumptions with significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a. Estimate of Impairment of Goodwill

The Group tests annually for impairment of goodwill, in accordance with the accounting policy states in note 2g. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (Note 8).

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 4—CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS (continued):

b. Taxes on Income and Deferred Taxes

The Group is subject to income taxes in a large number of countries. Judgment is required in determining the worldwide provision for income taxes. The Group is involved in transactions and computations in which final tax liabilities cannot be determined with certainty in the normal course of business. The Group recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due as a result of the tax audits. Where the final tax outcome of these matters, determined by tax authority is different from the amounts that were initially recorded, such differences may impact the provisions for income tax and deferred tax liabilities in the period in which such determination is made.

The Group recognizes deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax bases of assets and liabilities. The Group regularly reviews its deferred tax assets for recoverability, based on historical taxable income, projected future taxable income, the expected timing of the reversals of existing temporary differences and the implementation of tax planning strategies. If the Group is unable to generate sufficient future taxable income, or if there is a material change in the actual effective tax rates or time period within which the underlying temporary differences become taxable or deductible, the Group could be required to eliminate a portion of the deferred tax asset resulting in an increase in its effective tax rate and an adverse impact on operating results.

c. Severance Pay

The present value of the liabilities in respect of severance pay is dependent on several factors that are determined on an actuarial basis in accordance with various assumptions. The assumptions used in the calculation of the net cost (income) in respect of severance pay include, inter alia, the yield rate and discount rate. Changes in those assumptions may influence the carrying amount of the assets and liabilities in respect of severance pay.

The assumption regarding the appropriate discount rate is determined by external actuaries at the end of each year. This discount rate is used in determining the estimated updated value of the future cash flows that would be required to cover the severance pay liabilities. The Company uses the market of high-quality corporate bonds when this market available, and when it is not, government bonds are used instead. Therefore, in determining this rate, the Group uses interest rate in the currency in which the benefits will be paid.

Other key assumptions relating to severance pay liabilities, such as future payroll raise and retirement rates, are partially based on existing market conditions on that time and on past experience.

d. Provisions

Provision for legal liabilities are recorded in the books of accounts in accordance with Group management's judgment, based on the opinion of its legal advisors, regarding the likelihood that cash outflows will needed to meet the liabilities, and on the basis of the estimate determined by the management regarding the present value of the expected cash outflows required to meet the existing liabilities.

NOTE 8—INTANGIBLE ASSETS (continued):**Test for impairment of goodwill**

The goodwill recorded in the Group's books of accounts arises from acquisitions of subsidiaries and operations carried out by the Group over the years. Goodwill is allocated to the cash-generating units of the Group in accordance with the unit and the business segment from which it arises.

Set forth below is a summary of goodwill allocation between the various cash-generating units:

	December 31	
	2017	2016
	U.S. dollars in thousands	
Cash-generating unit 1	331,870	242,383
Cash-generating unit 2	156,677	115,628
Cash-generating unit 3	58,325	56,276
Cash-generating unit 4	42,378	40,400
Total	589,250	454,687

The Company has 6 cash-generating-units, 4 of which have goodwill. The Company's management continuously reviews the structure of its cash-generating units and adjust it to allow development of its business.

The changes in goodwill between the years are due to acquisitions of new companies/operations, and changes in the exchange rate of the currencies of the foreign operations compared to the U.S. dollar, as explained in Notes 5 and 2c-4.

The recoverable amount of a cash-generating unit is determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on past results of the unit, its budget for the following year and the projection for future years, cash flows from the fifth year are extrapolated using a grow rate of 2.5%-3%, according to the activity area of the cash generating unit, which does not exceed the long-term growth rate for the food business and the relevant areas, in which the Group operates.

The average discount rate taken into account in the calculation is 9.1% before taxes.

Group management determines profit margins based on past performance and its expectations for development of each cash-generating units.

The recoverable amounts of cash-generating unit 1, 2 and 3 were calculated and examined by an external assessor, whereas the recoverable amount of cash-generating unit 4 was calculated and examined by Group management.

The results of the above analysis show that the value of goodwill of each of the said cash-generating units has not been impaired, both according to the basic calculations and calculations performed for the purpose of sensitivity test.

b. Employee Shares and Option Plans for Senior Employees of Subsidiaries:

- 1) Commencing in 2003 and on a semi-annual basis, the Board of Directors resolves to allot options to senior managers and other senior employees based on the recommendations of the remuneration committee. In accordance with the Board of Directors' resolution, and taking into consideration the number of shares available to the Company for the purpose of allotment of options, the Company acquires Company shares in the Stock Exchange and grants the options against those shares.

Commencing in 2012, the options are granted in accordance with the 2012 option plan ("plan 2012"). In the event of cash dividend distribution from the exempted income, the companies will be liable to pay tax on the grossed-up amount of distributed dividend, according to the tax rate that would have applied to the income in the year it was earned had no exemption been applicable.

f. Tax Assessments

The Company and its Israeli subsidiaries have received final tax assessments through the 2009 tax year.

g. Effect of adoption of IFRS in Israel on tax liability

As mentioned in Note 2a, the Group prepares its financial statements in accordance with IFRS.

As also indicated in the said note, IFRS is different from Generally Accepted Accounting Principles in Israel (Israeli GAAP) and accordingly, preparation of financial statements in accordance with IFRS may reflect a financial position, results of operations and cash flows that are materially different from the ones presented in financial statements presented in accordance with accounting principles generally accepted in Israel.

In accordance with the Law for the Amendment of the Income Tax Ordinance (No. 174—Temporary Provisions for Tax Years 2007, 2008 and 2009), 2010 that was passed in the Knesset on January 25, 2010 and published in the official gazette on February, 4, 2010 (hereafter—the amendment to the ordinance), Accounting Standard No. 29 that was issued by the Israel Accounting Standard Board would not be used for determining the taxable income for tax purposes in respect of tax years 2007-2011; this would be the case even if the said accounting standard was applied for the said tax years in the financial statements.

FRUTAROM INDUSTRIES LTD.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 13—TAXES ON INCOME (continued):

The meaning of the amendment to the ordinance is that IFRS would actually not be used in computation of the taxable income for the said tax years.

On October 31, 2011, the Government of Israel published a law memorandum in connection with the amendment to the Income Tax Ordinance (hereafter—the law memorandum) resulting from application of IFRS in the financial statements. The law memorandum adopts IFRS in principle. Nevertheless, the law memorandum suggests making several amendments to the Income Tax Ordinance, which will serve to clarify and determine the manner of computation of taxable income for tax purposes in cases where the manner of computation is not clear and IFRS do not correspond with the tax principles applied in Israel. At the same time, the law memorandum generally adopts IFRS. The legislation procedures relating to the law memorandum have not yet been completed and it is doubtful whether they will be completed in the near future.

Since the legislative proceedings relating to the law memorandum have not yet been completed, the Company estimates that the term of the temporary provision for 2007 to 2013 will be extended to 2014-2017 as well. Therefore, the Group's management expects that, at this stage, the new legislation will not apply to tax years preceding 2018.

h. US tax reform

On December 22, 2017, the President of the United States signed into law a legislation that overhauls the US tax system (“the reform”). The reform introduced significant changes to US tax law, including several provisions that are expected to have impact on the tax liability of the Company in the US.

The following are provisions in the reform that are relevant to the Company:

- a) US federal corporate tax rate was cut from 35% to 21%, effective January 1, 2018.
- b) Deduction of net operating losses is limited to 80% of taxable income.
- c) Interest expenses—According to the new legislation, in 2018 through 2021, interest expense deductions are capped at 30% of EBITDA. After 2021, companies will no longer be able to deduct interest expenses that are 30% of their EBIT. Any non-deductible amount can be carried forward based on the same mechanism and without time limit.
- d) Bonus depreciation—the reform includes a provision allowing companies to immediately write off expense of certain types of property acquired and placed in service between September 27, 2017 and January 1, 2028.

The impact on the financial statements of the Company as of December 31, 2017 and for the year then ended, as a result of the reform becoming effective, is as follows:

Deferred tax liabilities were reduced by \$4,249 thousand due to the tax rate reduction, which was recognized against deferred tax income in profit or loss.

NOTE 14—LIABILITIES SECURED BY PLEDGES AND RESTRICTIONS PLACED IN RESPECT OF LIABILITIES:

 - 2) Up to 50% of the Company's net income for each calendar year based on the net income information recorded in the Company's income statement for the calendar year during which the said income was accumulated.

As mentioned above, as of December 31, 2017, the Group is in compliance with those covenants.

- 2) During the year, the Company completed a \$42 million investment in 18.75% of the share capital of Enzymotec Ltd, a Company listed on NASDAQ.

On October 28, 2017, the Company engaged by way of reverse triangular merger with Enzymotec, and following that merger transaction, the Company acquired the remaining shares of Enzymotec. Merger closing was subject to conditions precedent and approval of the merger agreement by the meeting of shareholders of Enzymotec. The meeting of shareholders approved the merger agreement on December 11, 2017. Following that approval by the meeting of shareholders, and given the right of the Company to appoint directors, the Company obtained significant influence, and therefore, this investment, at \$52 million, was accounted for using the equity method. Following a total investment of 18.75% in the share capital of Enzymotec Ltd. ("Enzymotec"), an Israeli public Company traded, in the NASDAQ (under the ticker symbol ENZY), at a total sum of approximately \$42 million, Frutarom signed an agreement on October 28, 2017, through its fully-owned subsidiary Frutarom Ltd. (the "Acquiring Company"), by way of a reverse triangular merger with Enzymotec Ltd. and with a subsidiary of the Acquiring Company (the "Merger Sub"). Under that merger transaction, the Acquiring Company acquired the outstanding shares of Enzymotec that were not already in its possession (approx. 81%) for a cash payment of \$11.9 per share by way of a full merger of the Merger Sub into Enzymotec, such that Enzymotec will become an indirectly wholly-owned subsidiary of Frutarom and its shares will be delisted from NASDAQ. The transaction was closed on January 11, 2018. On January 17, 2018, Frutarom sold Enzymotec Krill business, which is not a core activity, to the Norwegian Company Aker BioMarine Antarctic AS for approx. \$26.4 million. The overall net consideration (offsetting the cash and cash equivalents, deposits and tradeable securities in Enzymotec's treasury and net of the krill transaction consideration) that was paid by Frutarom for 100% of Enzymotec's shares, stands at approx. \$184 million (including cost of vested options, RSUs and estimated transaction expenses). The transaction was financed through bank debt.

c. Acquisition of Mighty

On October 18, 2017, Frutarom signed an agreement for the acquisition of 60% of the shares of the Thai company The Mighty CO. LTD. (including the activity of Maharaj Food Co. Ltd. and Mighty International Co. Ltd., and hereinafter collectively: "Mighty") for approx. \$12 million (approx. THB 393 million) (not including debt), according to value of approx. \$20 million (net of debt) (approx. THB 655 million). Under the transaction, Frutarom initially acquired 49% of Mighty and, subject to a number of conditions precedent and regulatory approvals in Thailand, will raise its holdings to 60%.

The transaction includes a contingent consideration mechanism, subject to Mighty's future performance and an option for the acquisition of the remaining interest in Mighty in two stages in periods beginning three years and five years from the date the transaction is closed, at a price based on Mighty's future business performance. In February 2018, the conditions of the first part were met, hence the Company holds, as of the date of this report 49% of the share capital of Mighty. According to the Company expectation, raising the holdings to 60% will be completed in several months. The transaction will be financed through bank debt and by the Company own means.

d. Acquisition of Bremil

On December 20, 2017, Frutarom signed an agreement for the acquisition of 51% of the shares of the Brazilian company Bremil Indústria De Produtos Alimentícios Ltda. ("Bremil"), in exchange for approx. US\$31 million (approx. BRL 103 million) (including estimated asset adjustments to the date of completion). The transaction includes a contingent consideration mechanism based on Bremil's future business performance in 2017 and 2018. The purchase agreement includes an option for the acquisition of the remaining shares of Bremil starting five years from the date of the transaction's completion at a price based on Bremil's business performance during that period. The transaction has been closed on May 18, 2018 and financed through bank debt.

NOTE 2—BASIS OF PREPARATION OF CONDESED CONSOLIDATED FINANCIAL STATEMENTS

a. The interim condensed consolidated financial information of the group as of 31 March , 2018 and for the 3 month period ended on that date (hereinafter—the interim financial information) was prepared in accordance with International Accounting Standard No. 34—“Interim Financial Reporting” (hereafter—“IAS 34”). The interim financial information should be read in conjunction with the annual financial statements as of 31 December, 2017 and for the year ended on that date and with the notes thereto, which were all prepared in accordance with International Financial Reporting Standards (hereafter—“IFRS”). The interim financial information is reviewed and is not audited.

b. Estimates—

The preparation of interim financial statements requires management to exercise its judgment; it also requires the use of accounting estimates and assumptions that affect the application of the group’s accounting policy and the amounts of reported assets, liabilities, income and expenses. Actual results may differ from those estimates.

In preparation of these condensed consolidated interim financial statements, the significant judgments that were exercised by the management in applying the group’s accounting policy and the key sources of estimation uncertainty were similar to those applied in the consolidated annual financial statements for the year ended December 31, 2017.

NOTE 3—PRINCIPAL ACCOUNTING POLICIES:

a. The significant accounting policies and computation methods used in preparing the interim financial information are consistent with those used in preparing the 2017 annual financial statements, except for section b to this note and to the following:

Income tax in interim periods is recognized based on management’s best estimate of the weighted average annual income tax rate expected.

NOTE 3—PRINCIPAL ACCOUNTING POLICIES (continued):

- b. In conjunction with Note 2 to the audited financial statements for the year ended December 31, 2017, the Company has elected to early adopt IFRS 16, commencing January 1, 2018.
1. The main impact of adopting the standard early is the elimination of existing requirement on lessees to classify leases as operating lease (off-balance sheet) or finance lease, and they are now required to use a single accounting model for all leases, similarly to how finance leases are currently accounted for. Accordingly, before first-time adoption, under IAS 17 (the previous standard for leases), the Group classified leases where it served as lessee as operating, because it did not have substantially all risks and rewards incidental to ownership of the asset.

In agreements where the Group is the lessor, it applies IFRS 16 using a single accounting model under which it recognizes a right-of-use asset and a lease liability upon inception of the lease contract. It does so for all leases in which the Group has right to control the use of identified assets for a period of time in exchange for consideration. Accordingly, the Group recognizes depreciation and depreciation charges on the right-of-use asset and tests the need for recognizing impairment of the right-of-use asset in compliance with IAS 36 “Impairment of Assets”, and also recognizes finance expenses in relation to a lease liability. Therefore, beginning on first-time adoption, rent expenses relating to properties rented under operating leases, which were presented within administrative and general expenses in the income statement, are now presented as assets that are depreciated through depreciation and depreciation assets.

The Group adopted the standard using the cumulative effect method, without restatement of comparative information.

Regarding all leases, the Group applied the transitional provisions such that it initially recognized a liability at the commencement day at an amount equal to the present value of the lease payments during the lease, discounted using the effective interest rate as of that date, and concurrently recognized a right-of-use asset at an amount identical to the liability. As a result, the standard had no impact on equity and retained earnings of the Group as of initial application.

As part of initial application, the Group elected to adopt the following practical expedients, as permitted by the standard:

- a. Use a single discount rate for a portfolio of leases with similar characteristics;
- b. Not to separate lease and non-lease components of a contract and account for all components as a single lease;
- c. Exclude initial direct costs from the measurement of the right-of-use asset as of initial application;
- d. Use hindsight, such as determining the lease term if the contract contains options to extend or terminate the leaser;

NOTE 3—PRINCIPAL ACCOUNTING POLICIES (continued):

2. The new significant accounting policy for agreements in which the Group is the lessee as applied beginning on January 1, 2018 following initial application of the standard:
 - (1) **Leased assets and lease liabilities**

Contracts conveying the Group a right to control an identified asset for a period of time in exchange for consideration, are accounted for as leases. Upon initial recognition, the Group recognizes a liability for the present value of the minimum future lease payments (those payments do not include variable lease payments that are not index-dependent or change in any interest rate or change in exchange rate) and concurrently, the Group recognizes a right-of-use asset at the amount of the liability, adjusted by the amount of any previously recognized prepaid or accrued lease payments plus direct costs incurred in the lease. Since the interest rate implicit in a lease is not readily determined, the effective interest rate of the Group is used (the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment). Subsequent initial recognition, an asset is accounted for using the cost model, and is depreciated over the earlier of the term of the lease or the useful life of the assets.
 - (2) **Lease term**

The term of a lease is determined as the non-cancellable period for which a lessee has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.
 - (3) **Depreciation of a right-of-use asset**

Subsequent to the inception of the lease, a right-of-use asset is measured using the cost method, less accumulated depreciation and accumulated impairment losses, and is adjusted for remeasurements of the lease liability. Depreciation is measured using the straight-line method over the useful life or contractual lease term, whichever ends earlier.
3. On the date of initial application of IFRS 16, the Group recognized right-of-use assets and lease liabilities at \$ 37,195 thousands.
4. The following tables present a summary of the impact on the consolidated condensed interim statement of financial position as of March 31, 2018 and the consolidated condensed interim income statement and consolidated condensed interim statement of cash flows for the three-month period then ended,

Defined terms used in this Agreement have the respective meanings ascribed to them herein.

WITNESSETH:

WHEREAS, the respective boards of directors of Parent (the “**Parent Board**”), the Company (the “**Company Board**”) and Merger Sub (the “**Merger Sub Board**”) have approved, the sole shareholder of Merger Sub has approved and, in the case of the Company Board and the Merger Sub Board, declared advisable, fair and in the best interests of such entity and its respective shareholders, this Agreement and the transactions contemplated by this Agreement, including the merger of Merger Sub with and into the Company, with the Company surviving as a wholly owned Subsidiary of Parent (the “**Merger**”), upon the terms and subject to the conditions set forth in this Agreement and in accordance with the provisions of Sections 314-327 of the Companies Law 5759-1999 of the State of Israel (together with the rules and regulations thereunder, the “**ICL**”);

WHEREAS, the Company Board and the Merger Sub Board have determined that, considering the financial conditions of the merging companies, no reasonable concern exists that the Surviving Company (as defined below) will be unable to fulfill the obligations of the Company or the Merger Sub, as applicable, to its creditors;

WHEREAS, the Company Board has unanimously resolved to recommend that the Company’s shareholders approve this Agreement and the transactions contemplated hereby, including the Merger;

WHEREAS, as a condition to the willingness of Parent to enter into this Agreement and as an inducement in consideration therefor, concurrently with the execution and delivery of this Agreement, Parent and certain shareholders of the Company are entering into a Voting Agreement pursuant to which each such shareholder is agreeing, subject to the terms and conditions thereof, to vote its Company Ordinary Shares in favor of the approval of the Merger, this Agreement and the transactions contemplated by this Agreement; and

WHEREAS, each of Parent, Merger Sub and the Company desire to make certain representations, warranties, covenants and agreements in connection with the Merger and also to prescribe various conditions to the Merger.

NOW, THEREFORE, in consideration of the foregoing and the representations, warranties and covenants and subject to the conditions herein contained, and for other good and valuable consideration, the receipt and sufficiency of which is acknowledged, and intending to be legally bound hereby, the parties hereto hereby agree as follows:

ARTICLE I

Upon the terms and subject to the conditions of this Agreement, and in accordance with the ICL, at the Effective Time, Merger Sub (as the target company (*Chevrat Ha’Ya’ad*) in the Merger) shall be merged with and into the Company (as the absorbing company (*HaChevra Ha’Koletet*) in the Merger), whereupon the separate existence of Merger Sub shall cease, and the Company shall continue as the surviving company of the Merger (the “**Surviving Company**”) and shall (a) become a wholly owned Subsidiary of Parent, (b) continue to be governed by the Laws of the State of Israel, (c) maintain a registered office in the State of Israel and (d) succeed to and assume all of the rights, properties and obligations of Merger Sub and the Company in accordance with the ICL.

Section 1.2 The Closing. Subject to the provisions of Article VI, the closing of the Merger (the “**Closing**”) shall take place at the offices of Naschitz, Brandes, Amir & Co., 5 Tuval Street, Tel Aviv, Israel, at 9:00 a.m.

(local time), on a date to be specified by the parties hereto, but no later than the third (3rd) Business Day after the satisfaction or waiver of the conditions set forth in Article VI (other than those conditions that by their terms are to be satisfied by action to be taken at the Closing, but subject to the satisfaction or waiver by the party entitled to waive such conditions), unless another time, date or place is agreed to in writing by the parties hereto (such date being the “**Closing Date**”).

Section 1.3 Effective Time. As soon as practicable after the determination of the date on which the Closing is to take place, each of the Company and Merger Sub shall (and Parent shall cause Merger Sub to), in coordination with each other, deliver to the Registrar of Companies of the State of Israel (the “**Companies Registrar**”) a notice of the contemplated Merger which shall inform the Companies Registrar that all conditions to the Merger under the ICL and this Agreement have been met and set forth the proposed date of the Closing on which the Companies Registrar is requested to issue a certificate evidencing the Merger in accordance with Section 323(5) of the ICL (the “**Certificate of Merger**”) after notice that the Closing has occurred is served to the Companies Registrar, which the parties shall deliver on the Closing Date. The Merger shall become effective upon the issuance by the Companies Registrar of the Certificate of Merger in accordance with Section 323(5) of the ICL (such date and time being hereinafter referred to as the “**Effective Time**”).

Section 1.4 Effects of the Merger. The Merger shall have the effects set forth in this Agreement and the applicable provisions of the ICL. Without limiting the generality of the foregoing, and subject thereto, at the Effective Time, by virtue of, and simultaneously with, the Merger and without any further action on the part of Parent, Merger Sub, the Company or any shareholder of the Company, (i) Merger Sub shall be merged with and into the Company, the separate corporate existence of Merger Sub shall cease and the Company shall continue as the Surviving Company, (ii) all the properties, rights, privileges, powers and franchises of the Company and Merger Sub shall vest in the Surviving Company, (iii) all debts, liabilities and duties of the Company and Merger Sub shall become the debts, liabilities and duties of the Surviving Company and (iv) all the rights, privileges, immunities, powers and franchises of the Company (as the Surviving Company) shall continue unaffected by the Merger in accordance with the ICL.

Section 1.5 Articles of Association. The articles of association of Merger Sub, as in effect immediately prior to the Effective Time, shall be the articles of association of the Surviving Company, until thereafter amended as provided by Law and such articles of association and, in each case, subject to Section 5.9.

Section 1.6 Board of Directors; Officers. The members of the Merger Sub Board immediately prior to the Effective Time shall, from and after the Effective Time, be the members of the board of directors of the Surviving Company, and the officers of the Company immediately prior to the Effective Time (other than the members of the Company Board) shall, from and after the Effective Time, be the officers of the Surviving Company, in each case to hold office in accordance with the articles of association of the Surviving Company until the earlier of their respective death, resignation or removal or until their respective successors are duly elected, designated and qualified.

Section 1.7 Operations. For a period of at least three (3) years from the Effective Time, Parent and the Surviving Company intend to maintain the Surviving Company’s research and development and manufacturing presence in Israel at substantially the same levels as such activities are conducted immediately prior to the Effective Time.

ARTICLE II

EFFECT OF THE MERGER ON SHARE CAPITAL; EXCHANGE OF CERTIFICATES

Section 2.1 Effect on Securities.

(a) Effect of Merger. At the Effective Time, by virtue of the Merger and without any action on the part of the Company, Parent, Merger Sub or the holders of any securities of the Company or Merger Sub:

(i) Conversion of Company Securities. Each ordinary share, par value one New Israeli Shekel (NIS 1.00) per share, of the Company (each, a “**Company Ordinary Share**” and collectively, the “**Company Ordinary Shares**”) issued and outstanding immediately prior to the Effective Time (other than shares to be canceled in accordance with [Section 2.1\(a\)\(ii\)](#) or to be converted in accordance with [Section 2.1\(a\)\(iii\)](#)) shall be converted into the right to receive from Parent, in accordance with the terms of this Agreement, (A) \$71.19 per share in cash (such amount of cash, the “**Cash Consideration**”) and (B) 0.2490 (the “**Exchange Ratio**”) validly issued, fully paid and nonassessable shares of common stock, par value \$0.125 per share, of Parent (the “**Parent Common Stock**”) (and, if applicable, cash in lieu of fractional shares of Parent Common Stock payable in accordance with [Section 2.1\(c\)](#)) (such shares of Parent Common Stock and any such cash in lieu of fractional shares, together with the Cash Consideration, the “**Merger Consideration**”), in each case without interest and subject to applicable Tax withholding. Each Company Ordinary Share to be converted into the right to receive the Merger Consideration as provided in this [Section 2.1\(a\)\(i\)](#) shall no longer be outstanding and shall be automatically canceled and shall cease to exist, and the holders of certificates (the “**Certificates**”) or book-entry shares (“**Book-Entry Shares**”), which immediately prior to the Effective Time represented such Company Ordinary Shares, shall cease to have any rights with respect to such Company Ordinary Shares other than the right to receive, upon surrender of such Certificates or Book-Entry Shares in accordance with [Section 2.3](#), the Merger Consideration.

(ii) Cancellation of Treasury Stock (Dormant Shares) and Parent-Owned Company Ordinary Shares. Each Company Ordinary Share held by the Company as treasury stock (dormant shares) or held directly or indirectly by Parent or Merger Sub immediately prior to the Effective Time shall automatically be canceled and retired and shall cease to exist, and no consideration or payment shall be due or delivered in exchange therefor or in respect thereof.

(iii) Company Ordinary Shares Held by Subsidiaries. Each Company Ordinary Share issued and outstanding immediately prior to the Effective Time that is held by any wholly owned Subsidiary of the Company shall be converted into and become such number of fully paid and nonassessable ordinary shares, par value one New Israeli Shekel (NIS 1.00) per share, of the Surviving Company such that the ownership percentage of any such Subsidiary in the Surviving Company immediately following the Effective Time shall equal the ownership percentage of such Subsidiary in the Company immediately prior to the Effective Time.

(iv) Conversion of Merger Sub Share Capital. Each ordinary share, par value one New Israeli Shekel (NIS 1.00) per share, of Merger Sub issued and outstanding immediately prior to the Effective Time shall be converted into and become one (1) fully paid ordinary share, par value one New Israeli Shekel (NIS 1.00) per share, of the Surviving Company and, together with the ordinary shares referred to in [Section 2.1\(a\)\(iii\)](#), shall constitute the only outstanding share capital of the Surviving Company.

(b) Adjustments.

(i) Without limiting the other provisions of this Agreement, if at any time during the period between the date of this Agreement and the Effective Time, any change in the number or type of outstanding shares of Parent Common Stock or Company Ordinary Shares shall occur as a result of a reclassification, recapitalization, exchange, stock split (including a reverse stock split), combination or readjustment of

shares or any stock dividend or stock distribution with a record date during such period, the Merger Consideration and any other similarly dependent items, as the case may be, shall be appropriately adjusted to provide the holders of Company Ordinary Shares the same economic effect as contemplated by this Agreement prior to such event. Nothing in this [Section 2.1\(b\)](#) shall be construed to permit any party to take any action that is otherwise prohibited or restricted by any other provision of this Agreement.

(ii) If the aggregate number of shares of Parent Common Stock to be issued pursuant to this Agreement (including pursuant to this [Section 2.1](#) and pursuant to [Section 2.2](#)) (the “**Aggregate Stock Consideration**”) would exceed 19.9% of the issued and outstanding shares of Parent Common Stock immediately prior to the entry into this Agreement (as set forth on [Section 2.1\(b\)](#) of the Parent Disclosure Letter), rounded down to the nearest whole share (the “**Maximum Share Number**”), (i) the Exchange Ratio shall be reduced (the amount of such reduction, the “**Exchange Ratio Reduction Number**”) by the minimum extent necessary such that the Aggregate Stock Consideration does not exceed the Maximum Share Number and (ii) the Cash Consideration for all purposes under this Agreement will be increased on a per share basis by an amount in cash equal to the Exchange Ratio Reduction Number multiplied by the Parent Stock Price.

(c) Fractional Shares. No certificate or scrip representing fractional shares of Parent Common Stock shall be issued upon the conversion of Company Ordinary Shares pursuant to [Section 2.1\(a\)\(i\)](#), and such fractional share interests shall not entitle the owner thereof to any Parent Common Stock or to vote or to any other rights of a holder of Parent Common Stock. All fractional shares that a holder of Company Ordinary Shares would be otherwise entitled to receive shall be aggregated. In lieu of any such fractional shares, each holder of Company Ordinary Shares who would otherwise be entitled to such fractional shares shall be entitled to receive from Parent an amount in cash, without interest, rounded down to the nearest cent, equal to the product of (i) the amount of the fractional share interest in a share of Parent Common Stock to which such holder would, but for this [Section 2.1\(c\)](#), be entitled to receive under [Section 2.1\(a\)\(i\)](#) and (ii) the Parent Stock Price. As soon as practicable after the determination of the amount of cash, if any, to be paid to holders of Company Ordinary Shares in lieu of any fractional share interests in Parent Common Stock, Parent shall cause the Exchange Agent to make available such amount, without interest, to the holders of Company Ordinary Shares entitled to receive such cash.

Section 2.2 Company Equity Awards.

(a) Treatment of Vested Company Options. As of the Effective Time, each compensatory option to purchase Company Ordinary Shares that is not a Company Restricted Stock Award (as defined below) (each, a “**Company Option**”) that is outstanding and vested immediately prior to the Effective Time (each, a “**Vested Company Option**”) shall be canceled without any action on the part of any holder thereof in consideration for the right of the holder to receive the Merger Consideration (which shall be paid in accordance with [Section 2.3\(h\)](#)) in respect of each Net Option Share subject to such Vested Company Option immediately prior to the Effective Time (the “**Vested Option Consideration**”), subject to applicable Tax withholding. For purposes of this Agreement, “**Net Option Share**” means, with respect to a Company Option, the quotient of (i) the product of (A) the excess, if any, of the value of the Merger Consideration over the exercise price per Company Ordinary Share subject to such Company Option immediately prior to the Effective Time, *multiplied by* (B) the number of Company Ordinary Shares subject to such Company Option immediately prior to the Effective Time, *divided by* (ii) the value of the Merger Consideration. For purposes of the preceding sentence, the value of the Merger Consideration that consists of shares of Parent Common Stock shall equal the product of (x) the number of such shares of Parent Common Stock *multiplied by* (y) the Parent Stock Price.

(b) Treatment of Unvested Company Options.

(i) As of the Effective Time, each Company Option that is outstanding and unvested as of immediately prior to the Effective Time (each, an “**Unvested Company Option**”) shall be cancelled without any action on the part of any holder thereof in consideration for the right of the holder to receive, either (A) on the applicable vesting date that applies to such Unvested Company Option, subject to the

holder's continued employment with the Company or an Affiliate through such date, or (B) upon an earlier termination of the holder's employment that would result in the vesting of such Unvested Company Option under the terms of any applicable Contract, except as otherwise provided in [Section 2.2\(b\)\(ii\)](#) below, a cash payment in U.S. dollars equal to the value of the Merger Consideration in respect of each Net Option Share subject to such Unvested Company Option as of the applicable vesting date or termination date (the "**Unvested Option Consideration**", and together with the Vested Option Consideration, the "**Option Consideration**"), subject to applicable Tax withholding. For purposes of the preceding sentence, the value of the Merger Consideration that consists of shares of Parent Common Stock shall equal the product of (x) the number of such shares of Parent Common Stock *multiplied by* (y) the Parent Stock Price. For the avoidance of doubt, except as provided in this [Section 2.2\(b\)](#), the right of each holder of an Unvested Company Option to receive the payment described in this [Section 2.2\(b\)](#) will be subject to substantially the same terms and conditions (including the applicable vesting schedule) as were applicable to the Unvested Company Option immediately prior to the Effective Time, including the same vesting restrictions and continued service requirements and the same rights to vesting upon a qualifying termination of employment to the extent applicable.

(ii) If the Company is unable to obtain the Options Tax Ruling with respect to the cancellation and exchange of Unvested Company Options that are Company 102 Options in accordance with [Section 2.2\(b\)\(i\)](#) prior to the Closing Date, then, instead of the cash payment described in [Section 2.2\(b\)\(i\)](#), each holder of an Unvested Company Option that is a Company 102 Option will be entitled to receive the Merger Consideration in respect of each Net Option Share. Any Merger Consideration payable pursuant to this [Section 2.2\(b\)\(ii\)](#) shall be considered "Unvested Option Consideration" for all purposes of this Agreement and shall be payable subject to all of the same terms and conditions described in [Section 2.2\(b\)\(i\)](#).

(c) Vested Company Restricted Stock Awards. As of the Effective Time, each compensatory award relating to Company Ordinary Shares that is designated as a restricted stock award in the applicable award agreement (each, a "**Company Restricted Stock Award**") that is outstanding and vested immediately prior to the Effective Time (each, a "**Vested Company Restricted Stock Award**") shall be canceled without any action on the part of any holder thereof in consideration for the right to receive the Merger Consideration (which shall be paid in accordance with [Section 2.3\(h\)](#)) in respect of each Net Restricted Share subject to such Vested Company Restricted Stock Award immediately prior to the Effective Time (the "**Vested Restricted Stock Consideration**"), subject to applicable Tax withholding. For purposes of this Agreement, "**Net Restricted Share**" means, with respect to a Company Restricted Stock Award, the quotient of (i) the product of (A) the excess, if any, of the value of the Merger Consideration over the purchase price per Company Ordinary Share subject to such Company Restricted Stock immediately prior to the Effective Time, *multiplied by* (B) the number of Company Ordinary Shares subject to such Company Restricted Stock Award immediately prior to the Effective Time, *divided by* (ii) the value of the Merger Consideration. For purposes of the preceding sentence, the value of the Merger Consideration that consists of shares of Parent Common Stock shall equal the product of (x) the number of such shares of Parent Common Stock *multiplied by* (y) the Parent Stock Price.

(d) Unvested Company Restricted Stock Awards. As of the Effective Time, each Company Restricted Stock Award that is outstanding and unvested as of immediately prior to the Effective Time (each, an "**Unvested Company Restricted Stock Award**") shall be cancelled without any action on the part of the holder thereof in consideration for the right of the holder to receive, on the applicable vesting date that applies to such Unvested Company Restricted Stock Award, subject to the holder's continued employment with the Company or an Affiliate through such date, a cash payment in U.S. dollars equal to the value of the Merger Consideration in respect of each Net Restricted Share subject to such Unvested Restricted Stock Award as of the applicable vesting date, subject to applicable Tax withholding. For purposes of the preceding sentence, the value of the Merger Consideration that consists of shares of Parent Common Stock shall equal the product of (x) the number of such shares of Parent Common Stock *multiplied by* (y) the Parent Stock Price. For the avoidance of doubt, except as provided in this [Section 2.2\(d\)](#), the right of each holder of an Unvested Company Restricted Stock Award to receive the payment described in this [Section 2.2\(d\)](#) will be subject to substantially the same terms and

conditions (including the applicable vesting schedule) as were applicable to the Unvested Company Restricted Stock Award immediately prior to the Effective Time, including the same vesting restrictions and continued service requirements.

(e) Company Actions. Prior to the Effective Time, the Company Board or a committee thereof shall adopt applicable resolutions to give effect to the transactions contemplated by this [Section 2.2](#). For the avoidance of doubt, the Company shall not take any action after the date hereof that would accelerate the vesting of the Company Options or the Company Restricted Stock Awards.

Section 2.3 Payment Procedures.

(a) Designation of Exchange Agent and Information Agent; Deposit of Exchange Fund. Prior to the Closing, Parent shall (i) enter into an exchange agreement in customary form and reasonably satisfactory to the Company with the transfer agent of Parent, the transfer agent of the Company or another financial institution or trust company designated by Parent that is recognized in Israel and the United States and reasonably acceptable to the Company (the “**Exchange Agent**”) for the payment of the Merger Consideration as provided in [Section 2.1\(a\)\(i\)](#) and (ii) at the request of the Company, engage an information agent reasonably acceptable to the Company (the “**Information Agent**”) to assist, *inter alia*, in obtaining any requisite residency certificate and/or other declaration for Tax withholding purposes and, in connection therewith, shall enter into an agreement with the Information Agent in customary form and reasonably satisfactory to the Company. Prior to or substantially concurrently with the Effective Time, Parent shall deposit or cause to be deposited with the Exchange Agent, for payment to the holders of Company Ordinary Shares (excluding Company Ordinary Shares issued upon previous exercise or settlement of Company 102 Options and are held by the 102 Trustee (“**Company 102 Shares**”) in respect of which payment shall be transferred directly to the 102 Trustee) in accordance with this [Article II](#) through the Exchange Agent, (A) book-entry shares representing the full number of whole shares of Parent Common Stock issuable pursuant to [Section 2.1\(a\)\(i\)](#) in exchange for outstanding Company Ordinary Shares, (B) cash in an aggregate amount necessary to pay the Cash Consideration portion of the aggregate Merger Consideration and (C) cash in an aggregate amount necessary to pay cash in lieu of fractional shares in accordance with [Section 2.1\(c\)](#), and Parent shall, after the Effective Time on or prior to the appropriate payment date, if applicable, provide or cause to be provided to the Exchange Agent any dividends or other distributions payable on such shares of Parent Common Stock pursuant to [Section 2.3\(c\)](#) (such aggregate number of shares of Parent Common Stock and aggregate amount of cash provided to the Exchange Agent, together with any such dividends or other distributions with respect thereto, the “**Exchange Fund**”). In the event the Exchange Fund shall at any time be insufficient to make the payments contemplated by [Section 2.1\(a\)\(i\)](#), Parent shall promptly deposit, or cause to be deposited, additional shares or cash funds, as applicable, with the Exchange Agent in an amount which is equal to the deficiency in the amount required to make such payment. The Exchange Fund shall not be used for any purpose other than to fund payments pursuant to [Section 2.1](#).

(b) Payment Procedures with Respect to Company Ordinary Shares.

(i) Promptly following the Effective Time, and in no event later than the fifth (5th) Business Day thereafter, Parent shall cause the Exchange Agent to mail to each holder of record of Certificates and Book-Entry Shares as of immediately prior to the Effective Time, in each case, whose shares were converted into the right to receive the Merger Consideration pursuant to [Section 2.1\(a\)\(i\)](#) (in each case, other than (x) Company 102 Shares and (y) Company Ordinary Shares subject to Company Restricted Stock Awards, which, for the avoidance of doubt, will be eligible to receive the applicable Merger Consideration pursuant to [Sections 2.2\(d\)](#) and [2.3\(h\)](#), and not [Section 2.3\(b\)](#)), (A) in the case of such holders of Certificates, a letter of transmittal in customary form and reasonably satisfactory to the Company (which shall specify that delivery shall be effected, and risk of loss and title to the Certificates shall pass only upon delivery of the Certificates (or affidavits of loss in lieu thereof as provided in [Section 2.5](#) below), to the Exchange Agent), (B) a declaration in which the beneficial owner of Company Ordinary Shares provides certain information necessary for Parent to determine whether any amounts need to be withheld from the Merger Consideration payable to such beneficial owner pursuant to the terms of the Ordinance (subject to the provisions of [Section 2.4](#) and [Section 5.15](#)), the Code, or any applicable provision of state, local, Israeli, U.S. or foreign Law and (C) instructions for use in effecting the surrender of the Certificates and Book-Entry Shares in

exchange for (1) cash in an amount equal to the Cash Consideration *multiplied by* the number of Company Ordinary Shares represented by such Certificates and/or Book-Entry Shares, (2) the number of shares of Parent Common Stock (which shall be in book-entry form) representing, in the aggregate, the whole number of shares that such holder has the right to receive in respect of such Certificates and/or Book-Entry Shares pursuant to [Section 2.1\(a\)\(i\)](#), (3) any dividends or other distributions payable pursuant to [Section 2.3\(c\)](#) and (4) cash in lieu of fractional shares of Parent Common Stock payable pursuant to [Section 2.1\(c\)](#).

(ii) In the case of Certificates, upon surrender of a Certificate (or affidavit of loss in lieu thereof) for cancellation to the Exchange Agent, together with a letter of transmittal, the declaration for Tax withholding purposes and/or a Valid Tax Certificate, in each case, duly completed and validly executed in accordance with the instructions thereto, and such other documents as may be required pursuant to such instructions, the holder of such Certificate shall be entitled to receive in exchange therefor, and Parent shall cause the Exchange Agent to pay and deliver in exchange therefor as promptly as reasonably practicable (A) cash in an amount equal to the Cash Consideration multiplied by the number of Company Ordinary Shares previously represented by such Certificate, (B) the number of shares of Parent Common Stock (which shall be in book-entry form) representing, in the aggregate, the whole number of shares that such holder has the right to receive in respect of such Certificate pursuant to [Section 2.1\(a\)\(i\)](#), (iii) any dividends or other distributions payable pursuant to [Section 2.3\(c\)](#) and (D) any cash in lieu of fractional shares of Parent Common Stock payable pursuant to [Section 2.1\(c\)](#), if applicable, and the Certificate (or affidavit of loss in lieu thereof) so surrendered shall be forthwith canceled.

(iii) In the case of Book-Entry Shares, upon receipt of the declaration for Tax withholding purposes and/or a Valid Tax Certificate, in each case, duly completed and validly executed in accordance with the instructions thereto, the holder of such Book-Entry Shares shall be entitled to receive in exchange therefor, and Parent shall cause the Exchange Agent to pay and deliver in exchange therefor as promptly as reasonably practicable (A) cash in an amount equal to the Cash Consideration *multiplied by* the number of Company Ordinary Shares previously represented by such Book-Entry Shares, (B) the number of shares of Parent Common Stock (which shall be in book-entry form) representing, in the aggregate, the whole number of shares that such holder has the right to receive in respect of such Book-Entry Shares pursuant to [Section 2.1\(a\)\(i\)](#), (C) any dividends or other distributions payable pursuant to [Section 2.3\(c\)](#) and (D) any cash in lieu of fractional shares of Parent Common Stock payable pursuant to [Section 2.1\(c\)](#), if applicable, and the Book-Entry Shares so exchanged shall be forthwith canceled.

(iv) Until surrendered, in the case of a Certificate, or paid, in the case of a Book-Entry Share, in each case, as contemplated by this [Section 2.3\(b\)](#), each Certificate or Book-Entry Share shall be deemed, from and after the Effective Time, to represent only the right to receive the Merger Consideration as contemplated by this [Section 2.3\(b\)](#) and any dividends or other distributions payable pursuant to [Section 2.3\(c\)](#). The Exchange Agent shall accept such Certificates (or affidavits of loss in lieu thereof) and make such payments and deliveries with respect to Book-Entry Shares upon compliance with such reasonable terms and conditions as the Exchange Agent may impose to effect an orderly exchange thereof in accordance with normal exchange practices. No interest shall be paid or accrued for the benefit of holders of the Certificates or Book-Entry Shares on the Merger Consideration payable hereunder. Parent shall cause the Exchange Agent to accept such Certificates and transferred Book-Entry Shares upon compliance with the foregoing exchange procedures. Cash payment to be made under this [Section 2.3\(b\)](#) shall be made in U.S. Dollars as promptly as practicable after receipt by the Exchange Agent of such Certificates or Book-Entry Shares; provided that the parties shall use commercially reasonable efforts to cause the Exchange Agent to make available an election for holders to receive payments of cash in NIS at the Exchange Agent's then applicable currency exchange rates. Notwithstanding anything to the contrary in this [Section 2.3\(b\)](#), any Merger Consideration payable in respect of Company 102 Shares shall be transferred by Parent to the 102 Trustee in accordance with [Section 2.3\(h\)](#).

(c) Distributions with Respect to Unexchanged Shares. Subject to applicable Law, there shall be paid to the holder of the Parent Common Stock issued in exchange for Certificates or Book-Entry Shares pursuant to [Section 2.3\(b\)](#), without interest, (i) at the time of delivery of such Parent Common Stock by the Exchange Agent pursuant to [Section 2.3\(b\)](#), the amount of dividends or other distributions, if any, with a record date after the

Effective Time theretofore paid with respect to such shares of Parent Common Stock, and (ii) at the appropriate payment date, the amount of dividends or other distributions, if any, with a record date after the Effective Time but prior to such delivery of such Parent Common Stock by the Exchange Agent pursuant to Section 2.3(b), and a payment date subsequent to such delivery of such Parent Common Stock by the Exchange Agent pursuant to Section 2.3(b), payable with respect to such shares of Parent Common Stock.

(d) If payment of the Merger Consideration (and any dividends or other distributions with respect to Parent Common Stock as contemplated by Section 2.3(c)) is to be made to a Person other than the Person in whose name the surrendered Certificate or Book-Entry Share so surrendered is registered, it shall be a condition precedent of payment that (i) the Certificate so surrendered shall be properly endorsed or shall be otherwise in proper form for transfer (or the Book-Entry Share so surrendered shall be in proper form for transfer) and (ii) the Person requesting such payment shall have paid any transfer and other similar Taxes required by reason of the payment of the Merger Consideration (and any dividends or other distributions with respect to Parent Common Stock as contemplated by Section 2.3(c)) to a Person other than the registered holder of such Certificate or Book-Entry Share (as applicable) surrendered or shall have established to the reasonable satisfaction of Parent that such Tax either has been paid or is not required to be paid.

(e) Termination of Exchange Fund. Any portion of the Exchange Fund which remains undistributed to the holders of the Certificates or Book-Entry Shares for one (1) year after the Effective Time shall be delivered to Parent or its designee upon demand, and any such holders prior to the Merger who have not theretofore complied with this Article II shall thereafter look only to Parent as general creditors thereof for payment, without interest, of their claims for Merger Consideration and any dividends or distributions with respect to Parent Common Stock as contemplated by Section 2.3(c).

(f) No Liability. None of Parent, Merger Sub, the Company or the Exchange Agent shall be liable to any Person in respect of any shares of Parent Common Stock (or dividends or distributions with respect thereto) or cash held in the Exchange Fund delivered to a Governmental Authority pursuant to and as required by any applicable abandoned property, escheat or similar Law. If any Certificate shall not have been surrendered or Book-Entry Share not paid, in each case, in accordance with Section 2.3(b)(i), immediately prior to the date on which any Merger Consideration in respect of such Certificate or Book-Entry Share would otherwise escheat to or become the property of any Governmental Authority, any such Merger Consideration in respect of such Certificate or Book-Entry Share shall, to the extent permitted by applicable Law, become the property of Parent free and clear of all claims or interest of any Person previously entitled thereto.

(g) Investment of Exchange Fund. The Exchange Agent shall invest any cash included in the Exchange Fund as reasonably directed by Parent; provided that no such investment shall relieve Parent or the Exchange Agent from making the payments required by this Article II, and following any losses Parent shall promptly provide additional funds to the Exchange Agent for the benefit of the holders of Company Ordinary Shares in the amount of such losses.

(h) Payment Procedures with Respect to Company Options, Company 102 Shares and Company Restricted Stock Awards.

(i) Immediately after the Effective Time, Parent shall transfer (A) the aggregate Option Consideration with respect to the Company Options subject to Section 102 of the Ordinance (the “**Company 102 Options**”) and (B) the aggregate Merger Consideration with respect to Company 102 Shares, to the 102 Trustee, on behalf of holders of Company 102 Options and Company 102 Shares, as the case may be, in accordance with Section 102 of the Ordinance and the Options Tax Ruling, if obtained ((A) and (B) together, the “**102 Amounts**”). The 102 Amounts shall be held in trust by the 102 Trustee pursuant to the applicable provisions of Section 102 of the Ordinance and the Options Tax Ruling, if obtained, and shall be released by the 102 Trustee to the beneficial holders of the Company 102 Options and Company 102 Shares, together with any interest earned thereon by virtue of the investment of such amounts by the 102 Trustee, in accordance with the terms and conditions of Section 102 of the Ordinance and the Options Tax Ruling, if obtained, the trustee agreement between the Company and the 102 Trustee, and, in the case of 102 Amounts payable in respect of Unvested Company Options, the terms and conditions of Section 2.2(b)(i).

(ii) Immediately after the Effective Time, Parent shall (or shall cause the Exchange Agent to) promptly deposit the aggregate Option Consideration with respect to Vested Company Options (other than Company 102 Options) pursuant to [Section 2.2](#), and the aggregate Restricted Stock Consideration with respect to Vested Company Restricted Stock Awards pursuant to [Section 2.2](#), with the Surviving Company or, if applicable, its relevant engaging Subsidiary at one or more accounts designated by the Company prior to Closing for the benefit of the holders of Vested Company Options (other than Company 102 Options) and the holders of Vested Company Restricted Stock Awards, respectively, which amounts shall be paid by the Surviving Company or, if applicable, the relevant engaging Subsidiary, to the respective holders thereof through the Surviving Company's or, if applicable, the relevant engaging Subsidiary's payroll system, subject to applicable withholdings by the Surviving Company or, if applicable, the relevant engaging Subsidiary, as promptly as practicable after the Effective Time.

Section 2.4 [Withholding Tax](#).

(a) Notwithstanding anything to the contrary hereunder, each of Parent, the Company, the Surviving Company, the 102 Trustee and the Exchange Agent (each, a "**Payor**") shall be entitled to deduct and withhold from any amounts otherwise payable pursuant to this Agreement (including the Merger Consideration and payments made pursuant to [Section 2.2](#)) to any Person such amounts as are required to be deducted and withheld with respect to the making of such payment under the Withholding Tax Ruling and the Options Tax Ruling, if obtained, the Ordinance, the Code or any provision of applicable Tax Law (it being agreed that the Payor shall be permitted to satisfy any Tax withholding requirement with respect to the Merger Consideration by deducting and withholding the appropriate cash amount from the Cash Consideration). Any amounts so withheld shall be treated for all purposes of this Agreement as having been paid to the Person in respect of which such deduction and withholding was made; provided that, with respect to the withholding of Israeli Tax, in the event any holder of record of Company Ordinary Shares or Company Options or a Company Restricted Stock Award provides the Payor with a Valid Tax Certificate issued by the Israeli Tax Authority (the "**ITA**") regarding the withholding (or exemption from withholding) of Israeli Tax from the consideration payable in respect thereof in accordance with this [Article II](#), then the deduction and withholding of any amounts under the Ordinance or any other provision of Israeli Law or requirement, if any, from the Merger Consideration, the Option Consideration, or the Restricted Stock Consideration, as applicable, payable to such holder of record of Company Ordinary Shares, Company Options, or Company Restricted Stock Awards, as applicable, shall be made only in accordance with the provisions of such Valid Tax Certificate. To the extent amounts are so withheld, they shall be paid over to the appropriate Governmental Authority prior to the last day on which such payment is required, and then such withheld amounts shall be treated for all purposes of this Agreement as having been paid to the Person in respect of which such deduction and withholding was made. To the extent any Payor withholds any amounts, such Payor shall provide the affected Person, as soon as practicable (but no later than within thirty (30) Business Days), with sufficient evidence regarding such withholding.

(b) Notwithstanding the provisions of [Section 2.4\(a\)](#), with respect to Israeli Taxes, the consideration payable to each shareholder of the Company shall be retained by the Exchange Agent for the benefit of each such shareholder for a period of up to one hundred eighty (180) days from Closing (the "**Withholding Drop Date**") (during which time no Payor shall make any payments to any shareholder of the Company or withhold any amounts for Israeli Taxes from the payments deliverable pursuant to this Agreement). If no later than five (5) Business Days prior to the Withholding Drop Date a Valid Tax Certificate is delivered to Payor, then, with respect to the affected shareholders, the deduction and withholding of any Israeli Taxes shall be made only in accordance with the provisions of such Valid Tax Certificate and the balance of the payment that is not withheld shall be paid to such shareholders concurrently therewith subject to any non-Israeli withholding which is applicable to the payment (if any). If any shareholder of the Company (i) does not provide Payor with or is not the subject of a Valid Tax Certificate, by no later than five (5) Business Days before the Withholding Drop Date, or (ii) submits a written request with Payor to release its portion of the consideration prior to the Withholding Drop Date and fails to submit a Valid Tax Certificate at or before such time, then the amount to be withheld from such shareholder's portion of the consideration shall be calculated according to the applicable withholding rate as reasonably determined by Parent in accordance with applicable Law (increased by interest plus linkage

differences, as defined in Section 159A of the Ordinance, for the period between the fifteenth (15th) day of the calendar month following the month during which the Closing occurs and the time the relevant payment is made, and calculated in NIS based on a US\$:NIS exchange rate not lower than the effective exchange rate at the Closing Date) as reasonably determined by Parent and the Exchange Agent.

Section 2.5 Lost Certificates. If any Certificate shall have been lost, stolen or destroyed, then upon the making of an affidavit of that fact by the Person claiming such Certificate to be lost, stolen or destroyed, in a form reasonably satisfactory to the Parent, and, if required by the Exchange Agent, the posting by such Person of a bond, in such reasonable amount as the Exchange Agent may require, as indemnity against any claim that may be made against Parent with respect to such Certificate, the Exchange Agent will issue in exchange for such lost, stolen or destroyed Certificate the Merger Consideration and any other required amounts to which the holder thereof is entitled pursuant to this Article II.

Section 2.6 Transfers; No Further Ownership Rights. From and after the Effective Time, all issued and outstanding Company Ordinary Shares shall no longer be outstanding and shall automatically be cancelled, retired and cease to exist, and each holder of a Certificate or Book-Entry Share theretofore representing any Company Ordinary Shares shall cease to have any rights with respect thereto, except the right to receive the Merger Consideration payable therefor upon the surrender or acknowledgment of the conversion thereof in accordance with the provisions of Section 2.1(a)(i). The Merger Consideration paid in accordance with the terms of this Article II shall be deemed to have been paid in full satisfaction of all rights pertaining to such Company Ordinary Shares. From and after the Effective Time, there shall be no registration of transfers on the stock transfer books of the Company of Company Ordinary Shares that were outstanding immediately prior to the Effective Time. If Certificates or Book-Entry Shares are presented to the Surviving Company, Parent or the Exchange Agent for transfer following the Effective Time, they shall be canceled against delivery of the Merger Consideration and other required amounts, as provided for in Section 2.1(a)(i), for each Company Ordinary Share formerly represented by such Certificates or Book-Entry Shares.

Section 2.7 Further Action. If, at any time after the Effective Time, any further action is determined by Parent or the Surviving Company to be necessary or desirable to carry out the purposes of this Agreement or to vest the Surviving Company or Parent with full right, title and possession of and to all rights and property of Merger Sub and the Company with respect to the Merger, the officers and managers of Parent shall be fully authorized (in the name of Merger Sub, the Company, the Surviving Company and otherwise) to take such action.

None of the information (a) included or incorporated by reference in the Form S-4 will, at the time the Form S-4, or any amendment or supplement to it, is filed with the SEC, or at the time it becomes effective under the Securities Act, contain any untrue statement of a material fact or omit to state any material fact required to be stated therein, in light of the circumstances under which they are made, not misleading and (b) supplied or to be supplied by or on behalf of Parent or Merger Sub for inclusion or incorporation by reference in the Proxy Statement will, at the date it, or any amendment or supplement to it, is mailed to the Company Shareholders or at the time of the Company Shareholders' Meeting, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances in which they are made, not misleading; provided that no representation or warranty is made by Parent in this Section 4.11 regarding such portions thereof that relate expressly to the Company or any of its Subsidiaries, or to statements made therein based on information supplied by or on behalf of the Company or any of its Subsidiaries for inclusion or incorporation by reference therein. The Form S-4 will comply as to form in all material respects with the requirements of the Exchange Act and other applicable Law.

Section 4.12 Anti-Corruption Laws.

Section 4.13 Brokers. No investment banker, broker or finder other than as set forth on Section 4.13 of the Parent Disclosure Letter, the fees and expenses of which will be paid by Parent, is entitled to any investment banking, brokerage, finder's or similar fee or commission in connection with this Agreement or the transactions contemplated by this Agreement based upon arrangements made by or on behalf of Parent or any of its Subsidiaries (including Merger Sub).

Section 4.14 Share Ownership. None of Parent, Merger Sub or any of their respective Subsidiaries owns (beneficially or otherwise) any Company Ordinary Shares (or any other economic interest through derivative securities or otherwise in the Company or its Subsidiary). To the knowledge of Parent, none of the Persons referred to in Section 320(c) of the ICL with respect to Parent or Merger Sub owns (beneficially or otherwise) any Company Ordinary Shares.

Section 4.15 Operations of Merger Sub. Merger Sub has been formed solely for the purpose of engaging in the transactions contemplated by this Agreement, and, prior to the Effective Time, Merger Sub has not and will not have engaged in any other business activities and will have incurred no liabilities or obligations other than as contemplated by this Agreement and other immaterial liabilities incident to its formation or the transactions contemplated by this Agreement.

Section 4.16 Financing.

(a) Parent is a party to and has accepted a fully executed commitment letter dated May 7, 2018 (together with all exhibits and schedules thereto, the "**Commitment Letter**") from the lenders party thereto (collectively, the "**Lenders**"), pursuant to which the Lenders have agreed, subject to the terms and conditions thereof, to provide debt financing in the amounts set forth therein. The debt financing committed pursuant to the Commitment Letter is collectively referred to in this Agreement as the "**Bridge Financing**."

(b) Parent has delivered to the Company a true, complete and correct copy of the executed Commitment Letter and any fee letters related thereto, subject, in the case of such fee letters, to redaction solely of fee and other economic provisions that could not in any event affect the conditionality, enforceability, availability or amount of the Bridge Financing.

(c) Except as expressly set forth in the Commitment Letter and the unredacted portions of the fee letters referenced above, there are no conditions precedent to the obligations of the Lenders to provide the Bridge Financing or any contingencies that would permit the Lenders to reduce the total amount of the Bridge Financing, including any condition or other contingency relating to the amount or availability of the Bridge Financing pursuant to any "flex" provision. As of the date hereof, Parent does not have any knowledge that any of the Lenders will not perform its obligations thereunder. As of the date hereof, there are no side letters, understandings or other agreements, contracts or arrangements of any kind relating to the Commitment Letter to which Parent or any of its Subsidiaries is a party that could affect the availability, conditionality, enforceability or amount of the Financing contemplated by the Commitment Letter (except for the fee letters referenced above).

(d) As of the date hereof, assuming the satisfaction of the conditions set forth in Section 6.1 and Section 6.2 at the Closing, the net proceeds contemplated from the Bridge Financing, when funded in accordance with the Commitment Letter, together with cash on hand of Parent, will be sufficient for the satisfaction of all of Parent's and Merger Sub's obligations under this Agreement, including the payment of the cash portion of the Merger Consideration, any fees and expenses of or payable by Parent, Merger Sub or the Surviving Company, any payments in respect of equity compensation obligations to be made on the Closing Date in connection with the Merger, and any repayment or refinancing of any outstanding indebtedness of the Company and its Subsidiaries contemplated by, or required in connection with the transactions described in, this Agreement or the Commitment Letter to be repaid or refinanced at Closing (such amounts, collectively, the "**Merger Amounts**").

(e) As of the date hereof, the Commitment Letter constitutes the legal, valid and binding obligation and is in full force and effect with respect to Parent and, to the Knowledge of Parent, the other parties thereto, subject

to applicable bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium and other laws affecting creditors' rights generally and general principles of equity whether considered in a proceeding in equity or at law. As of the date hereof, no event has occurred which (with or without notice, lapse of time or both) would or would reasonably be expected to constitute a breach or failure to satisfy a condition by Parent under the terms and conditions of the Commitment Letter, and, assuming the satisfaction of the conditions set forth in Section 6.1 and Section 6.2 at the Closing, Parent does not have any reason to believe that any of the conditions to the Bridge Financing will not be satisfied by Parent on a timely basis on or prior to the Closing Date or that the amount of the Bridge Financing necessary for Parent to consummate the transactions contemplated hereby will not be available to Parent on the date of the Closing. Parent has paid in full any and all commitment fees or other fees required to be paid pursuant to the terms of the Commitment Letter on or before the date of this Agreement. As of the date hereof, the Commitment Letter has not been modified, amended or altered and none of the respective commitments thereunder has been withdrawn or rescinded in any respect, and, to the knowledge of Parent, no withdrawal or rescission thereof is contemplated; provided, that Parent is currently contemplating the refinancing of the Bridge Financing provided pursuant to the Commitment Letter with permanent debt or equity financing.

(f) In no event shall the receipt or availability of any funds or financing (including, for the avoidance of doubt, the Financing) by Parent, Merger Sub or any of their respective Affiliates or any other financing be a condition to any of Parent's or Merger Sub's obligations under this Agreement.

Section 4.17 No Other Representations or Warranties. Except for the representations and warranties contained in this Article IV, none of Parent, Merger Sub or any other Person on behalf of Parent or Merger Sub makes any express or implied representation or warranty with respect to Parent or any of its Subsidiaries or any other information provided to the Company in connection with the transactions contemplated by this Agreement, including the accuracy, completeness or timeliness thereof. Each of Parent and Merger Sub acknowledges that, except for the representations and warranties contained in Article III, none of the Company or any of its Affiliates or Representatives or any other Person makes (and Parent and Merger Sub are not relying on) any representation or warranty, express or implied, to Parent or Merger Sub in connection with the Merger and the other transactions contemplated by this Agreement. Without limiting the foregoing, each of Parent and Merger Sub acknowledges that neither the Company nor any other Person on behalf of the Company will have or be subject to any liability or other obligation to Parent, Merger Sub or their respective Representatives or Affiliates resulting from Parent's, Merger Sub's or their respective Representatives' or Affiliates' use of any information, documents, projections, forecasts or other material made available to Parent, Merger Sub or their respective Representatives or Affiliates, marketing material, confidential information memorandum, management presentations, functional "break-out" discussions, responses to questions submitted on behalf of Parent, Merger Sub or their respective Representatives or Affiliates or in any other form in connection with the transactions contemplated by this Agreement, except to the extent any such information is expressly included in a representation or warranty contained in Article III.

(a) amend the Parent Organizational Documents in a manner that would be disproportionately (relative to other holders of Parent Common Stock) adverse to the Company or the shareholders of the Company or would, or would reasonably be expected to, prevent, impede or delay the consummation of any of the Merger or the other transactions contemplated by this Agreement;

(b) split, reverse split, combine, subdivide, reclassify, redeem, repurchase or otherwise acquire Parent's capital stock or other equity or voting securities, or any options, warrants, convertible securities or other rights of any kind to acquire any shares of Parent's capital stock or other equity or voting securities; provided that Parent may (i) for up to five (5) Business Days from the date hereof, repurchase up to an aggregate of \$10 million of Parent shares through open market repurchases subject to compliance with applicable Laws and (ii) repurchase or otherwise acquire shares in connection with (I) the acceptance of Parent Common Stock as payment for the per share exercise price of equity awards or as payment for Taxes incurred in connection with the exercise, vesting and/or settlement of equity awards, in each case in accordance with the applicable equity plan or (II) the forfeiture of equity awards;

(c) issue, sell, pledge, dispose of, encumber, grant or authorize the same with respect to, any shares of Parent Common Stock, or other equity or voting securities of Parent, or any options, warrants, convertible securities or other rights of any kind to acquire any Parent Common Stock or other equity or voting securities of Parent, in each case to the extent any such actions contemplated by this clause (c) (either alone or together with the Parent Stock Issuance or any other transaction or issuance) would require, prior to the Closing, a vote of the shareholders of Parent under the requirements or rules of the NYSE or otherwise;

(d) except with respect to the regular quarterly cash dividends, in amounts and with record and payment dates for such dividends consistent with past practice, declare, set aside, authorize, make or pay any dividend or other distribution, payable in cash, stock, property or otherwise, with respect to Parent's or any of its Subsidiaries' capital stock or other equity interests with a record date that is prior to the Closing, other than cash dividends and distributions paid by any direct or indirect wholly owned Subsidiary of Parent to Parent or any other direct or indirect wholly owned Subsidiary of Parent;

(f) commit to, authorize or adopt any resolutions approving, or announce an intention to do, any of the foregoing.

Notwithstanding the foregoing, nothing in this Agreement is intended to give the Company, directly or indirectly, the right to control or direct the business or operations of Parent or its Subsidiaries at any time prior to the Effective Time, and Parent and its Subsidiaries shall not be required to violate any Law. Prior to the Effective Time, Parent and its Subsidiaries shall exercise, consistent with the terms and conditions of this Agreement, complete control and supervision over their own business and operations.

Section 5.3 Preparation of the Form S-4 and the Proxy Statement; Company Shareholders' Meeting.

(a) As promptly as reasonably practicable after the execution of this Agreement, (i) the Company (with Parent's reasonable cooperation) shall prepare the Proxy Statement and (ii) Parent (with the Company's reasonable cooperation) shall prepare and file with the SEC a registration statement on Form S-4, in which the

[Table of Contents](#)

Proxy Statement will be included, in connection with the registration under the Securities Act of the Parent Common Stock to be issued in the Merger. Each of Parent and the Company shall use its reasonable best efforts to (A) cause the Form S-4 and the Proxy Statement to comply with applicable Law (including the applicable rules and regulations promulgated by the SEC), (B) have the Form S-4 declared effective under the Securities Act as promptly as practicable after such filing (including by responding to comments from the SEC), and, prior to the effective date of the Form S-4, take all action reasonably required to be taken under any applicable state or other securities Laws in connection with the issuance of Parent Common Stock in connection with the Merger (the “**Parent Stock Issuance**”) and (C) keep the Form S-4 effective through the Closing Date in order to permit the consummation of the Merger.

(b) Each of Parent and the Company shall furnish all information as may be reasonably requested by the other in connection with any such action and the preparation, filing and distribution of the Form S-4 and the Proxy Statement. As promptly as practicable after the Form S-4 shall have become effective, the Company shall use reasonable best efforts to cause the Proxy Statement to be mailed to its shareholders. No filing of, or amendment or supplement to, the Form S-4 will be made by Parent, and no filing of, or amendment or supplement to, the Proxy Statement will be made by the Company (other than regarding a Company Acquisition Proposal or Company Adverse Recommendation Change), in each case without providing the other party with a reasonable opportunity to review and comment (which comments shall be considered by the applicable party in good faith) thereon; provided that, without limiting [Section 5.10](#), with respect to documents filed by a party which are incorporated by reference in the Form S-4 or the Proxy Statement, this right to review and comment shall apply only with respect to information relating to the other party or such other party’s business, financial condition or results of operations. If, at any time prior to the Effective Time, any information relating to Parent or the Company or any of their respective Affiliates, directors or officers, should be discovered by Parent or the Company which should be set forth in an amendment or supplement to either the Form S-4 or the Proxy Statement, so that either such document would not include any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they are made, not misleading, the party that discovers such information shall promptly notify the other parties hereto and an appropriate amendment or supplement describing such information shall be prepared and, (other than regarding a Company Acquisition Proposal or Company Adverse Recommendation Change) following a reasonable opportunity for the other party (and its counsel) to review and comment on such amendment or supplement, promptly filed with the SEC, the ISA, TASE and LSE, as applicable, and, to the extent required by applicable Law, disseminated to the shareholders of the Company. Parent shall notify the Company promptly of the time when the Form S-4 has become effective, or the issuance of any stop order or suspension of the qualification of the Parent Common Stock issuable in connection with the Merger for offering or sale in any jurisdiction. Each party shall notify the other promptly of the receipt of any comments from the SEC, ISA, TASE or LSE or the staff of the SEC, ISA, TASE or LSE and of any request by the SEC, ISA, TASE or LSE or the staff of the SEC, ISA, TASE or LSE for amendments or supplements to the Form S-4 or the Proxy Statement, as applicable, or for additional information and shall supply each other with copies of all correspondence between either party or any of its Representatives, on the one hand, and the SEC, ISA, TASE or LSE or their respective staff, as applicable, on the other hand, with respect to the Proxy Statement, the Form S-4 or the Merger or the Company Shareholder Meeting.

(c) Subject to the earlier termination of this Agreement in accordance with [Section 7.1](#), the Company shall, as soon as reasonably practicable following the effectiveness of the Form S-4, set a record date for, duly call, give notice of, convene and hold a special meeting of the Company’s shareholders (together with any adjournment or postponement thereof, the “**Company Shareholders’ Meeting**”) for the purpose of seeking the Company Shareholder Approval, and shall submit such proposal to such holders at the Company Shareholders’ Meeting and shall not submit any other proposal to such holders in connection with the Company Shareholders’ Meeting without the prior written consent of Parent, other than (i) a customary proposal regarding adjournment of the Company Shareholders’ Meeting and (ii) one or more proposals to the extent required or appropriate to approve compensation arrangements for officers, employees or Affiliates of the Company contemplated by this Agreement (including the Company Disclosure Letter). For the avoidance of doubt, the proposals described in

clause (ii) of the preceding sentence shall be submitted for approval as separate items from the Merger Proposal and shall in no event be deemed to be included within the definition of “Company Shareholder Approval” or otherwise constitute a condition to the effectiveness of the Merger or the consummation of any of the transactions contemplated hereby. Notwithstanding anything to the contrary contained in this Agreement, the Company shall not adjourn or postpone the Company Shareholders’ Meeting without Parent’s prior written consent (not to be unreasonably withheld, conditioned or delayed); provided that without Parent’s prior written consent, the Company may adjourn or postpone the Company Shareholders’ Meeting (i) after consultation with Parent, to the extent necessary to ensure that any supplement or amendment to the Proxy Statement is provided to the shareholders of the Company within a reasonable amount of time in advance of the Company Shareholders’ Meeting or (ii) to a date that is in the aggregate not more than thirty (30) days following the originally scheduled date (or the date rescheduled pursuant to clause (i) hereof) if there are not sufficient affirmative votes in person or by proxy at such meeting to constitute a quorum at the Company Shareholders’ Meeting or to obtain the Company Shareholder Approval, to allow reasonable additional time for solicitation of proxies for purposes of obtaining a quorum or the Company Shareholder Approval. If the Company Board has not made a Company Adverse Recommendation Change in accordance with Section 5.8, the Company shall, through the Company Board, make the Company Recommendation, include such Company Recommendation in the Proxy Statement, and use its reasonable best efforts to (I) solicit from its shareholders proxies in favor of the approval of this Agreement and the Merger in accordance with Israeli Law and (II) otherwise seek to obtain the Company Shareholder Approval at the Company Shareholders’ Meeting. Notwithstanding any Company Adverse Recommendation Change, unless this Agreement is terminated in accordance with Section 7.1, the obligations of the parties hereunder shall continue in full force and effect. For the avoidance of doubt, unless this Agreement is terminated in accordance with Section 7.1, neither the commencement, public proposal, public disclosure or communication to the Company of any Company Acquisition Proposal (whether or not a Company Superior Proposal) nor the making of any Company Adverse Recommendation Change shall obviate or otherwise affect the obligation of the Company to set a record date for, duly call, give notice of, convene and hold a special meeting of the Company’s shareholders in accordance with this Section 5.3(c).

Section 5.4 Merger Proposal; Certificate of Merger.

(a) Subject to the ICL and the regulations promulgated thereunder, as soon as reasonably practicable following the date of this Agreement, the Company and Merger Sub shall (and Parent shall cause Merger Sub to), as applicable, take the following actions within the timeframes set forth in this Section 5.4(a); provided, however, that any such actions or the time frame for taking such action shall be subject to any amendment in the applicable provisions of the ICL and the regulations promulgated thereunder (and in case of an amendment thereto, such amendment shall automatically apply so as to amend this Section 5.4(a) accordingly): (i) as promptly as practicable following the date hereof, cause a merger proposal (in the Hebrew language) in a form reasonably acceptable to the parties hereto (the “**Merger Proposal**”) to be executed in accordance with Section 316 of the ICL, (ii) deliver the Merger Proposal to the Companies Registrar within three (3) days from the calling of the Company Shareholders’ Meeting, (iii) cause a copy of the Merger Proposal to be delivered to its secured creditors, if any, no later than three (3) days after the date on which the Merger Proposal is delivered to the Companies Registrar, (iv) (A) publish a notice to its creditors, stating that a Merger Proposal was submitted to the Companies Registrar and that the creditors may review the Merger Proposal at the office of the Companies Registrar, the Company’s registered office or Merger Sub’s registered offices, as applicable, and at such other locations as the Company or Merger Sub, as applicable, may determine, in (x) two (2) daily Hebrew newspapers, on the day that the Merger Proposal is submitted to the Companies Registrar and (y) in a popular newspaper outside of Israel as may be required by applicable Law; (B) within four (4) business days from the date of submitting the Merger Proposal to the Companies Registrar, send a notice by registered mail to all of the “Substantial Creditors” (as such term is defined in the regulations promulgated under the ICL) that the Company or Merger Sub, as applicable, is aware of, in which it shall state that a Merger Proposal was submitted to the Companies Registrar and that the creditors may review the Merger Proposal at such additional locations, if such locations were determined in the notice referred to in the immediately preceding clause (A); and (C) send to the Company’s “employees committee”, if any, or display in a prominent place at the Company’s premises a copy of

the notice published in a daily Hebrew newspaper (as referred to in clause (A) of this Section 5.4(a)(iv)), no later than three (3) business days following the day on which the Merger Proposal was submitted to the Companies Registrar, (v) promptly after the Company and Merger Sub, as applicable, shall have complied with the preceding clauses (iii) and (iv) of this Section 5.4(a), but in any event no more than three (3) days following the date on which such notice was sent to the creditors, inform the Companies Registrar, in accordance with Section 317(b) of the ICL, that notice was given to their respective creditors, if any, under Section 318 of the ICL (and regulations promulgated thereunder), (vi) not later than three (3) days after the date on which the Company Shareholder Approval is received, inform (in accordance with Section 317(b) of ICL and the regulations thereunder) the Companies Registrar of such approval, and (vii) in accordance with the customary practice of the Companies Registrar, request that the Companies Registrar declare the Merger effective and issue the Certificate of Merger upon such date, that in no event shall be prior to the lapse of 50 days from the filing of the Merger Proposal with the Companies Registrar and 30 days from the date the Company Shareholder Approval is received, as the Company and Merger Sub shall advise the Companies Registrar. For the avoidance of doubt, and notwithstanding any provision of this Agreement to the contrary, it is the intention of the parties that the Merger shall be declared effective and the Certificate of Merger shall be issued on the Closing Date. For purposes of this Section 5.4(a), "business day" shall have the meaning set forth in the Merger Regulations 5760-2000 promulgated under the ICL.

(b) Concurrently with the execution of this Agreement, the sole shareholder of Merger Sub has approved this Agreement, the Merger and the other transactions contemplated hereby. No later than three (3) days after the date of such approval, Merger Sub shall (in accordance with Section 317(b) of the ICL and the regulations thereunder) inform the Companies Registrar of such approval.

Section 5.5 Stock Exchange Listings.

(a) Promptly following the date of this Agreement, Parent shall take all actions necessary in order to list the shares of Parent Common Stock on the TASE immediately prior to the Effective Time, and shall use its reasonable best efforts to obtain, prior to the Closing Date, the agreement of the TASE to list such shares of Parent Common Stock and shares of Parent Common Stock to be issued in connection with the Merger on the TASE.

(b) Parent shall use its reasonable best efforts to cause the shares of Parent Common Stock to be issued in connection with the Merger to be approved for listing on the NYSE, subject to official notice of issuance, at or prior to the Effective Time.

Section 5.6 Appropriate Action; Consents; Filings.

(a) Without limiting the conditions to Merger set forth in Article VI, the parties hereto will cooperate with each other and use (and will cause their respective Subsidiaries to use) their respective reasonable best efforts to consummate the transactions contemplated by this Agreement and to cause the conditions to the Merger set forth in Article VI to be satisfied as promptly as reasonably practicable, including using reasonable best efforts to accomplish the following as promptly as reasonably practicable: (i) the obtaining of all actions or nonactions, consents, approvals, registrations, waivers, permits, authorizations, orders, expirations or terminations of waiting periods and other confirmations from any Governmental Authority or other Person that are or may become necessary, proper or advisable in connection with the consummation of the transactions contemplated by this Agreement, including the Merger; (ii) the preparation and making of all registrations, filings, forms, notices, petitions, statements, submissions of information, applications and other documents (including filings with Governmental Authorities) that are or may become necessary, proper or advisable in connection with the consummation of the transactions contemplated by this Agreement, including the Merger; (iii) the taking of all steps as may be necessary, proper or advisable to obtain an approval from, or to avoid a Proceeding by, any Governmental Authority or other Person in connection with the consummation of the transactions contemplated by this Agreement, including the Merger; (iv) the defending of any lawsuits or other Proceedings, whether judicial or administrative, challenging this Agreement or that would otherwise prevent or

delay the consummation of the transactions contemplated by this Agreement, including the Merger, performed or consummated by each party in accordance with the terms of this Agreement, including seeking to have any stay, temporary restraining order or injunction entered by any court or other Governmental Authority vacated or reversed; and (v) the execution and delivery of any additional instruments that are or may become reasonably necessary, proper or advisable to consummate the transactions contemplated by this Agreement, including the Merger, and to carry out fully the purposes of this Agreement. Each of the parties hereto shall, in consultation and cooperation with the other parties and as promptly as practicable but in no event later than as required by Law (and with respect to notifications required under the HSR Act, in any event within ten (10) Business Days of the date hereof), make its respective notices, filings and applications under the HSR Act and any other applicable Antitrust Law with respect to the transactions contemplated by this Agreement. Neither the Company nor Parent will withdraw any such notices, filings or applications without the prior written consent of the other party. Parent shall pay all filing fees and other charges for the filings required under any Antitrust Law by the Company and Parent. Notwithstanding anything to the contrary contained in this Agreement, without the prior written consent of Parent (such consent not to be unreasonably withheld, conditioned or delayed), none of the Company or any of its Subsidiaries will make any material payment to any third party in connection with seeking or obtaining its consent to the transactions contemplated by this Agreement.

(b) Each of Parent and Merger Sub shall, and shall cause their respective Subsidiaries to, if applicable, on the one hand, and the Company, on the other hand, shall (i) promptly furnish to the other such necessary information and reasonable assistance as the other may request in connection with the preparation of any governmental filings, submissions or other documents; (ii) give the other reasonable prior notice of any such filing, submission or other document and, to the extent reasonably practicable, of any communication with or from any Governmental Authority regarding the transactions contemplated by this Agreement, and permit the other to review (to the extent not prohibited by applicable Law or by the applicable Governmental Authority) and discuss in advance, and consider in good faith the views, and secure the participation, of the other in connection with any such filing, submission, document or substantive communication; and (iii) cooperate in responding as promptly as reasonably practicable to any investigation or other inquiry from a Governmental Authority or in connection with any Proceeding initiated by a Governmental Authority or private party, including informing the other party as soon as practicable of any such investigation, inquiry or Proceeding, and consulting in advance, to the extent practicable, before making any presentations or submissions to a Governmental Authority, or, in connection with any Proceeding initiated by a private party, to any other Person. In addition, each of the parties hereto will give reasonable prior notice to and consult with the other in advance of any meeting, conference or substantive communication with any Governmental Authority, or, in connection with any Proceeding by a private party, with any other Person, and to the extent not prohibited by applicable Law or by the applicable Governmental Authority, not participate or attend any meeting or conference, or engage in any communication, with any Governmental Authority or such other Person in respect of the transactions contemplated by this Agreement without offering the other party the possibility to participate, attend or engage in such meetings, conferences or communications, and in the event one party is prohibited from, or unable to participate, attend or engage in, any such meeting, conference or substantive communication, keep such party apprised with respect thereto. To the extent not prohibited by applicable Law or by the applicable Governmental Authority, each party shall furnish to the other copies of all filings, submissions, correspondence and communications between it and its Subsidiaries and their respective Representatives, on the one hand, and any Governmental Authority or members of any Governmental Authority's staff (or any other Person in connection with any Proceeding initiated by a private party), on the other hand, with respect to the transactions contemplated by this Agreement. Each party may, as it deems advisable and necessary, reasonably designate material provided to the other party as "Outside Counsel Only Material," and also may reasonably redact the material as necessary to (A) remove personally sensitive information, (B) remove references concerning the valuation of the Company and its Subsidiaries or Parent and its Subsidiaries conducted in connection with the approval and adoption of this Agreement and the negotiations and investigations leading thereto, (C) comply with contractual arrangements, (D) prevent the loss of a legal privilege or (E) comply with applicable Law.

(c) The parties shall jointly develop the strategy relating to the Antitrust Laws and consult and cooperate with one another, and consider in good faith the views of one another, regarding the form and content of any analyses, appearances, presentations, memoranda, briefs, arguments, opinions and proposals made or submitted by or on behalf of either party in connection with proceedings under or relating to any Antitrust Law prior to their submission; provided, that, without limiting Parent's obligations under this Section 5.6, Parent shall ultimately control the strategy relating to the Antitrust Laws and shall have final decision-making authority with respect to such strategy to the extent required to insure that Parent can meet its obligations in this Section 5.6 and its ability to consummate the transactions contemplated by this Agreement as promptly as practicable and in any event prior to the Termination Date (provided, that Parent shall have consulted with the Company with respect to such strategy and decision and considered the Company's views in good faith).

(d) Without limiting the generality of the foregoing, Parent shall, and shall cause each of its Subsidiaries to, take any and all actions necessary to obtain each Consent required under or in connection with any applicable Antitrust Law, and to enable all waiting periods under any applicable Antitrust Law to expire or terminate, and to avoid or eliminate each and every impediment under any applicable Antitrust Law that may be asserted by any Governmental Authority so as to enable the consummation of the Merger as promptly as practicable, and in any event prior to the Termination Date, including at Parent's sole cost (i) comply with all restrictions and conditions, if any, imposed or requested by any Governmental Authority with respect to Antitrust Laws in connection with granting any necessary clearance or terminating any applicable waiting period, including (A) agreeing to sell, divest, hold separate, license, cause a third party to acquire, or dispose of, otherwise encumber or impair or take any other action with respect to any Subsidiary, operations, divisions, businesses, product lines, customers, assets or properties of Parent, its Affiliates, the Company or its Subsidiaries contemporaneously with or after the Closing and regardless as to whether a third party has been identified or approved prior to the Closing, (B) taking or committing to take such other actions that may limit or otherwise affect Parent's, its Subsidiaries', the Company's or its Subsidiaries' freedom of action with respect to, or its ability to retain, one or more of its operations, divisions, businesses, product lines, customers, assets or properties and (C) entering into any Order, consent decree or other agreement to effectuate any of the foregoing and (ii) oppose fully and vigorously any request for, the entry of, and seek to have vacated or terminated, any Order of any Governmental Authority with respect to Antitrust Laws that could restrain, prevent or delay the Closing, including by defending through litigation (including by retaining all appropriate expert witnesses and consultants) any action asserted by any Person in any court or before any Governmental Authority with respect to Antitrust Laws and by exhausting all avenues of appeal, including appealing properly any adverse decision or Order by any Governmental Authority with respect to Antitrust Laws. The Company shall be permitted to participate in all aspects of the defense of such proceedings and Parent shall use its reasonable best efforts to prevail in such proceedings. Notwithstanding the foregoing, Parent shall not be required to take, or agree to take, any of the actions contemplated by this Section 5.6(d) with respect to Parent, the Surviving Company or any of their respective Subsidiaries if any such actions would, individually or in the aggregate, reasonably be expected to be material and adverse to Parent, the Surviving Company and their respective Subsidiaries (but measured on a scale relative to the Company and its Subsidiaries, taken as a whole), it being understood that the Company shall neither agree nor permit any of its Subsidiaries to agree without the prior written consent of Parent to take any such actions (provided that, if the Parent so directs, the Company shall agree, so long as such agreement or action is conditioned upon the Closing). Nothing in this Section 5.6(d) shall require either Parent or the Company to effectuate or agree to effectuate any of the transactions or restrictions contemplated by this Section 5.6(d) unless such transactions or restrictions are conditioned upon the Closing.

(e) Without limiting Section 5.6(d), each of the parties agrees that, between the date of this Agreement and the earlier of the Effective Time and the termination of this Agreement in accordance with Section 7.1, it shall not, and shall ensure that none of its Subsidiaries shall, consummate, enter into any agreement providing for, or announce, any investment, acquisition, divestiture or other business combination that would reasonably be expected to materially impede, materially delay or prevent or adversely affect (i) the obtaining of any Consent of any Governmental Authority or expiration or termination of any applicable waiting period necessary to consummate the transactions contemplated by this Agreement or (ii) the consummation of the transactions contemplated by this Agreement.

Section 5.7 Access to Information; Confidentiality. The Company shall (and shall cause each of its Subsidiaries to) afford reasonable access to Parent's Representatives, during normal business hours and upon reasonable notice, throughout the period from the date of this Agreement to the Effective Time (or until the earlier termination of this Agreement in accordance with Section 7.1), to the personnel, advisors, properties, books and records of the Company and its Subsidiaries and, during such period, shall (and shall cause each of its Subsidiaries to) furnish reasonably promptly to such Representatives all information concerning the business, properties and personnel of the Company and its Subsidiaries, in each case as may reasonably be requested by Parent to prepare for the Closing; provided that nothing herein shall require the Company or any of its Subsidiaries to disclose any information to Parent or Merger Sub if such disclosure would, in the reasonable judgment of the Company, (a) violate applicable Law or the provisions of any agreement to which the Company or any of its Subsidiaries is a party or (b) jeopardize any attorney-client or other legal privilege; provided, further, that in each such case, the Company shall use commercially reasonable efforts to cooperate with Parent to enable Parent and Parent's Representatives to enter into appropriate confidentiality, joint defense or similar documents or arrangements so that Parent and Parent's Representatives may have access to such information. No investigation or access permitted pursuant to this Section 5.7 shall affect or be deemed to modify any representation, warranty, covenant or agreement made by the Company hereunder. All information furnished by the Company, its Subsidiaries and the Company's officers, employees and other Representatives pursuant to this Section 5.7 shall be kept confidential in accordance with the Confidentiality Agreement.

Section 5.8 No Solicitation by the Company.

(a) From the date of this Agreement until the earlier of the Effective Time and the termination of this Agreement in accordance with Section 7.1, except as provided in this Section 5.8, (i) the Company shall, and shall cause its Subsidiaries and its and their respective officers and directors to, immediately cease, and shall instruct and use its reasonable best efforts to cause its and their respective other Representatives to immediately cease, all existing discussions, negotiations and communications with any Persons with respect to any Company Acquisition Proposal, (ii) the Company shall not, and shall cause its Subsidiaries and its and their respective officers and directors not to, and shall instruct and use its reasonable best efforts to cause its other Representatives not to, directly or indirectly, (A) initiate, seek, solicit, knowingly facilitate or knowingly encourage (including by way of furnishing any nonpublic information) the making or submission of a Company Acquisition Proposal, (B) enter into or engage in any negotiations or discussions with, or provide any nonpublic information to, or afford access to the business, properties, assets, books or records of the Company or any of its Subsidiaries to, any Person (other than Parent or any of its Representatives) relating to or for the purpose of encouraging or facilitating any Company Acquisition Proposal (other than to state that the terms of this Agreement prohibit such discussions) or (C) grant any waiver or release under any standstill or similar agreement (except that if the Company Board determines in good faith that the failure to grant any waiver or release would be inconsistent with its fiduciary duties under Israeli Law, the Company may waive any such standstill provision in order to permit a third party to make and pursue a Company Acquisition Proposal), (iii) the Company shall not provide any third party and shall, within two (2) Business Days of the date of this Agreement, terminate access of any third party who has made or indicated an interest in making a Company Acquisition Proposal to any data room (virtual or actual) containing any nonpublic information of the Company or any of its Subsidiaries and (iv) within two (2) Business Days of the date of this Agreement, the Company shall demand the return or destruction of all confidential, non-public information and materials that have been provided to third parties that have entered into confidentiality agreements relating to a possible Company Acquisition Proposal with the Company or any of its Subsidiaries.

(b) Notwithstanding Section 5.8(a), at any time prior to obtaining the Company Shareholder Approval (and in no event after receipt of the Company Shareholder Approval), if the Company receives a bona fide Company Acquisition Proposal from a third party made after the date of this Agreement that did not result from a material breach of Section 5.8(a), then the Company may (i) contact the Person or any of its Representatives who has made such Company Acquisition Proposal solely to clarify the terms of such Company Acquisition Proposal so that the Company Board (or any committee thereof) may inform itself about such Company Acquisition

Proposal, (ii) afford access to or furnish information concerning itself and its business, properties or assets or provide access to a data room (virtual or actual) to such Person or any of its Representatives pursuant to a confidentiality agreement (which the Company and its Representatives shall be permitted to negotiate) with confidentiality terms that, taken as a whole, are not materially less favorable to the Company than those contained in the Confidentiality Agreement and (iii) negotiate and participate in discussions and negotiations with such Person or any of its Representatives concerning such Company Acquisition Proposal, in the case of clauses (ii) and (iii), if the Company Board determines in good faith, after consultation with its outside financial advisor and outside legal counsel, that such Company Acquisition Proposal constitutes or is reasonably likely to constitute or result in a Company Superior Proposal. The Company shall (A) promptly (and in any case within forty-eight (48) hours) provide Parent notice (1) of the receipt by the Company (or any of its Representatives) of any Company Acquisition Proposal, which notice shall include a complete, unredacted copy of all written proposals, draft agreements relating to, and/or other written materials that describe any such Company Acquisition Proposal, and (2) of any inquiries, proposals or offers by third parties received by, any requests by third parties for nonpublic information from, or any discussions or negotiations initiated or continued (or sought to be initiated or continued) by third parties with, the Company or any of its Representatives concerning a Company Acquisition Proposal, and disclose the material terms of such offer, proposal or request, (B) make available to Parent, substantially concurrently with the time it is provided or made available to such party, all material nonpublic information, including copies of all material written materials, made available by the Company to such party but not previously made available to Parent and (C) keep Parent informed on a reasonably prompt basis of the status and material events (including amendments and proposed amendments to any material terms) regarding any such Company Acquisition Proposal or other inquiry, offer, proposal or request, providing to Parent unredacted copies of any additional or revised written proposals or draft agreements relating to such Company Acquisition Proposal or other inquiry, offer, proposal or request. The Company agrees that it and its Subsidiaries will not enter into any agreement with any Person that prohibits the Company from providing any information to Parent in accordance with this Section 5.8.

(c) Except as permitted by this Section 5.8, the Company Board shall not (i) withdraw, qualify or modify, or publicly propose to withdraw, qualify or modify, the Company Recommendation, in each case in a manner adverse to Parent or Merger Sub, (ii) fail to include the Company Recommendation in the Proxy Statement, (iii) publicly recommend or declare advisable any Company Acquisition Proposal, or (iv) adopt, authorize or approve any letter of intent, memorandum of understanding, merger agreement, acquisition agreement, option agreement, joint venture agreement, partnership agreement or other similar agreement providing for any Company Acquisition Proposal (other than a confidentiality agreement permitted by Section 5.8(b)) (any action described in the foregoing clauses (i) through (iv) of this sentence being referred to as a “**Company Adverse Recommendation Change**”).

(d) Notwithstanding anything in this Agreement to the contrary, if, at any time prior to the receipt of the Company Shareholder Approval (and in no event after receipt of the Company Shareholder Approval), the Company Board receives a Company Acquisition Proposal that did not result from a material breach of Section 5.8(a) and that the Company Board determines in good faith, after consultation with its outside financial advisor and outside legal counsel, constitutes a Company Superior Proposal, the Company Board may (i) effect a Company Adverse Recommendation Change or (ii) cause the Company to terminate this Agreement pursuant to Section 7.1(c)(ii) in order to enter into a definitive agreement providing for such Company Superior Proposal if, in each case, (A) the Company Board determines in good faith, after consultation with its outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under Israeli Law, (B) the Company has notified Parent in writing at least four (4) Business Days before taking such action that it intends to effect a Company Adverse Recommendation Change pursuant to this Section 5.8(d) or terminate this Agreement pursuant to Section 7.1(c)(ii), (C) the Company’s notice delivered pursuant to the foregoing clause (B) attaches the proposed definitive agreement or the most current version of any proposed agreement between the Company and the Person making such Company Superior Proposal, if any, or a reasonably detailed summary of all material terms of such Company Superior Proposal and the identity of the offeror, if no such agreement exists, (D) for a period of four (4) Business Days following the notice delivered pursuant to clause (B) of this Section 5.8(d), the

Company and the Company's relevant Representatives shall have discussed and negotiated in good faith (to the extent Parent desires to negotiate) with Parent and Parent's relevant Representatives any proposed modifications to the terms and conditions of this Agreement in response to such Company Superior Proposal, and (E) no earlier than the end of such four-(4)-Business Day period, the Company Board shall have determined in good faith, after consultation with its outside financial advisor and outside legal counsel, and after taking into account any proposal by Parent to amend or modify the terms of this Agreement irrevocably offered by Parent in writing, that the Company Acquisition Proposal that is the subject of the notice described in clause (B) above still constitutes a Company Superior Proposal (it being understood and agreed that in the event of any amendment to the financial terms or other material terms of any such Company Superior Proposal, a new written notification from the Company consistent with that described clause (B) of this Section 5.8(d) shall be required and a new notice period under clause (B) of this Section 5.8(d) shall commence, during which notice period the Company shall be required to comply with the requirements of this Section 5.8(d) anew, except that such new notice period shall be for two (2) Business Days (as opposed to four (4) Business Days)).

(e) Notwithstanding anything in this Agreement to the contrary, other than in connection with a Company Superior Proposal (which shall be subject to Section 5.8(d) and shall not be subject to this Section 5.8(e)), prior to obtaining the Company Shareholder Approval (and in no event after receipt of the Company Shareholder Approval), the Company Board may, in response to or as a result of a Company Intervening Event, take any action prohibited by clauses (i) or (ii) of Section 5.8(c), if (i) the Company Board determines in good faith, after consultation with its outside legal counsel, that the failure to take such action would be inconsistent with its fiduciary duties under Israeli Law, (ii) the Company has notified Parent in writing that it intends to effect such a Company Adverse Recommendation Change pursuant to this Section 5.8(e) (which notice shall specify the facts and circumstances providing the basis of the Company Intervening Event in reasonable detail), (iii) for a period of four (4) Business Days following the notice delivered pursuant to clause (ii) of this Section 5.8(e), the Company and the Company's relevant Representatives shall have discussed and negotiated in good faith (to the extent Parent desires to negotiate) with Parent and Parent's relevant Representatives any proposed modifications to the terms and conditions of this Agreement, and (iv) no earlier than the end of such four (4) Business Day period, the Company Board shall have determined in good faith, after consultation with outside legal counsel, and after taking into account any proposal by Parent to amend or modify the terms of this Agreement irrevocably offered by Parent in writing, that the failure to take such action would still be inconsistent with its fiduciary duties under Israeli Law.

(f) Nothing contained in this Agreement shall prohibit the Company or the Company Board from (i) disclosing to its shareholders a position or opinion contemplated by Section 329 of the ICL or issuing a "stop, look and listen" or similar statement to its shareholders, or (ii) making any disclosure to its shareholders if the Company Board determines in good faith, after consultation with its outside legal counsel, that the failure of the Company Board to make such disclosure would be inconsistent with its fiduciary duties under Israeli Law or would reasonably likely conflict with or violate any applicable Law or the rules or requirements of the TASE or the LSE; provided, however, that (A) in no event shall this Section 5.8(f) affect or modify the definition of Company Adverse Recommendation Change and (B) any such disclosure (other than issuance by the Company of a "stop, look and listen" or similar communication of the type contemplated by Rule 14d-9(f) under the Exchange Act or by the ICL) that addresses or relates to the approval, recommendation or declaration of advisability by the Company Board with respect to this Agreement or an Acquisition Proposal shall be deemed to be a Company Adverse Recommendation Change unless the Company Board in connection with such communication publicly states that its recommendation with respect to this Agreement has not changed.

(g) References in this Section 5.8 to the Company Board shall include any committee thereof.

(a) Parent and Merger Sub agree that all rights to indemnification and exculpation from liabilities, including advancement of expenses, for acts or omissions occurring at or prior to the Effective Time now

existing in favor of the current or former directors, officers or employees (in the case of employees, only such persons who are covered by the Company's existing policies of directors' and officers' liability insurance and fiduciary liability insurance as of the date hereof) of the Company (the "D&O Indemnified Parties") as provided in the Articles of Association or any indemnification Contract between such Person and the Company (in each case, as in effect on, and, in the case of any indemnification Contracts, to the extent made available to Parent prior to, the date of this Agreement) shall survive the Merger and shall continue in full force and effect. For a period of seven (7) years from the Effective Time, the Surviving Company shall, and Parent shall cause the Surviving Company to, maintain in effect the exculpation, indemnification and advancement of expenses equivalent to the provisions of the Articles of Association as in effect immediately prior to the Effective Time with respect to acts or omissions occurring prior to the Effective Time and shall not amend, repeal or otherwise modify any such provisions in any manner that would adversely affect the rights thereunder of any D&O Indemnified Parties; provided that all rights to indemnification in respect of any claim made for indemnification within such period shall continue until the final disposition of such action or final resolution of such claim.

(b) Notwithstanding anything to the contrary set forth in this Section 5.9 or elsewhere in this Agreement, without the prior express written consent of the applicable D&O Indemnified Party, neither Parent nor any of its Subsidiaries (including the Surviving Company and any of its Subsidiaries) shall settle or otherwise compromise or consent to the entry of any judgment or otherwise seek termination with respect to any claim, proceeding, investigation or inquiry for which indemnification is sought by a D&O Indemnified Party under or as contemplated by this Agreement unless such settlement, compromise, consent or termination does not include any admission of wrongdoing by such D&O Indemnified Party and includes an unconditional release of such D&O Indemnified Party from all liability arising out of such claim, proceeding, investigation or inquiry.

(c) Prior to the Effective Time, the Company shall, or, if the Company is unable to, Parent shall cause the Surviving Company as of or after the Effective Time to, purchase a seven (7)-year prepaid "tail" policy, with terms, conditions, retentions and limits of liability that are no less favorable than the coverage provided under the Company's existing policies of directors' and officers' liability insurance and fiduciary liability insurance, with respect to matters arising on or before the Effective Time (including in connection with this Agreement and the transactions or actions contemplated by this Agreement), and the Surviving Company and Parent shall cause such policy to be maintained in full force and effect, for its full term, and cause all obligations thereunder to be honored; provided that such "tail" policy shall be consistent in all material respects with the terms set forth in the Company's compensation policy adopted (whether before or after the date of this Agreement) in accordance with the ICL; provided further that the Company shall not pay, and the Surviving Company shall not be required to pay, to secure such "tail" policy in excess of seven hundred percent (700%) of the last annual premium paid by the Company prior to the date of this Agreement in respect of such existing policies of directors' and officers' liability insurance and fiduciary liability insurance, but in such case shall purchase as much coverage as reasonably practicable for such amount. If the Company or the Surviving Company for any reason fails to obtain such "tail" insurance policies prior to, as of or after the Effective Time, Parent shall, for a period of seven (7) years from the Effective Time, cause the Surviving Company to maintain in effect the current policies of directors' and officers' liability insurance and fiduciary liability insurance maintained by the Company with respect to matters arising on or before the Effective Time; provided that after the Effective Time, Parent shall not be required to pay annual premiums in excess of three hundred and fifty percent (350%) of the last annual premium paid by the Company prior to the date of this Agreement in respect of such coverage, but in such case shall continue to be maintained as much coverage as reasonably practicable for such amount.

(d) The covenants contained in this Section 5.9 are intended to be for the benefit of, and shall be enforceable by, each of the D&O Indemnified Parties and their respective heirs and shall not be deemed exclusive of any other rights to which any such Person is entitled, whether pursuant to Law, contract or otherwise.

(e) In the event that Parent or the Surviving Company or any of their respective successors or assigns (i) consolidates with or merges into any other Person and shall not be the continuing or surviving corporation or

entity of such consolidation or merger or (ii) transfers or conveys all or substantially all of its properties and assets to any Person, then, in each such case, proper provision shall be made so that the successors or assigns or transferees of Parent or the Surviving Company, as the case may be, shall assume the obligations set forth in this Section 5.9.

Section 5.10 Public Disclosure. So long as this Agreement is in effect, neither Parent, nor the Company, nor any of their respective Subsidiaries, will disseminate any press release or other public announcement or disclosure concerning this Agreement, the Merger or the other transactions contemplated by this Agreement, except as may be required by Law or the rules of a recognized securities exchange, including the NYSE, the TASE and the LSE, without the prior consent of each of the other parties hereto, which consent shall not be unreasonably withheld, conditioned or delayed. The parties have agreed to the text of the joint press release announcing the execution of this Agreement. Notwithstanding the foregoing, (a) without prior consent of the other parties, each party may disseminate information substantially consistent with information included in a press release or other document previously approved for external distribution by the other parties and (b) this Section 5.10 shall not apply to any press release or other public announcement or disclosure by the Company of any information concerning any Company Acquisition Proposal or this Agreement or the transactions contemplated by this Agreement in connection with or following a Company Adverse Recommendation Change.

Section 5.11 Employee Benefits; Labor.

(a) For purposes of this Section 5.11, the term “**Continuation Period**” shall mean the period beginning at the Effective Time and ending on the first anniversary of the Effective Time.

(b) Except where applicable Law or the provisions of a Labor Agreement require more favorable treatment, during the Continuation Period, Parent shall, or shall cause a Subsidiary of Parent to, provide to each Covered Employee for so long as such Covered Employee remains employed by Parent or any of its Subsidiaries during the Continuation Period, (i) a base salary or wage rate at least equal to the base salary or wage rate of such Covered Employee immediately prior to the Effective Time, (ii) annual or other short-term cash incentive compensation opportunities at least equal to the annual or other short-term cash incentive compensation opportunities of such Covered Employee immediately prior to the Effective Time, (iii) equity or equity-based incentive compensation opportunities at least equal to the equity or equity-based incentive compensation opportunities of such Covered Employee immediately prior to the Effective Time, and (iv) employee benefits (excluding equity and equity-based compensation, retention benefits and change in control benefits) that are substantially comparable in the aggregate to the employee benefits provided by the Company or its Subsidiaries to such Covered Employees immediately prior to the Effective Time.

(c) In the event any Covered Employee first becomes eligible to participate under any employee benefit plan or compensation plan maintained by Parent or any of its Subsidiaries (a “**Parent Benefit Plan**”) following the Effective Time, Parent shall, or shall cause a Subsidiary of Parent to use commercially reasonable efforts to, (i) waive any preexisting condition exclusions and waiting periods with respect to participation and coverage requirements applicable to any Covered Employee under any Parent Benefit Plan providing medical, dental or vision benefits to the same extent such limitation would have been waived or satisfied under any similar Company Benefit Plan in which the Covered Employee participated immediately prior to coverage under the Parent Benefit Plan; and (ii) provide each Covered Employee with credit for any co-payments, out-of-pocket requirements and deductibles paid prior to the Covered Employee’s coverage under any Parent Benefit Plan during the plan year in which such Covered Employee first becomes eligible to participate under such Parent Benefit Plan, to the same extent such credit was given under any similar Company Benefit Plan that Covered Employee participated in immediately prior to coverage under the Parent Benefit Plan, in satisfying any applicable co-payment, deductible or out-of-pocket requirements under the Parent Benefit Plan for the plan year in which such Covered Employee first becomes eligible to participate under such Parent Benefit Plan.

(d) As of the Effective Time, Parent shall recognize, or shall cause a Subsidiary of Parent to recognize, all service of each Covered Employee prior to the Effective Time to the Company and any of its Subsidiaries (or

any predecessor entities of the Company or any of its Subsidiaries) for purposes of vesting, eligibility and, solely in respect of vacation and severance entitlements, benefit accrual under any Parent Benefit Plan established or maintained for the benefit of Covered Employees, in each case, to the same extent such service was recognized immediately prior to the Effective Time under a comparable Company Benefit Plan in which such Covered Employee was eligible to participate immediately prior to the Effective Time; provided, that, (i) for the avoidance of doubt, such service shall not be recognized with respect to any Parent Benefit Plan that provides defined benefit pension benefits or retiree welfare benefits and (ii) such recognition of service shall not apply for purposes of any Parent Benefit Plan under which similarly situated employees of Parent or its Subsidiaries do not receive credit for prior service or that is grandfathered or frozen, either with respect to level of benefits or participation. In no event shall anything contained in this [Section 5.11](#) result in any duplication of benefits for the same period of service.

(e) If the Closing occurs prior to the payment of annual bonuses for 2018:

(i) to the extent that a Covered Employee (other than any Covered Employee who is employed at the Company's headquarters or is an "office holder" of the Company (as such term is defined in the ICL)) who participates as of immediately prior to the Closing in a Company Benefit Plan that is an annual bonus plan (a "**Company Bonus Plan**") remains employed through December 31, 2018, Parent shall cause the Company to pay such Covered Employee an annual bonus for such year based on the actual level of achievement of the applicable performance goals in accordance with the terms and conditions of the applicable annual bonus plan at the time that annual bonuses are payable in the ordinary course consistent with past practice;

(ii) to the extent that a Covered Employee who is employed at the Company's headquarters or is an "office holder" of the Company (as such term is defined in the ICL) remains employed through December 31, 2018, Parent shall cause the Company to pay such Covered Employee an annual bonus for such year as described in Section 5.11(e) of the Company Disclosure Letter; and

(iii) if an applicable Covered Employee's employment with the Company and its Subsidiaries is terminated by the Company and its Subsidiaries without cause on or after the Closing and prior to December 31, 2018, such Covered Employee shall receive a prorated bonus payment (A) if such Covered Employee is not employed at the Company's headquarters and is not an "office holder" of the Company (as defined in the ICL), within thirty (30) days following the date on which bonuses are paid to active employees under the Company Bonus Plan equal to the product of (x) the full annual bonus for the year of termination based on the actual level of achievement of the applicable performance goals, *multiplied* by (y) a fraction, the numerator of which is the number of days between January 1, 2018 and the date of such termination of employment and the denominator of which is the total number of days in calendar year 2018 (the "**Proration Fraction**"), or (B) if such Covered Employee is employed at the Company's headquarters or is an "office holder" of the Company (as defined in the ICL), within thirty (30) days following the date on which bonuses are paid to active employees under the Company Bonus Plan equal to the product of (x) the full annual bonus for the year of termination to which such Covered Employee would have been entitled under Section 5.11(e)(ii), *multiplied* by (y) the Proration Fraction.

(f) The Company and Parent agree to take the actions set forth on [Section 5.11\(f\)](#) of the Company Disclosure Letter.

(g) If requested by Parent in a writing delivered to the Company not less than ten (10) Business Days prior to the Closing Date, the Company and Company Subsidiaries shall, or shall cause their boards of directors (or the appropriate committees thereof), to adopt resolutions and take such corporate action as is necessary to terminate each 401(k) plan of the Company and Company Subsidiaries specified by Parent, effective as of immediately prior to the Closing. The form and substance of such resolutions shall be subject to the review and approval of Parent (such approval not to be unreasonably withheld, conditioned or delayed). In the event that Parent requests that any Company 401(k) plan be terminated, (i) prior to the Closing Date and thereafter (as

applicable), Parent shall take any and all action as may be required, including amendments to each applicable 401(k) plan sponsored or maintained by Parent or one of its Subsidiaries, to permit each applicable Covered Employee to make rollover contributions of “eligible rollover distributions” (within the meaning of Section 401(a)(31) of the Code, including of loans) in cash or notes (in the case of loans) in an amount equal to the eligible rollover distribution portion of the account balance distributable to such Covered Employee from the applicable Company 401(k) plan to the corresponding Parent 401(k) plan, and (ii) the Covered Employees who were eligible to participate in any Company 401(k) plan as of immediately prior to the Effective Time shall be eligible to participate, effective as of the Effective Time, in the applicable Parent 401(k) plan.

(h) Prior to making any broad-based or other formal written communications to current or former employees of the Company or Company Subsidiaries pertaining to compensation or benefits matters set forth in this Section 5.11, the Company shall, or shall cause the relevant Company Subsidiary to, provide Parent with a copy of the intended communication and Parent shall have a reasonable period of time to review and comment on the communication.

(i) The parties hereto acknowledge and agree that all provisions contained in this Section 5.11 with respect to employees of the Company and its Subsidiaries are included for the sole benefit of the respective parties hereto and shall not create any right (i) in any other Person, including employees, former employees, any participant or any beneficiary thereof, under this Agreement or in any Company Benefit Plan or (ii) to continued employment with the Company, Parent or their respective Subsidiaries or Affiliates. Nothing set forth in this Section 5.11 shall constitute an amendment or modification to, or adoption of, any Company Benefit Plan or any other plan, program, agreement or arrangement of the Company, the Company Subsidiaries, Parent or any of their respective Affiliates or any other arrangement covering employees of the Company, the Company Subsidiaries, Parent or any of their respective Affiliates.

Section 5.12 Merger Sub. Parent will take all actions necessary to (a) cause Merger Sub to perform its obligations under this Agreement and to consummate the Merger on the terms and conditions set forth in this Agreement and (b) ensure that Merger Sub prior to the Effective Time shall not conduct any business, incur or guarantee any Indebtedness or any other liabilities or make any investments, other than those activities incident to its obligations under this Agreement or the transactions contemplated hereby.

Section 5.13 Rule 16b-3 Matters. Prior to the Effective Time, Parent shall take all such steps as may be reasonably necessary or advisable to cause any acquisitions of shares of Parent Common Stock (including derivative securities with respect to Parent Common Stock) resulting from the transactions contemplated by this Agreement by each individual who will become subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to Parent, if any, to be exempt under Rule 16b-3 promulgated under the Exchange Act, to the extent permitted by applicable Law.

Section 5.14 Financing and Financing Cooperation.

(a) Parent shall use its reasonable best efforts to take, or cause to be taken, all actions and do, or cause to be done, all things necessary, advisable or proper to obtain the proceeds of the Financing on the terms and conditions described in the Commitment Letter (or (subject to the provisions of Section 5.14(c)), the proceeds of permanent Financing in lieu thereof) (taking into account any “flex provisions” set forth in the related fee letters) on or prior to the date upon which the Merger is required to be consummated pursuant to the terms of this Agreement, including by using reasonable best efforts to: (i) maintain in effect the Commitment Letter (provided, that the Commitment Letter may be amended, supplemented, modified and replaced as permitted by Sections 5.14(b) and (c)), (ii) negotiate and enter into definitive agreements with respect to the Financing (the “**Definitive Agreements**”) consistent with the terms and conditions contained in the Commitment Letter (including, as necessary, the “flex” provisions contained in any related fee letter) and (iii) satisfy (or, if deemed advisable by Parent, obtain the waiver of) on a timely basis all conditions (other than those conditions that by their nature are to be satisfied at the Closing) in the Commitment Letter and the Definitive Agreements and

comply with its obligations thereunder. In the event that all conditions contained in the Commitment Letter or the Definitive Agreements (other than the consummation of the Merger and those conditions that by their nature are to be satisfied at the Closing) have been satisfied or waived, Parent shall use reasonable best efforts to cause the Lenders or other applicable Financing Sources to comply with their respective obligations thereunder, including to fund the Financing, and to enforce its rights, under the Commitment Letter and Definitive Agreements.

(b) Parent shall not without the prior written consent of the Company permit any amendment or modification to, replacement of, or any waiver of any material provision or remedy under, the Commitment Letter if such amendment, modification, replacement, waiver or remedy (A) adds new (or adversely modifies any existing) conditions to the consummation of all or any portion of the Financing (other than the addition of conditions to the consummation of any replacement financing that relate to purely ministerial matters, which conditions would not reasonably be expected to prevent, impede or delay the consummation of the Merger or the other transactions contemplated hereby), (B) reduces the aggregate amount of the Financing to less than the amount of the Bridge Financing contemplated by the Commitment Letter as of the date hereof, (C) adversely affects the ability of Parent to enforce its rights against other parties to the Commitment Letter, the Financing or the Definitive Agreements as so amended, replaced, supplemented or otherwise modified, relative to the ability of Parent to enforce its rights against the other parties to the Commitment Letter as in effect on the date hereof in any material respect, or (D) could otherwise reasonably be expected to prevent, impede or materially delay the consummation of the Merger and the other transactions contemplated by this Agreement; provided, that no consent from the Company shall be required for (x) any amendment, replacement, supplement or modification of the Commitment Letter that adds lenders, lead arrangers, bookrunners, syndication agents or similar entities that have not executed the Commitment Letter as of the date hereof (including in replacement of a Lender), (y) implementation or exercise of any “flex” provisions provided in any related fee letter as in effect as of the date hereof or (z) any amendment to, or replacement of or supplement or modification to, the Commitment Letter or Definitive Agreement so long as such action would not be prohibited by the foregoing clauses (A) through (D). Parent shall promptly notify the Company of any such amendment, modification, waiver or replacement and, upon request, deliver the Company a copy thereof.

(c) Parent shall have the right to substitute the proceeds of consummated equity or equity-linked offerings or debt offerings or other incurrences of debt (including unsecured notes) the proceeds of which are to be used to fund the Merger Amounts for all or any portion of the Bridge Financing contemplated by the Commitment Letter by reducing commitments under the Commitment Letter; provided, that to the extent any such debt has a scheduled special or mandatory redemption right, such right is not exercisable prior to the earliest of the consummation of the Merger on the Closing Date, the termination of this Agreement and the Termination Date (if the Closing Date had not occurred on such date). In the event that any portion of the Bridge Financing becomes unavailable and such portion is necessary to consummate the transactions contemplated by this Agreement, Parent will (i) use reasonable best efforts to obtain alternative debt financing in an amount sufficient, when taken together with Parent’s available cash on hand (including the proceeds of any permanent Financing) and any then-available portion of the Bridge Financing, to consummate the transactions contemplated by this Agreement and to pay the cash portion of the Merger Consideration and the other Merger Amounts from the same or other sources and (ii) promptly notify the Company of such unavailability and the reason therefor. For the purposes of this Agreement, the term “Commitment Letter” shall be deemed to include any commitment letter (or similar agreement) with respect to any substitute or alternative financing arranged in compliance herewith (and any Commitment Letter remaining in effect at the time in question). Parent shall provide the Company with prompt written notice of any actual or threatened material breach or default or termination or repudiation by any party to the Commitment Letter or any Definitive Agreement of which Parent becomes aware and the receipt of any written notice or other written communication from any Lender or other financing source with respect to any breach, default, termination or repudiation by any party to the Commitment Letter or any Definitive Agreement of any provision thereof; provided, that neither Parent nor any of its Affiliates shall be under any obligation to disclose any information that is subject to attorney client or similar privilege to the extent such privilege is asserted in good faith or otherwise would violate or contravene any Law or any obligation of confidentiality (it being agreed that Parent shall give notice to Company of the fact that it is withholding such

information pursuant to this proviso, and thereafter the Company and Parent shall reasonably cooperate to cause such information to be provided, to the extent reasonably possible, in a manner that would not reasonably be expected to violate the applicable restriction). Parent shall keep the Company reasonably informed on a reasonably current basis of the status of its efforts to consummate the Financing.

(d) Prior to the Closing, the Company shall provide and shall cause its Subsidiaries to provide, and shall use its reasonable efforts to cause their respective Representatives to provide, all customary cooperation as is reasonably requested by Parent in connection with the arrangement of the Financing (provided that such requested cooperation does not unreasonably interfere with the ongoing operations of the Company or any of its Subsidiaries), including by (i) making senior management and advisors of the Company and its Subsidiaries available to participate in a reasonable number of meetings, presentations, road shows, due diligence sessions and sessions with rating agencies, at reasonable times and with reasonable advance notice, (ii) reasonably assisting Parent with Parent's preparation of materials for rating agency presentations, bank information memoranda, offering memoranda, private placement memoranda, prospectus and similar documents used in connection with the Financing, and providing customary authorization letters in connection therewith, (iii) assisting with due diligence activities relating to the Company and its Subsidiaries, including financial and other information related thereto, at mutually agreeable times upon reasonable advance notice, (iv) furnishing Parent and the Lenders (A) IFRS audited consolidated statements of financial position, income statements and statements of comprehensive income, statements of changes in shareholders' equity, and statements of cash flows of the Company and its Subsidiaries for each of the three most recently completed fiscal years ending at least ninety (90) days prior to the Closing Date, (B) IFRS unaudited consolidated statements of financial position, income statements and statements of comprehensive income, statements of changes in shareholders' equity, and statements of cash flows for each subsequent fiscal quarter of the Company and its consolidated Subsidiaries ending after the date of the most recently ended fiscal year for which financial statements have been delivered pursuant to the foregoing clause (A) and at least sixty (60) days prior to the Closing Date (but, excluding the fourth quarter of any fiscal year), (C) as promptly as reasonably practicable, historical financial information regarding the Company and its Subsidiaries reasonably requested by Parent to permit Parent to prepare the pro forma financial statements referred to in paragraph 2(z) of Annex C of the Commitment Letter (as in effect on the date hereof); and (D) promptly, such other financial and other information regarding the Company as may be reasonably requested by Parent as is customarily required in connection with the execution of financings of a type similar to the Financing (the information described in clauses (A), (B) and (C) of this clause (iv), the "**Required Information**", which Required Information shall be delivered in Compliant form), (vi) furnishing written notice to Parent if the Company shall have knowledge that the Required Information is no longer Compliant and supplementing the Required Information to the extent that any such Required Information is no longer Compliant and (v) requesting that its independent accountants provide, and using commercially reasonable efforts to cause them to provide, customary comfort letters (including "negative assurance" comfort), customary agreed procedures letters (if required) and consents for use of their reports, on customary terms and consistent with customary practice in connection with any Financing. The foregoing notwithstanding, neither the Company nor any of its Subsidiaries shall be required to take or permit the taking of any action pursuant to this Section 5.14 that would: (A) require the Company, its Subsidiaries or any Persons who are directors, officers or employees of the Company or its Subsidiaries to pass resolutions or consents to approve or authorize the execution of the Financing or execute or deliver any certificate, document, instrument or agreement (other than customary authorization letters), (B) cause any representation or warranty in this Agreement to be breached by the Company or any of its Subsidiaries, (C) require the Company or any of its Subsidiaries to pay any commitment or other similar fee or incur any other expense (other than any expense that is simultaneously reimbursed by Parent), liability or obligation in connection with the Financing prior to the Closing or have any obligation under any agreement, certificate, document or instrument be effective until the Closing, (D) cause any director, officer, employee or stockholder of the Company or any of its Subsidiaries to incur any personal liability, (E) (x) reasonably be expected to result in a violation or breach of, or a default (with or without notice, lapse of time, or both) under, any material contract to which the Company or any of its Subsidiaries is a party or the organizational documents of the Company or its Subsidiaries or any Laws or (y) provide access to or require the disclosure of any information that the Company or any of its Subsidiaries determines would jeopardize any

attorney-client or other legal privilege of the Company or any of its Subsidiaries (in each case it being agreed that the Company shall give notice to Parent of the fact that it is withholding such information or documents pursuant to this clause (E), and thereafter the Company and Parent shall reasonably cooperate to cause such information to be provided, to the extent reasonably possible, in a manner that would not reasonably be expected to violate the applicable restriction) or (F) require the preparation of any financial statements or information that are not reasonably available to it or prepared in the ordinary course of its financial reporting practice. Nothing contained in this Section 5.14 or otherwise shall require the Company or any of its Subsidiaries, prior to the Closing, to be an issuer or other obligor with respect to the Financing. Parent shall, promptly upon request by the Company, reimburse the Company for all reasonable and documented out-of-pocket costs incurred by the Company or its Subsidiaries or their respective Representatives in connection with such cooperation and shall indemnify and hold harmless the Company and its Subsidiaries and their respective Representatives from and against any and all losses suffered or incurred by them in connection with the arrangement of the Financing, any action taken by them pursuant to this Section 5.14 and any information used in connection therewith (other than information provided in writing by the Company or its Subsidiaries in connection with its obligations pursuant to this Section 5.14), in each case, other than to the extent any of the foregoing arises from the bad faith, gross negligence or willful misconduct of Company, its Subsidiaries and/or their respective Representatives.

(e) Notwithstanding anything in this Agreement to the contrary, (i) the parties hereto acknowledge and agree that the provisions contained in this Section 5.14 represent the sole obligation of the Company, its Subsidiaries and their respective Representatives with respect to cooperation in connection with the arrangement of any financing (including the Financing) to be obtained by Parent or any of its Subsidiaries with respect to the transactions contemplated by this Agreement and no other provision of this Agreement shall be deemed to expand such obligations and (ii) unless any such breach is the primary cause for the failure of the proceeds of the Financing necessary to consummate the Merger to be made available to Parent (it being understood that if the Company breaches in any material respect its obligations to deliver (or to cause its Subsidiaries or Representatives to deliver) the Required Information and for such Required Information to be Compliant and the proceeds of the Financing necessary to consummate the Merger are not made available to Parent as a result thereof, such breach by the Company of such obligations shall be deemed the “primary cause” of such failure), the breach by the Company, any of its Subsidiaries or any of their respective Representatives of their obligations set forth in this Section 5.14 shall not be taken into account with respect to whether any condition to the Closing set forth in this Agreement shall have been satisfied. In no event shall the receipt or availability of any funds or financing (including, for the avoidance of doubt, the Financing) by Parent, Merger Sub or any of their respective Subsidiaries be a condition to any of Parent’s or Merger Sub’s obligations under this Agreement.

(f) The Company hereby consents to the use of its and the Company Subsidiaries’ logos in connection with the Financing, provided that such logos shall be used solely in a customary manner that is not intended or reasonably likely to harm or disparage the Company or any of its Subsidiaries or the reputation or goodwill of the Company or any of its Subsidiaries. Subject to the Confidentiality Agreement, the Company consents to Parent sharing the Company’s information with its potential Financing Sources and their Representatives subject to entering into customary confidentiality agreements with such potential Financing Sources and their Representatives.

(g) The Company shall, and shall cause its Subsidiaries to, deliver all notices, reasonably cooperate with Parent and take all other actions reasonably requested by Parent to facilitate the termination at the Closing of all commitments in respect of the Credit Agreements, the repayment in full on the Closing Date (or in the case of any letters of credit, cash collateralization, to the extent that Parent shall not have entered into an alternative arrangement with the applicable issuing bank) of all obligations in respect of the indebtedness under the Credit Agreements, and the release on the Closing Date of any Liens securing all such indebtedness and guarantees in connection therewith. In furtherance and not in limitation of the foregoing, the Company and its Subsidiaries shall use reasonable best efforts and shall reasonably cooperate with Parent to obtain and deliver to Parent at least three (3) Business Days prior to the Closing Date executed payoff letters with respect to each such Credit Agreement (the “**Payoff Letters**”), in form and substance customary for financings of the type (and in the

jurisdictions) to which such Payoff Letters relate, from the applicable agent on behalf of the Persons to whom such indebtedness is owed, which Payoff Letters together with any related release documentation shall, among other things and to the extent customary for financings of the type (and in the jurisdiction) to which such Payoff Letters relate, include the payoff amount and provide that Liens (and guarantees), if any, granted in connection with the applicable Credit Agreement relating to the assets, rights and properties of the Company and its Subsidiaries securing such indebtedness shall, upon the payment of the amount set forth in the applicable Payoff Letter at or prior to the Closing, be released and terminated. The obligations of the Company pursuant to this [Section 5.14\(g\)](#) shall be subject to Parent providing all funds required to effect all such repayments and cash collateralization of (or alternative arrangement with respect to) letters of credit at or prior to the Closing.

Section 5.15 [Tax Rulings](#).

(a) As soon as reasonably practicable after the date of this Agreement, the Company shall instruct its Israeli counsel, advisors and/or accountants to prepare and file with the ITA an application for a ruling (which shall be confirmed by Parent prior to its submission, such confirmation not to be unreasonably withheld, conditioned or delayed) confirming that the cancellation and exchange of the Company 102 Options in accordance with [Section 2.2](#) and conversion of the Company 102 Shares in accordance with [Section 2.1\(a\)](#) shall not be regarded as a violation of the "requisite holding period" (as such term is defined in Section 102 of the Ordinance) so long as the respective Option Consideration and the Merger Consideration are deposited with the 102 Trustee until the end of the respective holding period (which ruling may be subject to customary conditions regularly associated with such a ruling) (the "**Options Tax Ruling**"). The Company shall include in the request for the Options Tax Ruling a request to exempt Parent, the Surviving Company, the Exchange Agent and their respective agents from any withholding obligation in relation to any payments made with respect to any Company 102 Options or Company 102 Shares. The Company shall use reasonable best efforts to obtain the Options Tax Ruling prior to the Closing. If the Options Tax Ruling is not granted prior to the Closing or in accordance with the instructions of the ITA, the Company shall seek to obtain prior to the Closing an interim tax ruling confirming, among other things, that Parent and any Person acting on its behalf (including the Exchange Agent) shall be exempt from Israeli withholding tax in relation to any payments made with respect to any Company 102 Options or Company 102 Shares to the Exchange Agent, the 102 Trustee or the Company in connection with the Merger (the "**Interim Option Tax Ruling**"). To the extent that prior to the Closing an Interim Option Tax Ruling shall have been obtained, then all references herein to the Options Tax Ruling shall be deemed to refer to such Interim Option Tax Ruling, until such time that a final definitive Options Tax Ruling is obtained. The final text of the Israeli Options Tax Ruling and the Interim Option Tax Ruling, including appendices thereof, shall in all circumstances be subject to the prior review and comment (which shall not be unreasonably withheld, conditioned or delayed) by Parent and its counsel and tax advisors.

(b) As soon as reasonably practicable following the date of this Agreement, the Company shall instruct its Israeli counsel, advisors and accountants to prepare and file with the ITA an application for a ruling that (i) with respect to holders of Company Ordinary Shares, Company Options (other than Company 102 Options), Company Restricted Stock Awards that are non- Israeli residents (as defined in the Ordinance or as will be determined by the ITA), (A) exempts Parent, the Exchange Agent, the Surviving Company and their respective agents from any obligation to withhold Israeli Tax from any consideration payable or otherwise deliverable pursuant to this Agreement, including the Merger Consideration, or clarifies that no such obligation exists, or (B) instructs Parent, the Exchange Agent, the Surviving Company and their respective agents on how such withholding is to be executed, and in particular, with respect to the classes or categories of holders of the Company Ordinary Shares, Company Options (other than Company 102 Options), Company Restricted Stock Awards from which Tax is to be withheld (if any), the rate or rates of withholding to be applied and how to identify any such non-Israeli residents; and (ii) with respect to holders of Company Ordinary Shares (other than Company 102 Shares), Company Options (other than Company 102 Options), Company Restricted Stock Awards that are Israeli residents (as defined in the Ordinance or as will be determined by the ITA) (A) exempts Parent, the Exchange Agent, the Surviving Company and their respective agents from any obligation to withhold Israeli Tax from any consideration payable or otherwise deliverable pursuant to this Agreement, including the Merger

Consideration, or clarifies that no such obligation exists, or (B) instructs Parent, the Exchange Agent, the Surviving Company and their respective agents on how such withholding is to be executed, and in particular, with respect to the classes or categories of holders of the Company Ordinary Shares, Company Options (other than Company 102 Options), Company Restricted Stock Awards from which Tax is to be withheld (if any), the rate or rates of withholding to be applied (the “**Withholding Tax Ruling**”).

(c) Without limiting the generality of Section 5.15(a) and Section 5.15(b), each of the Company and Parent shall cause their respective Israeli counsel, advisors and accountants to coordinate all material activities, and to cooperate with each other, with respect to the preparation and filing of such application and in the preparation of any written or oral submissions that may be necessary, proper or advisable to obtain the Options Tax Ruling (including the Interim Option Tax Ruling) and the Withholding Tax Ruling. The final text of the Interim Option Tax Ruling, the Options Tax Ruling and the Withholding Tax Ruling shall be subject to the prior written confirmation of Parent or its counsel, which consent shall not be unreasonably withheld, conditioned or delayed. Subject to the terms and conditions hereof, the Company shall use reasonable best efforts to promptly take, or cause to be taken, all actions and to do, or cause to be done, all things necessary, proper or advisable under applicable Laws to obtain the Interim Option Tax Ruling, the Options Tax Ruling and the Withholding Tax Ruling, as promptly as practicable. In the event that the Interim Option Tax Ruling, the Options Tax Ruling or the Withholding Tax Ruling has not been received in accordance with the terms of this Section 5.15, Parent may make such payments and withhold any applicable Taxes in accordance with Article II.

Section 5.16 Stock Exchange Delisting. Prior to the Effective Time, the Company shall cooperate with Parent and use its reasonable best efforts, in accordance with applicable rules and policies of the TASE and the LSE, to facilitate the commencement of the delisting of the Company and of the Company Ordinary Shares from the TASE and the LSE, in each case as promptly as practicable after the Effective Time.

Section 5.17 Takeover Laws. If any takeover statute becomes or is deemed to become applicable to the Company or the Merger or the other transactions contemplated by this Agreement, the Company, Parent and Merger Sub shall use their respective reasonable best efforts to take any and all actions within their respective control as are permitted under applicable Law and necessary to eliminate or, if it is not possible to eliminate, then to minimize the effects of such statutes on the foregoing.

Section 5.18 Transaction Litigation. Each of the Company and Parent shall give the other notice, as soon as reasonably practicable under the circumstances, of any shareholder Proceeding brought by any shareholder of the Company or Parent, as applicable, against the Company or Parent, as applicable, or their respective directors or executive officers in connection with the Merger or the other transactions contemplated by this Agreement. Subject to entry by the Company and Parent into a customary joint defense agreement with one another, the Company and Parent shall have the right to participate in the defense of any such Proceeding. The Company shall not settle or offer to settle any such Proceeding without the prior written consent of Parent, such consent not to be unreasonably withheld, conditioned or delayed. Parent shall not settle or offer to settle any such Proceeding without the prior written consent of the Company, if such settlement would reasonably be expected to prevent or materially delay the consummation of any of the Merger and the other transactions contemplated by this Agreement.

Section 5.19 Resignations. Prior to the Effective Time, upon Parent’s written request, the Company shall use reasonable best efforts to cause any director of the Company to execute and deliver to the Company a letter effectuating his or her resignation as a director of the Company effective as of the Effective Time.

Section 5.20 Notification of Certain Matters. Subject to applicable Law, each of the Company and Parent shall give prompt notice to the other of (a) the occurrence or non-occurrence of any event that has resulted or would reasonably be expected to result in any condition set forth in Section 6.2 (in the case of the Company) and Section 6.3 (in the case of Parent) not being satisfied, and (b) any notice or other communication received from any Governmental Authority in connection with this Agreement, the Merger or the other transactions

contemplated by this Agreement, or from any Person alleging that the consent of such Person is or may be required in connection with the Merger or the other transactions contemplated by this Agreement, if the subject matter of such notice or other communication or the failure of such party to obtain such consent would reasonably be expected to be material to the Company, the Surviving Corporation or Parent. Notwithstanding anything in this Agreement to the contrary, (i) no such notification shall, in and of itself, affect the representations, warranties, covenants or agreements of the parties or the conditions to the obligations of the parties hereunder and (ii) failure to provide such notification under this Section 5.20 shall not, in and of itself, be deemed to implicate any of the conditions to the Closing under this Agreement.

Section 5.21 Closing Dividend. Prior to the Effective Time, the Company shall declare a dividend to its shareholders, the record date for which shall be the close of business on the last business day prior to the day on which the Effective Time occurs and the payment date for which shall be three (3) Business Days after the Effective Time; provided that the payment of such dividend may be conditioned upon the occurrence of the Effective Time. The per share dividend amount payable by the Company pursuant to this Section 5.21 shall be an amount equal to the product of (a) the aggregate amount of cash dividends declared per share of Parent Common Stock with a record date occurring on or after the date of this Agreement and prior to the Effective Time, *multiplied* by (b) the Exchange Ratio.

ARTICLE VII

TERMINATION, AMENDMENT AND WAIVER

Section 7.1 Termination. Notwithstanding anything contained in this Agreement to the contrary, this Agreement may be terminated at any time prior to the Effective Time, whether before or after the Company Shareholder Approval is obtained (except as otherwise expressly noted), as follows:

(a) by mutual written consent of each of Parent and the Company;

(b) by either Parent or the Company, if:

(i) the Merger shall not have been consummated on or before 5:00 p.m. (New York time) on February 7, 2019 (the “**Termination Date**”); provided, however, that if on the Termination Date at least one of the conditions set forth in [Section 6.1\(d\)](#) or [Section 6.1\(f\)](#) (as a result of any Antitrust Law or Order arising under any Antitrust Law) shall not have been satisfied, then, at the written election of Parent or the Company, the Termination Date may be extended to 5:00 p.m. (New York time) on May 7, 2019 (and in the case of such extension, any reference to the Termination Date in any other provision of this Agreement shall be a reference to the Termination Date, as extended); provided, further, that the right to terminate this Agreement pursuant to this [Section 7.1\(b\)\(i\)](#) shall not be available to any party if a breach by such party of any of its obligations under this Agreement has proximately caused the failure of the Closing to have occurred on or before the Termination Date;

(ii) any Governmental Authority of competent jurisdiction shall have issued or entered any Order after the date of this Agreement or any Law shall have been enacted or promulgated by a Governmental Authority of competent jurisdiction after the date of this Agreement that, in each case, has the effect of permanently enjoining or otherwise permanently prohibiting the consummation of the Merger, and in the case of such an Order, such Order shall have become final and nonappealable; provided that the right to terminate this Agreement pursuant to this [Section 7.1\(b\)\(ii\)](#) shall not be available to a party if a breach by such party of its obligations under this Agreement has proximately caused the issuance of such Order or the enactment or promulgation of such Law; or

(iii) the Company Shareholder Approval shall not have been obtained upon a vote taken thereon at the Company Shareholders’ Meeting duly convened therefor or at any adjournment or postponement thereof;

(c) by the Company:

(i) if Parent or Merger Sub shall have breached or failed to perform any of their respective representations, warranties, covenants or other agreements set forth in this Agreement, which breach or failure to perform (A) would result in the failure of a condition set forth in [Section 6.3\(a\)](#) or [Section 6.3\(b\)](#) and (B) is not capable of being cured by Parent or Merger Sub, as applicable, by the Termination Date or, if capable of being cured, shall not have been cured by Parent or Merger Sub on or before the earlier of (1) the Termination Date and (2) the date that is thirty (30) calendar days following the Company’s delivery of written notice to Parent of such breach or failure to perform; provided that the Company shall not have the right to terminate this Agreement pursuant to this [Section 7.1\(c\)\(i\)](#) if the Company is then in breach of any of its obligations under this Agreement so as to result in the failure of the condition set forth in [Section 6.2\(b\)](#); or

(ii) at any time prior to receipt of the Company Shareholder Approval, in order for the Company to enter into a definitive agreement with respect to a Company Superior Proposal as contemplated by

Table of Contents

Section 5.8(d); provided that prior to or concurrently with such termination, and as a condition to the effectiveness of such termination, the Company pays or causes to be paid to Parent the Company Termination Fee; or

(d) by Parent:

(i) if the Company shall have breached or failed to perform any of its representations, warranties, covenants or other agreements set forth in this Agreement, which breach or failure to perform (A) would result in the failure of a condition set forth in Section 6.2(a) or Section 6.2(b) and (B) is not capable of being cured by the Company by the Termination Date or, if capable of being cured, shall not have been cured by the Company on or before the earlier of (1) the Termination Date and (2) the date that is thirty (30) calendar days following Parent's delivery of written notice to the Company of such breach or failure to perform; provided that Parent shall not have the right to terminate this Agreement pursuant to this Section 7.1(d)(i) if Parent or Merger Sub is then in breach of any of its obligations under this Agreement so as to result in the failure of the condition set forth in Section 6.3(b);

(ii) at any time prior to the receipt of the Company Shareholder Approval, if the Company shall have materially breached Section 5.8;
or

(iii) at any time prior to the receipt of the Company Shareholder Approval, if (A) the Company Board shall have made a Company Adverse Recommendation Change or (B) at any time after a Company Acquisition Proposal is publicly announced or becomes generally known to the public, the Company shall have failed to publicly reaffirm the Company Board Recommendation within ten (10) Business Days after receipt of a written request from Parent to do so; provided that Parent shall not make such request more than one (1) time for any such Company Acquisition Proposal (it being understood and agreed that in the event of any amendment to the financial terms or other material terms of any such Company Superior Proposal that is publicly announced or becomes generally known to the public, Parent shall be entitled to make one (1) additional such request).

Section 7.2 Effect of Termination. In the event that this Agreement is terminated pursuant to Section 7.1, written notice thereof shall forthwith be given by the terminating party to the other party, specifying the provisions hereof pursuant to which such termination is made, and this Agreement shall forthwith become null and void, and there shall be no liability on the part of any party hereto; provided that no such termination shall relieve any party hereto of any liability or damages resulting from any intentional breach of its obligations under this Agreement prior to such termination or fraud, in which case the aggrieved party shall be entitled to all rights and remedies available at law or in equity, including liability for damages determined taking into account all relevant factors, including the loss of benefit of the Merger to the party or its shareholders, any lost shareholder premium, any lost synergies and the time value of money; and provided, further, that the Confidentiality Agreement, the last sentence of Section 5.14(d), this Section 7.2, Section 7.3, Section 7.4, Section 7.5 and Article VIII shall survive any termination of this Agreement. For purposes of this Agreement, "intentional breach" shall mean an action or omission taken or omitted to be taken that the breaching party intentionally takes (or fails to take) and knows would, or knows would reasonably be expected to, cause a material breach of this Agreement.

Section 7.3 Termination Fee and Expenses.

(a) In the event that:

(i) this Agreement is terminated by:

(A) (1) the Company pursuant to Section 7.1(b)(i) prior to receipt of the Company Shareholder Approval and (2) after the execution of this Agreement a Company Acquisition Proposal shall have been publicly disclosed or otherwise communicated to the Company Board and not withdrawn on a bona fide basis without qualification at least five (5) Business Days prior such termination;

Table of Contents

(B) (1) either Parent or the Company pursuant to Section 7.1(b)(iii) and (2) after the execution of this Agreement a Company Acquisition Proposal shall have been publicly disclosed and not withdrawn on a bona fide basis without qualification at least five (5) Business Days prior to the Company Shareholders' Meeting;

(C) (1) Parent pursuant to Section 7.1(d)(i) with respect to an intentional breach of a covenant and (2) after the execution of this Agreement and prior to the date of the intentional breach that gave rise to such right of termination a Company Acquisition Proposal shall have been publicly disclosed or otherwise communicated to the Company Board and not withdrawn on a bona fide basis without qualification at least five (5) Business Days prior to such termination; or

(D) (1) Parent pursuant to Section 7.1(d)(ii) prior to receipt of the Company Shareholder Approval and (2) after the execution of this Agreement a Company Acquisition Proposal shall have been publicly disclosed or otherwise communicated to the Company Board; and in the case of each of (A), (B), (C) and (D), within twelve (12) months after such termination, any Company Acquisition Proposal is consummated or the Company enters into a definitive agreement with respect to any Company Acquisition Proposal (provided that for purposes of this Section 7.3(a)(i), the references to "twenty percent (20%" in the definition of Company Acquisition Proposal shall be deemed to be references to "fifty percent (50%)");

(ii) this Agreement is terminated by the Company pursuant to Section 7.1(c)(ii); or

(iii) this Agreement is terminated by Parent pursuant to Section 7.1(d)(iii);

then, in any such case, the Company shall pay, or cause to be paid, to Parent the Company Termination Fee.

(b) Any payment required to be made under this Section 7.3(a) shall be made by wire transfer of same-day funds to the account or accounts designated by Parent, (i) in the case of Section 7.3(a)(i), immediately prior to or substantially concurrently with the entry into a definitive agreement with respect to (or, if earlier, the consummation of) any Company Acquisition Proposal, (ii) in the case of Section 7.3(a)(ii), immediately prior to or concurrently with such termination and (C) in the case of Section 7.3(a)(iii), within two (2) Business Days after the date of such termination. Notwithstanding anything to the contrary set forth in this Agreement, the parties agree that in no event shall the Company be required to pay the Company Termination Fee on more than one (1) occasion.

(c) Notwithstanding anything to the contrary set forth in this Agreement, except in the case of fraud, if Parent receives payment from the Company of the Company Termination Fee pursuant to Section 7.3(a), such payment (together with amounts owed, if any pursuant to Section 7.3(d)) shall constitute the sole and exclusive remedy of Parent and Merger Sub against the Company and its Subsidiaries and any of their respective former, current or future general or limited partners, shareholders, members, managers, directors, officers, employees, agents, Representatives or assignees (together with the Company, collectively, the "**Company Related Parties**") for all losses and damages suffered as a result of the failure of the transactions contemplated by this Agreement to be consummated or for a breach or failure to perform hereunder or otherwise, and none of the Company Related Parties shall have any further liability or obligation relating to or arising out of this Agreement or the transactions contemplated by this Agreement.

(d) Each of the parties hereto acknowledges that (i) the agreements contained in this Section 7.3 are an integral part of the transactions contemplated by this Agreement, (ii) without these agreements, the parties would not enter into this Agreement and (iii) the Company Termination Fee does not constitute a penalty, but rather is liquidated damages in a reasonable amount that will compensate Parent for the efforts and resources expended and opportunities foregone while negotiating this Agreement and in reliance on this Agreement and on the expectation of the consummation of the transactions contemplated hereby, which amount would otherwise be impossible to calculate with precision. Accordingly, if the Company fails to timely pay the Company Termination Fee pursuant to this Section 7.3 and, in order to obtain such payment, Parent commences a suit that

results in a judgment against the Company for the payment of the Company Termination Fee set forth in this Section 7.3, the Company shall pay Parent its costs and expenses in connection with such suit (including reasonable attorneys' fees), together with interest on such amount at an annual rate equal to the prime rate as published in *The Wall Street Journal* in effect on the date such payment was required to be made through the date such payment was actually received, or such lesser rate as is the maximum permitted by applicable Law.

Section 7.4 Amendment. This Agreement may be amended by mutual agreement of the parties hereto in writing at any time before or after receipt of the Company Shareholder Approval; provided that after the Company Shareholder Approval has been obtained, there shall not be any amendment that by applicable Law or in accordance with the rules of any stock exchange requires further approval by the shareholders of the Company, without such further approval; provided, further, that no amendment of this Section 7.4, clause (c) of Section 8.8, the last sentence of Section 8.9, Section 8.11(c), Section 8.12 and Section 8.15 (or any provision of this Agreement to the extent an amendment or modification of such provision would modify the substance of any of the foregoing provisions) that is materially adverse to any Financing Source shall be effective without the written consent of the Lenders; provided, further, that at or after the Effective Time this Agreement may not be amended.

Section 7.5 Extension; Waiver. At any time prior to the Effective Time, subject to applicable Law, any party hereto may (a) extend the time for the performance of any obligation or other act of any other party hereto, (b) waive any inaccuracy in the representations and warranties of the other party contained herein or in any document delivered pursuant hereto and (c) waive compliance with any agreement or condition contained herein. Any such extension or waiver shall only be valid if set forth in an instrument in writing signed by the party or parties to be bound thereby. No failure or delay by the Company, Parent or Merger Sub in exercising any right hereunder shall operate as a waiver thereof, nor shall any single or partial exercise thereof preclude any other or further exercise of any other right hereunder.

(a) The parties have participated collectively in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted collectively by the parties, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Agreement.

(b) The words “hereof,” “herein,” “hereby,” “hereunder” and “herewith” and words of similar import shall refer to this Agreement as a whole and not to any particular provision of this Agreement. References to articles, sections, paragraphs, exhibits, annexes and schedules are to the articles, sections and paragraphs of, and exhibits, annexes and schedules to, this Agreement, unless otherwise specified, and the table of contents and headings in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement. Whenever the words “include,” “includes” or “including” are used in this Agreement, they shall be deemed to be followed by the phrase “without limitation.” Words describing the singular number shall be deemed to include the plural and vice versa, words denoting any gender shall be deemed to include all genders, words denoting natural persons shall be deemed to include business entities and vice versa and references to a Person are also to its permitted successors and assigns. The term “or” is not exclusive. The word “extent” in the phrase “to the extent” shall mean the degree to which a subject or other thing extends, and such phrase shall not mean simply “if.” The phrases “the date of this Agreement” and “the date hereof” and terms or phrases of similar import shall be deemed to refer to May 7, 2018, unless the context requires otherwise. Any Law or agreement defined or referred to herein or in any agreement or instrument that is referred to herein shall mean such Law or agreement as from time to time amended, modified or supplemented, including (in the case of statutes) by succession of comparable successor Laws (provided that for purposes of any representations and warranties contained in this Agreement that are made as of a specific date or dates, references to any statute or agreement shall be deemed to refer to such statute or agreement, as amended, and to any rules or regulations promulgated thereunder, in each case, as of such date).

(c) All references to “dollars” or “\$” in this Agreement refer to United States dollars, which is the currency used for all purposes in this Agreement except as expressly provided otherwise herein. All references to “NIS” in this Agreement refer to New Israeli Shekels.

Section 8.5 Severability. If any term, provision, covenant or restriction of this Agreement is held by a court of competent jurisdiction or other authority to be invalid, void or unenforceable, the remainder of the terms, provisions, covenants and restrictions of this Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the Merger be consummated as originally contemplated to the fullest extent possible.

Section 8.6 Assignment. Neither this Agreement nor any of the rights, interests or obligations hereunder shall be assigned by any of the parties hereto (whether by operation of Law or otherwise) without the prior written consent of the other parties hereto. Subject to the preceding sentence, this Agreement will be binding upon, inure to the benefit of and be enforceable by the parties and their respective permitted successors and assigns. Any attempted assignment in violation of this Section 8.6 shall be null and void.

Section 8.7 Entire Agreement. This Agreement (including the exhibits, annexes and appendices hereto), together with the Confidentiality Agreement, the Company Disclosure Letter and the Parent Disclosure Letter, constitutes the entire agreement, and supersedes all other prior agreements and understandings, both written and oral, among the parties, or any of them, with respect to the subject matter hereof.

Section 8.8 No Third-Party Beneficiaries. This Agreement is not intended to and shall not confer upon any Person other than the parties hereto any rights or remedies hereunder; provided that it is specifically intended that (a) the D&O Indemnified Parties (solely with respect to Section 5.9 and this Section 8.8 from and after the Effective Time), (b) from and after the Effective Time, the holders of Company Ordinary Shares and Company Equity Awards (solely with respect to Article II and the payment of any dividend declared in accordance with Section 5.21) and (c) the Financing Sources (solely with respect to the proviso to Section 7.4, this clause (c) of this Section 8.8, the last sentence of Section 8.9, Section 8.11(c), Section 8.12 and Section 8.15), are each intended third-party beneficiaries hereof.

Section 8.9 Governing Law. This Agreement and all Proceedings (whether based on contract, tort or otherwise) arising out of or relating to this Agreement or the actions of Parent, Merger Sub or the Company in the negotiation, administration, performance and enforcement hereof, shall be governed by, and construed in accordance with, the Laws of the State of Delaware applicable to agreements made and to be performed entirely within such state without regard to the conflicts of law provisions thereof, except that (i) the internal affairs of the corporations party hereto that are organized and existing under the ICL and (ii) all other provisions of, or transactions contemplated by, this Agreement that are expressly or otherwise required to be governed by the ICL shall be governed by the ICL. Notwithstanding the foregoing, except to the extent relating to the interpretation of any provisions in this Agreement (including those provisions of, and references to, this Agreement that are referred to, or incorporated by reference in, the Commitment Letter), the parties hereto agree that any Proceeding of any kind or nature, whether at law or equity, in contract or in tort, to which the Financing Sources are a party in connection with this Agreement or any of the transactions contemplated hereby or that may be based upon, arise out of or relate to the Commitment Letter or the Financing (including the transactions contemplated thereby) shall be governed by and construed in accordance with the Law of the State of New York, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of New York or any other jurisdiction) that would cause application of the Law of any jurisdiction other than the State of New York, except to the extent otherwise provided in the Commitment Letter or any Definitive Agreement.

Section 8.10 Specific Performance. The parties agree that irreparable damage for which monetary damages, even if available, would not be an adequate remedy, would occur in the event that any party hereto does not perform the provisions of this Agreement (including failing to take such actions as are required of it hereunder to consummate the Merger and the other transactions contemplated by this Agreement) in accordance with its specified terms or otherwise breach such provisions. Accordingly, the parties acknowledge and agree that, the parties shall be entitled to an injunction, specific performance and other equitable relief to prevent breaches of this Agreement and to enforce specifically the terms and provisions hereof, in addition to any other remedy to which they are entitled at law or in equity. Each of the parties agrees that it will not oppose the granting of an injunction, specific performance and other equitable relief on the basis that any other party has an adequate remedy at law or that any award of specific performance is not an appropriate remedy for any reason at law or in equity. Any party seeking an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement shall not be required to provide any bond or other security in connection with any such order or injunction.

Section 8.11 Consent to Jurisdiction.

(a) Each of the parties hereto hereby, with respect to any legal claim or Proceeding arising out of this Agreement or the transactions contemplated by this Agreement, (i) agrees that any such legal claim or Proceeding shall be brought, tried and determined only in the Chancery Court of the State of Delaware and any state appellate court therefrom within the State of Delaware, or in the event (but only in the event) that such court declines to accept jurisdiction over a particular matter, in any state or federal court located within the State of Delaware, (ii) expressly and irrevocably submits, for itself and with respect to its property, generally and unconditionally, to the exclusive jurisdiction of the Chancery Court of the State of Delaware and any state appellate court therefrom within the State of Delaware, or in the event (but only in the event) that such court declines to accept jurisdiction over a particular matter, in any state or federal court located within the State of Delaware, (iii) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from any such courts, (iv) agrees that it will not bring any claim or Proceeding relating to this Agreement or the transactions contemplated by this Agreement except in such courts and (v) irrevocably waives, to the fullest extent it may legally and effectively do so, and agrees not to assert, by way of motion or as a defense, counterclaim or otherwise, any objection which it may now or hereafter have to the laying of venue of any claim or Proceeding arising out of or relating to this Agreement. Notwithstanding the foregoing, each of Parent, Merger Sub and the Company agrees that a final and nonappealable judgment in any Proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by Law.

Table of Contents

(b) Each party irrevocably consents to the service of process in any claim or Proceeding with respect to this Agreement and the transactions contemplated by this Agreement or for recognition and enforcement of any judgment in respect hereof brought by any other party hereto made by mailing copies thereof by registered or certified United States mail, postage prepaid, return receipt requested, to its address as specified in or pursuant to Section 8.3 and such service of process shall be sufficient to confer personal jurisdiction over such party in such claim or Proceeding and shall otherwise constitute effective and binding service in every respect.

(c) Notwithstanding anything to the contrary in this Agreement (including this Section 8.11), each party agrees that it will not bring or support, or permit any of their controlled Affiliates to bring or support, any action, cause of action, claim, cross-claim or third party claim of any kind or description, whether in law or in equity, whether in contract or in tort or otherwise, against the Financing Sources in any way relating to this Agreement or the Financing, in any forum other than the Supreme Court of the State of New York, County of New York, or, if under applicable law exclusive jurisdiction is vested in the Federal courts, the United States District Court for the Southern District of New York (and of the appropriate appellate courts therefrom).

Section 8.12 Waiver of Jury Trial. EACH OF THE PARTIES HERETO HEREBY IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY PROCEEDING RELATING TO THE FINANCING OR INVOLVING A FINANCING SOURCE.

Section 8.13 Counterparts. This Agreement may be executed in multiple counterparts, all of which shall together be considered one and the same agreement. The execution and delivery by such Shareholder of this Agreement, the performance by it of its obligations hereunder and the consummation by it of the transactions contemplated hereby have been duly and validly authorized by all necessary action on the part of such Shareholder and no other actions or proceedings on the part of such Shareholder are necessary to authorize the execution and delivery by it of this Agreement, the performance by it of its obligations hereunder or the consummation by it of the transactions contemplated hereby. This Agreement has been duly and validly executed and delivered by such Shareholder and, assuming this Agreement constitutes a valid and binding obligation of the other parties hereto, constitutes a legal, valid and binding obligation of such Shareholder, enforceable against it in accordance with its terms (except to the extent that enforceability may be limited by applicable bankruptcy, insolvency, moratorium, reorganization or similar Laws affecting the enforcement of creditors' rights generally or by general principles of equity).

This Agreement has been duly and validly executed and delivered by Parent and, assuming this Agreement constitutes a valid and binding obligation of the other parties hereto, constitutes a legal, valid and binding obligation of Parent, enforceable against it in accordance with its terms (except to the extent that enforceability may be limited by applicable bankruptcy, insolvency, moratorium, reorganization or similar Laws affecting the enforcement of creditors' rights generally or by general principles of equity).

(iv) violate any Law applicable to Parent or by which any of Parent's assets or properties is bound.

ARTICLE V

OTHER COVENANTS

Section 5.1 Prohibition on Transfers; Other Actions. During the term of this Agreement, each Shareholder hereby agrees, as to itself only, not to, without the prior written consent of Parent, (a) Transfer any of the Covered Shares, Beneficial Ownership thereof or any other interest therein (including by tendering into a tender or exchange offer), unless such Transfer is a Permitted Transfer, (b) grant any proxy, consent or power of attorney with respect to any of the Covered Shares or deposit any of the Covered Shares into a voting trust or enter into a voting agreement or arrangement with respect to any such Covered Shares, (c) take any other action that would reasonably be expected to restrict or otherwise affect in any material respect the performance of such Shareholder's obligations hereunder or (d) agree (whether or not in writing) to take any of the actions prohibited by the foregoing clause (a), (b) or (c). Any Transfer in violation of this provision shall be void *ab initio*.

Section 5.2 Share Dividends, etc. In the event of a share split, share dividend or distribution, or any change in the Company Shares by reason of any split-up, reverse share split, recapitalization, combination, reclassification, reincorporation, exchange of shares or the like, the terms "Existing Shares" and "Covered Shares" shall be deemed to refer to and include such shares as well as all such share dividends and distributions and any securities into which or for which any or all of such shares may be changed or exchanged or which are received in such transaction.

Section 5.3 Disclosure. Subject to reasonable prior notice to each Shareholder, such Shareholder hereby authorizes the Company and Parent to publish and disclose in any announcement or disclosure required by the SEC, the ISA, the TASE or the LSE and in the Form S-4 or the Proxy Statement such Shareholder's identity and ownership of such Shareholder's Covered Shares and the nature of such Shareholder's obligations under this Agreement and a copy of this Agreement. Parent hereby authorizes each Shareholder and the Company to publish and disclose in any announcement or disclosure to the extent required by the SEC, the TASE, the LSE or the ISA Parent's identity and the nature of such Shareholder's obligations under this Agreement.

Section 5.4 Further Assurances. Each Shareholder agrees, from time to time, at the reasonable request of Parent and without further consideration, to execute and deliver such additional documents and take all such further action as may be reasonable required to consummate and make effective, in the most expeditious manner practicable, the transactions contemplated by this Agreement.

Section 5.5 Acquisition of Covered Shares. Each Shareholder agrees that any new Covered Shares acquired by such Shareholder after the date of this Agreement and prior to the Expiration Date (including through the exercise of any Company stock options or otherwise) shall automatically be subject to the terms of this Agreement as though owned by such Shareholder on the date hereof.

ARTICLE VI

MISCELLANEOUS

Section 6.1 Termination. This Agreement shall remain in effect until the earliest to occur of (i) the Expiration Date, (ii) the Effective Time, (iii) a Company Adverse Recommendation Change or (iv) the mutual written agreement of Parent and the Shareholder to terminate this Agreement, and upon the occurrence of the earliest of any such event this Agreement shall terminate and become null and void and be of no further effect; provided, however, that the provisions of this Article VI shall survive any termination of this Agreement. If, at any time after the date hereof, the Merger Agreement is amended, without the prior written consent of each Shareholder, in a manner that affects the economics or material terms of the Merger Agreement in a manner that is adverse to the Company or its shareholders (including with respect to the reduction of or the imposition of any restriction on the Shareholders' right to receive the Merger Consideration, or any change in the form of Merger Consideration), then the obligations of the Shareholders hereunder shall be null and void. Nothing in this Article VI shall relieve or otherwise limit the liability of any party for any "intentional breach" (as defined in the Merger Agreement) of this Agreement prior to such termination. For the avoidance of doubt, in the event this Agreement is terminated prior to the Effective Time, any consent or other document executed pursuant hereto shall be deemed null and void and shall have no further effect.

Section 6.2 No Ownership Interest. Nothing contained in this Agreement shall be deemed to vest in Parent or Merger Sub any direct or indirect ownership or incidence of ownership of or with respect to any Covered Shares. All rights, ownership and economic benefits of and relating to the Covered Shares shall remain vested in and belong to each respective Shareholder, and neither Parent nor Merger Sub shall have any authority to direct such Shareholder in the voting or disposition of any of the Covered Shares, except as otherwise expressly provided herein.

References to articles, sections, paragraphs, exhibits, annexes and schedules are to the articles, sections and paragraphs of, and exhibits, annexes and schedules to, this Agreement, unless otherwise specified, and the headings in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement. or more counterparts have been signed by each of the parties and delivered to each of the other parties. This Agreement may be executed by facsimile or .pdf signature and a facsimile or .pdf signature shall constitute an original for all purposes.

Section 6.6 Entire Agreement. This Agreement and, to the extent referenced herein, the Merger Agreement, together with the several agreements and other documents and instruments referred to herein or therein or annexed hereto or thereto, constitute the entire agreement, and supersede all prior written agreements, arrangements, communications and understandings and all prior and contemporaneous oral agreements, arrangements, communications and understandings among the parties with respect to the subject matter hereof and thereof.

Section 6.7 Governing Law; Submission to Jurisdiction; Waiver of Jury Trial.

(a) This Agreement and all Proceedings (whether based on contract, tort or otherwise) arising out of or relating to this Agreement or the actions of Parent or the Shareholders in the negotiation, administration, performance and enforcement hereof, shall be governed by, and construed in accordance with, the Laws of the State of Delaware applicable to agreements made and to be performed entirely within such state without regard to the conflicts of law provisions thereof.

(b) Each of the parties hereto hereby, with respect to any legal claim or Proceeding arising out of this Agreement or the transactions contemplated by this Agreement, (i) agrees that any such legal claim or Proceeding shall be brought, tried and determined only in the Chancery Court of the State of Delaware and any state appellate court therefrom within the State of Delaware, or in the event (but only in the event) that such court declines to accept jurisdiction over a particular matter, in any state or federal court located within the State of Delaware, (ii) expressly and irrevocably submits, for itself and with respect to its property, generally and unconditionally, to the exclusive jurisdiction of the Chancery Court of the State of Delaware and any state appellate court therefrom within the State of Delaware, or in the event (but only in the event) that such court declines to accept jurisdiction over a particular matter, in any state or federal court located within the State of Delaware, (iii) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from any such courts, (iv) agrees that it will not bring any claim or Proceeding relating to this Agreement or the transactions contemplated by this Agreement except in such courts and (v) irrevocably waives, to the fullest extent it may legally and effectively do so, and agrees not to assert, by way of motion or as a defense, counterclaim or otherwise, any objection which it may now or hereafter have to the laying of venue of any claim or Proceeding arising out of or relating to this Agreement. Notwithstanding the foregoing, each of the parties agrees that a final and nonappealable judgment in any Proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by Law.

(c) Each party irrevocably consents to the service of process in any claim or Proceeding with respect to this Agreement and the transactions contemplated by this Agreement or for recognition and enforcement of any judgment in respect hereof brought by any other party hereto made by mailing copies thereof by registered or certified mail, postage prepaid, return receipt requested, to its address as specified in or pursuant to Section 6.3 and such service of process shall be sufficient to confer personal jurisdiction over such party in such claim or Proceeding and shall otherwise constitute effective and binding service in every respect.

(d) EACH PARTY IRREVOCABLY WAIVES ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY PROCEEDING BETWEEN THE PARTIES HERETO ARISING OUT OF OR RELATING TO THIS AGREEMENT.

Section 6.8 Specific Performance. The Shareholders hereby acknowledge and agree that Parent will suffer irreparable damage in the event that any of the obligations of the Shareholders in this Agreement are not performed in accordance with its specific terms or if the Agreement is otherwise breached by the Shareholders and that money damages, even if available, would not be an adequate remedy therefor. Accordingly, each Shareholder agrees, as to itself only, that Parent shall be entitled to specific performance, an injunction,

restraining order and/or such other equitable relief, in addition to any other rights and remedies existing in its favor at law or in equity, as a court of competent jurisdiction may deem necessary or appropriate to enforce its rights and such Shareholder's obligations hereunder (without posting of bond or other security). These injunctive remedies are cumulative and in addition to any other rights and remedies Parent may have at law or in equity. In the event Parent seeks an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement, Parent shall not be required to provide any bond or other security in connection with any such order or injunction.

Section 6.10 Severability. If any term, provision, covenant or restriction of this Agreement is held by a court of competent jurisdiction or other authority to be invalid, void or unenforceable, the remainder of the terms, provisions, covenants and restrictions of this Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner.

Section 6.11 Assignment; Successors; No Third Party Beneficiaries. Neither this Agreement nor any of the rights, interests or obligations hereunder shall be assigned by any of the parties hereto (whether by operation of Law or otherwise) without the prior written consent of the other party hereto. Subject to the preceding sentence, this Agreement will be binding upon, inure to the benefit of and be enforceable by the parties and their respective permitted successors and assigns. Any attempted assignment in violation of this Section 6.11 shall be null and void. Nothing in this Agreement, express or implied, is intended to or shall confer upon any Person other than the parties and their respective successors and permitted assigns any legal or equitable right, benefit or remedy of any nature under or by reason of this Agreement.

Section 6.12 Shareholder Capacity. The restrictions and covenants of the Shareholders hereunder shall not be binding, and shall have no effect, in any way with respect to any director or officer of the Company or any of its Subsidiaries in such Person's capacity as such a director or officer, nor shall any action taken by any such director or officer in his or her capacity as such be deemed a breach by any Shareholder of this Agreement.
